## FORM OF PRESENTATION AND COMMITMENT LETTER

## PRESENTATION AND COMMITMENT LETTER

 TO: Gentlemen,
 Contracting Committee of the Centro de Rehabilitación de Manabí (CRM),
 Portoviejo, Manabi Province,
 The Republic of Ecuador

#### REF.: PRESENTATION AND COMMITMENT LETTER

The subscribed

1.

(Name of the Legal or Sole Representative)

Representative of \_\_\_\_\_

(Name of the Firm or Association Constituted)

Domiciled in \_\_\_\_

interested to participate in the Tendering No. \_\_\_\_\_, and presents the required documentation, according to the instructions contained in the Tender Documents received from CRM, in order to participate in the Tendering for the Supply and Installation of Mechanical and Electrical Equipment for Severino Pumping Station, Conguillo Inlet and Poza Honda Inlet (Contract Package-3) of the Water Transbasin Project for Chone-Portoviejo River Basins.

The subscribed representative, acting for and on behalf of

(Denomination of the Firm or Association)

a. Declared to have thourougly examined the Tender documents, and accepts to obey to the requirements and other conditions of these documents.

- b. Guarantees the truthfulness and accuracy of all the declarations and answers done in the attached documents.,
- c. Authorizes CRM or to whom it may delegate, to carry out investigations to prove the truthfulness of the declarations and documents submitted and for obtaining explanations and information about the technical and economical conditions of this Firm or Association.
- d. Accepts unconditionally CRM's decision about the Tendering and waives to any claim, as tenderer when submitting this tender and in case to result as granted will sign the Contract in the date when the term is due for the revision of the report provided in the Law presenting for the celebration of the Contract the Bonds required by Law.

- e. Waives expressly the right to utilize the diplomatic ways, for any matter related to the Tendering.
- f. Besides manifests that has visited the Project sites and that has verified the natural conditions, the existing access roads, and the other factors that could influence the costs of the tender, and, that knows and becomes subject to the prevailing Laws of Ecuador.

The address and domicile of the tenderer in Ecuador, for matters related with this tender, to which CRM can send its correspondence, is as follows:

In case of an Association, include the following paragraphs:

Address: Postal: Cable:

Telex:

Fax: Telephone:

The Association that presents the documentation attached herewith is composed of the following firms:

a.

õ

I

b. с.

d.

Accepts that the responsibility of each one of the member Firms of the Association will be indivisible and solidary, and is subject to the prevailing Laws of Ecuador.

#### 2. FORM OF TENDER BOND

#### **TENDER BOND**

#### WHEREAS

of

with legal domicile in \_\_\_\_\_\_ (from hereinafter called "The Bank") has committed in an obligation with the Centro de Rehabilitación de Manabí (from hereinafter called "CRM") for the amount of \_\_\_\_\_\_ whose payment in due form will be made to CRM by The Bank to its successors or cesionaries, in accordance with this document.

Issued and signed with the seal of this Bank on the \_\_\_\_\_\_ of \_\_\_\_\_\_ of \_\_\_\_\_\_ of \_\_\_\_\_\_

The present obligation is subject to the following conditions:

- 1. If the tenderer withdraws its tender during the stipulated validity period in the Tender Form; or
- 2. If the tenderer, after being notified of the acceptance of his tender by CRM during the validity period of the same.
  - a) Does not sign the contract
  - b) Does not provide the performance bond, in accordance with the instructions to the denderers.

We, the subscribed, are obliged to pay to CRM up to the total amount indicated on delivery of its first requirement by writing, without CRM having to justify such requirement: CRM will have to notify that the amount required is the amount owed, by reason of one or both of the conditions specified before and will indicate expressly the condition that has been complied. This bond will stay in force up to thirty (30) days after the validity period of the Tender, and all requirement related to it must be received by the Bank at the latest on that date.

#### FORM OF SUMMARY OF THE TENDER

#### SUMMARY OF THE TENDER

 TO: Gentlemen, Contracting Committee of the Centro de Rehabilitación de Manabí (CRM), Portoviejo, Manabi Province, The Republic of Ecuador

#### **REF.:** SUMMARY OF THE TENDER

The subscribed \_\_\_\_\_

3.

**1** 

(Name of the Legal or Sole Representative)

Legal Representative of \_\_\_\_\_

(Name of the Firm or Association Constituted)

plus \_\_\_\_\_ (indicate the type of currency).

The period of completion of the works will be of \_\_\_\_\_ months, from the day that the commencement order is issued.

If our tender is accepted, we will contract a bond for an amount not less than <u>5%</u> of the total price of the Contract so to assure the performance of the Contract.

We agree to maintain the validity of this tender for a period of <u>180 calendar days</u> from the date established for the opening of the Envelopes.

The subscribed has verified carefully the figures and information submitted with this tender, and states that CRM will not assume responsibility for any error or omission by the commitments that the tenderer might have acquired for the preparation of the tender.

This tender, jointly with its acceptation by writing included in the awarding notification, constitutes a Obligatory Commitment until the preparation and signing of the Formal Contract.

**Special Notes** 

- (1) The present quantities entered in the Schedules are provisional only. The final quantities of the various items will be established after the selection of support positions had been made on completion of the check survey of the routes.
- (2) Where a nil quantity is shown a rate shall nevertheless be entered.
- (3) The price entered under main support items shall be for the complete structures including jumper cross-arms and jumper insulators if used, anti-climbing guards with gates, danger, circuit, number, aerial number and phase plates, insulator hangers where necessary and all nuts, bolts and washers.
- (4) The price entered under foundations shall include all stub steelwork, concrete, excavation, normal pumping, timbering, reinforcing if required, setting out and use of template.
- (5) All structure extra-over items shall be assuend applicable to complete structures in any type of ground.
- (6) Prices for conductors and overhead earthwires shall include for all mid-span joints and jumpers, etc.
- (7) Prices entered for insulator sets shall include for line clamps, and for extension links (where necessary).
- (8) Maintenance works entered on item 9(c) (E) shall be carried out during maintenance period.

#### 7. <u>SCHEDULE II-A</u>

#### **TENDER PRICE OF MANDATORY SPARE PARTS**

Where one of the tendered prices is for a number of parts the Tenders shall attach hereto a list of such parts.

Notes: (1) Tenderer shall fill up lists for Breakdown of Mandatory Spare Parts, vide Clause I.1.23 of Instructions to Tenderers and GS.10.2 of General Specifications.

- (2) Designate the blank with "NA" or "NIL" where the price to be filled in is not applicable.
- (3) \* denotes J. Yen or US\$ currency. \*\* means both foreign and local currencies for Item 9 (c) only.

 Main Pumps and Valves (Subsection-A) Prices for spare parts as described in Clause A.2.12, A.3.5 and A.4.4.

		<u>Unit Price</u> (*)	<u>Total (FOB)</u> (*)
1. Main	Pumps:		
(1)	Six (6) sets of gland packings or seals for shaft		<u></u>
(2)	Two (2) sets of pump bearings		
(3)	Six (6) sets of gasket of each type		
(4)	A quantity equivalent to 20% of all fasteners, bolts, nuts and washers over 25mm in diameter		
(5)	Two (2) sets of pressure gauges		<del></del>
(6)	Two (2) sets of temperature detectors for pump bearing metal		
(7)	Two (2) sets of temperature detectors for pump bearing oil		generation and an and a state of the state
(8)	Two (2) sets of oil level indicators for pump bearing	<u></u>
