**STUDY ON THE STRATEGIES AND PLANS FOR THE UPGRADING  
OF HEALTH STATUS IN THE REPUBLIC HONDURAS, 1995-2010**

JICA - Ministry of Public Health

**HOUSEHOLD SURVEY**

The household survey contains the following modules:

**Identification and control**

Apply one to each household (sampling unit).

**Module A: Characteristics of dwelling**

Apply in each household.

**Module B: Composition of household**

Apply to each head of household (family) living in the home.

**Module C: Characteristics of household**

Apply to each head of household (family) living in the home.

**Module D: Household income and expenditures**

Apply to each head of household (family) living in the home. In order to earn the trust of the person being interviewed, this module may be applied at the end of the interview.

**Module E: General knowledge patterns and use of health services**

Apply to each head of household (family) living in the home.

Note: when necessary, other persons living in the home can provide answers to modules B, C, D and E.

**Module F: Traditional beliefs and health information**

Apply to each person older than 15 present during the first visit or during subsequent visits if it is necessary to return in order to complete another part of the survey.

**Module G: Patterns in the use of hospital services**

Apply to each member of the household who has sought hospitalization in the two years prior to the date of the survey.

**Module H: Patterns in the use of mobile health care services**  
Apply to each member of the household who has had a severe health problem (and not been hospitalized) in the two years prior to the date of the survey.

**Module I: Patterns in the use of preventative and control services**  
Apply to each member of the household who has received prevention and control health services in the three months prior to the date of the survey.

**Note:** Modules G, H and I depend on the response to Module B. The information collected for these modules for children and persons absent from the household during the three visits can be obtained from third parties.

**B. Composition of household**

To complete Chart B, interview the head of household and all other adults present at the time of the visit. Because the headings of certain columns are very abbreviated, certain questions must be asked in the following manner:

1. **Ethnic background:** Are you Honduran? If the answer is no, enter code 6 (foreign). If the answer is yes, ask "Do you consider yourself as belonging to an ethnic group?" If the answer is yes, ask "Which?" and enter the response. If the answer is no, and the interview is being done in a known indigenous zone, ask, "Aren't you Lenca (for example)?" If the answer is definitely no, or unknown, mark Ladino.
2. **Social security beneficiaries:** If the person is covered by the IHSS or a private insurance policy (individual or through his or her place of employment), enter the corresponding private insurance code.
3. **Hospitalization:** "In the two years preceding this date (the individual may be reminded of the dates of this period), was anyone in your family referred to a hospital or placed in a hospital (that is, spend at least one night in the hospital or give birth in a hospital)?"
4. **Severe health problem:** "In the last two weeks have you (or a member of your family) suffered any health problem that made you wonder if you should seek attention? The problem could be anything you felt was abnormal, such as a cold, diarrhea, an injury, a dental problem or any other problem you may have suffered during this period."
5. **Prevention/Control:** "In the last three months has anyone in your family visited a health center or medical professional for any of the treatments I'm going to mention right now?:"
