II. SUMMARY TABLES (877 Studies)

1. Volume I (289 Studies) 1~289

2. Volume II (316 Studies) 290~605

3. Volume III (272 Studies) 606~877

I. INTRODUCTION

1. Background of Summary Tables

(1) Purpose

Summary Tables are prepared for all study projects which are covered by the follow-up study in FY 1995. The tables give an easy grasp of the various development studies conducted by JICA, including the current status of progress or utilization of their respective results. Tables in this volume are arranged in order by region, country, the FY year of completion and type of study.

(2) Coverage

The follow-up study covers those development studies financed by the overseas technical cooperation budget under the purview of the Social Development Study Department (separated from the Social Development Cooperation Department in July 1, 1989) and the Agriculture, Forestry and Fisheries Development Study Department of Japan International Cooperation Agency (JICA). A number of studies are excluded from coverage: basic design studies and special project studies conducted as part of the grant aid program; studies which were terminated after their preliminary stage of study; and studies which were initiated by the Overseas Technical Cooperation Agency prior to its incorporation to JICA on August 1, 1974.

The total number of studies initiated by the two Departments after August 1 of 1974 and completed by the end of FY 1994 (the end of March 1995) comes to 877 (621 in social development sectors and 256 in agriculture, forestry and fisheries sectors).

(3) Methods of Study

Information for summary tables is collected in the following manners.

- 1) questionnaires to the consulting firms which undertook development studies.
- 2) questionnaires to the counterpart agencies of the recipient countries as undertaken by the JICA overseas office or JOCV coordinators.
- 3) Follow-up studies conducted in the selected recipient countries.
- 4) Follow-up studies initiated by the JICA overseas offices in U.S.A., France

and U.K.

- 5) Follow-up studies conducted by appointed consultants in recipient countries.
- 6) Internal data of JICA.
- 7) Information from related agencies in Japan and overseas.

2. Guide to Summary Tables

(1) Forms of Summary Tables

Three different forms are used for summary tables.

Form A: studies for formulating master plans (M/P), basic studies, and others studies.

Form B: feasibility studies (F/S) and detailed designs (D/D).

Form C: master plan-cum-feasibility studies (M/P+F/S)

Form A, Form B and Form C are respectively divided into three parts as shown below. "I. Outline of Study" gives basic facts and figures of the studies. "II. Summary of Study Results" contains findings, proposals and/or proposed projects of each study.

"III. Present Status of Use of Study Results" in Form A, or "III. Present Status of Studied Project" in Form B and C, shows the current status of progress or utilization of the study's proposals or results after the report was submitted.

(2) Contents of Summary Tables

This section describes each item of information on the summary table according to the numbers shown below.

(Form A)

I. Outline of Study

This section gives basic information of a given study under twelve headings.

I-1. Country

The country is shown by the name listed in the most recent issue (January 1993) of JICA Practical Handbook on Statistics.

I-2. Name of Study

The name of study is taken from the title of its report as listed in Bibliography of JICA Publications.

I-3. Sector

The sector is shown by the following classification employed by JICA Practical Handbook on Statistics.

Sector	Subsector	Sub-subsector
1.Planning & Administration	(1) Development Plan	1) General 2) Integrated Regional Development Plan
	(2) Administration	1) General 2) Public Finance & Banking 3) Environmental Problems 4) Statistics 5) Information & Public Relations
2.Public Works & Utilities	(1) Public Utilities	1) General 2) Water Supply 3) Sewerage 4) Urban Sanitation
	(2) Transportation	1) General 2) Road 3) Land Transportation 4) Railway 5) Marine Transportation & Ships 6) Port 7) Air Transportation & Airport 8) Urban Transportation 9) Meteorology

	(3) Social Infrastructures	1) General 2) River & Erosion Control 3) Water Resource Development 4) Urban Planning & Land Development 5) Architecture & Housing 6) Survey & Mapping
	(4) Communications & Broadcasting	1) General 2) Post 3) Telecommunication 4) Broadcasting
3.Agriculture, Forestry and Fisheries	(1)Agriculture	1) General 2) Sericulture 3) Irrigation, Drainage & Reclamation 4) Agricultural Machinery 5) Agricultural Processing
	(2)Animal Husbandry	1)Animal Husbandry 2) Animal Health 3) Livestock Processing
	(3)Forestry	1) Forestry & Forest Conservation 2) Timber Processing
	(4)Fisheries	1) Fisheries 2) Fish Processing
4.Commerce & Tourism	(1)Tourism	1)General 2)Tourism Infrastructure
5.Others	(1)Others	1)Others

I-4. Reference No.

(At present, there is no entry.)

I-5. Type of Study

Studies are classified into five types as below.

Type of Study	Definition
1. M/P	Studies for formulating master plans
2. M/P+F/S	Studies which comprise M/P and F/S
3. F/S	Feasibility studies
4. D/D	Studies for detailed designs
5. Basic Studies	Studies to provide basic data, such as maps of various types, nautical charts and groundwater surveys, forestry and fishery resource studies, and agricultural verification studies
6. Others	Studies to prepare guidelines, operation manuals and other institutional proposals, including follow-up studies

I-6. Counterpart Agency

An agency of the recipient country which executes or operates the project or the plan proposed by the study.

I-7. Objective of Study

Major objectives of the study

I-8. Date of S/W

The date when the scope of work for the study was signed.

I-9. Consultants

The name of the consulting firm which implemented the study (or the name used at the time of the present follow-up study, if the corporate name was changed after the completion of the study)

I-10 Study Team

This column shows (1) the number of team members participated in the study (overseas and domestic), (2) the duration of the study from the beginning date of the first consulting contract through the terminating date of the final contact (or through the date of the publication of the study report), (3) the number of man-months (total, overseas and domestic man-months).

I-11. Associated and/or Subcontracted Study

Ancillary studies such as topographic mapping and drilling, or studies conducted by local subcontractors.

I-12. Expenditure

The upper figure is the total actual expenditure including a preliminary study and other direct costs to JICA. The lower figure only pertains to the expenditure of the contract with a consulting firm.

II. Summary of Study Results

This section summarizes the results of a given study based on the final report under the following five headings.

II-1. Site or Area

The name of the area covered by the plan formulated, or the projects identified, by the study (including the size of the area, population, and other relevant information).

II-2. Costs of Proposed Plan or Major Projects

Figures indicate total costs (in US dollars) necessary to realize the proposed development plan or projects, with breakdown into the local and foreign currency costs and the appropriate exchange rate. If the proposals contain alternatives or different stages/phases, costs are shown separately.

II-3. Major Project(s) Proposed

Major projects or major features of the plan proposed by the study.

II-4. Conditions and Development Impacts

Major assumption or conditions and anticipated development impacts of the proposed plan or projects.

II-5. Technical Transfer

Technology transfer to counterpart personnel during the conduct of the study.

III. Present Status of Use of Study Results

This section describes the present status of the use of the study report, mainly the present status of the proposed plan or project(s).

III-1. Present Status

This section classifies the present status of study results and/or proposed projects according to the criteria indicated below, followed by a brief description of the present status. If study is classified as "in progress or in use," its description need be as specific as possible.

a. In progress or in use	<p>A study is classified into this category when its results or proposals are satisfactorily utilized in the following manner.</p> <ol style="list-style-type: none"> 1) Based on the proposals, more specific and detailed studies are, or have been, undertaken. Or, the study results are utilized to undertake some development study or planning. 2) Japanese technical cooperation is started on the basis of the proposals or study results. 3) Proposals are incorporated into the development policy or plan of the recipient country. Or, study results are consulted to formulate the development policy or plan. 4) The government of the recipient country is taking some preparatory step to utilize the proposals.
b. Delayed	<p>A study is classified as "delay", when its results or proposals are in one of the following conditions.</p> <ol style="list-style-type: none"> 1) No significant action has been taken by the government of the recipient country to utilize the proposals or results. 2) The government of the recipient country began to act on the proposals, or utilize the results, but the effort was halted for some reason.

c. Discontinued	<p>A study is classified as "discontinued", when its results or proposals are in one of the following conditions.</p> <ol style="list-style-type: none"> 1) The government of the recipient country made an explicit decision not to act on the proposals. 2) The government decided to act on, or utilize, different proposals or results from other sources. 3) A study has been classified as "delay" for the considerable period of time.
-----------------	--

III-2. Major Reasons for Present Status

Major reasons for the present status of the study results, be it "in progress or in use," "delay," or "discontinued."

III-3. Principal Sources of Information

The number indicates the following six different sources of information.

- (1) questionnaires to the consulting firms which conducted the studies
- (2) questionnaires to the counterpart agencies in the recipient countries
- (3) JICA's overseas follow-up studies
- (4) information from OECF
- (5) information from Japanese embassies
- (6) others

(Form B) and (Form C)

I Outline of Study

Same as Form A

II Summary of Study Results

II-1 Same as Form A

II-2 Same as Form A

II-3 Contents of Major Projects

This section describes contents of the projects analyzed by the feasibility study or by the detailed design study, including the period of project implementation.

II-4 Feasibility and Its Assumptions

This section describes the feasibility of the projects, and EIRR and/or FIRR. In case there are some alternative projects or divisions into some stages or phases, EIRR and FIRR should be analyzed on each.

II-5 Same as From A

III Present status of the Project

III-1 Present Status

This section classifies the present status of the proposed project(s), followed by a brief description. The criteria for classification is shown in the table below.

Present Status	Criteria
A. Completed or in progress	
A1. Completed	The proposed development project has been already implemented and in use.
A2. Partially Completed	The proposed development project is partially completed and in use.
A3. Implementing	The implementation of the project is underway.
A4. Processing	The project is at one of the following stages. 1) Tenders have been invited. 2) Financing of the project has been secured.* 3) Following the completion of the JICA feasibility study, the basic design study or some other specific step is being undertaken with bilateral or multilateral financial assistance. 4) For some other reasons, the project concerned is considered highly likely to be implemented in the future.

B. Promoting	The project concerned is at one of the following stages. 1) The government of the recipient country is requesting financial support from international lending organizations and/or foreign governments including Japan. 2) The government of the recipient country has been undertaking the detailed design study or other additional studies subsequent to the JICA feasibility study. 3) The recipient country is otherwise actively promoting the implementation of the project.
C. Delayed or Suspended	The project concerned is at one of the following stages. 1) The government of the recipient country has not taken any specific action after the completion of the JICA study. 2) The government of the recipient country has at one point promoted the proposed project but suspended the effort for some reason.
D. Discontinued or Cancelled	The project concerned is at one of the following stages. 1) The government of the recipient country officially cancelled the proposed project. 2) The government of the recipient country implemented the alternative which was substantially different from the proposal of the JICA study. 3) A study has been classified as "delayed" for the considerable period of time.

*This means either that a loan agreement has been signed, or that the lending has been pledged, or the exchange of note is formally signed,

as in the case of the Japan's yen credit program.

III-2 Same as Form A

III-3 Same as Form A

3. List of Studies (Project List)

The name of the study project is shown in foreign languages(mostly English).

4. List of Cancelled Studies

The list shown those studies which were terminated after preliminary study.

3. List of Studies (Project List)

No.	Region	Code No.	Country	Name of the Study	Type	Year	Sector	Subsector	Status
1	Asia	BGD/S 401/77	Bangladesh	Television Studio Construction Project	D/D	1977	Communications & B	Broadcasting	Completed
2	Asia	BGD/A 301/79	Bangladesh	Narayanganj-Narsingdi Irrigation Project	F/S	1979	Agriculture	(Agriculture in)General	Partially Completed

4. List of Cancelled Studies

4. List of Cancelled Studies

Country	Fyear	Name of Study	S/W	Remarks
Nepal	1975	Tansing Walter Supply (タンセン土木道)	Not signed	Implemented by the Grant Aid Program
Thailand	1975	Walter Pollution Control for Tha chin-Mac Klong Rivers (タチン・マクロン河川公害)	Not signed	Implemented by the assignment of experts, participation of counterparts in the training program on Japan, and the provision of equipment.
Afganistan	1975	Television Network Development (テレビ放送)	Not signed	The basic design study was undertaken for the Grant Aid Program (buildings and equipment for the Kabul Broadcasting Station).
Egypt	1975	Development of Alexandria Port (アレキサンドリア港)	Not signed	Yen credit is being considered (mainly for the alleviation of bottlenecks)
Iran	1975	Teheran-Mashhad express Railway Development (テヘラン-マシャド 高速鉄道計画)	Not signed	JARTS began the FS with financing from the Iranian Government but the study was discontinued in the second year because of the coup d'etat.
Colombia	1976	Forest Development Project (森林造成事業)	Not signed	
Libya	1976-77	Technical Cooperation on Telecommunication (電気通信技術協力)	Not signed	The proposal was to advise on the promotion of telecommunication development in Libya.
Saudi Arabia	1976-77	Rub' al Khali Topographic Mapping Project (ワド・ワハール地測図作成)	Not signed	A short term expert was assigned to advise on specifications. The project was one of the proposals for assisting oil-exporting countries after the oil crisis but subsequently discontinued. Mapping was completed with finance from the Saudi Arabian Government (undertaken by French and German consultants)
Brazil	1977	Vitoria Urban Development (ヴィトリア都市開発計画)		
Pakistan	1978	Development of Flood Forecasting Systems (洪水予警報システム建設計画)		
Myanmar/Thailand	1978-79	Construction of Outdoor Sport Stadium and the Youth Program Center (野外競技場建設計画、青少年福祉センター建設計画)		
India	1978	Agricultural Technical Cooperation (農業協力計画)	Not signed	
Brazil	1978	Fishery Resources Survey (水産資源調査(陸上調査))	Not signed	
Malaysia	1978-79	Water Resource Development in the the Eastern Part of Sabah (サバ州東部水資源開発計画)		
Iran	1978-79	Urban Transport Development in Teheran (テヘラン都市交通)	Not signed	Negotiations fell through on the scope of the study.
Iraq	1979	broadcasting Network Development (放送網整備計画)		
Colombia	1979	Integrated Transport Development in the Cauca Valley (コカバレー谷域総合交通計画)		
United Arab Emirates	1979	Orchard Development ((移殖調査) 果樹園建設計画)	Not signed	
Pakistan	1980	Road Development (道路建設計画)		
Indonesia	1980	Malundi Timber Processing and Marketing Estate Project (マロンド木材加工流通地帯計画)	Not signed	
Indonesia	1980	Assistance for Increased Paddy Production (米増産協力調査)	Not signed	
Indonesia	1980-82	Utilization of Utilized Trees Species (Asahan) (アサハンの未利用樹種利用開発計画)	Not signed	
Philippines	1980-81	Lower Cotabato River Basin Development (コタボト河下流域開発計画)		
Sri Lanka	1981	Rice Barn Oil Mill Project (米のろし油製造計画)	Not signed	
Thailand	1981	Agricultural Cooperation (農業協力調査)	Not signed	
Venezuela	1981-82	Valencia Lake Development (バレンシア湖開発計画)	Not signed	Negotiations fell through on the scope of the study.
Bangladesh	1982	Integrated Development of Dhaka City (ダッカ市総合開発計画)		
Thailand	1982	System Development for the Poverty Eradication Program (貧困撲滅計画システム)		
Thailand	1982	Agricultural Cooperation for Northeastern Thailand (東北の農業協力調査)	Not signed	
Kenya	1982	Bura East Irrigation Project (ブラ東灌漑計画)	Not signed	
Zambia	1982	State Farm Development Project (ステイトファーム開発計画)	Not signed	

Myanmar	1982-83	Railway Development Program (鉄道整備計画)		
Burkina Faso	1982-83	Sebba Goum Goum Road Development (セバゴムゴム道路建設計画)	Not signed	Coup d'etat
Philippines	1983	Telecommunication Development in Southern Luzon (南部ルソン電気伝達整備計画)		
Thailand	1983	New Railway Link between the Eastern and Northeastern Lines (東線・東北線連絡鉄道新線計画)		
Tanzania	1983	Chalinze-Mkumbura Road Development (チャリンゼ・ムクンバラ道路建設計画)	Not signed	Negotiations fell through on the scope of the study.
Zaire	1983	Contact Mission (開発調査コンタクトミッション)		
Pakistan	1983-84	Development of Karachi Airport (カラチ国際空港整備計画)		
Egypt	1983-84	Integrated Regional Development of the Red Sea Coastal Area (紅海沿岸総合開発)		
Iran	1983-84	Urban Transport and Drainage Development in Teheran (テヘラン都市交通・排水計画)	Not signed	The scope of the study was inadequately defined.
Ecuador	1983-84	Topographic Mapping of the Northern Costa Region (コスタ地帯北部地形作成事業)	Not signed	The ban on taking the basic data out of the country.
Myanmar	1984	Hhing River Bridge Construction (ライン河橋建設計画)	Not signed	The proposed bridge site was changed.
Jamaica	1984-85	Improvement of the Educational Television Network (教育テレビ放送網拡充計画)	Not signed	The request lacked a clear perspective, and the institutional arrangement to manage the proposed project was judged inadequate.
Malaysia	1985	Underground Water Resource Development in Sarawak (サラワク州地下水開発計画)	Not signed	Australian Government is cooperating on part of the proposed plan.
Colombia	1985	Bolivar Road Construction (ボリバル道路建設計画)	Not signed	The proposed road passes near the natural park, and the Colombian Government asked for the addition of an environmental assessment.
China	1986	Integrated Urban Transport Development in Beijing (北京市総合都市交通計画)	Not signed	Negotiations fell through on the cost sharing of the OD survey and others.
Madagascar	1986	Fimarantsoa Agricultural Development Project (フィマランソア農業開発計画)	After SW, suspended	
Colombia	1986	Agricultural Rehabilitation in Northern Tolima (トリマ県北部農業復興計画)	Not signed	
China	1987	Integrated Urban Transport Development in Guangzhou (広州市総合都市交通計画)	Not signed	Negotiations fell through on the cost sharing of the OD survey and others.
Philippines	1987	Infanta-Real Urban Transport Infrastructure Development (インファンタ・リアル都市開発交通施設整備計画)	Signed	FS on the road was financed by AIB. Part of the proposed plan was taken over by another study. (Real Urban Development Plan)
Mexico	1987	Long-term Telecommunication Development Program (長遠電気伝達拡充長期計画)	Not signed	Negotiations fell through on the scope of the study.
Ghana	1987	Rehabilitation of Irrigation Systems (アスチュアレ地区灌漑施設復興計画)	Not signed	
Egypt	1988	Topographic Mapping of the Eastern Part of the Nile Delta (ナイルデルタ東部地形作成)	Not signed	The project site was subsequently changed, and it was banned to take out the data out of the country.
Iran	1989	Development of a New International Airport in Teheran (テヘラン新国際空港整備計画)	Not signed	The problem of meeting the implementation schedule proposed by the Iranian Government.
Iraq	1990	Improvement of Road Traffic Safety Facilities in Bagdad (バグダッド道路交通安全施設改良計画)	Not signed	Gulf War.
Chile	1990	Air Pollution Control Plan in Santiago (サンチャゴ市大気汚染対策計画)	Not signed	Financed by the World Bank.
Indonesia	1994	Bilah Barumun Irrigation Project (ビラバルムン灌漑計画)	Not signed	Situation was much different from the statement of the request.

1.COUNTRY	Bangladesh	1.SITE OR AREA			I.PRESENT STATUS	<input checked="" type="checkbox"/> Completed or in Progress <input type="checkbox"/> Promoting <input checked="" type="checkbox"/> Completed <input type="checkbox"/> Partially Completed <input type="checkbox"/> Delayed or Suspended <input type="checkbox"/> Implementing <input type="checkbox"/> Processing <input type="checkbox"/> Discontinued or Cancelled						
2.NAME OF STUDY		Road between Dhaka and Chittagong										
Meghna-Gumti Bridges Construction Project		2.PROJECT COST			(Description) (1)Meghna Bridge: Length 930m Apr.1985 E/N of grant aid signed (191 million yen) Oct.1986 E/N of grant aid signed (1,195 million yen) Aug.1987 E/N of grant aid signed (1,986 million yen) Sep.1988 E/N of grant aid signed (1,999 million yen) Jul.1989 E/N of grant aid signed (1,936 million yen) Jun.1990 E/N of grant aid signed (841 million yen) (FY1991 Overseas Survey) 1)Meghna Bridge: Mar.1987-Feb.1991 Construction works Feb.1991 Construction completed May.1991 Opening Ceremony was held. 2)Meghna-Gumti Bridge 1991 E/N of grant aid signed (8,203 million yen) Mar.1993 Under construction (FY1993 Overseas Survey) The Feasibility Study conducted from March to November, 1984 was very useful from the technical points of view and with good timing. In future, it will be requested more involvement of local Technicians/Engineers to learn from Japanese Experts and more training in Japan. (FY1994 Domestic Survey) Nov.1994 the opening Ceremony was held.							
							Total Cost	Local Cost	Foreign Cost			
							66,000	37,000				
3.SECTOR		3.CONTENT'S OF MAJOR PROJECT(S)										
Transportation/Road		The Meghna River (about 830m wide) and the Meghna-Gumti River (about 1,360m wide) cross the Dhaka-Chittagong Highway about 25km and 40km east of Dhaka, respectively, where the Roads and Highways Department (RHD) provides mechanised ferry services. As the waiting time of vehicles for the ferries has increased, RHD has expanded the ferry arrangements to accommodate the increased traffic demand. However the necessity of ferry improvements will arise with the continuously increasing traffic. It is urgent to construct two bridges across these rivers which will complete the 380km long Aricha-Dhaka-Chittagong Highway, and the Dhaka-Chittagong Highway will be connected with the land transportation. The bridges are Meghna Bridge 930m Meghna Gumti Bridge 1,480m respectively.										
4.REFERENCE NO.		4.FEASIBILITY AND ITS ASSUMPTIONS Feasibility: Yes EIRR1) 12.40 FRR1) EIRR2) FRR2) EIRR3) FRR3)										
5.TYPE OF STUDY							Conditions and Development Impacts: On the assumption that the two bridges are constructed. By construction of these two bridges, people will be able to make a day's trip between Dhaka and Chittagong which is the second largest city of the Bangladesh with an international seaport.					
6.COUNTERPART AGENCY										5.TECHNICAL TRANSFER 1)Overseas training for 2 counterparts 2)Employment of local consultants (for the D/D) 3)Supply of equipment and guidance(Boring machine for geological investigation)

6.COUNTERPART AGENCY	Bangladesh Railway	3.CONTENTES OF MAJOR PROJECT(S)				(Description) (FY1991 Overseas Survey) From July through September 1987, Bangladesh was hit by a flood, the severest one in 40 years. As a result, railway routes were disrupted in many places and cut at more than 300 sections. Although efforts were made for the restoration, damages were caused again in 1991 by a cyclone. Under such circumstances, this project is now in suspension. No aid is given to this sector by the World Bank and the other donor agencies, because this sector holds problems in management. (FY1993 Overseas Survey) Suspended/Discontinued due to the changes of development policy in terms of the priority and the problems of financing. The transferred technology was appropriate and useful. (FY1994 Domestic Survey) No information.		
7.OBJECTIVES OF STUDY	F/S for a passenger and freight car manufacturing workshop for Bangladesh Railway	1.Manufacturing workshop for passenger and freight cars (annual production): Total area---239,000 sq.m Passenger cars---120 Freight cars---900 2.Administrative offices and other necessary facilities: Houses for personnel---1,300

PRESENT STATUS	<input checked="" type="checkbox"/> Completed or in Progress <input type="checkbox"/> Promoting <input type="checkbox"/> Completed <input type="checkbox"/> Partially Completed <input type="checkbox"/> Delayed or Suspended <input type="checkbox"/> Implementing <input checked="" type="checkbox"/> Processing <input type="checkbox"/> Discontinued or Cancelled		
2. NAME OF STUDY Development Project of Dhaka and Narayanganj Ports		Ports at Dhaka and Narayanganj							
3. SECTOR Transportation/Port		2. PROJECT COST (US\$1,000)		Foreign Cost		(Description) The government is preparing a request for a yen loan. The Planning Commission of the Government of Bangladesh instructed BIWTA to prepare a project paper for the combination of Cargo Handling Facilities and Container Terminal Projects in April 1991. The request for the OECF Loan of FY1992 of GOJ has been submitted to GOJ by GOB at the end of October 1991. As of Mar. 1994: The Government of Bangladesh has decided to implement the Development Project of Dhaka Port, combining this project and the Development Project of Container Terminal at Dhaka-Narayanganj Port. The OECF carried out a project formation promoting survey during Sep.- Nov., 1992, dispatched an appraisal mission and agreed on the minutes of E/S in Dec. 1992. OECF signed L/A on Dhaka Port Development Project (179 million yen, E/S). By this loan, review of the previous study, D/D and cost estimation are to be conducted. Completed to conclude an agreement with a contractor based on D/D. The ground was acquired. (FY1992 Overseas Survey) Waiting for the answer. (FY 1993 Domestic Survey) Nov., 1992, dispatched an appraisal mission and agreed on minutes of E/S in Dec. 1992. Then, L/A was included. As of Dec. 1993: Proposals for the E/S will be submitted to BIWTA FROM CONSULTANTS BY THE END OF Jan. 1994 based on the announcement of the tender schedule from BIWTA. (FY1993 Overseas Survey) Phase 1 is now implementing by the fund from OECF ; - Oct. 1994 to Jul. 1995-D/D for container wharf will be made with a budget of 211 million Yen (foreign currency 1.79 million Yen). - Aug. 1995 to Jun. 1998-Construction will be carried out with a budget of 8,304 million Yen (foreign currency 7,092 million Yen). Top priority is given by Government, following the world trend to the containerization. The transferred technology was appropriate and useful with the good timing. (FY1994 Domestic Survey)(FY1995 Domestic Survey) No additional information.
