MINUTES OF DISCUSSIONS  
ON  
THE BASIC DESIGN STUDY  
ON  
THE PROJECT FOR THE EQUIPMENT UPGRADING OF  
26 PROVINCIAL HOSPITALS  
IN  
THE REPUBLIC OF THE PHILIPPINES

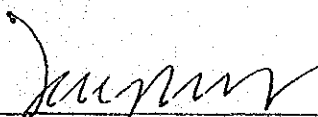

In response to the request made by the Republic of the Philippines, the Government of Japan decided to conduct a Basic Design Study on the Project for the Equipment Upgrading of 26 Provincial Hospitals (hereinafter referred to as "the Project") and the Japan International Cooperation Agency (JICA) sent the Basic Design Team headed by Mr. Satoshi KINUGAWA, Officer, Grant Aid Division, Economic Cooperation Bureau, Ministry of Foreign Affairs, from June 6 to June 29, 1988.

The Team had a series of discussions with the authorities concerned of the Government of the Republic of the Philippines and conducted a field survey.

As the result of the study, both parties have agreed to recommend to their respective Government that the major points of understanding reached between them as attached herewith should be examined towards the realization of the Project.

## ATTACHMENTS

### 1. Objective of the Project

The objective of the Project is to improve the provincial level health services in the Philippines through supply and installation of medical equipment at 26 provincial hospitals.

### 2. Executing Agency

The Department of Health is responsible for administration and execution of the Project.

### 3. Locations of 26 Provincial Hospitals

The Locations of 26 Provincial Hospitals are listed in Annex I.

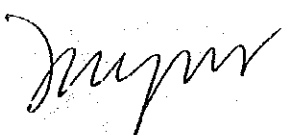

### 4. Tentative List of Major Equipment

The equipment will be selected by the Team based on the list requested by the Philippines side and the result of the survey conducted by the Team. The tentative list to each Hospital based on discussions in the Philippines is shown in Annex II.

### 5. Selection Standards of Equipment

The following standards will be taken into account in the selection of equipment.

- (1) The operation will be possible with basically the same technical knowledge as is necessary for the presently available medical equipment in the Hospital.
- (2) The equipment shall be durable and easy for maintenance and control.
- (3) The equipment can be installed by the local representative of the supplier.
- (4) The equipment shall be durable under climate condition of high temperature and dense humidity.

6. Grant Aid Program

- 6-1. The Philippines Side has understood the Japanese Grant Aid System explained by the Team including a principle of use of a Japanese Consultant Firm and Japanese Contractor(s) for the implementation.
- 6-2. The Study Team will convey to the Government of Japan the desire of the Government of the Republic of the Philippines that the former takes necessary measures to cooperate by providing necessary equipment within the scope of Japanese economic cooperation program in Grant form.
- 6-3. The Government of the Republic of the Philippines will take necessary measures as listed in Annex III on condition that the grant aid by the Government of Japan would be extended to the Project.
