

Part B

Appendix 2.1 Basic Data on Nepal

App. 2.1-1 Gross Domestic Product (GDP)

(Unit: Rs.Million)

Item	1991/92	1992/93	1993/94	1994/95*	1995/96**
Agriculture, Fisheries and Forestry	65,156	70,090	80,589	85,442	96,300
Mining & Quarrying	795	921	990	1,068	1,231
Manufacturing	12,822	14,618	17,861	19,559	22,287
- Modern Manufacturing	10,367	-	-	-	-
- Cottage Manufacturing	2,455	-	-	-	-
Electricity, Gas & Water	1,238	1,437	2,107	2,806	3,307
Construction	14,769	17,318	19,621	22,423	25,855
Trade, Restaurants & Hotels	16,563	19,260	22,497	25,165	29,457
- Trade	14,201	15,793	18,598	20,682	24,073
- Restaurants & Hotels	2,363	3,467	3,899	4,483	5,384
Transport, Communications & Storages	8,558	10,819	12,625	14,203	16,760
Financial & Real Estate	13,241	15,684	18,122	20,478	23,400
Community & Social Services	11,788	15,115	17,128	18,994	20,846
Nominal GDP	144,931	165,262	191,540	210,138	239,443
- Agriculture (%)	45.0	42.4	42.1	40.7	40.2
- Non-agriculture (%)	55.0	57.6	57.9	59.3	59.8
Annual Growth Rate (%)	24.8	14.0	15.9	9.7	13.9
- Agriculture	17.7	7.6	15.0	6.0	12.7
- Non-agriculture	31.3	19.3	16.6	12.4	14.8
GDP Deflator (1984/85=100)	231.77	255.88	274.86	293.10	314.66
- Agriculture (%)	232.12	251.25	268.48	285.60	305.37
- Non-agriculture (%)	231.49	259.40	279.69	298.47	321.24
Real GDP (1984/85 Constant Prices)	62,531	64,586	69,686	71,695	76,095
- Agriculture (%)	44.9	43.2	43.1	41.7	41.4
- Non-agriculture (%)	55.1	56.8	56.9	58.3	58.6
Annual Growth Rate (%)	4.6	3.3	7.9	2.9	6.1
- Agriculture	-1.1	-0.6	7.6	-0.3	5.4
- Non-agriculture	9.8	6.5	8.1	5.3	6.7
Per Capita GDP					
- Population (1,000)	18,783	19,308	19,834	20,362	20,892
- At Current Price	7,716	8,559	9,657	10,320	11,461

Note: 1) * Revised estimates.

2) ** Tentative estimates.

Part B

Appendix 2.4 Related Administrative Organizations

Appendix 2.4 Related Administrative Organizations

Related agricultural support organizations are described below.

(1) Agriculture Inputs Corporation (AIC)

Since its establishment in 1965, the Agriculture Inputs Corporation (AIC) has engaged in the nation-wide distribution of agricultural production inputs, including chemical fertilizers, improved seed, and agricultural equipment and tools. (see App. 2.4-1) In the case of the Study area, the AIC main branch office with jurisdiction over Nuwakot district is located at Bidur municipality, under the umbrella of which a number of retail outlets supply inputs to the farmers and agricultural cooperatives. In the area seed production, the AIC purchases foundation seed from the Nepal Agricultural Research Council (NARC) and subsequently delegates the cultivation of improved seed to designated contract farmers. (see App. 2.4-2) The AIC maintains a seed multiplication at Jhumka, a vegetable seed collection and processing center at Sarlahi, and a mechanized seed processing plants at 7 of its 87 branches.

(2) Nepal Agricultural Research Council (NARC)

The Nepal Agricultural Research Council (NARC) was established in 1991 as a autonomous prime agricultural research organization. Its predecessor was the National Agricultural Research and Services Centre (NARSC). The principal activities of the NARC are to conduct high level agricultural studies and research, to identify existing problems affecting agricultural and measures to address the same, and to assist the Government in the formulation of agricultural policies and strategies. NARC comprises 12 disciplinary divisions which engage in specific research programs in the areas of crops, horticulture, livestock and fisheries. It also maintains 2 national agricultural institutes, i.e. the National Agricultural Research Institute (NARI) and the National Animal Science Research Institute (NASRI), to generate appropriate agricultural technology and professional skills, as well as regional agricultural research stations (RARSSs) at 4 locations and 16 line agricultural research stations to assist as testing sites. (see App. 2.4-3-4)

(3) Agricultural Development Bank of Nepal (ADB/N)

The Agricultural Development Bank of Nepal was established in 1968. In addition to taking over the assets and liabilities of its predecessor the Cooperative Bank, the ADB/N merged in 1973 with the Land Reform Savings Corporation to become the sole specialized agricultural financing institution in the country. Under the umbrella of the organization, there exists a nation-wide network of 693 offices which extend financing to individual farmers, farmer groups, agricultural cooperatives and agriculture related corporate bodies. (see App. 2.4-5) There is an ADB/N branch office at Trishuli in the Study area which is pursuing a Small Farmer Development Programme at 11 sites in Nuwakot district as part of the bank's poverty alleviation program.

(4) Nepal Bank Limited (NBL)

Following its pioneering establishment in 1937, the Nepal Bank Limited (NBL) activities were originally limited to commerce and trade related financing, with the agricultural sector largely being ignored. In order to rectify this skewed financing structure, the Nepal Rastra Bank (see App. 2.4-6) began an Intensive Banking Program in 1981 to increase funding outlays to the 3 priority sectors of agriculture, services and cottage industry. The NBL branch office in Bidur municipality is engaged in the IBP as one part of the bank's poverty alleviation program.

(5) Cottage and Small Industry Development Board (CSIDB)

The Cottage and Small Industry Development Board (CSIDB) was set up in 1993 to promote, expand and strengthen cottage and small industries in rural areas. It maintains a branch office at Bidur municipality with jurisdiction over Nuwakot district. (see App. 2.4-7) The main activity of the organization is to provide skill development training and entrepreneur development training in such cottage and small industries as dyeing, carpet weaving, cane and bamboo crafts, wood carving, fruit and vegetable processing, bee-keeping and honey processing, radio repair and maintenance, house wiring, soap making, etc. In addition, the CSIDB disseminates information on government policies, legislation, regulations, and establishment procedures with regards to cottage and small industries, organizes industrial fairs and exhibitions, extends awards and cash prizes to best performing cottage industry entrepreneurs, carries out entrepreneurial feasibility studies, and provides a range of services to assist in cottage and small industry registration, etc.

(6) Department of Agriculture (DOA)

The Department of Agriculture (DOA) is under the Ministry of Agriculture, and maintains a range of facilities nation-wide including 5 Regional Agricultural Directorates, 75 District Agricultural Development Offices, 359 Agricultural Services Centres and 573 Agricultural Services Sub-centres. The DOA is responsible for quality control, certification and production of foundation seed for major crops, extension services, and agricultural promotion activities, while the Ministry of Agriculture attends to the formulation of national agricultural policies, resource management and the implementation of agricultural programs to achieve national goals. (see App. 2.4-8-9)

The DOA's Seed Development and Quality Control Services Section is under the Crop Development Division and oversees the quality control, certification and production of breeder and foundation seed for major crops. The Section's Central Seed Testing Laboratory (one location in Kathmandu) and Regional Seed Testing Laboratories (5 locations at Dhangadhi, Nepalgunj, Bhairahawa, Hetauda and Tarahara) carry out field investigation, seed testing, tagging, and seed store inspection, hill (including Nuwakot district) seed multiplication, support to the NSB, monitoring and evaluation, coordination between various line agencies, and various other activities related to seed.

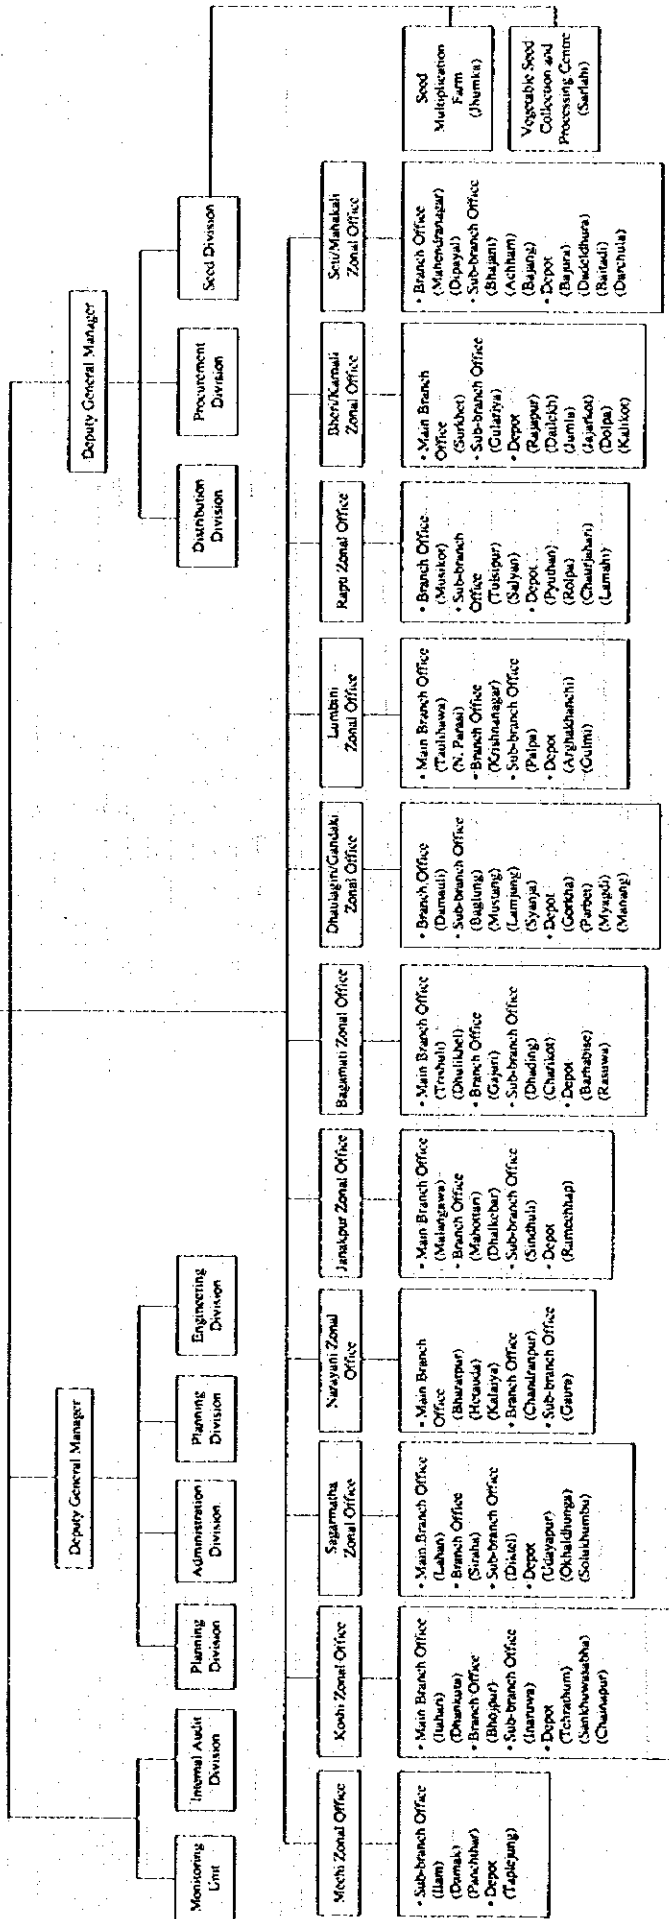

The DOA's Marketing Development Division is responsible for providing agricultural marketing data including wholesale and retail prices of agricultural commodities by district to planners, policy makers, researchers and other concerned personnel.

In Nuwakot district, there are 6 Agricultural Services Centres and 7 Agricultural Services Sub-centres which operate under the jurisdiction of the district Agricultural Development Office at Trishuli to provide agricultural support services to individual farmers and farmer groups. The Agricultural Services Centre at Devighat and the Sub-centre at Bageswori are the main entities with responsibility for the Study area. (see App. 2.4-10)

(7) Department of Livestock Services (DOLS)

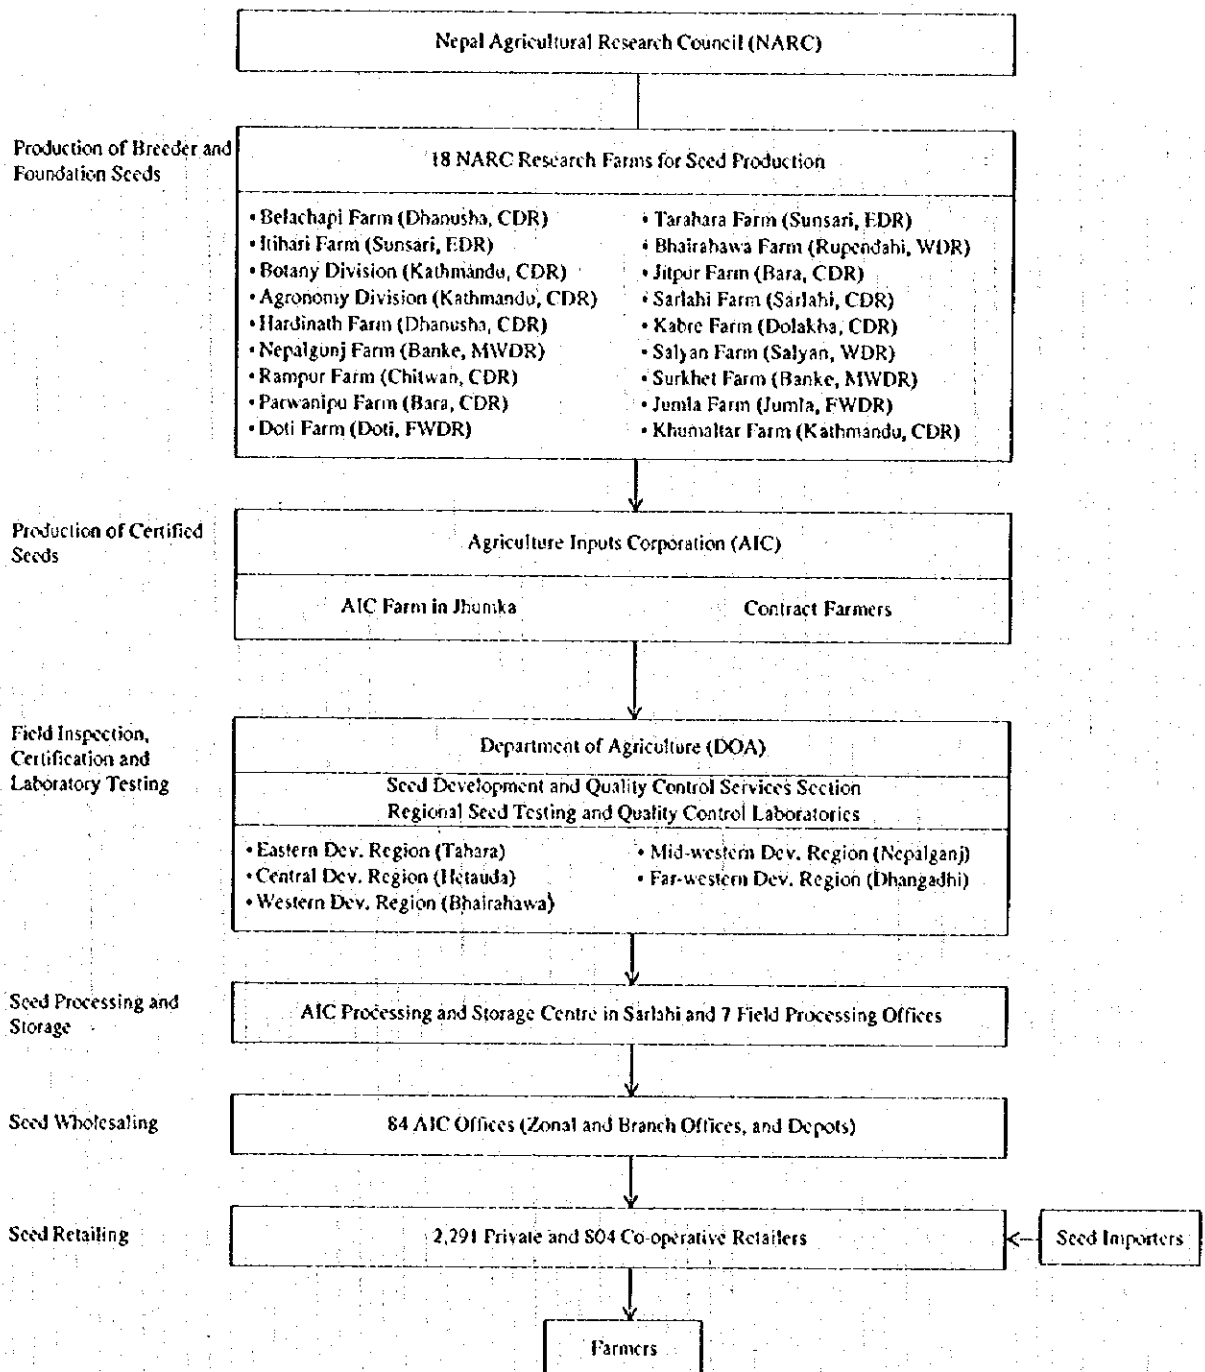

The Department of Livestock Services (DOLS) emerged in 1995 from its predecessor the Department of Agricultural Development. The agency comprises 5 Regional Directorates, 75 District Livestock Services Offices, 359 Livestock Service Centres and 640 Livestock Service Sub-centres to implement livestock development at the village level. (see App. 2.4-11) Under the jurisdiction of the Nuwakot District Livestock Services Office at Trishuli, there exist 6 Livestock Service Centres and 8 Livestock Service Sub-centres. The Livestock Services Centre at Devighat and the Sub-centre at Bageswori are the main entities with responsibility for the Study area. (see App. 2.4-12)

Source: Household Census Survey conducted by District Development Committee, Nuwakot in 1995 (Cerkhuar and Khadga Bhanjyan) and 1996 (Bidur)
 Note: * These five settlements (Cerkhuar, Simbaur, Dhunge, Bidur and Majpagan) are only partly covered by the project, while the data in this table are the data on the whole settlement.
 ** In Irrigation Block F (Lambagacha), there is no settlement, so no data is shown in this table. Agricultural land in this block is cultivated by farmers living in Tallo Pipatar (Irrigation Block G).

Source: Household Census Survey conducted by District Development Committee, Nuwakot in 1995 (Gerkuha and Khadga Bhanjyan) and 1996 (Bidur)

Note: * These five settlements (Cerkhuar, Simbar, Dhunge, Bidur and Majhar) are only partly covered by the project, while the data in this table are the data on the whole settlement.

** In Irrigation Block F (Lambagachha), there is no settlement, so no data is shown in this table. Agricultural land in this block is cultivated by farmers living in Tallo Pipalhar (Irrigation Block G).

Source: Household Census Survey conducted by District Development Committee, Nuwakot in 1995 (Gorkhu and Khadga Bhanjyan) and 1996 (Bidur)

Note: * These five settlements (Gerkhutar, Simbutar, Dhunge, Bidur and Majhaur) are only partly covered by the project.

while the data in this table are the data on the whole settlement.

** In Irrigation Block F (Lambagaicha), there is no settlement, so no data is shown in this table. Agricultural land in this block is cultivated by farmers living in Talo Pipaltar (Irrigation Block G).

Appendix 5.2.6 NGO Activities in the TIP Area

In Nepal, there are many non-governmental organizations (NGOs) working in various social and economic development activities. These NGOs are registered in the central or district government offices and often get the funds from the foreign donors which prefer NGOs's down-to-the-earth, small-scale, grassroots development orientations as well as non-bureaucratic and economical way of delivering services. Especially in the rural areas, the government services tend to be weak and insufficient, so there are many NGOs working in the rural areas in order to supplement the government services.

In Nuwakot District, there are 10 major NGOs working in different parts of the district as shown in App. 5.2.6-1. All of these NGOs are based in Kathmandu and receive the funds from the international organizations, bilateral donors or foreign NGOs. In the project area, there are two active NGOs: Reiyukai in Bidur and C-CODER in Khadga Bhanjyan. Reiyukai is the Japanese Buddhist NGO and they have a small drinking water project for their Buddhist communities. For the proposed project, C-CODER is the most important NGO in the project area, because their approach to community development as well as women's development has been proved to be very effective and successful in the project area and there are the strong demands among the neighboring villagers to replicate their success. So in the following section, community development activities in Pokhariphant supported by C-CODER are documented in details.

(1) Community Development Groups in Pokhariphant

(i) Organization

In Pokhariphant, group activities are very popular among the local population. At the District Cooperative Office, the following six groups based on the specific geographical areas are registered:

- 1) Pusuntar Community Development Group (separate Men's Group and Women's Group)
- 2) Majhigaun Community Development Group (separate Men's Group and Women's Group)
- 3) Shirkhali Community Development Group (separate Men's Group and Women's Group)
- 4) Kumaltar Community Development Group (separate Men's Group and Women's Group)
- 5) Buwanibesi Community Development Group (joint Men and Women's Group)
- 6) Chainpur Community Development Group (joint Men and Women's Group)

First four Community Development Groups are located in Khadga Bhanjyan VDC, and the last two are in Charghare VDC. These groups have been established since December 1993. Seventh group is on the way to be organized in Phirkep Devighat, Khadga Bhanjyan VDC. Pusuntar, Majhigaun, Shirkhali and Kumaltar Community Development Groups consist of separate Men's Group and Women's Group, but Buwanibesi and Chainpur Community Development Groups are joint Men and Women's Group. So at the grassroots level, there are

actually ten groups. The reason to register as one group consisting of Men's Group and Women's Group in District Cooperative Office (DCO) is that registration in DCO requires a certain level of the minimum amount of saving.

These six Community Development Groups form one Coordinating Committee which consists of the representatives from all six groups and function like one group, so members have started to call it Inter-Community Development Group. This relationship between Inter-Community Development Group (Coordinating Committee) and six Community Development Groups is shown in App. 5.2.6-2. Group members informed that this Inter-Community Development Group may be registered as a cooperative society in future. The organization chart of Inter-Community Development Group is shown in App. 5.2.6-3. Inter-Community Development Group holds General Assembly twice a year and elects 11-member Executive Committee.

Members in Women's Group (No. of members: 24) of Majhigaun Community Development Group said that before participating in this group, most of them have been the members of Women's Goat Raising Group (No. of members: 20) which was established with a support from Agricultural Development Bank of Nepal (ADB/N) about 8 - 9 years ago. So they have been accustomed with the group approach to development since then, but the quality of goats given by the government was not good compared with the local breed of goats. In this Women's Goat Raising Group, members are saving 5 Rs/month and the total saving of the group has now reached to 93,000 Rs.

(ii) Membership

The total number of members of six groups is 316. Members of each group are required to fulfill the following three duties:

- to buy at least one share (200 Rs/share) of each group, which is registered as a cooperative society, when becoming a member.
- to contribute 10 minutes of voluntary labor every day for community development work such as cleaning neighborhood, constructing women's meeting place, children's playground, and so on.
- to save an affordable amount of money each month (usually 20 Rs - 100 Rs/month) at the Community Development Bank.

Each Community Development Group has its Labor Contribution Sub-Committee which checks whether every member contributes 10 minutes of voluntary labor every day. If someone has an appropriate reason for not contributing 10 minutes of labor one day, he/she is admitted to contribute 20 minutes of labor the next day. Similarly, if someone has an appropriate reason for being unable to save this month's monthly deposit, he/she is admitted to postpone it to the next month. If someone intentionally neglects this labor contribution,

he/she will be excluded from credit eligibility from Community Development Bank.

(iii) Activities

All groups conduct the following four programs which are coordinated through Inter-Community Development Group:

1) Education and Social Welfare Program

a) Community Development School

Inter-Community Development Group established Community Development School near Majhigaun in 1996 in order to provide members' children a quality education using the same curriculum and textbooks as the private boarding school (tuition: usually 125 - 150 Rs/month for nursery) but at an affordable cost (tuition: 75 Rs/month for nursery, 100 Rs/month for kindergarten and class 1) to members. As in the boarding school, the teaching language is English. The school currently offers 3 classes which are nursery (from 3 years old), kindergarten and class 1, and plans to expand one upper class every year. The total number of students is 66 (about 60% are boys and about 40% are girls), and the number of teachers including the Principal (Mr. Nani Babu Pokharel) is 4. The school has three terms a year (First Term: March - June; Second Term: July - November; Third Term: December - February). The class timetable for the Third Term of 1996/97 is shown in App.5.2.6-4:

App.5.2.6-4 Class Time Table in the Community Development School
(Sunday - Friday, Third Term, 1996/97)

Period	1st Period	2nd Period	Interval	3rd Period	4th Period	Break	5th Period	6th Period
Time	10:10 - 10:55	10:55 - 11:40	11:40 - 11:50	11:50 - 12:35	12:35 - 13:20	13:20 - 14:10	14:10 - 14:50	14:50 - 15:30
Nursery	Math	Nepali		English	English		Math	Nepali
Kindergarten	English	Social Studies		Science	Math		Nepali	English/ General Knowledge
Class I	Science	English		Social Studies	Math		Activities	Nepali

The principal explained that the curriculum in the government school is not practical and the quality is not good, although the tuition at the government school is free up to class 10. For example, more than 50 students from the government secondary school in Pokharphant took

exams for School Leaving Certificate (SLC) last year, but only six passed it. Private boarding schools which offer education in English have better SLC records and are very popular among local population, but only rich people can afford to send their children to these private boarding schools. So the group members decided to start their own school with assistance from a Kathmandu-based NGO called C-CODER (Center for Community Development and Research). C-CODER donated 50,000 Rs for school construction (mainly used for the purchase of zinc roof materials) and offers scholarship (total: 2,000 Rs/month) for 10 -15 economically needed students. So far very few students have dropped out from this school. C-CODER has assisted to organize community saving groups, establish village banks and promote group enterprises such as dairy processing, fruit processing and tourism in four districts (Nuwakot, Gorkha, etc.) with the financial assistance from Canada. Currently the group members are constructing a playground for school children down the school by contributing their daily 10-minute voluntary labor.

b) Toilet and Sanitation

Many group members constructed toilets in their home compounds with the loans from Community Development Bank. Members also cleaned the neighborhood by using every member's daily 10-minute voluntary labor. As a result of these efforts, the occurrence of diseases has decreased and the health situation among members has improved.

c) Walking Trail Improvement

The group members jointly improved walking trails and constructed some cemented steps from Buwanibesi to Phirkep Devighat and from Pusuntar to Phirkep Devighat, in order to facilitate their daily delivery of milk from home to Dairy Cooperative at Devighat even during the rainy season, by using every member's daily 10-minute voluntary labor.

2) Saving & Credit Program

a) Community Development Bank for Saving and Credit

Inter-Community Development Group established Community Development Bank at Devighat in April 1995 as a central institution for their group members' saving and credit activities. The individual member's monthly savings (usually 20 Rs - 100 Rs/month depending on each member's affordability) are collected by the group and deposited in Community Development Bank. Community Development Bank issues a saving passbook to each group and each group issues a saving passbook to each member. The interest rate on the saving at Community Development Bank is 8%/year. The current amount of savings at Community Development Bank by eight Community Development Groups which are within the proposed project area is shown in App.5.2.6-5:

App.5.2.6.-5 Savings at Community Development Bank
(as of December 1996)

No.	Name of Community Development Group	No. of Membership	Principal (Rs)	Interest (Rs)	Total Saving (Rs)	Average Saving per Member (Rs/person)
1	Pusuntar Community Development Group (Men's Group)	33	51,433	3,682	55,115	1,670
2	Pusuntar Community Development Group (Women's Group)	34	27,627	2,039	29,666	873
3	Majhigaun Community Development Group (Men's Group)	22	43,177	3,248	46,425	2,110
4	Majhigaun Community Development Group (Women's Group)	24	15,427	1,149	16,576	691
5	Shirkhali Community Development Group (Men's Group)	13	22,329	1,619	23,948	1,842
6	Shirkhali Community Development Group (Women's Group)	29	27,190	2,161	29,351	1,012
7	Kumaltar Community Development Group (Men's Group)	22	23,461	1,535	24,996	1,136
8	Kumaltar Community Development Group (Women's Group)	9	8,256	571	8,827	981
	Total	186	218,900	16,004	234,904	1,263

The members explained the following differences between loans from Community Development Bank and those from Agricultural Development Bank of Nepal (ADB/N):

- To get a loan from ADB/N is a long procedure (at least 10 - 15 days are necessary). The applicant has to fill out many forms and wait for a long time to get ADB/N's approval for the loan. Sometimes the ADB/N loan officer is not in the office even though the applicant has traveled a long way to the office. Sometimes the applicant is requested by the ADB/N loan officer to pay some amount of money to speed up the process. Even when the loan application gets approved finally, ADB/N often declares that there is no loan money left in the bank for this fiscal year. In Community Development Bank, the applicant can get loan more quickly.
- To get a loan from ADB/N, the applicant must have a fixed asset (land, jewelry, etc.) as a collateral. But in Community Development Bank, there is no need for it.
- Unlike loans from ADB/N, loans from Community Development Bank can be paid back by installment basis (for example, monthly installment of 300 Rs x 10 months).

- Every year ADB/N sets their own priority areas and the target amount of loans for each priority area, but these priority areas are sometimes different from farmers' priorities for loans. In Community Development Bank, the applicant's priority is accepted.

Because of these reasons, even though the interest rate in Community Development Bank (18%/year) is higher than the interest rate in ADB/N (14 - 17%/year depending on the purpose of the loans), members prefer to get agricultural loans from Community Development Bank. The loan application can be submitted on an individual basis, but the Community Development Group will collectively discuss whether this loan should be approved or not. The individual member can get a loan from Community Development Bank only if the Community Development Group's Labor Contribution Sub-Committee certifies his/her daily labor contribution and four other group members guarantee the applicant's repayment. So there is a strong group norm and pressure on the loan borrower to repay the loan. The maximum amount of loans for various purposes, duration of loans and times of repayment installments are shown in App.5.2.6.-6:

App.5.2.6-6 Loans by Community Development Bank
(as of December 1996)

No.	Purpose of Loan	Maximum Amount of Loan (Rs)	Maximum Amount of Quantity	Duration of Loan	Repayment by Installment (times)
1	Cereal Crop Cultivation	2,500	5 ropani	6 months	4
2	Vegetable Cultivation	2,000	2 ropani	6 months	3
3	Cash Crop Cultivation	1,500	3 ropani	1 year	
4	Irrigation	5,000	5 ropani	6 months	
5	Goat Raising	2,000	2 goats	1 year	
6	Buffalo Raising	18,000	4 buffaloes	1 year	
7	Fodder Grass Cultivation	1,500	3 ropani	1 year	
8	Fodder Cutting Machine	7,000		8 months	4
9	Animal Feed and Medicine	10,000		8 months	4
10	Shed House for Animal	6,000		8 months	4
11	Shop Keeping	10,000		8 months	4
12	Guest Room Construction	6,000		8 months	4
13	Toilet Construction	3,000		8 months	3

For example, the member can borrow up to 2,000 Rs for vegetable cultivation and will pay back after three months in three monthly installments. In case of the loan for the purchase of a buffalo, the members are requested to buy a new buffalo from outside this area, which means to increase the number of buffaloes in the area rather than to buy a buffalo from a local villager. The loan for a buffalo (maximum 18,000 Rs) can be repaid in 18 installments

(maximum 1,000 Rs/month). If the buffalo becomes sick and the owner cannot sell enough milk to repay this installment, his/her duty to repay the installment will be postponed until the next repayment date without any interest. Members say that they no longer need to go to ADB/N for agricultural loans, but they still go to the local moneylender for a big loan such as the purchase of the land which may cost 50,000 Rs.

The loans for guest room and toilet construction are meant to promote tourism to this area by providing rooms and toilets for visitors. Already 24 families have constructed suitable guest rooms for visitors in their houses by using this loans.

3) Income Generation Program

a) Dairy Cooperative

Inter-Community Development Group established Dairy Cooperative at Devighat in April 1995 in order to collect milk from members, process milk, and market milk in Trishuli Bazaar. Every day about 450 - 500 liter of milk (cow's milk and buffalo's milk) is collected and processed at Dairy Cooperative whose equipment was purchased through the financial assistance (25,000 Rs) from C-CODER. The skimmed (defatted) milk is the major product and is sold at 30 Rs/liter. Out of the cream (milk fat), the ghee and butter are made. Daily sale at Dairy Cooperative is about 4,000 Rs. Dairy Cooperative has a tractor which carries milk every day to Trishuli Bazaar for selling. District Livestock Service Office informed that this Dairy Cooperative was awarded a national award for its excellent performance in 1996.

4) Marketing Program

a) Community Development Shop

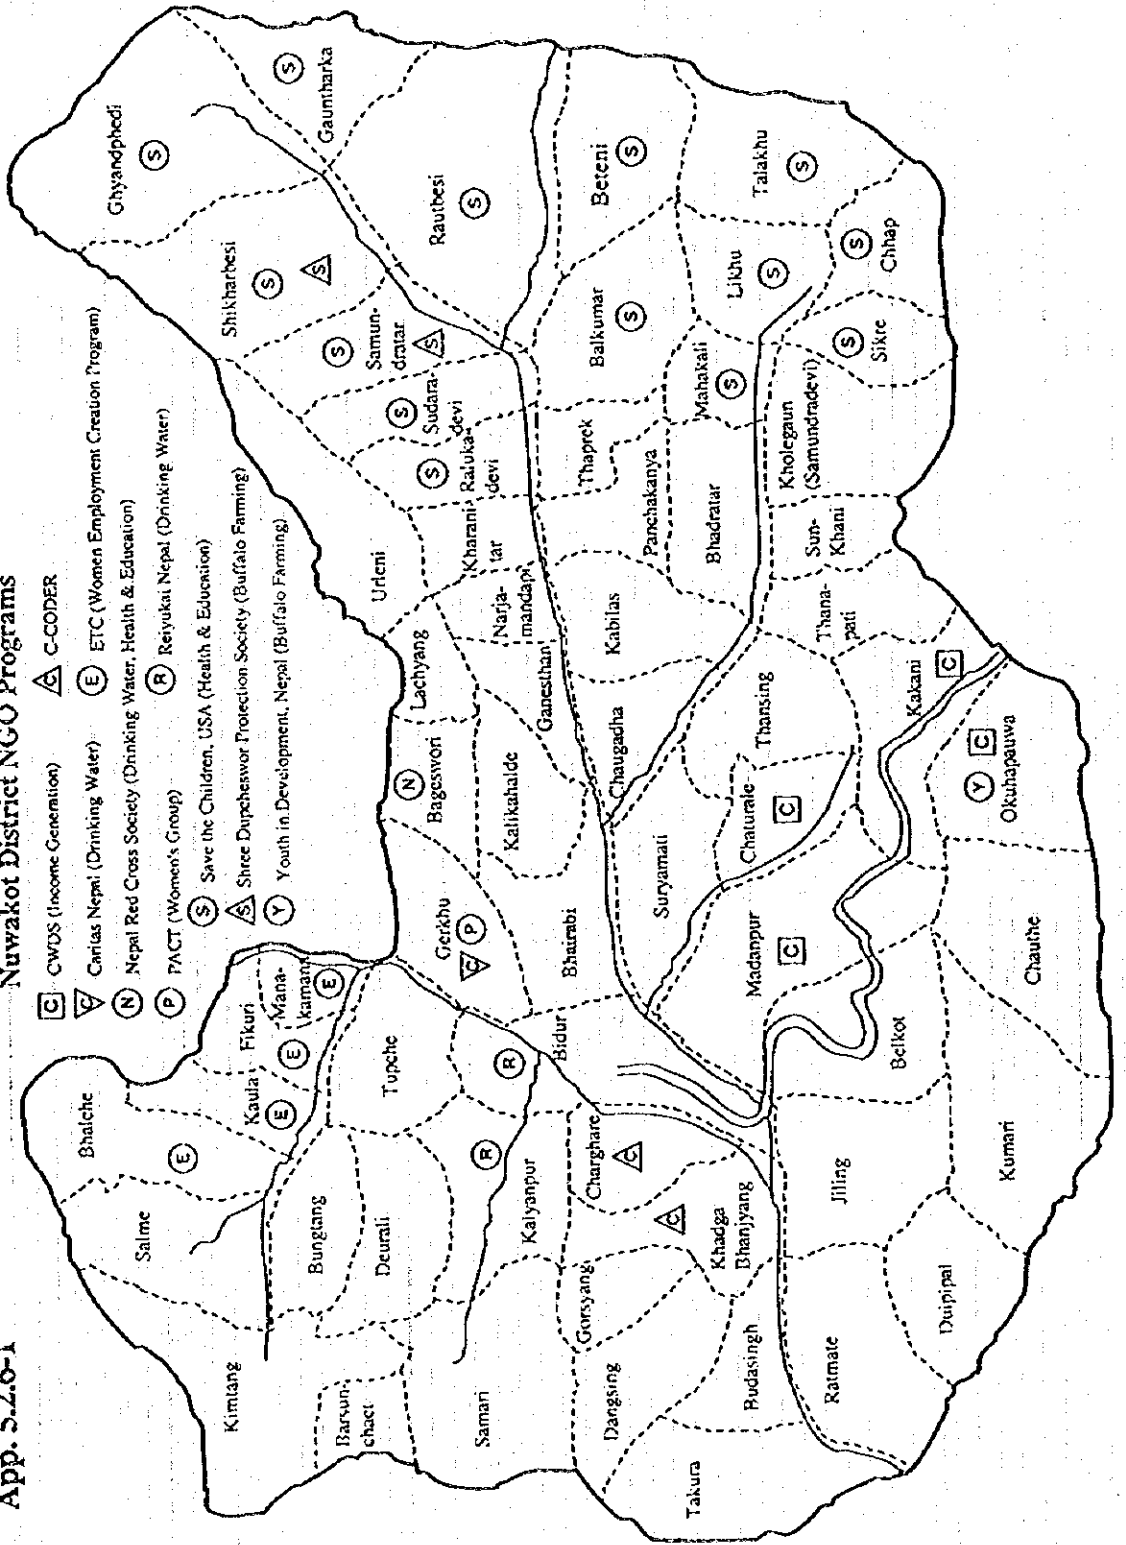

Inter-Community Development Group established Community Development Shop (Shop Manager: Mr. Prem Bahadur Poudel) at Devighat in July 1994 in order to market their members' agricultural produce on their own. The shop employs two staffs, Shop Manager (salary: 1,900 Rs/month) and Assistant Shop Manager (salary: 1,650 Rs/month), from members. Each member can deposit agricultural produce in this shop, and the shop can store it and sell it when the price becomes high so that the members can escape from the middlemen's exploitation. Members can also buy agricultural produce and daily commodities from this shop. Daily sale at the shop is about 3,000 - 3,200 Rs. The profit of the shop and Dairy Cooperative is used in the following manner:

- 40% of the profit: used for social development programs
- 20% of the profit: saved for the future development
- 40% of the profit: divided into shareholders, based on the number of share holdings

App. 5.2.6-1

Nuwakot District NGO Programs

-  CWDS (Income Generation)
-  Caritas Nepal (Drinking Water)
-  Nepal Red Cross Society (Drinking Water, Health & Education)
-  PACT (Women's Group)
