INTRODUCTION

New Participants:

I wish to extend our heartiest welcome to all of you who have come from many parts of the world to participate in the training courses at Hyogo International Centre (HIC).

HIC was established in August, 1973 as one of the affiliated organizations of Japan International Cooperation Agency (JICA) to implement the overseas technical cooperation scheme of the Government of Japan and Hyogo Prefecture. And also it opens the door widely national cooperation.

The management of HIC is exercised by Hyogo Prefectural Government under the power entrusted by JICA. For that reason HIC has two offices - JICA and HIC offices.

This is the center of your life and training during your stay in Japan. In order to make your life in HIC enjoyable and to eliminate any trouble all of you are requested to observe the rules and also we should like to ask your mutual understanding and cooperation. And we hope that your stay here will help to build a bridge of friendship among the countries.

During your stay in Japan you might encounter with difficulties because of the difference in religions, custom, language and so on, however, we are always ready to help you when you have a problem. This guide book, too, could provide some help to make your life enjoyable and comfortable.

I would like to conclude the message with an earnest prayer for the great success of your study, the enjoyable life in Japan and your good health.

Director, HIC. JICA

MEDICAL SERVICE

When you get sick during your stay at HIC, you should inform your training officer or coordinator and he or she will help you consult with a doctor at a hospital or a clinic.

In principle you are requested not to consult with a doctor before informing your staff of the Centre.

JICA issues a medical card to each participant. If you present your medical card to the doctor, you can obtain the necessary examination and treatment free of charge.

Sometimes, in rural areas for example, the card would not be accepted. In such case you should pay the medical charge yourselves and obtain a receipt from the physician with his statement. The amount you have paid will be reimbursed by JICA upon your presentation of the receipt to the officer.

- * Following items are excluded from the free medical care.
 - (1) Medical treatment of your pre-existing diseases for which immediate treatment or examination is not necessary.

TRANSPORTATION

Kobe is well provided with facilities for communicating with other cities. Railways are main traffic facilities. Along this narrow stretch of land, east to west, the Japan National Railway, JNR, (conventional and the Shinkansen line), Hanshin Railway, Hankyu Railway & Sanyo Railway run side by side on the sea side, as of shown in the Traffic Map of Kinki district. These lines are connected each other in the center of the cities, such as sannomiya (Kobe) and Umeda (Osaka).

How to Get to

Sannomiya; (a) JNR

Take a train at Sumaura-koen Station of Sanyo Electric Railway and change to JNR at Suma Station. Take a local (blue) or rapid (orange and green) train from Suma Station to Sannomiya Station.

(b) Private Railways

Take a train at Sumaura-koen Station of Sanyo Electric Railway. The train goes to Sannomiya Station of either Hankyu or Hanshin Electric Railway. But train goes separately from Kosoku-Kobe Station to each of the stations. So you should choose one of the lines. And some trains go only up to Shinkaichi Sta. or to Kosoku-Kobe Sta. In this case, make another ride of a train.

Osaka (Umeda) : In case of JNR, go on a rapid train from Suma Sta. as you go to Sannomiya. In case of taking private lines both Hankyu and Hanshin lines go Umeda via Sannomiya. Rapid trains are available and more convenient. In case of Sanyo line, exchange to Hankyu or Hanshin at Kosoku-Kobe.

Kyoto (Shijyo-Kawaramachi):

In case of JNR, it directly goes to Kyoto from Suma Sta. Rapid trains are more convenient. In case of private line, Hankyu line is available. Take Hankyu rapid train at Sumaura-koen Sta. and exchange it at Umeda. Hankyu Kyoto line's rapid trains take you to Kyoto, Shijyo-Kawaramachi St. within 40 min. from Umeda.

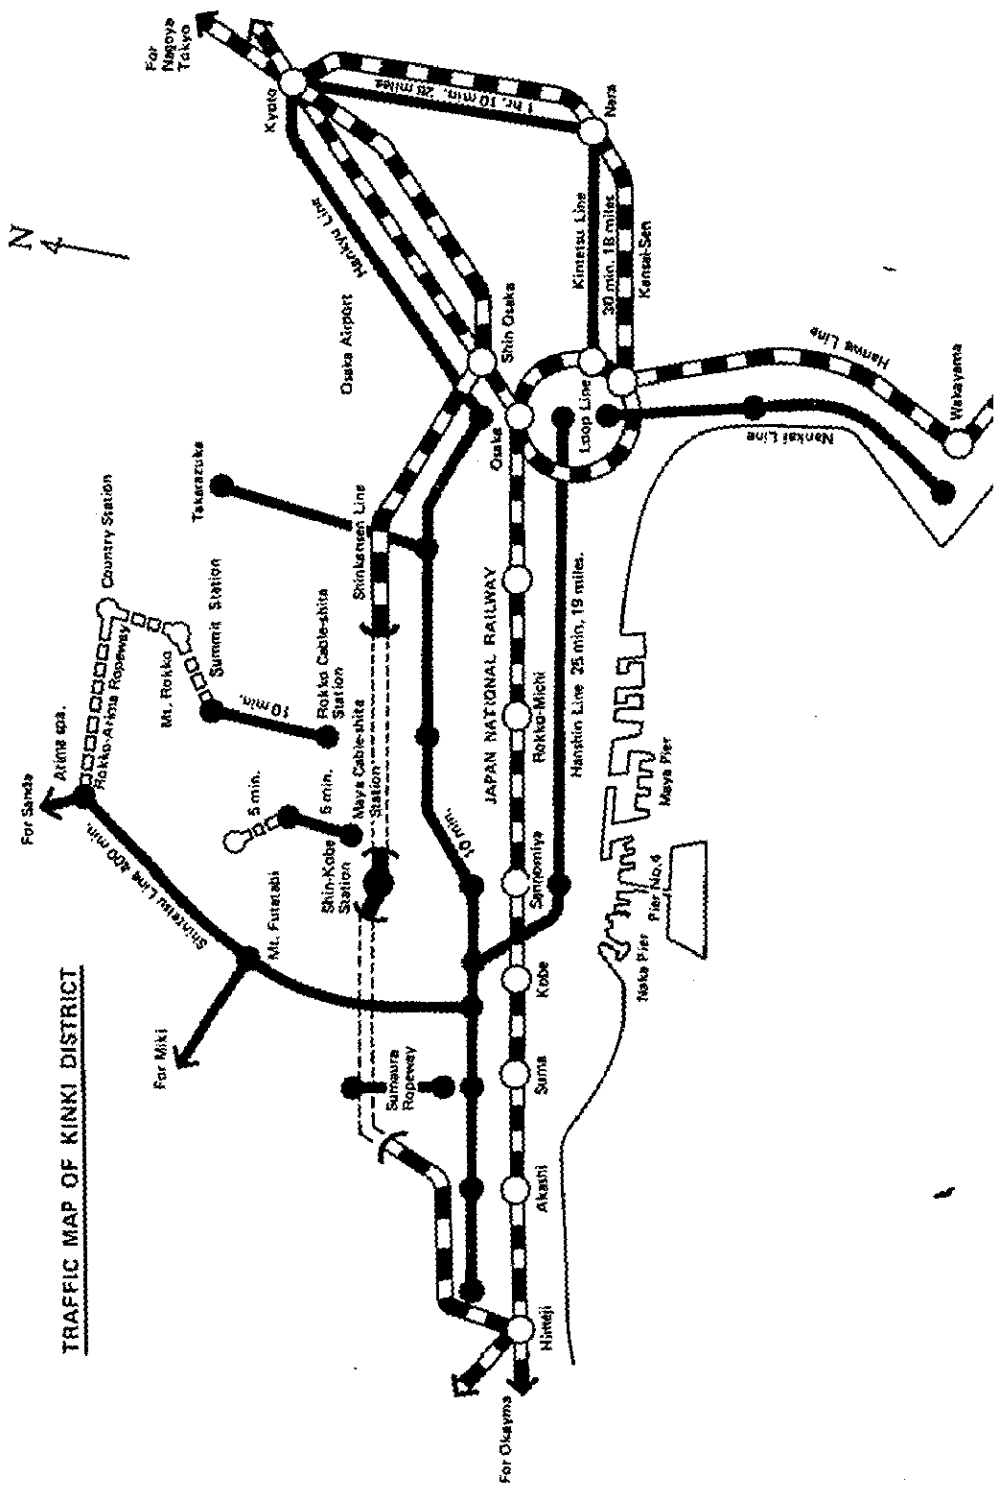

In most of the stations, tickets are sold by automatic vending machine. At first check the fare in the list and insert the coins. After the machine operates and light of the button turns on, push the button of the fare.

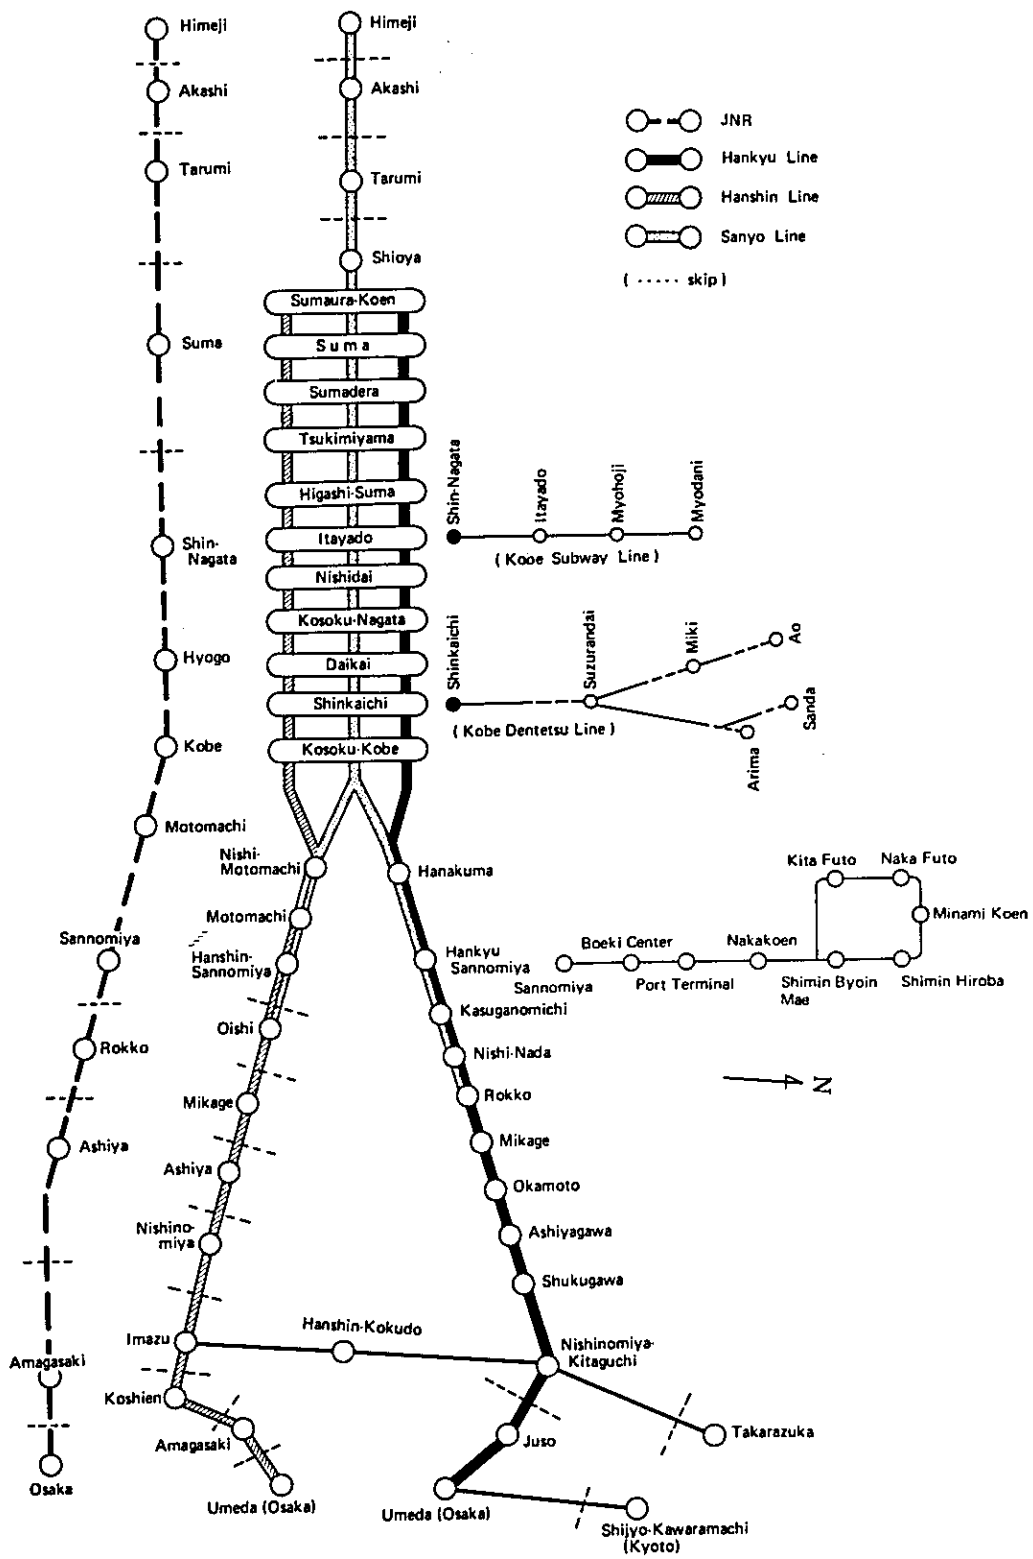

Taxi is also available. The charge is mainly calculated by the distance traveled.

- * First 2 kilometers ¥ 380
- * Additional every 450 meters ¥ 70
- * Night charge (23:00 – 5:00) 20% up

Taxis can be called from HIC through telephone. In this case, taxi fare for the distance between the taxi pool and HIC (Approx. ¥440) is automatically added to the fare for the distance between HIC and the destination.

Mt. Rokko : This is the highest peak of the Rokko Range, rising 932 meters above sealevel. The mountain top commands a grand view of Osaka Bay, hemmed partly by the graceful form of Awaji Island. There on the

flattish extensive summit of Mt. Rokko are in a scattering way picturesque ponds among wooded elevations, a golf course, an alpine garden, a model farm, a recreation ground and hotels. Colorful hydrangeas in early summer are specially attractive. The summit can easily be attained by either a driveway or a cable railway. The Rokko-Arima Ropeway, which connects the summit of Mt. Rokko to Arima Spa. is the longest aerial cableway in Japan.
