SCOPE OF WORK

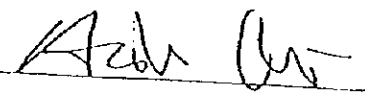

SCOPE OF WORK
FOR
THE STUDY
ON
THE INTEGRATED DEVELOPMENT MASTER PLAN
FOR
AGRICULTURE AND LIVESTOCK IN TOCANTINS STATE
IN THE FEDERATIVE REPUBLIC OF BRAZIL

AGREED UPON BETWEEN
GOVERNMENT OF THE STATE OF TOCANTINS,
BRAZILIAN COOPERATION AGENCY
AND
THE JAPAN INTERNATIONAL COOPERATION AGENCY

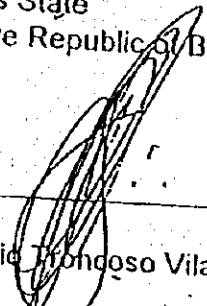

Palmas, 13 September, 1996.

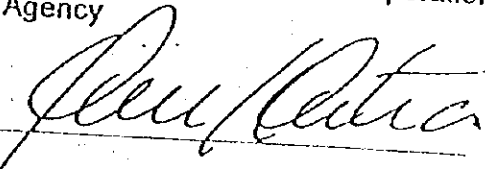

Mr. José Wilson Siqueira Campos
Governor,
Tocantins State
Federative Republic of Brazil

Mr. Hideo Ono
Leader,
Japanese Preparatory Study Team
The Japan International Cooperation
Agency

Mr. Claudio Trondoso Vilas
Secretary
Department of Agriculture Tocantins
State

Mr. Elim Saturnino Dutra
Director
Brazilian Cooperation Agency (ABC)

I - Introduction

In response to the request of the Government of Federative Republic of Brazil (hereinafter referred to as "the Government of Brazil"), the Government of Japan decided to conduct the Integrated Development Master Plan Study for Agriculture and Livestock of the State of Tocantins (hereinafter referred to as "the Study") together with the Government of Brazil, in accordance with the Basic Agreement on Technical Cooperation between the Government of Japan and the Government of Brazil, signed in Brasilia on September 22, 1970, (hereinafter referred to as "the Basic Agreement").

Accordingly, the Japan International Cooperation Agency, (hereinafter referred to as " JICA"), the official agency responsible for the official implementation of technical cooperation programs of the Government of Japan, Agencia Brasileira de Cooperacao (hereinafter referred to as "ABC") as legal intervenient agency on behalf of the Government of Brazil and the Secretaria de Estado da Agricultura (hereinafter referred to as "SAG-TO"), the executive agency responsible for the implementation of the technical cooperation for the Study, will undertake the Study in close cooperation with the other Brazilian authorities concerned.

The present document sets forth the scope of work with regard to the Study.

II. Objectives of the Study

The objectives of the Study are as follows:

1. To prepare an Integrated Development Master Plan for Agriculture and Livestock with the target year of 2015 for the Study area defined hereunder, out of which projects and programs with high priority shall be short-listed, with a view to
 - (a) improvement of small scale farming
 - (b) environmental conservation
 - (c) diversification of agriculture
 - (d) coordination with other sector development plan
2. To carry out technology transfer to the Brazilian counterpart personnel through on-the-job training in the course of the Study.

III. Study area

The Study area covers the entire of the Tocantins State.
The Tocantins State will be classified into several development zones based on various factors including agro-ecology.
In making the Study, the emphasis will be put on the typical areas and/or projects/programs where are derived from each development zone.

IV. Scope of the Study

In order to achieve the objectives mentioned above, the Study shall cover the following items;

<Phase 1>

1. Analysis of present situation in the Study area

The present situation in the Study area will be analysed on the basis of all available data, maps and reports relevant to the area by way of field survey, covering such fields as follows;

(1) natural/physical condition

- 1)topography
- 2)meteorology and hydrology
- 3)geology
- 4)pedology
- 5)vegetation
- 6)natural environment and ecology
- 7)others

(2) socio-economic conditions

- 1)demography
- 2)socio-economic condition and economic activities
- 3)social infrastructure
- 4)industrial structure
- 5)marketing
- 6)education
- 7)vocational training system
- 8)public health
- 9)social environment
- 10)others

(3)land use

(4)status of agriculture

- 1)agricultural structure
- 2)farming and cropping
- 3)agro-economy, agricultural credit, processing and marketing system
- 4)agricultural supporting system(government institutions, farmers organizations, supporting organizations and extension service organizations)
- 5)agricultural infrastructure
- 6)others

(5)development status in each sector

- 1)transportation
- 2)water supply and sewerage
- 3)communication
- 4)water resources
- 5)power and energy
- 6)urban and rural development
- 7)poverty alleviation
- 8)environmental conservation
- 9)others

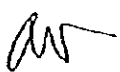

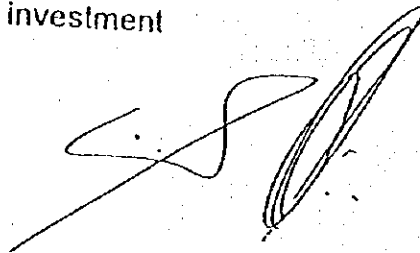

(6)development policies/plans related to the Study

(7)development projects/programs related to the Study

- 1)existing/on-going projects/programs
- 2)future projects/programs

(8)administrative, budgetary, investment institutions, etc.

- 1)adminisfrative structure
- 2)financial budget
- 3)rules and regulations
- 4)propensity of investment

2. Identification of potentials and constraints for development

(1) Identification of potentials and constraints for development will be assessed, from the view point of items above mentioned 1.

The Study in this section will include the following:

- 1) long-term market projection of the agricultural/livestock products
- 2) important policies to support the development of the Study area
- 3) comparative advantage of the Study area
- 4) administrative/budgetary institutions
- 5) environment

(2) Major subjects of development will be identified and key projects/programs ideas will be prepared.

3. Formulation of development Scenario

(1) The role of the Study area in the regional (north region) and national economic setting will be defined.

(2) Goals and objectives for development, together with strategies to achieve them will be defined.

(3) Socio-economic and Spatial development framework, together with identification to target beneficiaries will be prepared.

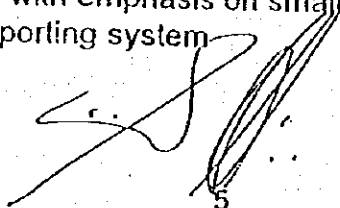

(4) Development scenario will be formulated through the comparison of attractive scenarios.

(5) Zoning for development

4. Preparation of Integral Development Master Plan for Agriculture and Livestock

- 1) Development programs will be established, covering following fields;
- 2) agricultural products
- 3) animal husbandry
- 4) agro-industry
- 5) marketing system
- 6) environmental conservation (including reforestation)
- 7) farming models with emphasis on small scale farming
- 8) agricultural supporting system

aw

(2) Project/program long list will be prepared.

(3) Selection of projects/programs with high priority.

<Phase II>

5. Preparation of profiles of the selected projects/programs

6. Project/program implementation schedule will be prepared.

7. Examination of investment promotion measures and institutional/budgetary arrangement for implementation of the Master Plan.

8. Conduct of Initial Environmental Examination (IEE) for the selected projects.

9. Evaluation of the selected projects/programs.

10. Recommendations

V. Study schedule

The Study will be carried out in accordance with the attached tentative work schedule as shown in ANNEX.

VI. Reports

JICA will prepare and submit the following reports in English to the Government of Brazil.

1- Inception Report

Twenty (20) copies at the commencement of the Phase I field study.

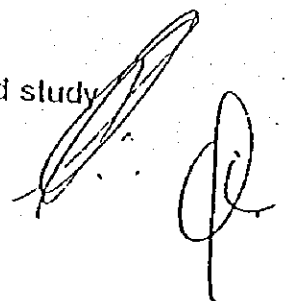

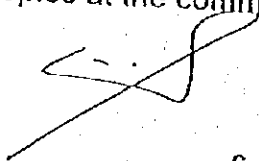

2. Progress Report

Twenty (20) copies at the end of the work in Brazil of the Phase I field study.

3. Interim Report

Twenty (20) copies at the commencement of the Phase II field study

aw

4. Progress Report (2)

Twenty (20) copies at the end of the work in Brazil of the Phase II field study.

5. Draft Final Report

Twenty (20) copies at the end of the Phase II study. Brazilian Government will provide its comments on the Draft Final Report to JICA within one (1) month after receiving the Draft Final Report.

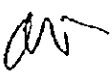

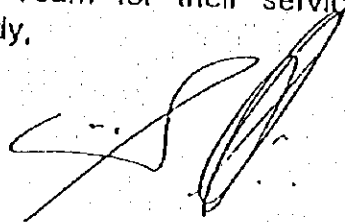

6. Final Report

Fifty (50) copies within two (2) months after the receipt of comments on the Draft Final Report.

VII. Undertakings of the Brazilian side

1. The Government of Federative Republic of Brazil shall accord privileges, immunities and other benefits to the Japanese study team (hereinafter referred to as "the Team") in accordance with the Basic Agreement, as follows:

- (1) to secure the safety of the team,
- (2) to permit the members of the Team to enter, leave and stay in the Federative Republic of Brazil for the duration of their assignment therein, and exempt them from foreign registration requirements and consular fees,
- (3) to exempt the members of the Team from taxes, duties and other charges on equipment, machinery and other materials brought into the Federative Republic of Brazil for the conduct of the Study,
- (4) to exempt the members of the Team from income tax and other charges of any kind imposed on or in connection with any emoluments or allowances paid to the members of the Team for their services in connection with the implementation of the Study.

(5) to provide necessary facilities to the Team for the remittance as well as utilisation of the funds introduced into the Federative Republic of Brazil from Japan in connection with the implementation of the Study,

(6) to secure permission for entry into relevant areas for the implementation of the Study,

(7) to secure permission for the Team to take all data and documents out of the Federative Republic of Brazil to Japan, in accordance with laws and regulations in force in Brazil, for analysis during the implementation of the Study, and

(8) to provide medical services as needed, its expenses will be chargeable on the members of the Team.

2. The Brazilian side shall bear claims, if any arises, against the members of the Team resulting from, occurring in the course of, or otherwise connected with, the discharge of their duties in the implementation of the Study, except when such claims arise from gross negligence or wilful misconduct on the part of the members of the Team.

3. SAG-TO shall act as the counterpart agency to the Team and also as coordinating body in relation with other governmental and non-governmental organizations concerned for the smooth implementation of the Study.

4. SAG-TO shall, at its own expense, provide the Team with the following, in cooperation with other relevant organizations concerned;

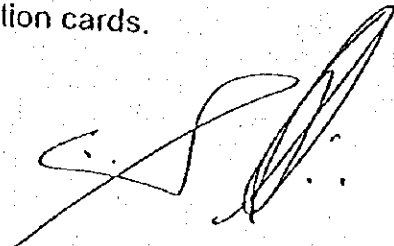

(1) available data and information related to the Study,

(2) full-time counterpart personnel, technical supporting staff, clerical staff, etc.

(3) suitable office space with necessary equipment in Palmas,

(4) adequate means of transport for the Team, and

(5) credentials or identification cards.

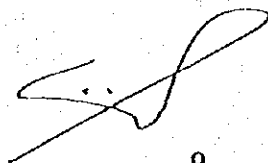

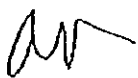

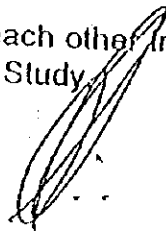

VIII. Undertaking of the Japanese side

For the implementation of the Study, the Japanese side shall take the following measures:

- (1) to dispatch, at its own expense, the Team to the Federative Republic of Brazil, and
- (2) to pursue technology transfer to the Brazilian counterpart personnel in the course of the Study.

IX. Others

JICA, ABC and the SAG-TO shall consult with each other in respect of any matter that may arise from or in connection with the Study.

**MINUTES OF MEETING
ON
SCOPE OF WORK
FOR
THE STUDY
ON
THE INTEGRATED DEVELOPMENT MASTER PLAN
FOR
AGRICULTURE AND LIVESTOCK
OF
TOCANTINS STATE**

The preparatory study team (hereinafter referred to as "the Team") organized by the Japan International Cooperation Agency (hereinafter referred to as "JICA"), and headed by Mr. Hideo Ono, visited the Federative Republic of Brazil from 8 to 19, September, 1996 for the purpose of discussing and confirming the Scope of Work for the Integrated Development Master Plan Study for Agriculture and Livestock of the State of Tocantins (hereinafter referred to as "the Study").

The Team had a series of discussions with officials concerned of the Secretaria de Estado da Agricultura and the related departments of the State of Tocantins (hereinafter referred to as "SAG-TO") on the Scope of Work for the Study. The list of participants in a series of meetings is attached in the Annex.

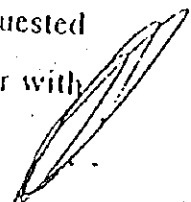

As a result of the discussions, SAG-TO and the Team agreed on the Scope of Work for the Study.

The following are the main issues discussed and agreed upon by both sides in relation to the Scope of Work for the Study.

1. As to paragraph 1.(a). of section II., "improvement of small scale farming", the Tocantins State is implementing several small-farmer-oriented programs to up-grade their living standard as well as farming management. In this regard, a strategy for improvement of small-scale farming will be placed with high priority in the Study.

2. As to paragraph 2. of section II., "technology transfer", SAG-TO requested the technical training for formulation of the Master Plan Study together with

CP

workshops.

The Team promised to convey its request to the Government of Japan.

3. As to section III. Study area, the Study is to be carried out with reviewing ten(10) Program Areas, which have been classified by the Tocantins State with viewpoint of ecology and development directions.

4. As to paragraph 1.(5).6) of section IV, "urban and rural development", SAG-TO requested that a model of rural/agricultural development plan for indigenous people in the Tocantins State will be considered in the Study.

The Team promised to convey its request to the Government of Japan.

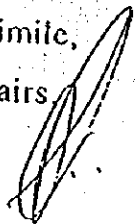

5. As to paragraph 4.(1).2) of section IV, "animal husbandry" includes animal improvement, animal nutrition and animal health.

6. As to paragraph 4.(1).6) of section IV, "reforestation" includes forestation in the arid area.

7. As to paragraph 4.(1).8) of section IV, "agricultural supporting systems" includes an agricultural practical research.

8. As to paragraph 4.(3) and (4) of section VII, SAG-TO shall provide following items to the Japanese Study Team;

- (1) air-conditioned office with 72m² with 3rooms and 2toilets(if necessary provide more rooms),
- (2) 1 telephone for internal communication and 1 telephone line for connecting to facsimile,
- (3) 18 tables with chairs

- (4) 1 meeting table with chairs,
- (5) 2 vehicles without 4WD, and
- (6) 2 airplanes for the field survey in Tocantins State.

9.SAG-TO requested acquisition of following equipments to the Team;

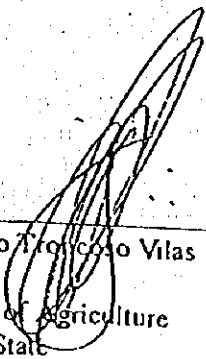

- (1) 1 copier,
- (2) 1 facsimile,

Leader of JICA Advisory Team

In accordance with the Scope of the Work for the Study on the Integrated Development Master Plan for Agriculture and Livestock in Tocantins State (hereinafter referred to as "the Study"), the Government of Japan through Japan International Cooperation Agency (JICA) dispatched the Study Team headed by Mr. Satoru Kido and the Advisory Team headed by Mr. Masahito Sato for the implementation of the Study in the State of Tocantins in the Federative Republic of Brazil. At the commencement of the Study, the Study Team submitted officially twenty (20) copies of the Inception Report to the Government of the State of Tocantins and explained the contents of the Report at the presence of the concerned officials of the State of Tocantins government headed by Mr. Benedito Aparecido da Silva and coordinated by Mr. Divaldo Rézende on March 05, 1997. As a result of an explanation and exchange of opinions on the Report, the following has been agreed upon by both Tocantins State and Japanese sides.

1. The Tocantins State side agreed with the contents of the Inception Report which had been prepared in due compliance with the conditions set forth in the Scope of the Work for the Study.
2. Both parties shall cooperate for the effective and timely implementation of the present Study in such manner as to accomplish the objectives of the Study and to keep work schedule as contemplated in the Inception Report.
3. Japanese side requested to the State of Tocantins side to assign one full time counterpart personnel for each Japanese expert, and a coordinator, so that the Japanese Study Team may undertake on-the-job training to these counterpart personnel as required in the Scope of the Work for the Study.

This minutes of meeting is prepared in English and in Portuguese. In case that any discrepancy may arise between these two versions, the English version shall prevail.

JAPAN INTERNATIONAL COOPERATION AGENCY (JICA)

Palmas, June 24, 1997

Dr. Claudio Troncoso Vilas
Secretary of State Secretariat of
Agriculture, Tocantins State

Mr. Satoru Kido
Leader of JICA Study Team

Mr. Shigeru Ito
JICA Brazilian Office

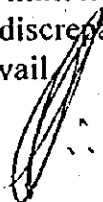

In accordance with the Scope of the Work for the Study on the Integrated Development Master Plan for Agriculture and Livestock in Tocantins State (hereinafter referred to as "the Study"), the Government of Japan through Japan International Cooperation Agency (JICA) dispatched the Study Team headed by Mr. Satoru Kido for the implementation of the Study in the State of Tocantins in the Federative Republic of Brazil for the Phase 1 Field Study from March 2 to June 26, 1997. At the end of the Field Study, the Study Team submitted officially twenty (20) copies of the Progress Report (1) to the Government of the State of Tocantins and explained the contents of the report at the presence of the concerned officials and counterpart personnel of the State Government of Tocantins headed by Dr. Claudio Troncoso Vitas, Secretary of State Secretariat of Agriculture as well as Mr. Shigeru Ito, JICA Brazilian Office, on June 24, 1997. As a result of an explanation of the report and subsequent exchange of opinions on the report, the following aspects have been agreed upon by both Tocantins State Government and JICA Study Team.

1. The Tocantins State side agreed with the contents of the Progress Report (1) which has been prepared in due compliance with the stipulations and set forth in the Scope of the Work for the Study.
2. As the results of the field survey concerned with the rural society, it is preliminarily concluded that the Master Plan should not take up a model of rural/agricultural plan for indigenous people which had been requested by the Tocantins State Government at the opportunity on the discussion of the Scope of the Work for the Study, in view of the consideration that it wouldn't be appropriate to introduce unconventional artificial structures for the production of their foodstuff considering their cultural background and the present educational level.

During the discussion, the Tocantins State side strongly requested to the Study Team that, for better understanding on the contents of the Study as well as for vitalization of discussion on the report, all the main reports to be prepared subsequently by the Study Team should also contain the Portuguese version (complete version) in addition to the English version

The Study Team answered to convey this request to JICA Head Office in Tokyo.

This minutes of meeting is prepared in English and in Portuguese. In case that any discrepancy may arise between these two versions, the English version shall prevail.

Leader of JICA Study Team

Mr. Aldrin Santana de Andrade
Brazilian Cooperation Agency (ABC)

Mr. Satoshi Yoshida
JICA Brazil Office

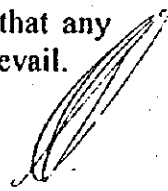

In accordance with the Scope of the Work for the Study on the Integrated Development Master Plan for Agriculture and Livestock in Tocantins State (hereinafter referred to as "the Study"), the Government of Japan through Japan International Cooperation Agency (JICA) dispatched the Study Team headed by Mr. Satoru Kido for the implementation of the Study in the State of Tocantins in the Federative Republic of Brazil.

As a result of the Study, the Study Team submitted officially thirty (30) copies of the Draft Final Report (hereinafter referred to as "the Report") to the Government of the State of Tocantins and explained the contents of the Report at the presence of the concerned officials of the State of Tocantins government headed by Mr. Cláudio Troncoso Vilas, Secretary of Tocantins State Secretariat of Agriculture, Mr. Satoshi Yoshida, JICA Brazil office and Mr. Aldrin Santana de Andrade, Agência Brasileira de Cooperação, on February 12, 1998.

As a result of an explanation and exchange of opinions on the Report, the following has been agreed upon by both Tocantins State and Japanese sides.

1. The Tocantins State side agreed with the contents of the Report had been prepared in due compliance with the conditions set forth in the Scope of the Work for the Study.
2. Programs/Projects proposed in the Report have generally good correlation with the result of the diagnosis and analysis of the prevailing potentials and constraints in the Study Area. The detailed review on the Report will be made by the Tocantins State side and the comments will be sent to the Study Team by March 12, 1998 through the JICA Brazil office, Brasília, if any.
3. The Study Team will modify and/or correct the Report based on the above comments, if necessary and send the Final Report to the Tocantins State through the Headquarter of JICA, Tokyo within two months after receiving the said comments from the Tocantins State side.
4. Tocantins State side has no objection to the Final Report being open to the public immediately after the Final Report is received by the Tocantins State.
5. Both sides agreed to have a Seminar regarding the Study in Brasília.

This minutes of meeting is prepared in English and in Portuguese. In case that any discrepancy may arise between these two versions, the English version shall prevail.
