COMPLETED FLOOD CONTROL PROJECT

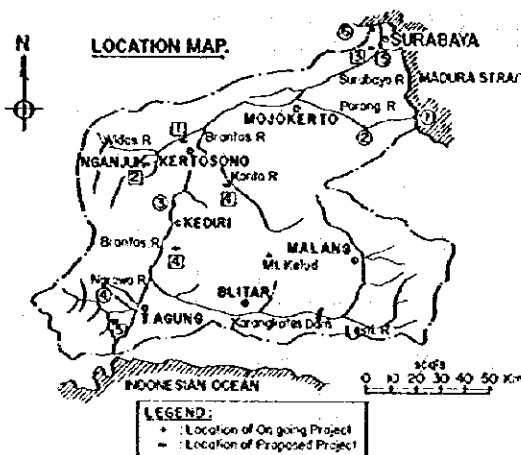

Location No.	Project / Works	Completed year
①	Kali Porong River Improvement Project	1977
②	New Lengkon Dam Project	1973
③	Brantas Middle Reach River Improvement Project (stage I)	1985 e1
④	Sekoro Dam Project	1970
⑤	Mandala Sabo Dam Project	1973
⑥	Tokol Sabo Dam Project	1975
⑦	Wingi Raya Dam Project	1977
⑧	Lodoyo Dam Project	1980
⑨	Karangates Dam Project	1972
⑩	Lahor Dam Project	1977
⑪	Tulungagung Drainage Project (Phase II) still under	1985 e1
⑫	Kali Surabaya River Improvement Project	1981
⑬	Mt. Kelud Debris Control Project	e1

Remarks

e1 : Not yet completely finished and still under construction

Source : Ref RC14

図 3.5.8 既完洪水防御プロジェクトの位置図

ONGOING FLOOD CONTROL PROJECT

Location No.	Project / Works
①	Dredging Works of Porong River Mouth (maintenance)
②	Rehabilitation of Existing Levee of Porong River (maintenance)
③	Brantas Middle Reach River Improvement Project (stage II) e1
④	Tulungagung Drainage Project (phase I & II)
⑤	Dredging And Excavation Works Mas River (maintenance)
⑥	Dredging Works at Morokrembongan Boezem (maintenance)

Remarks

e1 : Not yet started, and is commened in the coming fiscal year (1985/1986)

PROPOSED FLOOD CONTROL PROJECT

①	Widas Lower Reach and Micon Barrage (Partial river improvement)
②	Widas Flood Control and Drainage
③	Drainage Improvement of Western Urban Area and Kedurus River Basin
④	River Improvement Works by Mt. Kelud Project
⑤	Tulungagung Drainage Project (phase III & IV)

Remarks
