Based on the Minutes of Meetings on the Detailed Planning Survey on the Project on Gender Mainstreaming for Women's Economic Empowerment (PGM-WEE) (hereinafter referred to as "the Project") signed on 26th February 2016 between Ministry of Women's Affairs (hereinafter referred to as "MOWA") and the Japan International Cooperation Agency (hereinafter referred to as "JICA"), JICA held a series of discussions with MOWA and relevant organizations to develop a detailed plan of the Project.

Both parties agreed the details of the Project and the main points discussed as described in the Appendix 1 and the Appendix 2 respectively.

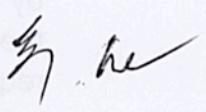

Both parties also agreed that MOWA, the counterpart to JICA, will be responsible for the implementation of the Project in cooperation with JICA, coordinate with other relevant organizations and ensure that the self-reliant operation of the Project is sustained during and after the implementation period in order to contribute toward social and economic development of the Royal Government of Cambodia (hereinafter referred as to "RGC").

The Project will be implemented within the framework of the Agreement on Technical Cooperation signed on June 17, 2003 (hereinafter referred to as "the Agreement") and the Note Verbales exchanged on July 3, 2015 between RGC and the Government of Japan (hereinafter referred to as "GOJ").

Appendix 1: Project Description

1. Objectives of the Project
The Project aims to enhance the capacity of women to participate in the labor market and to increase their income through the promotion of gender equality and women's empowerment. The Project will focus on three main areas: (i) improving access to education and training for women; (ii) promoting women's participation in the labor market; and (iii) addressing gender-based violence and discrimination against women.

2. Expected Outcomes
The Project is expected to achieve the following outcomes:
- Increased enrollment rates of women in primary and secondary schools.
- Improved access to vocational training and apprenticeship programs for women.
- Increased employment rates of women in both formal and informal sectors.
- Reduced incidence of gender-based violence and discrimination against women.

PROJECT DESCRIPTION

I. BACKGROUND

The Royal Government of Cambodia (RGC) implemented various kinds of programs and projects for promoting gender equality and women's empowerment based upon the national policies, such as Rectangular Strategy, National Strategic Development Plan and Neary Rattanak (the Five Year Strategic Plan of the Ministry of Women's Affairs, MOWA). Based on a long-term collaboration between MOWA and the Japan International Cooperation Agency (JICA) since early 1990s, the Projects on Gender Mainstreaming (PGM) Phase 1 and 2 were implemented. The PGM 2 was launched in 2010 for the duration of five years with the overall goal that women's economic empowerment (WEE) is enhanced through the gender-responsive policies and programs undertaken by MOWA/Provincial Department of Women's Affairs (PDWA) and the partner line ministries in Cambodia.

The terminal evaluation study of the PGM 2 undertaken in February 2015 concluded that the function and capacity of MOWA/PDWA to advocate and coordinate the partner line ministries at the national and sub-national levels were strengthened. The study also found that the capacity and mechanism to deliver the gender-responsive services for enhancing WEE were strengthened at the sub-national levels through applying the PGM methods developed by the PGM 1 and implementing the pilot projects in Kampong Cham province. Moreover, the Provincial Three-year Rolling Investment Programs of Kampong Cham became more gender-responsive as a result of the PGM 2.

It should be further noted that the PGM 2 generated following socio-economic and gender impacts on the stakeholders at the grassroots level:

- 1) Increase of household income and improvement of living standards for both women and men as economic impacts;
- 2) Improvement of gender relationship in households, establishment of harmony in couples, reduction of gender-based violence (GBV), empowerment of women (e.g. increase of self-confidence, leadership, and participation in decision making of high household expenses), enhancement of awareness about women's capability by family members and communities as social and gender impacts.

As the results of the PGM 2, the PGM methods became an important gender mainstreaming mechanism in Cambodia. Moreover, the approaches adapted by the PGM 2 promoted both vertical and horizontal gender mainstreaming at the national and sub-national levels. Accordingly, in August 2014, the RGC requested the Japanese Government for further assistance to strengthen the existing gender mainstreaming mechanisms and expand them to cover wider

areas.

II. OUTLINE OF THE PROJECT

Details of the Project are described in the Project Design Matrix (PDM) (Annex I) and the Plan of Operation (Annex II).

1. Title of the Project

Project on Gender Mainstreaming for Women's Economic Empowerment (PGM-WEE)

2. Overall Goal

Women's economic empowerment (WEE) is promoted through gender-responsive programs and projects implemented by line ministries/departments through advocacy and coordination by MOWA/PDWA in all the 25 capital and provinces in Cambodia.

(Development of the scaling up plans)

1-12. The MOWA develops the scaling-up plans of the gender mainstreaming mechanisms for WEE at the sub-national levels for their implementation after the termination of the Project, which target the provinces other than the target provinces of the project.

1-13. The Project organizes a seminar to share the achievements, outcomes, best practices and lessons learned of the Project with all the stakeholders before the termination of the Project.

1-14. The Project organizes a regional seminar to share the achievements, outcomes, best practices and lessons learned of the Project with the ASEAN countries at an appropriate timing.

2. (Preparation of tools based on the achievements of PGM2)

- 2-1. The Project conducts gender-responsive socio-economic impact analysis of the chicken raising pilot project of PGM2 in Kampong Cham province.
- 2-2. The Project implements gender-responsive value chain analysis of chicken raising in Kampong Cham and compiles the methodology of the analysis.
- 2-3. The PDWA and partner provincial departments develop a monitoring plan of the chicken raising pilot project of PGM2 based on the result of 2-1 and 2-2, and restart monitoring of the activities.
- 2-4. The Project implements supplementary activities to follow-up the chicken raising pilot project of PGM2 based on the results of analysis conducted in 2-1 and 2-2 and monitoring conducted in 2-3.
- 2-5. A working group to coordinate and monitor the activities for WEE implemented by PDWA and the partner provincial departments (possibly called as 'working group on WEE') is established in collaboration with Women Children Consultative Committee (WCCC). The Project encourages stakeholders in the private sectors (i.e. entrepreneurs networks, universities, research institutions) to participate in the working group on WEE as the members.
- 2-6. The results of the monitoring conducted by PDWA and partner provincial departments in 2-3 are periodically shared to coordinate activities and discuss about the possible solutions at the meetings of the working group on WEE.
- 2-7. The Project revises the 'Monitoring Guidelines of Pilot Project' developed by PGM2 based on the monitoring activities conducted by PDWA and partner provincial departments under the coordination of working groups on WEE based on the activities of 2-5 and 2-6.

Precondition:

Sj w

2-8. The Project develops a gender-responsive marketing manual on chicken raising targeting farmers based on the achievement of 2-1, 2-2, 2-3 and 2-4, which is complementary with the 'Technical Manual on Agricultural Production (chicken raising)' developed by PGM2.

(Preparation of the implementation of scaling-up activities)

2-9. The MOWA develops implementation plans for scaling-up activities which specify the target, schedule, budget and human resources during the Project period.

2-10. The MOWA defines the selection criteria for the target provinces of the scaling-up activities, and selects the target provinces accordingly. During the process of the selection, MOWA collects baseline data about the capacity of PDWA and partner provincial departments on gender mainstreaming in each target province.

2-11. The working groups on WEE are established in the selected provinces under WCCC. The Project encourages stakeholders in the private sectors (i.e. entrepreneurs networks, universities, research institution) to participate in the working group on WEE as members. The action plans of working groups on WEE are developed and integrated into the WCCC annual plans and provincial development plans.

(Planning of the scaling-up activities)

2-12. The PDWA and partner provincial departments conduct policy analysis and gender analysis based on the steps of PGM Methods (from step1 to step4) through PGM Methods workshops facilitated by MOWA/PDWA. The socio-economic baseline data is collected on the female/male farmers and their gender issues are identified in the target areas of the scaling-up activities.

2-13. The PDWA and partner provincial departments conduct gender-responsive value chain analysis based on the methodology developed in 2-2 through PGM Method workshop, which is considered as a complementary step to the PGM Methods.

2-14. The PDWA and partner provincial departments develop plans for scaling-up activities on agriculture (chicken raising) through PGM Methods workshop (step5) facilitated by MOWA/PDWA.

(Implementation and monitoring of the scaling-up activities)

2-15. The PDWA and partner provincial departments implement activities in respective sector based on the plans developed in 2-14.

2-16. The scaling-up activities are monitored based on the monitoring guidelines developed in 2-7 by PDWA and partner provincial departments. The results of the monitoring are periodically shared for coordinating activities and discussing about the possible solutions at the meetings of the working groups on WEE. The results of the meetings of the working groups on WEE

are also shared in the monthly meetings of WCCC.

(Feedback of the evaluation result of scaling-up activities)
2-17. The PDWA and partner provincial departments conduct evaluation study on the scaling-up activities, including gender impact analysis based on the baseline data collected in 2-12 through PGM Methods workshop (step8) facilitated by MOWA/PDWA.

- 2-18. The PDWA and partner provincial departments develop policy recommendations based on the results of evaluation study conducted in 2-17 through PGM Methods workshop (step9) facilitated by MOWA/PDWA.
- 2-19. The partner provincial departments share the policy recommendations developed in 2-18 with WCCC and TWG-G Sub-group on WEE and propose them to be integrated into their policies and plans. The MOWA/PDWA provide them with necessary information about resource mobilization and gender budgeting.

3. (Prepare the setup to implement the pilot projects in tourism industries)

- 3-1. The working group on WEE is established in the selected province. The Project encourages stakeholders in the private sectors (i.e. entrepreneurs networks, universities, research institutions) to participate in the working group on WEE as members. The action plans of working groups on WEE are developed and integrated into the WCCC annual plans and provincial development plans.

(Planning of the pilot projects in tourism industries)

- 3-2. The PDWA and partner provincial departments conduct policy analysis and gender analysis based on the steps of PGM Methods (from step1 to step4) through PGM Method workshops facilitated by MOWA/PDWA.
- 3-3. The PDWA and partner provincial departments conduct gender-responsive value chain analysis on tourism industries based on the methodology developed in 2-2 through PGM Method workshop facilitated by MOWA/PDWA. Information collection and analysis about marketing are also conducted for the pilot projects, including exploring and utilizing of the local resources.
- 3-4. The PDWA and partner provincial departments develop plans for pilot projects on tourism industries through PGM Methods workshop (step5) facilitated by MOWA/PDWA.
- 3-5. The gender-responsive socio-economic baseline survey, including information collection about the gender issues, is conducted about the target industries and areas of the pilot projects decided in 3-4. The results of the survey are compiled to a report.

(Implementation and monitoring of the pilot projects on tourism industries)
3-6. The PDWA and partner provincial departments implement activities in respective sector based on the plans developed in 3-4.

3-7. The pilot project activities are monitored based on the monitoring guidelines developed in 2-7 by PDWA and partner provincial departments. The results of the monitoring are periodically shared for coordinating pilot project activities and discussing about the possible solutions at the meetings of the working group on WEE. The results of the meetings of the working groups on WEE are also shared in the monthly meetings of WCCC.

3-8. The Project implements gender-responsive marketing activities in tourism industries and develops and refines tools for marketing in tourism industries targeting stakeholders at the grassroots levels.

(Feedback of the evaluation result of pilot projects)

3-9. The PDWA and partner provincial departments conduct evaluation study on the pilot projects, including gender impact analysis based on the baseline data collected in 3-5 through PGM Methods workshop facilitated by MOWA/PDWA. The Project compiles the results of the evaluation study as end-line survey.

3-10. The PDWA and partner provincial departments develop policy recommendations based on the results of the evaluation study conducted in 3-9 through PGM Methods workshop facilitated by MOWA/PDWA.

3-11. The partner provincial departments share the policy recommendations developed in 3-10 with WCCC and TWG-G Sub-group on WEE and propose them to be integrated into their policies and plans. The MOWA/PDWA provide them with necessary information about resource mobilization and gender budgeting.

2.4 The Project implements supplementary activities to follow-up the chicken raising pilot project of PGm2 based on the results of analysis conducted in 2-1 and 2-2 and monitoring conducted in 2-3.																				
2.5 A working group to coordinate and monitor the activities for WEE implemented by PDVA and the partner provincial departments (possibly called as 'working group on WEE') is established in collaboration with Women Children Consultative Committee (WCCC). The Project encourages stakeholders in the private sectors (i.e. entrepreneurs networks, universities, research institutions) to participate in the working group on WEE as the members.																				
2.6 The results of the monitoring conducted by PDVA and partner provincial departments in 2-3 are periodically shared to coordinate activities and discuss about the possible solutions at the meetings of the working group on WEE.																				
2.7 The Project revises the Monitoring Guidelines of Pilot Project developed by PGm2 based on the monitoring activities conducted by PDVA and partner provincial departments under the coordination of working groups on WEE based on the activities of 2-5 and 2-6.																				
2.8 The Project develops a gender-responsive marketing manual on chicken raising targeting farmers based on the achievement of 2-1, 2-2, 2-3 and 2-4, which is complementary with the Technical Manual on Agricultural Production (chicken raising)' developed by PGm2.																				
2.9 The MOWA develops implementation plans for scaling-up activities which specify the target, schedule, budget and human resources during the Project period.																				
2.10 The MOWA defines the selection criteria for the target provinces of the scaling-up activities, and selects the target provinces accordingly. During the process of the selection, MOWA collects baseline data about the capacity of PDVA and partner provincial departments on gender mainstreaming in each target province.																				
2.11 The working groups on WEE are established in the selected provinces under WCCC. The Project encourages stakeholders in the private sectors (i.e. entrepreneurs networks, universities, research institution) to participate in the working group on WEE as members. The action plans of working groups on WEE are developed and integrated into the WCCC annual plans and provincial development plans.	Plan	Actual																		
2.12 The PDWA and partner provincial departments conduct policy analysis and gender analysis based on the steps of PGM Methods (from step 1 to step 4) through PGM Methods workshops facilitated by MOWA/PDWA. The socio-economic baseline data is collected on the female/male farmers and their gender issues are identified in the target areas of the scaling-up activities.
