LEGEND

1 Sedimentary rocks

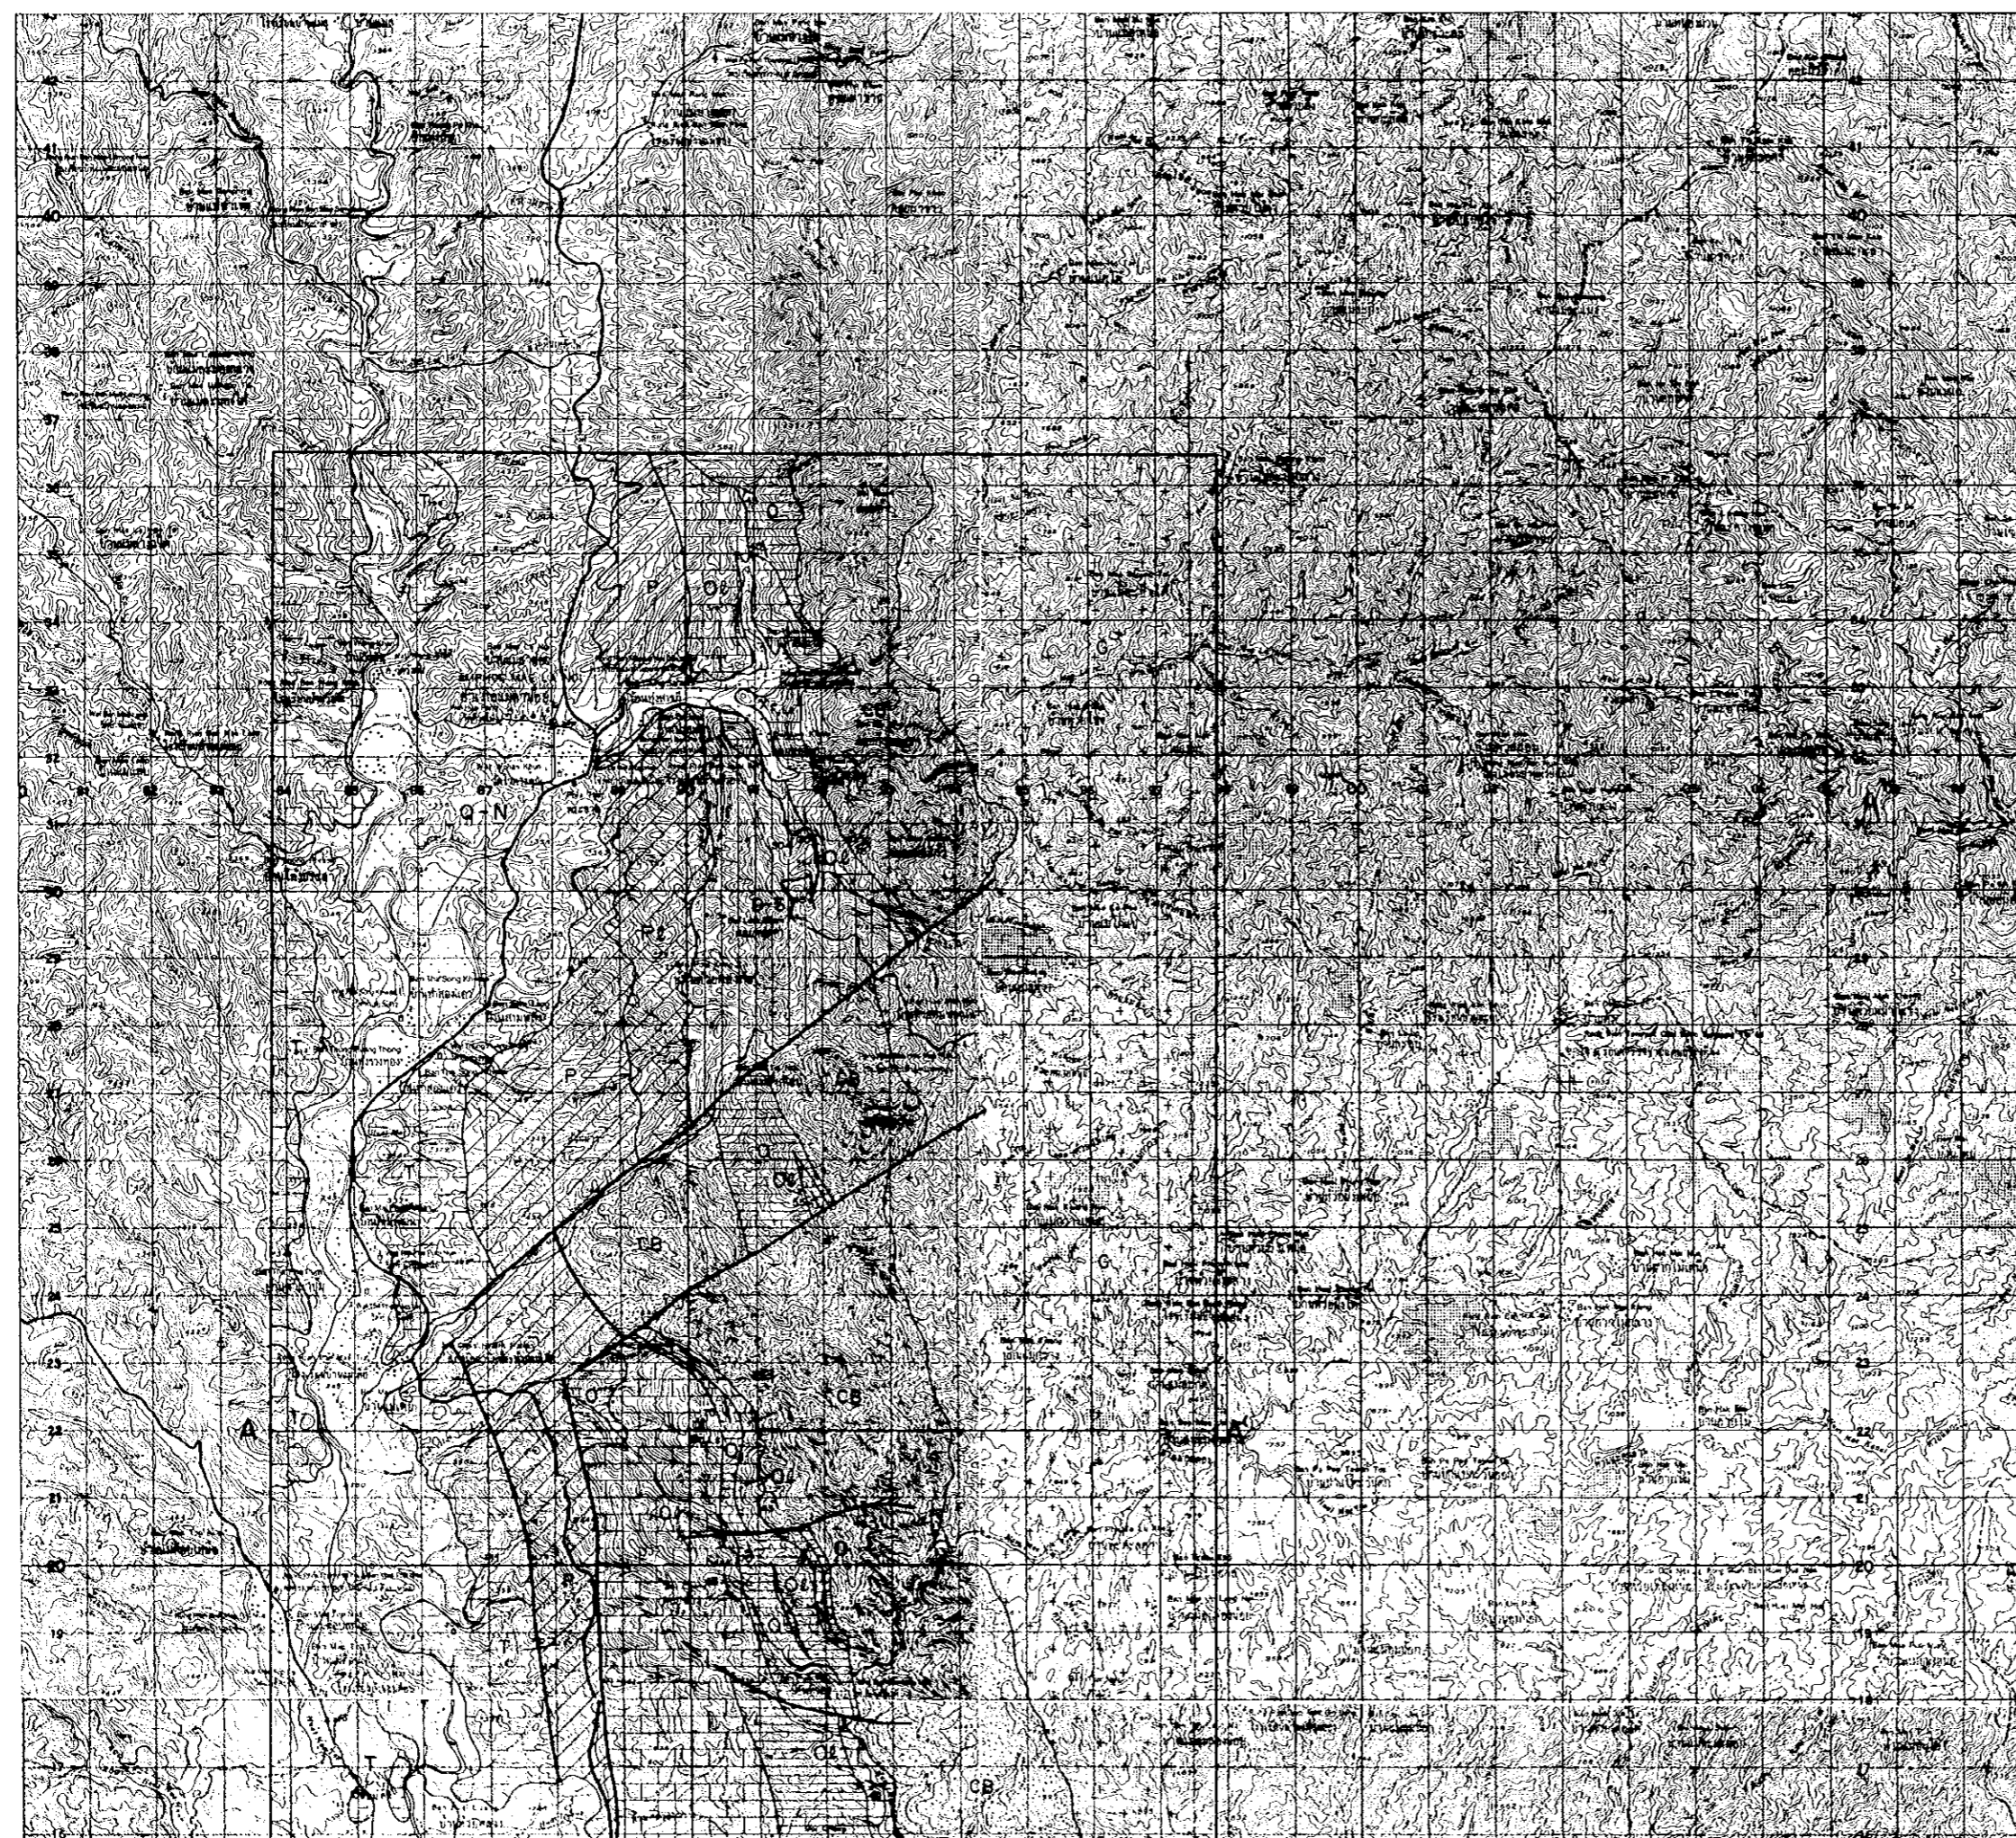

Quaternary	Q-N	gravel/sand, conglomerate/sandstone, shale
Neogene		
Triassic	T	sandstone, shale, conglomerate, limestone
Triassic-Permian	T-P	shale, chert, sandstone
Permian	P	shale, sandstone, chert
	P <sub>l</sub>	limestone
Carboniferous-Devonian	H-D	shale, sandstone
	H-D <sub>l</sub>	limestone
Devonian-Silurian	D-S	shale, sandstone
Ordovician	O <sub>l</sub>	limestone
	O	shale
Cambrian	CB	sandstone (quartz arenite)

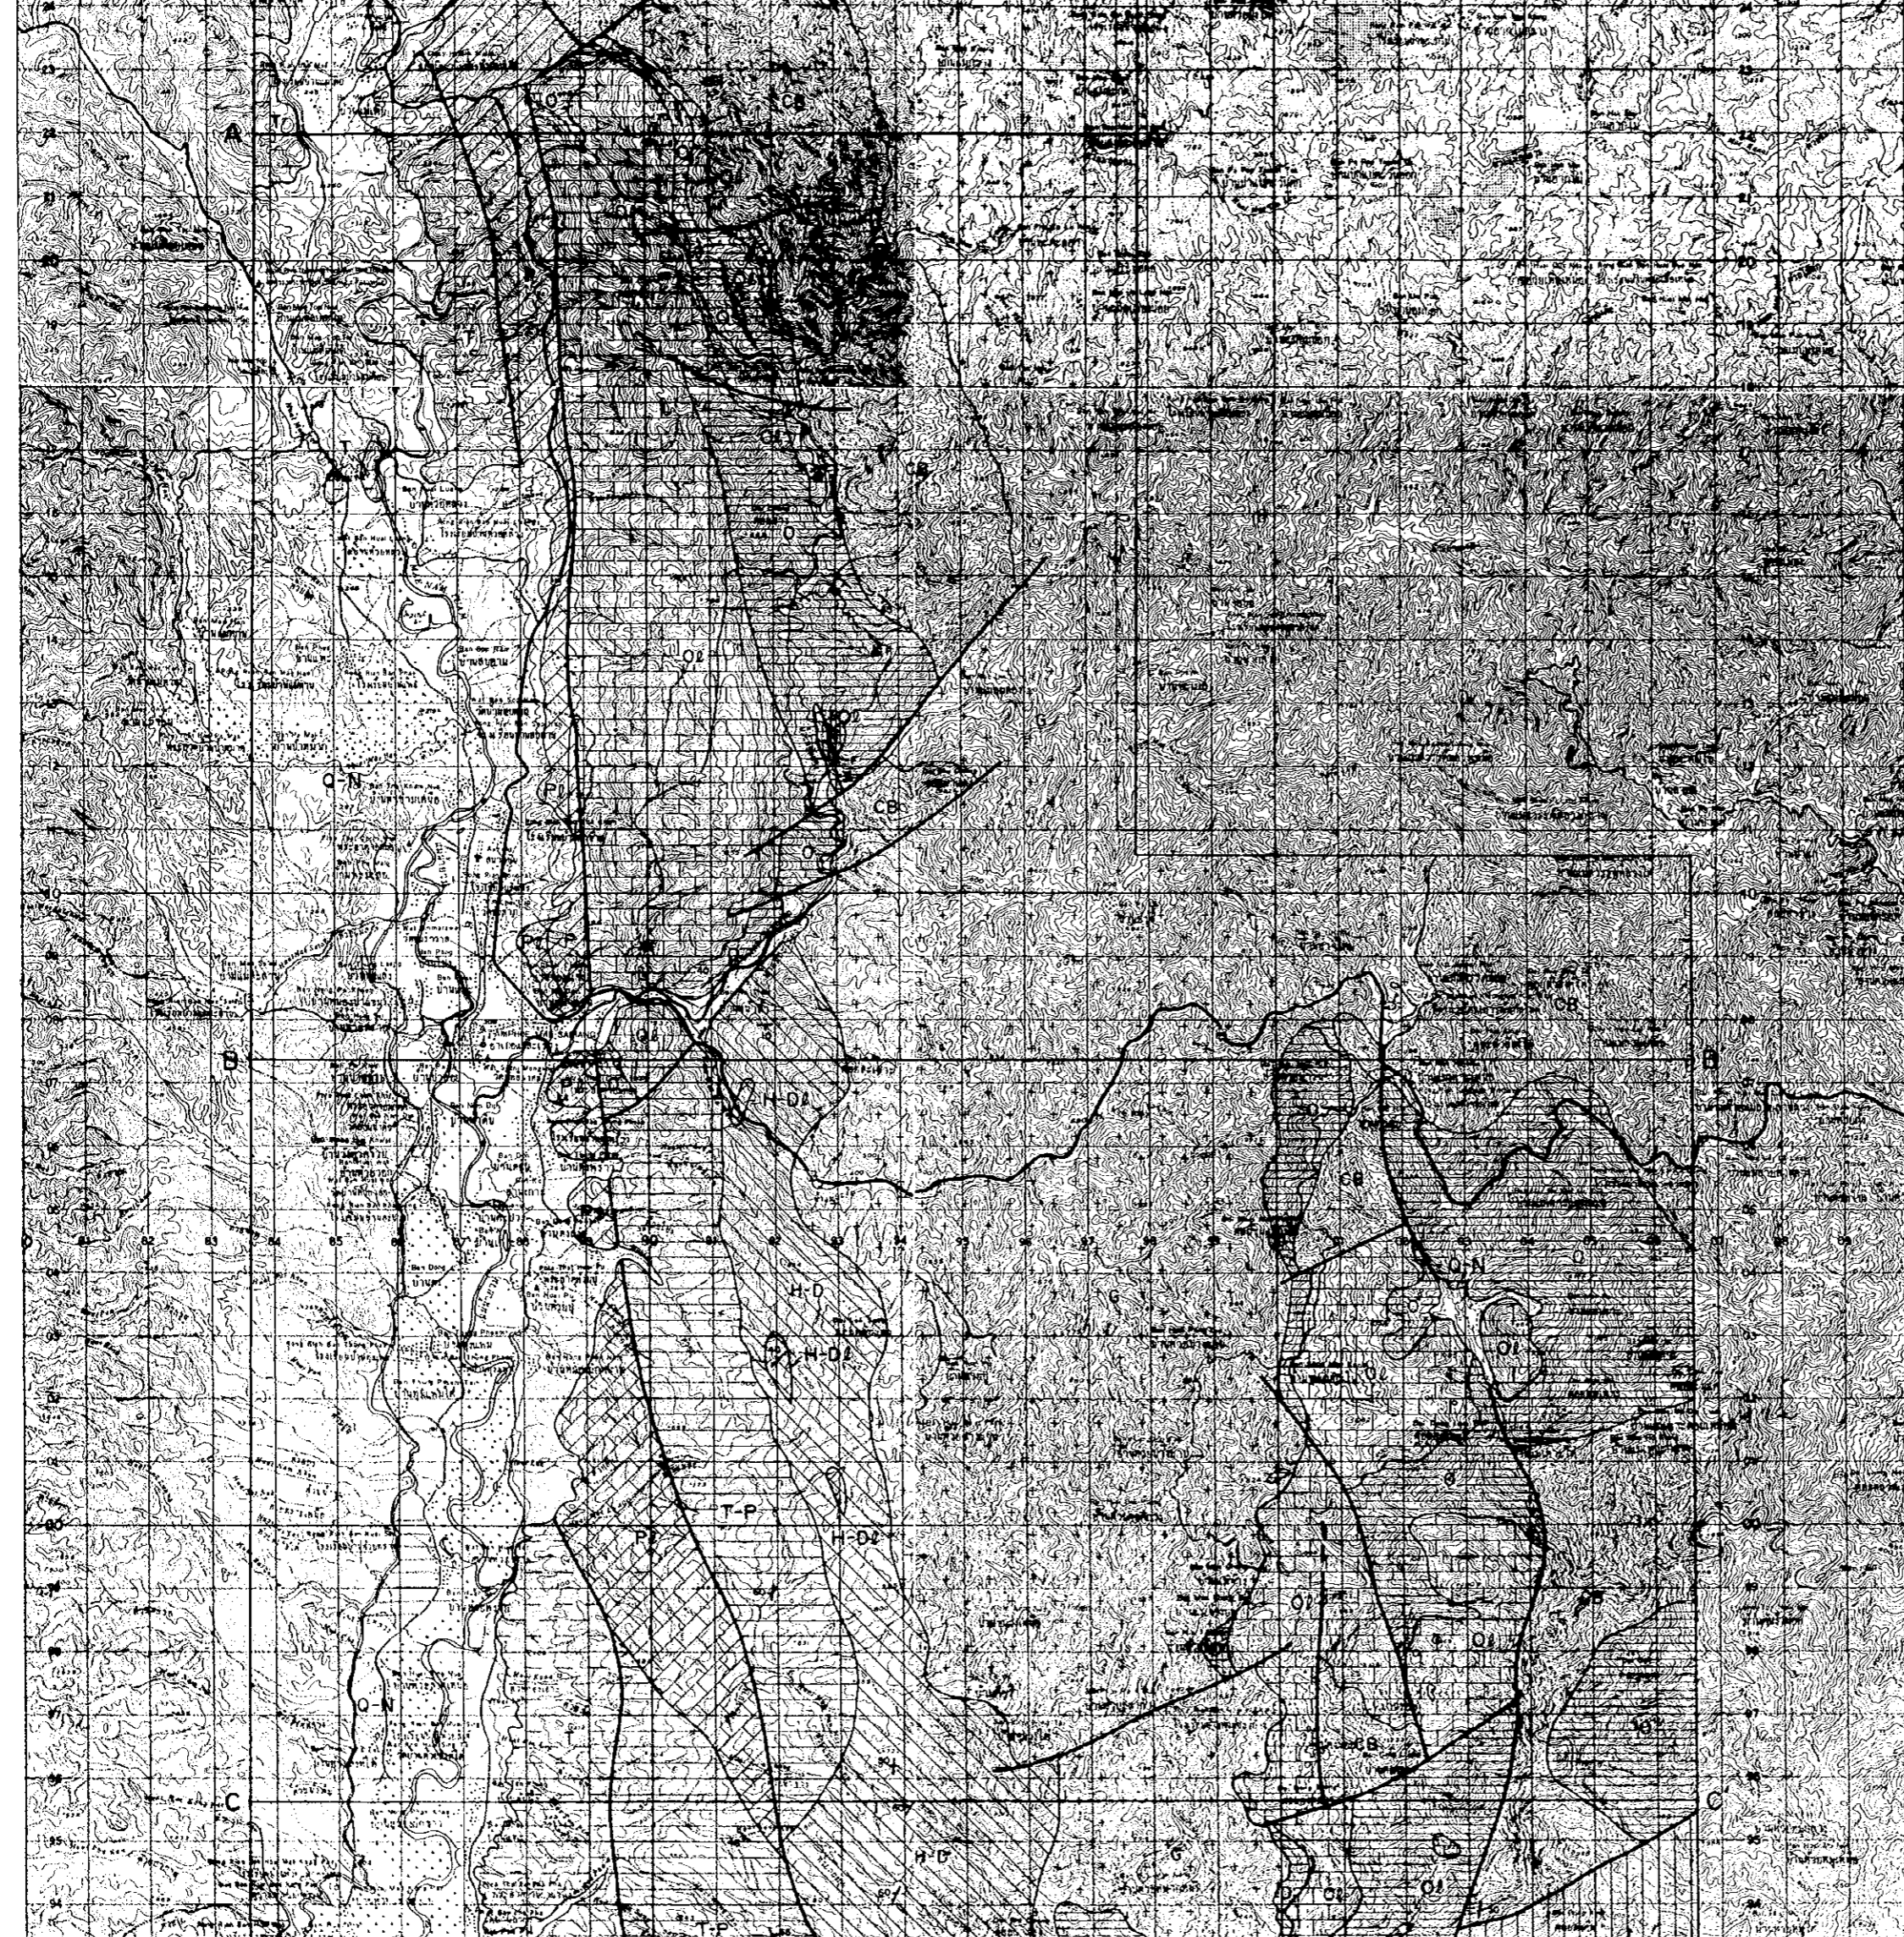

2 Igneous rocks

Triassic	G	biotite granite
----------	---	-----------------

3 Geologic symbols

—	Fault
↘ <sub>45</sub>	Strike and dip
×	Mine (active)
×	Mine (inactive)
Ba	Barite
Ls	Limestone
F	Fluorite

- Devonian-Silurian D-S shale, sandstone
- Ordovician O<sub>l</sub> limestone  
O shale
- Cambrian CB sandstone (quartz arenite)
- 2 Igneous rocks
- Triassic G biotite granite
- 3 Geologic symbols
- Fault
- Strike and dip
- X Mine (active)
- X Mine (inactive)
- Ba Barite
- Ls Limestone
- F Fluorite
