

### Annex 3

#### **NECESSARY MEASURES TO BE TAKEN BY THE PHILIPPINE SIDE**

Following necessary measures should be taken by the Government of the Republic of the Philippines on condition that the Grant Aid by the Government of Japan is extended to the Project:

1. To secure the site for the Project
2. To clear, level and reclaim the site prior to the commencement of construction, if necessary.
3. To undertake incidental outdoor works, such as gardening, fencing, gates and exterior lighting in and around the Project site, if necessary.
4. To construct the access roads to the sites prior to the commencement of construction, if necessary.
5. To provide necessary facilities for distribution of electricity, water and other incidental facilities
6. To facilitate securing of building, occupancy and all necessary permits for the Project implementation with respect to the laws and regulations of the Philippines.
7. To ensure prompt unloading, customs clearance at the port of disembarkation in the Philippines and prompt internal transportation therein of the products purchased under the Grant Aid.
8. To exempt Japanese nationals from import duties, expanded value added tax (EVAT), other internal tax and fiscal levies which may be imposed in the Republic of the Philippines with respect to the supply of products and services under the Verified Contract;

9. To accord Japanese nationals whose services may be required in connection with the supply of the products and the services under the verified contract such facilities as may be necessary for their entry into the Philippines and stay therein for the performance of their work.
10. To provide necessary permissions, licenses and other authorizations for carrying out the Project.
11. To bear two kinds of commissions to the Japanese bank for the banking services, based upon the "Banking Arrangement", namely, the advising commission of the "Authorization to Pay" and payment commission.
12. To maintain and use properly and effectively the facilities constructed and the equipment provided under the Grant Aid.
13. To assign enough number of qualified teaching and administrative staff in order to operate the facilities constructed under the Project.
14. To bear all the expenses, other than those to be borne by the Grant Aid.
15. To coordinate and solve any issues related to the Project which may be raised during implementation of the Project.
16. Although the water supply system for toilets and science laboratories is designed to function by means of hand-carried water in the event of water shortage, it is indispensable to secure proper water sources to/in the Project sites. The Philippine side has assured to secure the water sources for the Project.
17. Although the schoolbuildings covered by the project are designed for easy maintenance, proper maintenance, especially that for the toilets is crucial for the Project. The Philippine side has assured to take the necessary measures for the maintenance of these facilities.
