BIBLIOGRAPHY OF CITRUS GREENING DISEASE AND ITS VECTORS

Abbreviations of subjects (cf. Subject Index of Part II) are given at the end of the respective articles. Symbol [°] means an article that neither greening disease nor vector of the disease is dealt with but citation is made in the review article of Part III. Symbol [‡], an article indirectly cited from either of the following review journals: Review of Plant Pathology (RPP), Review of Applied Mycology (RAM), Horticultural Abstracts (HAB), Review of Applied Entomology, Ser. A (RAE), and Entomology Abstracts (EAB). The literature survey was finished at the end of October 1989.
