VI. BILL OF QUANTITIES

C

VI. BILL OF QUANTITIES

PACKAGE - 1	: KAMAL DRAINAGE CH	ANNEL
CONTRACT NO.		

PREAMBLE

1. Introduction

The Bill of Quantities includes this Preamble, the Parts of the Bill of Quantities, the Schedule and the Summary and shall be read in conjuction with the Instructions to Tenderers, Conditions of Contract, Specifications and Drawings.

2. Estimated Quantities

The quantities set out in the Bill of Quantities are the estimated quantities of the Works and provide a common basis for Tendering and they are not to be taken as the actual and correct quantities of the Works to be executed by the Contractor in fulfillment of his obligations under the Contract.

3. Works to be Measured

A

For the purpose of ascertaining the value and amount of work done, the Works shall be measured as provided for in Clause 56 (1) (Works to be Measured) of the Conditions of Contract at such frequency as may be necessary for the purpose of payment under Clause 60 (Certificates and Payment) of the Conditions of Contract. The Permanent Works shall be measured net, notwithstanding any general or local custom, except where otherwise specifically described or prescribed in the Contract.

The quantities in the respective items in the Bill of Quantities shall be measured in accordance with the method of measurement described in Clause 10 (Method of Measurement) of this Preamble.

4. Pricing of Items

The price in the Bill of Quantities shall, except where otherwise provide in the Contract, cover all the Contractor's obligations under the Contract and all matters and things necessary for the proper execution, completion and repair of the Works, as set out in Clause 10 (1) (Contractor's General Responsibilities) of the Conditions of Contract. The whole cost of complying with the provisions of the Contract shall be included in the items

provided in the priced Bill of Quantities, and where no items are provided, the cost shall be deemed to be distributed among the rates and prices entered for the related items of Works. If no price is entered against any item of the Bill of Quantities and the Tender is accepted notwithstanding Clause 15 (2) (Item not Priced) in the Instructions to Tenderers, the cost of the work covered by the item shall be deemed to be covered by the prices for other items.

5. Works and Services not Separately Measured

The rates and price entered in the priced Bill of Quantities shall, except insofar as it is otherwise provided under the Contract, be for the finished items of work and shall include all Constructional Plant and Equipment, labour, supervision, material, erection, maintenance, insurance, profit, taxes and duties, together with all general risks, liabilities and obligations set out or implied in the Contract. These shall not be measured and the cost thereof shall be deemed to be included in respective unit rates and lump sums in the Bill of Quantities.

6. Currency

Where the Contract provides for part of the Contract Price to be payable in Foreign Currency(ies) and part in Indonesia Rupiahs, the total price shall be the sum of the Foreign Currency (ies) and Indonesia Rupiah portions.

7. Provisional Sums

The amount allowed under Provisional Sums shall be expended in whole or in part or not at all as the Engineer may direct. Where work to which a Provisional Sum relates has been ordered by the Engineer and has been executed by the Contractor, the work as executed shall be valued in accordance with Clause 58 (Provisional Sums) of the Conditions of Contract.

8. Value Added Tax

Indonesian Value Added Tax (VAT) is payable by the Contractor to the Government on the total cost of the Works prior to VAT. Where the Contract provides for part of the Contract Price to be payable in foreign currency (ies), the Indonesian Rupiah portion of the total cost of the Works prior to VAT is enhanced in the Summary of the Bill of Quantities by the amount of VAT payable on the combined Foreign and Indonesian currency portions. For the purpose of ascertaining the Tender Price the Indonesian Rupiah equivalent of the foreign currency (ies) portion, upon which VAT is calculated, is arrived at by applying the Bank Indonesia T/T selling rate of exchange as at thirty (30) days before the date of Tender Opening.

For the purpose of payments under the Contract, VAT will be calculated on the Bank Indonesia T/T selling rate of exchange applicable on the date each respective payment, adjusted retrospectively where necessary, and the VAT in the final Contract Price shall be the sum of all such incremental VAT payments.

9. Description of Work in the Bill of Quantities

The descriptions of work covered by the respective items are to identify the location and nature of the work, but the exact nature and extent of the works is to ascertained from the Drawings, Specifications and Conditions of Contract as the case may be, read in conjunction with the method of measurement.

Where references are made in the Bill of Quantities to specific Drawings or parts of the Specifications or Conditions of Contract, unless otherwise stated, such references shall not limit general requirements stated elsewhere in the Contract.

10. Method of Measurement

1

If a method of measurement is set out in the Technical Specifications or elsewhere in the Contract Documents such method of measurement shall govern as provided for in Clause 56 (2) (Method of Measurement) of the Conditions of Contract.

11. Arithmetic Correction

Errors will be corrected by the Employer for any arithmetic errors in computation or summation as provided for in Clause 15 (3) (Amount of the Tender) of the Instructions to Tenderers. If the cumulative error is more than five (5) percent of the Tender Price, the Tender will be taken to have failed and shall be rejected.

12. Numbering of Items in the Bill of Quantities

The part of the Bill of Quantities are numbered in accordance with the corresponding sections of the Technical Specifications.

The items in each part of the Priced Bill of Quantities shall be read in conjunction with the Measurement and Payment Clauses in the relevant sections of the Specifications.

The application of all of the prices and quantities is not an obligation of the Employer who has the right to omit some of such works or prices as he judges neccessary or otherwise in the completion of the Works.

13. Day Work

In accordance with Clause 52 (4) of the Conditions of Contract for the purpose of this Contract, the Contractor shall be paid for work ordered by the Engineer to be executed as Day Work on a time account basis as provided for in the Clause above said.

The unit price for labour entered in the Bill of Quantities shall cover all direct and indirect costs to the Contractor, including but not limited to the amount of wages paid to such labour, transportation, overtime, subsistance allowances to labour, any sums paid for social benefits in accordance with Indonesian Law, the Contractor's profit, overheads, superintendence, liabilities and insurances and allowances to labour, small tools and plants, other facilities generally in use, etc.

The unit prices for materials shall be on the basis of the invoiced price, freight, insurance, handling expenses, damage and losses, delivery to the Site, profits and overheads, etc. The quantity of materials paid for will be the net quantity fixed in the works.

The unit rates for the Construction Plant and Equipment shall be deemed to include due and complete allowance for depreciation, interest, indemnity and insurance, repairs, maintenance, supplies, fuel, lubricants and other consumables, all overheads, profit and other administrative costs related to the use of such equipment and the cost of drivers, operators and helpers.

Payment to the Contractor shall be made for the Construction Plant and Equipment only for the actual number of hours the equipment worked the Day Work, except that, where applicable and agreed with the Engineer, the traveling time from the part of the site, where the Construction Plant and Equipment was located when ordered by the Engineer to be deployed, and the time for return journey thereto will be included for payment.

14. Abbreviations

The following abbreviations of units of measurement have been and shall be used in the Bill of Quantities.
