QUESTIONNAIRE B

PART I : BASIC INFORMATION

Institution ... .. District : ... ..

1. Serial Number :

Name of Woman : ... ..

Maternal age (completed yrs.)

Address : ... ..

Register Number

Date of Admission :  Day  Mon  Yr

Date of Delivery :

Date of Discharge :

Age (Code classification) :

1. < 15	4. 25 - 29	7. 40 - 44
2. 15 - 19	5. 30 - 34	8. 45 - 49
3. 20 - 24	6. 35 - 39	9. 50 & above

2. Gestational age in weeks at delivery/abortion  
(or at death, if died undelivered) ... ..

Code classification :

1. Under 28 weeks	4. 37 - 41 weeks
2. 28 - 31 weeks	5. 42 weeks and over
3. 32 - 36 weeks	

3. Parity : No. of livebirths :

No. of stillbirths :

4. No. of Pregnancy :

5. No. of Living Children :

6. Marital Status :

1. Single	3. Divorced	5. Widowed
2. Married	4. Separated	

7. Height in Centimetre :

8. Weight (after delivery) in Kg.

9. Occupation :
- |                      |                    |
|----------------------|--------------------|
| 1. Agriculture       | 5. Student         |
| 2. Daily wage earner | 6. Professional    |
| 3. Housewife         | 9. Other (specify) |
| 4. Service           |                    |
10. Education :
- |                                |   |
|--------------------------------|---|
| 1. Illiterate                  | 3. Upto University<br>(Secondary/Higher<br>Secondary) |
| 2. Upto 6th grade<br>(primary) | 9. Graduate & above                                   |
11. Usual place of residence :  
(living more than 6 months)
- |          |          |                          |
|----------|----------|--------------------------|
| 1. Urban | 2. Rural | 3. Rural, Remote village |
|----------|----------|--------------------------|
12. Ethnic Groups :
- |            |          |                       |
|------------|----------|-----------------------|
| 1. Brahmin | 3. Newar | 5. Tamang             |
| 2. Chhetry | 4. Rai   | 6. Other (specify)... |
13. Family Planning method used prior to pregnancy :
- |              |                |                       |
|--------------|----------------|-----------------------|
| 1. None      | 3. IUD         | 5. Condoms            |
| 2. Oral Pill | 4. Injectables | 9. Other (specify)... |
14. Events in past medical history :
- |                       |                        |
|-----------------------|------------------------|
| 1. None               | 6. Hypertension        |
| 2. Anaemia            | 7. Oedema              |
| 3. Diabetes (self)    | 9. Other (specify) ... |
| 4. Diabetes in family | ... ..                 |
15. General events in previous pregnancy
- |                                 |

| 2. Complications in pregnancy   |
| 3. Complications in child birth |
| 4. Complications in puerperium  |
| 9. Not stated/Not known         |
16. Specific events in previous pregnancy
- Write 1. Yes 2. No
- |  |                          |
|--|--------------------------|
| 16.1 Abortion                                | <input type="checkbox"/> |
| 16.2 Anaemia                                 | <input type="checkbox"/> |
| 16.3 Hypertension (over 140/90)              | <input type="checkbox"/> |
| 16.4 Vaginal bleeding/antepartum haemorrhage | <input type="checkbox"/> |
| 16.5 Fever (including Malaria)               | <input type="checkbox"/> |
| 16.9 Other (specify) : ... ..                | <input type="checkbox"/> |

Q. 17 - 19 HISTORY OF ANTENATAL CARE

17. Gestational age in weeks when antenatal care started
18. No. of antenatal visits during pregnancy
19. Institution where antenatal care was given initially
1. Health Centre
  2. District Hospital
  3. Zonal Hospital
  4. Central Hospital
  5. Maternity Hospital
  6. Private Doctor
  7. MCH clinic
  8. None
  9. Other (specify) ... ..

STATUS ON ADMISSION

20. Referred : 1. Yes 2. No
- If yes, 1. For routine care
2. Complications in pregnancy
  3. Complications in delivery
  4. Complications in puerperium
21. Conditions on admission to Institution
1. Normal
  2. Sick
  3. Very poor but conscious
  4. Unconscious
22. Clinical history :
- Write 1. Yes 2. No
- 22.1 Anaemia
- 22.2 Haemoglobin level examined
- 22.3 Estimation of Hb : a) Clinical
- b) Laboratory

- 22.4 Oedema
- 22.5 Hypertension (over 140/90)
- 22.6 Vaginal bleeding/Antepartum haemorrhage
- 22.7 Fever (including Malaria)
- 22.8 Tetanus toxoid received
- 22.9 Other (specify) ... ..
23. Place of delivery/abortion :   
 (or death if died undelivered)
1. Home
  2. Health Centre
  3. District Hospital
  4. Central Hospital
  5. Maternity Hospital
  9. Other ... ..  
 (Specify)
24. Attendant in labour/delivery:   
 (or at death if died undelivered)
- |  |                              |
|--|------------------------------|
| 1. Relative/friend                                   | 5. Medical Assistant         |
| 2. Sudeni  | 6. Medical Doctor            |
| 3. Health workers (other than those specified below) | 7. Specialist                |
| 4. Nurse/Midwife                                     | 9. Other ... ..<br>(specify) |
25. Duration of Labour in hours :   
 (Fill in No if not applicable)
1. / 2 hrs.
  2. 2 - 4 hrs.
  3. 4 - 8 hrs.
  4. 8 - 16 hrs.
  5. 16 - 24 hrs.
  6. 24 hrs or more

Q.26 - Q.28 : ADVERSE EVENTS DURING ABORTION/LABOUR  
FIRST 24 HOURS AFTER END OF PREGNANCY

26. Method of delivery :

1. Normal, spontaneous vertex vaginal delivery
2. Cephalic vaginal delivery with abnormal presentation and position of head at delivery, without instruments, with or without manipulation
3. Forceps delivery
4. Vacuum delivery
5. Breech delivery/extraction
6. Caesarean section
9. Other (specify) : ... ..

27. Fetal outcome :

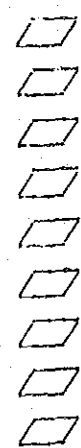

1. Liveborn
2. Abortion
3. Ectopic pregnancy
4. Stillbirth (fresh)
5. Stillbirth (macerated)
6. Stillbirth (unspecified)
7. Undelivered

28. Adverse events during abortion/labour

Write : 1. Yes 2. No

- 28.1 Intrapartum haemorrhage
- 28.2 Pre-eclampsia
- 28.3 Eclampsia
- 28.4 Prolonged rupture of membranes
- 28.5 Prolonged labour (more than 24 hrs.)
- 28.6 Uterine rupture
- 28.7 Retained placenta
- 28.8 Primary postpartum/postabortal haemorrhage
- 28.9 Other (specify) ... ..

Q.29 - Q.31 ADVERSE EVENTS IN PUERPERIUM FROM  
24 HOURS AFTER END OF PREGNANCY

29. Blood transfused : Write 1. Yes 2. No

If yes :

1. Pregnancy or
2. Puerperium

If yes :

1. Yes, without subsequent complication from transfusion
2. Yes, with subsequent complication from transfusion
3. Not known

If no :

1. No, as there was no indication to transfuse
2. No action taken despite indication to transfuse
3. No, in view of lack of facilities

30. Haemoglobin level :

- |                          |                           |
|--------------------------|---------------------------|
| 1. Upto 5g.              | 3. Above 10 g.            |
| 2. Between 51 g. & 10 g. | 9. Not measured/Not known |

31. Adverse events in puerperium :

Write : 1. Yes 2. No

31.1 Secondary postpartum or postabortal haemorrhage

31.2 Urinary tract infection

31.3 Genitourinary tract infection

31.4 Renal failure

31.5 Complications of operative delivery

31.6 Pelvic Thrombophlebitis, postpartum

31.7 Sepsis, breast

31.9 Other (specify) ... ..
