

## 5. CLIMATOLOGICAL DATA

One (1) climatological station is being operated by the Institute of Meteorology and Geophysics in the study area. The items being observed are as follows;

- (1) Relative humidity
- (2) Maximum temperature
- (3) Minimum temperature
- (4) Mean temperature
- (5) Temperature of the water surface in the Pan
- (6) Evaporation in the Pan
- (7) Wind velocity
- (8) Solar radiation
- (9) The ratio actual/possible hours of sunshine

Collected data through the study are shown in Table-5.1.
