

## PROJECT LIST

No.	Region	Code No.	Country	Name of the Study	Type	Fiscal Year	Sector / Subsector	Status	Page
						Completed			
652	Middle & South America	PAN/S 301	Panama	Short-Wave Broadcast Station Project 短波放送施設建設計画	F/S	1984	Communications & Broadcasting / Broadcasting	Delayed or Suspended	744
653	Middle & South America	PAN/A 502	Panama	Inventario forestal del distrito de Donoso 林業資源調査	Basic Study	1984	Forestry / Forestry & Forest Conservation	In Progress or In use	745
654	Middle & South America	PAN/S 303	Panama	Corredor Sur Development Project in the Panama Metropolitan Area (ESTAMPA III) パナマ市南部回廊建設計画	F/S	1987	Transportation / Urban Transportation	Delayed or Suspended	746
655	Middle & South America	PRY/S 601	Paraguay	La Colmena Highway (follow-up) ラ・コルメナ道路アフターケア	Other	1976	Transportation / Road	In Progress or In use	747
656	Middle & South America	PRY/S 301	Paraguay	Fleet Expansion Project 船舶増強計画	F/S	1978	Transportation / Marine Transportation & Ships	Completed	748
657	Middle & South America	PRY/S 302	Paraguay	New Airport Construction Project in Ciudad Presidente Stroessner ストロエスネル新空港建設計画/東部国際空港建設計画 (1989.8から)	F/S	1979	Transportation / Air Transportation & Airport	Implementing	749
658	Middle & South America	PRY/A 301	Paraguay	Proyecto de desarrollo agrícola en la zona noroeste del lago Ypoa イポア湖北西部農業開発計画	F/S	1982	Agriculture / General	Delayed or Suspended	750
659	Middle & South America	PRY/S 201B	Paraguay	National Telecommunications & Broadcasts Development Project 電気通信拡充計画 (電気通信・放送拡充計画のF/S)	M/P+F/S	1983	Communications & Broadcasting / General	Implementing	51~752
660	Middle & South America	PRY/A 501	Paraguay	Forest Inventory in the Northeastern Region 北東部林業資源調査	Basic Study	1983	Forestry / Forestry & Forest Conservation	In Progress or In use	753
661	Middle & South America	PRY/A 101	Paraguay	Irrigation and Drainage Project in the Adjacent Area to the Yacyreta Dam ヤシレタダム隣接地域農業総合開発計画	M/P	1984	Agriculture / General	In Progress or In use	754
662	Middle & South America	PRY/A 302	Paraguay	Proyecto de reforestacion en la zona de Capiibary, Departamento de San Pedro カピバリ地区森林造成計画	F/S	1984	Forestry / Forestry & Forest Conservation	Promoting	755
663	Middle & South America	PRY/S 101	Paraguay	Transito Urbano de Asuncion y su area metropolitana アスンシオン首都圏都市交通整備計画	M/P	1986	Transportation / Urban Transportation	In Progress or In use	756
664	Middle & South America	PRY/S 202B	Paraguay	Stom Drainage System Improvement Project in Asuncion City アスンシオン市雨水排水施設整備計画	M/P+F/S	1986	Social Infrastructures / River & Erosion Control	Delayed or Suspended	57~758
665	Middle & South America	PRY/A 102	Paraguay	Proyecto de aumento de la produccion de granos principales en el area central del departamento de Itapua イタプア県中部地域主要穀物増産計画	M/P	1987	Agriculture / General	In Progress or In use	759
666	Middle & South America	PRY/S 303	Paraguay	Transportation Facilities Improvement Project of the Asuncion Metropolitan Area アスンシオン首都圏都市交通施設整備計画	F/S	1988	Transportation / Urban Transportation	Processing	760
667	Middle & South America	PRY/S 102	Paraguay	Water Pollution Control Plan for the Lake Ypacarai and its Basin イバカライ湖流域水質汚濁対策計画	M/P	1989	Administration / Environmental Problems	In Progress or In use	761
668	Middle & South America	PRY/A 303	Paraguay	Integrated Rural Infrastructure Improvement Project in La Colmena ラ・コルメナ地区農村総合整備計画	F/S	1989	Agriculture / General	Completed	762
669	Middle & South America	PRY/S 103	Paraguay	National Transport Master Plan 総合交通計画	M/P	1991	Transportation / General	In Progress or In use	763

## PROJECT LIST

No.	Region	Code No.	Country	Name of the Study	Type	Fiscal Year		Sector / Subsector	Status	Page
						Completed				
670	Middle & South America	PER/A 301	Peru	Proyecto de la construccion del complejo pesquero del centro 中部漁業総合基地建設計画	F/S	1977		Fisheries / Fisheries	Discontinued or Cancelled	764
671	Middle & South America	PER/S 201B	Peru	Development Project of the Port of Callao カジャオ港整備計画	M/P+F/S	1983		Transportation / Port	Delayed or Suspended	65~766
672	Middle & South America	PER/A 302	Peru	Chancay-Huaral Valley Rehabilitation Project チャンカイ・ワラル谷かんがい復旧計画	F/S	1984		Agriculture / General	Completed	767
673	Middle & South America	PER/S 202B	Peru	Development Project of Jorge Chavez Lima-Callao International Airport リマ国際空港整備計画	M/P+F/S	1986		Transportation / Air Transportation & Airport	Delayed or Suspended	68~769
674	Middle & South America	PER/S 501	Peru	Topographic Mapping Project for Satipo Area, Department of Junin フニン県サティポ地区地形図作成事業	Basic Study	1986		Social Infrastructures / Survey & Mapping	In Progress or In use	770
675	Middle & South America	PER/S 101	Peru	Disaster Prevention Project in the Rimac River Basin リマック川防災対策計画	M/P	1987		Social Infrastructures / River & Erosion Control	In Progress or In use	771
676	Middle & South America	PER/S 301	Peru	Improvement of Sewerage System in Southern Part of Lima リマ市南部下水道整備計画	F/S	1989		Public Utilities / Sewerage	Promoting	772
677	Middle & South America	PER/A 201B	Peru	Desarrollo Pesquero y Construccion del Puerto Pesquera en la Costa Central 沿岸漁港開発計画	M/P+F/S	1990		Fisheries / Fisheries	Promoting	73~774
678	Middle & South America	TTO/S 201B	Trinidad and Tobago	Improvement of Water Supply Supervisory System 水管理計画	M/P+F/S	1991		Public Utilities / Water Supply	Promoting	75~776
679	Middle & South America	URY/A 101	Uruguay	Establecimiento de plantaciones de arboles y utilizacion de la madera plantada 造林・木材利用計画	M/P	1986		Forestry / Forestry & Forest Conservation	In Progress or In use	777
680	Middle & South America	URY/S 301	Uruguay	Development Plan of the International Airport of Carrasco カラスコ国際空港整備計画	F/S	1989		Transportation / Air Transportation & Airport	Delayed or Suspended	778
681	Middle & South America	URY/A 301	Uruguay	National Reforestation Plan 国家造林5ヶ年計画	F/S	1990		Forestry / Forestry & Forest Conservation	Implementing	779
682	Middle & South America	VEN/S 101	Venezuela	Design on Cargo Handling Equipments 港湾技術訓練センター建設計画	M/P	1980		Transportation / Port	Discontinued	780
683	Middle & South America	VEN/S 201B	Venezuela	Chama River Basin Conservation Project チャマ川流域防災計画	M/P+F/S	1989		Social Infrastructures / River & Erosion Control	Delayed or Suspended	81~782
684	Oceania	FJI/A 501	Fiji	Analytical Survey of Coconut Forests in Taveuni Island 林業開発 (TAVEUNI島ココナツ林解析調査)	Basic Study	1978		Forestry / Forestry & Forest Conservation	In Progress or In use	783
685	Oceania	FJI/A 502	Fiji	The Survey for Forest Development in Fiji 林業資源調査	Basic Study	1982		Forestry / Forestry & Forest Conservation	In Progress or In use	784
686	Oceania	FJI/A 503	Fiji	Fisheries Resources Survey in Fiji and Tuvalu 水産資源調査	Basic Study	1987		Fisheries / Fisheries	In Progress or In use	785
687	Oceania	KIR/A 501	Kiribati	Fishery Resources in the Gilbert Islands 水産資源調査	Basic Study	1978		Fisheries / Fisheries	In Progress or In use	786
688	Oceania	PNG/A 301	Papua New Guinea	Fishing Base Construction Project 漁業基地建設計画	F/S	1977		Fisheries / Fisheries	Delayed or Suspended	787

## PROJECT LIST

No.	Region	Code No.	Country	Name of the Study	Type	Fiscal Year		Sector / Subsector	Status	Page
						Completed				
689	Oceania	PNG/S 301	Papua New Guinea	Rural Telecommunication Development Plan in Papua New Guinea 地方電話網整備計画	F/S	1989		Communications & Broadcasting / Telecommunication	Delayed or Suspended	788
690	Oceania	PNG/S 401	Papua New Guinea	Detailed Design on Road Construction Project in Bereina-Malalaua 横断道路建設計画 (ベレイナ・マララウア間)	D/D	1989		Transportation / Road	Processing	789
691	Oceania	PNG/S 302	Papua New Guinea	Tokua Airport Development Project トクア空港整備計画	F/S	1991		Transportation / Air Transportation & Airport	Promoting	790
692	Oceania	SLB/S 301	Solomon Islands	Telecommunication Trunk Network Construction Project 国内電気通信幹線網建設計画	F/S	1979		Communications & Broadcasting / Telecommunication	Discontinued or Cancelled	791
693	Oceania	SLB/S 302	Solomon Islands	Development Project of Henderson International Airport ヘンダーソン国際空港整備計画	F/S	1991		Transportation / Air Transportation & Airport	Promoting	792
694	Oceania	WSM/S 201B	Western Samoa	Development of the Ports in Western Samoa 全国港湾整備総合計画	M/P+F/S	1987		Transportation / Port	Completed	93~794
695	Europe	GRC/S 601	Greece	Tourism Promotion 観光振興計画	Other	1989		Tourism / General	In Progress or In use	795
696	Plural countries	ZZZ/S 101		Establishment of Electronic and Navigational Aid Systems Project 電子航行援助システム等設置計画	M/P	1977		Transportation / Marine Transportation & Ships	In Progress or In use	796
697	Plural countries	ZZZ/S 502		Joint Hydrographic Survey in Malacca and Singapore Straits (one fathom bank area) マラッカ海峡ワンファザムバンク区域水路調査	Basic Study	1978		Transportation / Marine Transportation & Ships	In Progress or In use	797
698	Plural countries	ZZZ/S 501		ASEAN Submarine Cable Project:Thailand-Malaysia-Singapore Route タイ・マレーシア・シンガポール海底ケーブル建設計画	Basic Study	1978		Communications & Broadcasting / Telecommunication	In Progress or In use	798
699	Plural countries	ZZZ/S 301		(Construction of Indo-Chinese Refugee Camps) インドシナ難民センター建設計画	F/S	1979		Social Infrastructures / Architecture & Housing	Discontinued or Cancelled	799
700	Plural countries	ZZZ/S 503		Joint Production of Common Datum Charts of the Straits of Malacca and Singapore マラッカ・シンガポール海峡統一基準点海図作成	Basic Study	1982		Social Infrastructures / Survey & Mapping	In Progress or In use	800
701	Plural countries	ZZZ/S 504		Medan(Indonesia)-Colombo(Sri Lanka)Submarine Cable Project メダン-コロンボ海底ケーブル建設計画	Basic Study	1984		Communications & Broadcasting / Telecommunication	In Progress or In use	801

#### 4. List of Cancelled Studies

Country	FYear	Name of Study	S/W	Remarks
Nepal	1975	Tansing Water Supply (タンセン上水道)	Not signed	Implemented by the Grant Aid Program.
Thailand	1975	Water Pollution Control for Tha Chin - Mae Klong Rivers (ターチン・メクロン河川公害)	Not signed	Implemented by the assignment of experts, participation of counterparts in the training program in Japan, and the provision of equipment.
Afghanistan	1975	Television Network Development (テレビ放送)	Not signed	The basic design study was undertaken for the Grant Aid Program (Buildings and equipment for the Kabul Broadcasting Station).
Egypt	1975	Development of Alexandria Port (アレキサンドリア港)	Not signed	Yen credit is being considered (mainly for the alleviation of bottlenecks).
Iran	1975	Teheran - Mashhad Express Railway Development (テヘラン～マシャッド間高速鉄道計画)	Not signed	JARTS began the F/S with financing from the Iranian Government but the study was discontinued in the second year because of the coup d'etal.
Colombia	1976	Forest Development Project (森林造成事業)	Not signed	
Libya	1976 - 77	Technical Cooperation on Telecommunication (電気通信関係技術協力)	Not signed	The purpose was to advise on the promotion of telecommunication development in Libya
Saudi Arabia	1976 - 77	Rub' al Khali Topographic Mapping Project (ルブ・アルハリ地区地図作成)	Not signed	A short-term expert was assigned to advise on specifications. The project was one of the proposals for assisting oil-exporting countries after the oil crisis, but subsequently discontinued. Mapping was completed with finance from the Saudi Arabian Government (undertaken by French and German consultants).
Brazil	1977	Vitoria Urban Development (ヴィトリア都市開発計画)		
Pakistan	1978	Development of Flood Forecasting Systems (洪水予報システム建設計画)		
Myanmar/Thailand	1978	Construction of the Outdoor Sport Stadium and the Youth Program Center (野外競技場建設計画、青少年福祉センター建設計画)		Taken over by the Grant Aid Program and the basic design study was conducted.
India	1978	Agricultural Technical Cooperation (農業協力計画)	Not signed	
Brazil	1978	Fishery Resources Survey (水産資源調査 (陸上調査))	Not signed	
Malaysia	1978 - 79	Water Resource Development in the Eastern Part of Sabah (サバ州東部水資源開発計画)		
Iran	1978 - 79	Urban Transport Development in Teheran (テヘラン都市交通)	Not signed	Negotiations fell through on the scope of the study.
Iraq	1979	Broadcasting Network Development (放送網整備計画)		
Colombia	1979	Integrated Transport Development in the Orinoco Valley (オリノコ河流域総合交通計画)		
United Arab Emirates	1979	Orchard Development ( (長期調査) 果樹園建設計画)	Not signed	
Pakistan	1980	Road Development (道路建設計画)		
Indonesia	1980	Malunda Timber Processing and Marketing Estate Project (マルング木材加工流通団地計画)	Not signed	
Indonesia	1980	Assistance for Increased Paddy Production (米増産協力調査)	Not signed	
Philippines	1980 - 81	Lower Cotabato River Basin Development (コタバト河下流域開発計画)		
Indonesia	1980 - 82	Utilization of Unutilized Tree Species (Asahan) ( (アサハン) 未利用樹利用開発計画)	Not signed	
Sri Lanka	1981	Rice Bran Oil Mill Project (米ぬか油製造計画)	Not signed	
Thailand	1981	Agricultural Cooperation (農業協力調査)	Not signed	
Venezuela	1981 - 82	Valencia Lake Development (バレンシア湖開発計画)	Not signed	Negotiations fell through on the scope of the study.
Bangladesh	1982	Integrated Development of Dhaka City (ダッカ市総合開発計画)		
Thailand	1982	System Development for the Poverty Eradication Program (貧困撲滅計画システム)		
Thailand	1982	Agricultural Cooperation for Northeastern Thailand (東北タイ農業協力調査)	Not signed	
Kenya	1982	Bula East Irrigation Project (ブライースト灌漑計画)	Not signed	
Zambia	1982	State Farm Development Project (カンピロンピロステートファーム開発計画)	Not signed	
Myanmar	1982 - 83	Railway Development Program (鉄道整備計画)		
Burkina Faso	1982 - 83	Sebba - Gorom-Gorom Road Development (セバ・ゴロムゴロム道路建設計画)	Not signed	Coup d'etal
Philippines	1983	Telecommunication Development in Southern Luzon (南部ルソン電気通信網整備計画)		
Thailand	1983	New Railway Link between the Eastern and Northeastern Lines (東線・東北線連絡鉄道新線計画)		
Tanzania	1983	Chalinze - Mkumbala Road Development (チャリンゼ・ムクンバラ道路整備計画)	Not signed	Negotiations fell through on the scope of the study.
Zaire	1983	Contact Mission (開発調査コンタクトミッション)		
Pakistan	1983 - 84	Development of Karachi Airport (カラチ国際空港整備計画)		
Egypt	1983 - 84	Integrated Regional Development of the Red Sea Coastal Area (紅海沿岸総合開発)		
Iran	1983 - 84	Urban Transport and Drainage Development in Teheran (テヘラン都市交通・排水計画)	Not signed	The scope of the study was inadequately defined.
Ecuador	1983 - 84	Topographic Mapping of the Northern Costa Region (コスタ地区北部地図作成事業)	Not signed	The ban on taking the basic data out of the country.
Myanmar	1984	Hlaing River Bridge Construction (ライン河橋建設計画)	Not signed	The proposed bridge site was changed.
Jamaica	1984 - 85	Improvement of the Educational Television Network (教育テレビ放送網拡充計画)	Not signed	The request lacked a clear perspective, and the institutional arrangement to manage the proposed project was judged inadequate.

Malaysia	1985	Underground Water Resource Development in Sarawak (サラワク州地下水開発計画)	Not signed	Australian Government is cooperating on part of the proposed plan.
Colombia	1985	Bolivar Road Construction (ボリバル道路建設計画)	Not signed	The proposed road passes near the natural park, and the Colombian Government asked for the addition of environmental assessment.
China	1986	Integrated Urban Transport Development in Beijing (北京市総合都市交通計画)	Not signed	Negotiations fell through on the cost sharing of the O/D survey and others.
Madagascar	1986	Fianarantsoa Agricultural Development Project (フィアナランツォア農業開発計画)	After S/W, suspended	
Colombia	1986	Agricultural Rehabilitation in Northern Tolima (トリマ県北部農業復興計画)	Not signed	
China	1987	Integrated Urban Transport Development in Guangzhou (広州市総合都市交通計画)	Not signed	Negotiations fell through on the cost sharing of the O/D survey and others.
Philippines	1987	Infanta - Real Urban Transport Infrastructure Development (インファンタ・リアル都市開発交通施設整備計画)	Signed	F/S on the road was financed by ADB. Part of the proposed plan was taken over by another study (Real Urban Development Plan)
Mexico	1987	Long-term Telecommunication Development Program (電気通信拡充長期計画)	Not signed	Negotiations fell through on the scope of the study.
Ghana	1987	Rehabilitation of Irrigation Systems (アステュアレ地区灌漑施設修復計画)	Not signed	
Egypt	1988	Topographic Mapping of the Eastern Part of the Nile Delta (ナイルデルタ東部地形図作成)	Not signed	The project site was subsequently changed, and it was banned to take out the data out of the country.
Iran	1989	Development of a New International Airport in Teheran (テヘラン新国際空港整備計画)	Not signed	The problem of meeting the implementation schedule proposed by the Iranian Government
Iraq	1990	Improvement of Road Traffic Safety Facilities in Bagdad (バクダッド道路交通安全施設改良計画)	Not signed	Gulf War
Chile	1990	Air Pollution Control Plan in Santiago (サンチャゴ市大気汚染対策計画)	Not signed	Financed by the World Bank

## II. SUMMARY TABLES (701 Studies)

# PROJECT SUMMARY (D/D)

ASO BGD/S 401/77

Compiled Mar. 1990

<b>2.NAME OF STUDY</b>	Establishment of Railway Carriage and Wagon Manufacturing Plant	Parbatipur in Town, Dinajpur District																							
<b>3.SECTOR</b>	Transportation/Railway	<b>2.PROJECT COST</b>				(Description)  (FY 1991 Overseas Survey) From July through September 1987, Bangladesh was hit by a flood, the severest one in 40 years. As a result, railway routes were disrupted in many places and cut at more than 300 sections. Although efforts were made for the restoration, damages were caused again in 1991 by a cyclone. Under such circumstances, this project is now in suspension.  No aid is given to this sector by the World Bank and the other donor agencies, because this sector holds problems in management.

3.SECTOR	Transportation/Port			1) 9,619	3,180	(Description) The government is preparing a request for a yen loan. The Planning Commission of the Government of Bangladesh instructed BIWTA to prepare a project paper for the combination of Cargo Handling Facilities and Container Terminal Projects in April 1991. The request for the OECF Loan of FY1992 of GOJ has been submitted to GOJ by GOB at the end of October 1991.  As of Mar. 1993: The Government of Bangladesh has decided to implement the Development Project of Dhaka Port, combining this project and the Development Project of Container Terminal at Dhaka-Narayanganj Port. The OECF carried out a project formation promoting survey during Sep.- Nov., 1992, dispatched an appraisal mission and agreed on the minutes of E/S in Dec. 1992. L/A is in preparation.  (FY 1992 Overseas Survey) Waiting for the answer.

2.NAME OF STUDY Water Drainage System Improvement Project in Dhaka City		Dhaka City																									
3.SECTOR Social Infrastructures/River & Erosion Control		3.CONTENTES OF MAJOR PROJECT(S)		(Description) The updating study of this study was conducted after the record maximum floods of 1988 floods (70 year frequency). A portion of the urgent project which was proposed by the updating study is being implemented by the JICA grant aid from fiscal year 1990 to 1992 (one pump station and drainage channel improvement of 4.1 km).  (FY1991 Overseas Survey) National wide flood policy study was conducted by the international organization and each donors. The east part of Dhaka City was assigned to Japan, and the western part was assigned to ADB. The project of the eastern part is called FAP8A and is scheduled to be completed by May 1992. The project of the western part is called FAP8B. The L/A was signed for the rehabilitation of dike, improvement of drainage channel in the city, and construction of pumping station.  (FY1992 Overseas Survey) Waiting for the answer.																							
4.REFERENCE NO.		- Dike: H=6m, total length=4,800m

(FY1991 Overseas Survey) The economic viability of large-scale pump irrigation schemes are increasingly considered doubtful vis-a-vis the country's vulnerability to frequent floods. Other agricultural projects under implementation elsewhere are encountering the difficulty of purchasing land for irrigation development. The Government of Bangladesh thus withdrew the OECF application for the proposed project.

<b>10.STUDY TEAM</b>	No.of Members 12 Period Jul.1987-Jun.1988(11 months)	<b>5.technical transfer</b>		Conditions and Development Impacts: The project will increase the rice production in the whole project areas from 58,000 ton/year to 303,000 ton/year, which is about 4.9 times as much as the present situation. This is caused by all-year-round irrigation and improvement of farming technology. Apart from this, wheats, vegetables and sugar canes will be improved in their production amount. These production increase results in the improvement of typical farmers' (farming scale, 1.7 ha) income from 21,000 Tak/year of without-project case to 58,000 Tak/year of with-project case, which is about 2.76 times.		<b>2.MAJOR REASONS FOR PRESENT STATUS</b>

<b>5.TYPE OF STUDY</b>	M/P	The Model Rural Development Project for Homna and Daudkandi Upazilas is aimed to increase employment opportunities and incomes of rural poors through expanded production in agriculture, inland fisheries and rural industries. For this end, the Project constructs the following infrastructures and undertakes measures for strengthening and modernization of cooperatives. (1) UCCA related works - UCCA building 2 nos - Agriculture Modernization Center 2 nos - Inland Fish Center 2 nos - Godown cum Community Center 143 nos (2) Infrastructure development - Re-excavation of irrigation canal 143 km - Low lift pump 341 nos - Feeder road A 18 km - Rural road 83 km - Growth center 8 nos - Fish pond improvement 4500 nos - School improvement 31 nos - Drinking water supply 676 nos The Project will be implemented in three stages. The total cost is estimated at 6,253 million Taka, of which 1,630 million Taka is appropriated for the first stage priority project.

<b>7.OBJECTIVES OF STUDY</b>	To formulate an Integrated Agricultural Development plan for the object area and to assess its technical soundness and economic viability.	<b>Conditions and Development Impacts:</b>			<b>2.MAJOR REASONS FOR PRESENT STATUS</b>					
<b>8.DATE OF S/W</b>	Jul.1986	Condition: Self-sufficiency in basic foods and improvement of income of farmers Deterioration of imbalanced social welfare among regions in the country Basic agricultural development concept is the integration in development. Development of model areas Economic benefit is assessed only on the irrigation projects.  Benefits and impacts: Rice production in Thanqmachhu and Masandqaza area will be increased in 2.9 (1,100tons) times and 8.9 times (400tons) of present production. The land and labor productivity will be increased to about 3 times of present levels. Improvement of marketing of agri. products and inputs as well as informations and social welfare will be expected by construction of feeder road. Development model effects will be expanded smoothly by the road.  * EIRR 1) is for Tangmachhu and 2) is for Masandqaza.

## PROJECT SUMMARY (Other)

ASO BRN/S 601/83

Compiled Mar.1986

Revised Mar.1992

I. OUTLINE OF STUDY		II. SUMMARY OF STUDY RESULTS			III. PRESENT STATUS OF STUDY RESULTS	
1.COUNTRY	Brunei	1.SITE OR AREA			1.PRESENT STATUS	<input type="checkbox"/> In Progress or In Use <input type="checkbox"/> Delayed <input checked="" type="checkbox"/> Discontinued
2.NAME OF STUDY Improvement of Brunei Government Printing Department		2.PROJECT COST			(Description) (FY1991 Overseas Survey) The JICA report did not include the provision of new buildings but recommended that the existing building be modified. This recommendation was not taken up because any modifications would have put the printing section out of action for a year. Discussions were held with the Ministries of Development and of Finance at that time and expansion plans for the buildings and equipment were approved, and in due course implemented. Current volume of production exceeded the projections of the JICA report by about 3-4 times, and the market value of printing undertaken by the Dept. increased from between B\$3-4 million to B\$9 million. The floor space roughly tripled and the Dept. currently employs 300 persons. Since the JICA study, some 20 employees (mainly operational and supervising staff) have been sent to Germany and the United Kingdom for training in factories or to take up relevant professional courses for instructors. The Dept. now has its own in-plant training program in printing skills. In view of the countries where the staff were sent for training, most of the machinery and equipment currently used are from the European countries. The Printing Dept. wants to keep alive the cooperation with JICA, both technical and financial. The Director of the Dept. would like to run a proper training school to produce skilled workers in printing, not only to service the public sector but also the private sector where most of the workers are currently expatriates. This is one of the possible areas for future JICA assistance.	
3.SECTOR Social Infrastructures/Architecture & Housing		Total Cost    Local Cost    Foreign Cost (US\$1,000)            1)            2,373 (US\$1=232.2 yen)    2)				
4.REFERENCE NO.		3.CONTENTENTS OF MAJOR PROJECT(S) The Government Printing Dept. is unable to print the publications of the various Ministries which have been increasing rapidly due to the imminent Independence. The study suggested measures to improve the operation of the Dept.				
5.TYPE OF STUDY Other		4.CONDITIONS AND DEVELOPMENT IMPACTS The project will expand the capacity and raise the efficiency of the Government Printing Dept., and contribute to the skill upgrading of manpower.

ASO BRN/S 101/85

Compiled Mar.1988  
Revised Mar.1993

I. OUTLINE OF STUDY		II. SUMMARY OF STUDY RESULTS			III. PRESENT STATUS OF STUDY RESULTS							
1.COUNTRY	Brunei	1.SITE OR AREA	Urban area and its outskirts		1.PRESENT STATUS	<input type="checkbox"/> In Progress or In Use <input checked="" type="checkbox"/> Delayed <input type="checkbox"/> Discontinued						
2.NAME OF STUDY	Public Transport System in Negara Brunei Darussalam	2.PROJECT COST	Total Cost	Local Cost	Foreign Cost	(Description) Since the completion of the JICA study, no specific action has been taken. The pace of motorization has been very rapid in the country, and the need to upgrade the country's public transportation system will intensify before long.  (FY1991 Overseas Survey) The Land Transport Dept. submitted the Report of the Master Plan Study to the Ministry of Communications with a recommendation that suggested feasibility studies be undertaken in phases, starting from the urban areas like Bandar Seri Begawan and then to other outlying areas. No definite decision has been made to date.  (FY1992 Overseas Survey) No additional information.						
3.SECTOR	Transportation/General	(US\$1,000)	1) 72,900									
4.REFERENCE NO.		B\$1=US\$0.48	2)									
5.TYPE OF STUDY	M/P	3.CONTENTS OF MAJOR PROJECT(S)										
6.COUNTERPART AGENCY	Land Transport Dept.	1. Improvement Plan of Public Bus System - Purchase 235 new buses - Strengthen bus network and its operation - Improve bus terminals, bus stops, operation offices and workshops 2. Improvement Plan of Taxi System - Construction of taxi stations - Introduction of radio equipped taxis 3. Relevant Improvement Plan - Improvement of arterial road network - Introduction of grade separated intersections - Improvement of traffic control system										
7.OBJECTIVES OF STUDY	Preparation of a Master Plan for the improvement and an intermediate programme of the Public Transport System	4.CONDITIONS AND DEVELOPMENT IMPACTS										
8.DATE OF S/W	Mar.1984	1. Future population and GDP in 1995 were estimated as the basic conditions of future traffic forecast. 2. The types of benefits such as the savings of vehicle operating costs and passenger's time costs are applied. 3. The Economic IRR of the period is assumed 30.7% during the period of 20 years after completion of the project. 4. The Financial IRR of corporation for the public bus operation is assumed only 2.0%, therefore, Government financial supports are necessary.

2.NAME OF STUDY	Sanko Heigen Ryutokyo Model Area Agricultural Development Project	2.PROJECT COST					
3.SECTOR	Agriculture/General	3.CONTENTS OF MAJOR PROJECT(S)		(Description) (FY1991 Overseas Survey) The study result has incorporated in the provinces 8.5 Plan with planned project budget of 3.47 bil. yuan. In Jan.92, the National Water Supply Dept. decided to provide a financial support to the project. A request has been made to the National Planning Committee for the utilization of foreign fund, and presently in process toward ratification. (FY1992 Overseas Survey) The entire plan of Sanko Heigen Development Project was designed between 1974 and 1977. Rehabilitation projects of five rivers at the Sanko Heigen are under way. About a half of the construction work was completed with the financial support of the World Bank and the local funds. The lower parts of the river has been improved. Construction of the Ryutokyo dam is necessary to prevent flood in the area of Ryutokyo. Therefore, a request for the total amount of investment of 3.47 billion yuan was made to the National Planning Committee. The National Planning Committee approved the implementation of the project with budget of 3.45 billion yuan in Oct., 1992. The foreign funds can be utilized to finance the project if the project is implemented after 1995. The Local Water Supply Department plans to send a mission to Japan for the negotiation of Japan's Grant Aid in Feb., 1993.			
4.REFERENCE NO.		- Irrigation Area : 46,170 ha - Filledam : Crest 1,478,000 cu.m - Diversion Weir : 2 places (Wanq Jin Shan 75m, Tou Dao Crest 45m) - River Improvement : 99 km - Drainage Construction : 158.8 km - Irrigation Construction : 172.3 km - Road Construction : 137 km - Farm Land Improvement : 46,170 ha * Implementation period below is 2 years for design and 10 years for construction.

PRESENT STATUS	<input checked="" type="checkbox"/> Completed or in Progress <input type="checkbox"/> Promoting <input checked="" type="checkbox"/> Completed <input type="checkbox"/> Implementing <input type="checkbox"/> Processing <input type="checkbox"/> Delayed or Suspended <input type="checkbox"/> Discontinued or Cancelled	
2. NAME OF STUDY	Basic Plan on the Sanjiang Plain Agricultural Experiment Station	2. PROJECT COST (US\$1,000)	1) Total Cost: 8,000	2) Local Cost: 3,000	3) Foreign Cost: 5,000			
3. SECTOR	Agriculture/General	3. CONTENTS OF MAJOR PROJECT(S)	Following researches will be conducted to get basic technical data for agricultural development in San Jiang Plain 1. Research on breeding and cultivation of cold-proof seeds 2. Research on farm land improvement in a cold area with low humidity					
4. REFERENCE NO.		5. TYPE OF STUDY					F/S	
6. COUNTERPART AGENCY	Committee on Science and Technology, Hei Long Jiang Province	7. OBJECTIVES OF STUDY	(Description) (FY1992 Overseas Survey) After the completion of (D/D) of basic planning in Mar.1985, seven long-term experts and some dozens of short-term experts were dispatched as technical cooperation. Field improvement work, setting up of machineries and equipments were completed. The basic study on agriculture in a cold area was started in September 1986 and completed in March 1993. The Chinese side hopes to extend the technical cooperation for this project.					
8. DATE OF S/W	Aug.1984	9. CONSULTANT(S)						Agricultural Development Consultants Association
10. STUDY TEAM	No. of Members: 9 Period: Sep.1984-Mar.1985 (7 months)	4. FEASIBILITY AND ITS ASSUMPTIONS						Feasibility: Yes/No EIRR1) FIRR1) EIRR2) FIRR2) EIRR3) FIRR3)
11. ASSOCIATED AND/OR SUBCONTRACTED STUDY		5. TECHNICAL TRANSFER						Conditions and Development Impacts: Until recently Chinese way of research was inflexible because of rigidity of coverage by each ministry, therefore there was no idea of integrating irrigation and agricultural projects. This kind of integrated experiment stations started for the purpose of development of San Jiang Plain is meaningful since it indicates perspective of Chinese experiment station. This is also indispensable to implement agricultural development in San Jiang Plain smoothly.

The amount of cargo for the year of 1990 is estimated as 1,660,000 tons.  [Development Impacts] 1. Direct benefits 1) To save the cost of waiting time.; 2) To save the time of cargo transportation; 3) To save the cost of sea transportation due to an increase in ship size resulting from the port widening.; 4) To save the cost of transportation of coal, containers, and building materials by changing from land transportation to sea transportation.  2. Indirect benefits 1) Promotion of industrial development in the eastern area of Shenzhen City 2) Promotion of the urban development of Yantian 3) Increase of the job opportunities 4) Promotion of economic development in Huanan

1.COUNTRY	China	1.SITE OR AREA	Tianjin City		1.PRESENT STATUS	<input checked="" type="checkbox"/> In Progress or In Use <input type="checkbox"/> Delayed <input type="checkbox"/> Discontinued
2.NAME OF STUDY	Groundwater Development Project in Tianjin City	2.PROJECT COST	Total Cost	Local Cost	Foreign Cost	(Description) The Government included the D/D on ground water development in the request for the Third Yen Credit (1990 - 1994), but has been unsuccessful.  (FY 1991 Overseas Survey) Due to a city's own project, the problem of water supply in Tianjin for both the civil life and industrial development has basically been solved. Accordingly there is no planned project based on the study, the studied areas still having a role as potential water resources for future urban and industrial development.
3.SECTOR	Social Infrastructures/Water Resource Development	(US\$1,000)	1) 32,300

10. STUDY TEAM	No. of Members 11 Period Oct. 1987-Mar. 1989 (18 months)	4. CONDITIONS AND DEVELOPMENT IMPACTS	Development Impacts: The Government of China attaches great importance to animal husbandry in the Seventh 5 Year National Development Plan. Therefore, it is expected that the effects by this development plan will spread widely in the surrounding areas which are identified as the typical areas for livestock farming development in the northeastern part of China. Moreover, it is expected that average income of rural population will be increased, and their living conditions will be improved through the livestock farming development.

3.SECTOR	Animal Husbandry/Animal Husbandry		(US\$1,000)	7,208	3,796	3,412	
4.REFERENCE NO.		3.CONTENTS OF MAJOR PROJECT(S)	1) US\$1=3.85Yuan in July,1988 2) 3)				(Description) (FY 1991 Overseas Survey) A research cooperation (study on production technology of beef cattle and feed) as a mini-project based on the results of this Development Study is under way. 3 long-term experts and 7 short-term experts have been dispatched. Main items of the study are 1) improvement of beef cattle breed and breeding management and 2) improvement of a grassland. The following construction works were completed with finance of the local funds: an experiment center with 30 rooms, 2 breeding farms (200sq.m), 6 breeding farms (1200sq.m), an artificial insemination facility (40sq.m), offices and a dining room (540sq.m). The Chinese side plans to execute the following projects to widespread among farm houses the satisfactory results obtained by this study. 1) Establishment of a company grouped with beef cattle production firms, 2) Establishment of Technical Service Center, 3) Construction of basic facilities, 4) Establishment of efficient and scientific beef cattle production system The Chinese side reduced cost of investment in basic facilities from 68.39 million yuan suggested by the Development Study to 42.05 million yuan. A half of the investment cost (21.025 million yuan) will be requested to the Japan's Grant Aid.

2.NAME OF STUDY Construction Projects of the Three Ports		1.Port of Qiuhuandao; 2.Port of Lianyungang; and 3.Port of Shijiu					
3.SECTOR Transportation/Port		2.PROJECT COST		Total Cost	Local Cost	Foreign Cost	(Description) (FY1992 Overseas Survey) The Phase 2 construction of the three ports (Qinhuandao, Lianyung, and Shijiu) is the subject of this study. Construction of the Phase 1 at all three ports was completed in the past. The study has already been completed by the Chinese side, and the study was incorporated in the 7th Five Year Plan and requested to the OECF's 3rd Yen Credit Loan. Oct. 1991 OECF loan agreement signed (2,506 million yen) for the Shihjiu Port construction Phase II Major components: 3 berths (15000ton-class), 2 berths (10000ton-class), etc. Oct. 1992 OECF loan agreement signed (5,900 million yen) for Phase 1 of the Lianyung port Major components: 6 berths, port facilities, etc. 1) Shihjiu Port Extension of the wharf (780m) was completed. Construction of the breakwater was completed in 1990. 5 berths are scheduled to be completed in 1995. 2) Qinhuandao Port The entire plan incorporated in the long-term port development plan was approved in Hebei and the Dept. of Traffic.

2. NAME OF STUDY	Integrated Agricultural Infrastructure Development in Dong Ting Lake Area in Hunan Province	Northern part of Hunan Province (right bank of Yangzi River middle basin)					
3. SECTOR	Agriculture/General	2. PROJECT COST		Total Cost	Local Cost	(Description) (FY1991 Overseas Survey) In 1991 a request for a Japanese Grant Aid was made by the Chinese Government. Out of the total project budget of 2.55 billion yen, 1.2 billion yen is expected to be financed by the Grant Aid and the remaining by domestic funds.  (FY1992 Overseas Survey) The Chinese side is executing the following projects by the local funds and hopes to execute the new pump station project in the Nan-da-ti Area.  1) Nan-da-ti Area - The dike improvement work is in progress. - The repair of drainage facilities was completed. (89 places) - The drainage construction plan was modified in order to reduce the cost of constructing substations.  2) Shi-ji-hu-ti Area - Construction of the electric-transmission facilities was completed. - Construction of irrigation canal & farm land is in progress. - The drainage work was completed. (155km)
