River Improvement Plan (7/17)

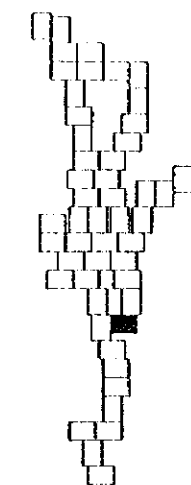

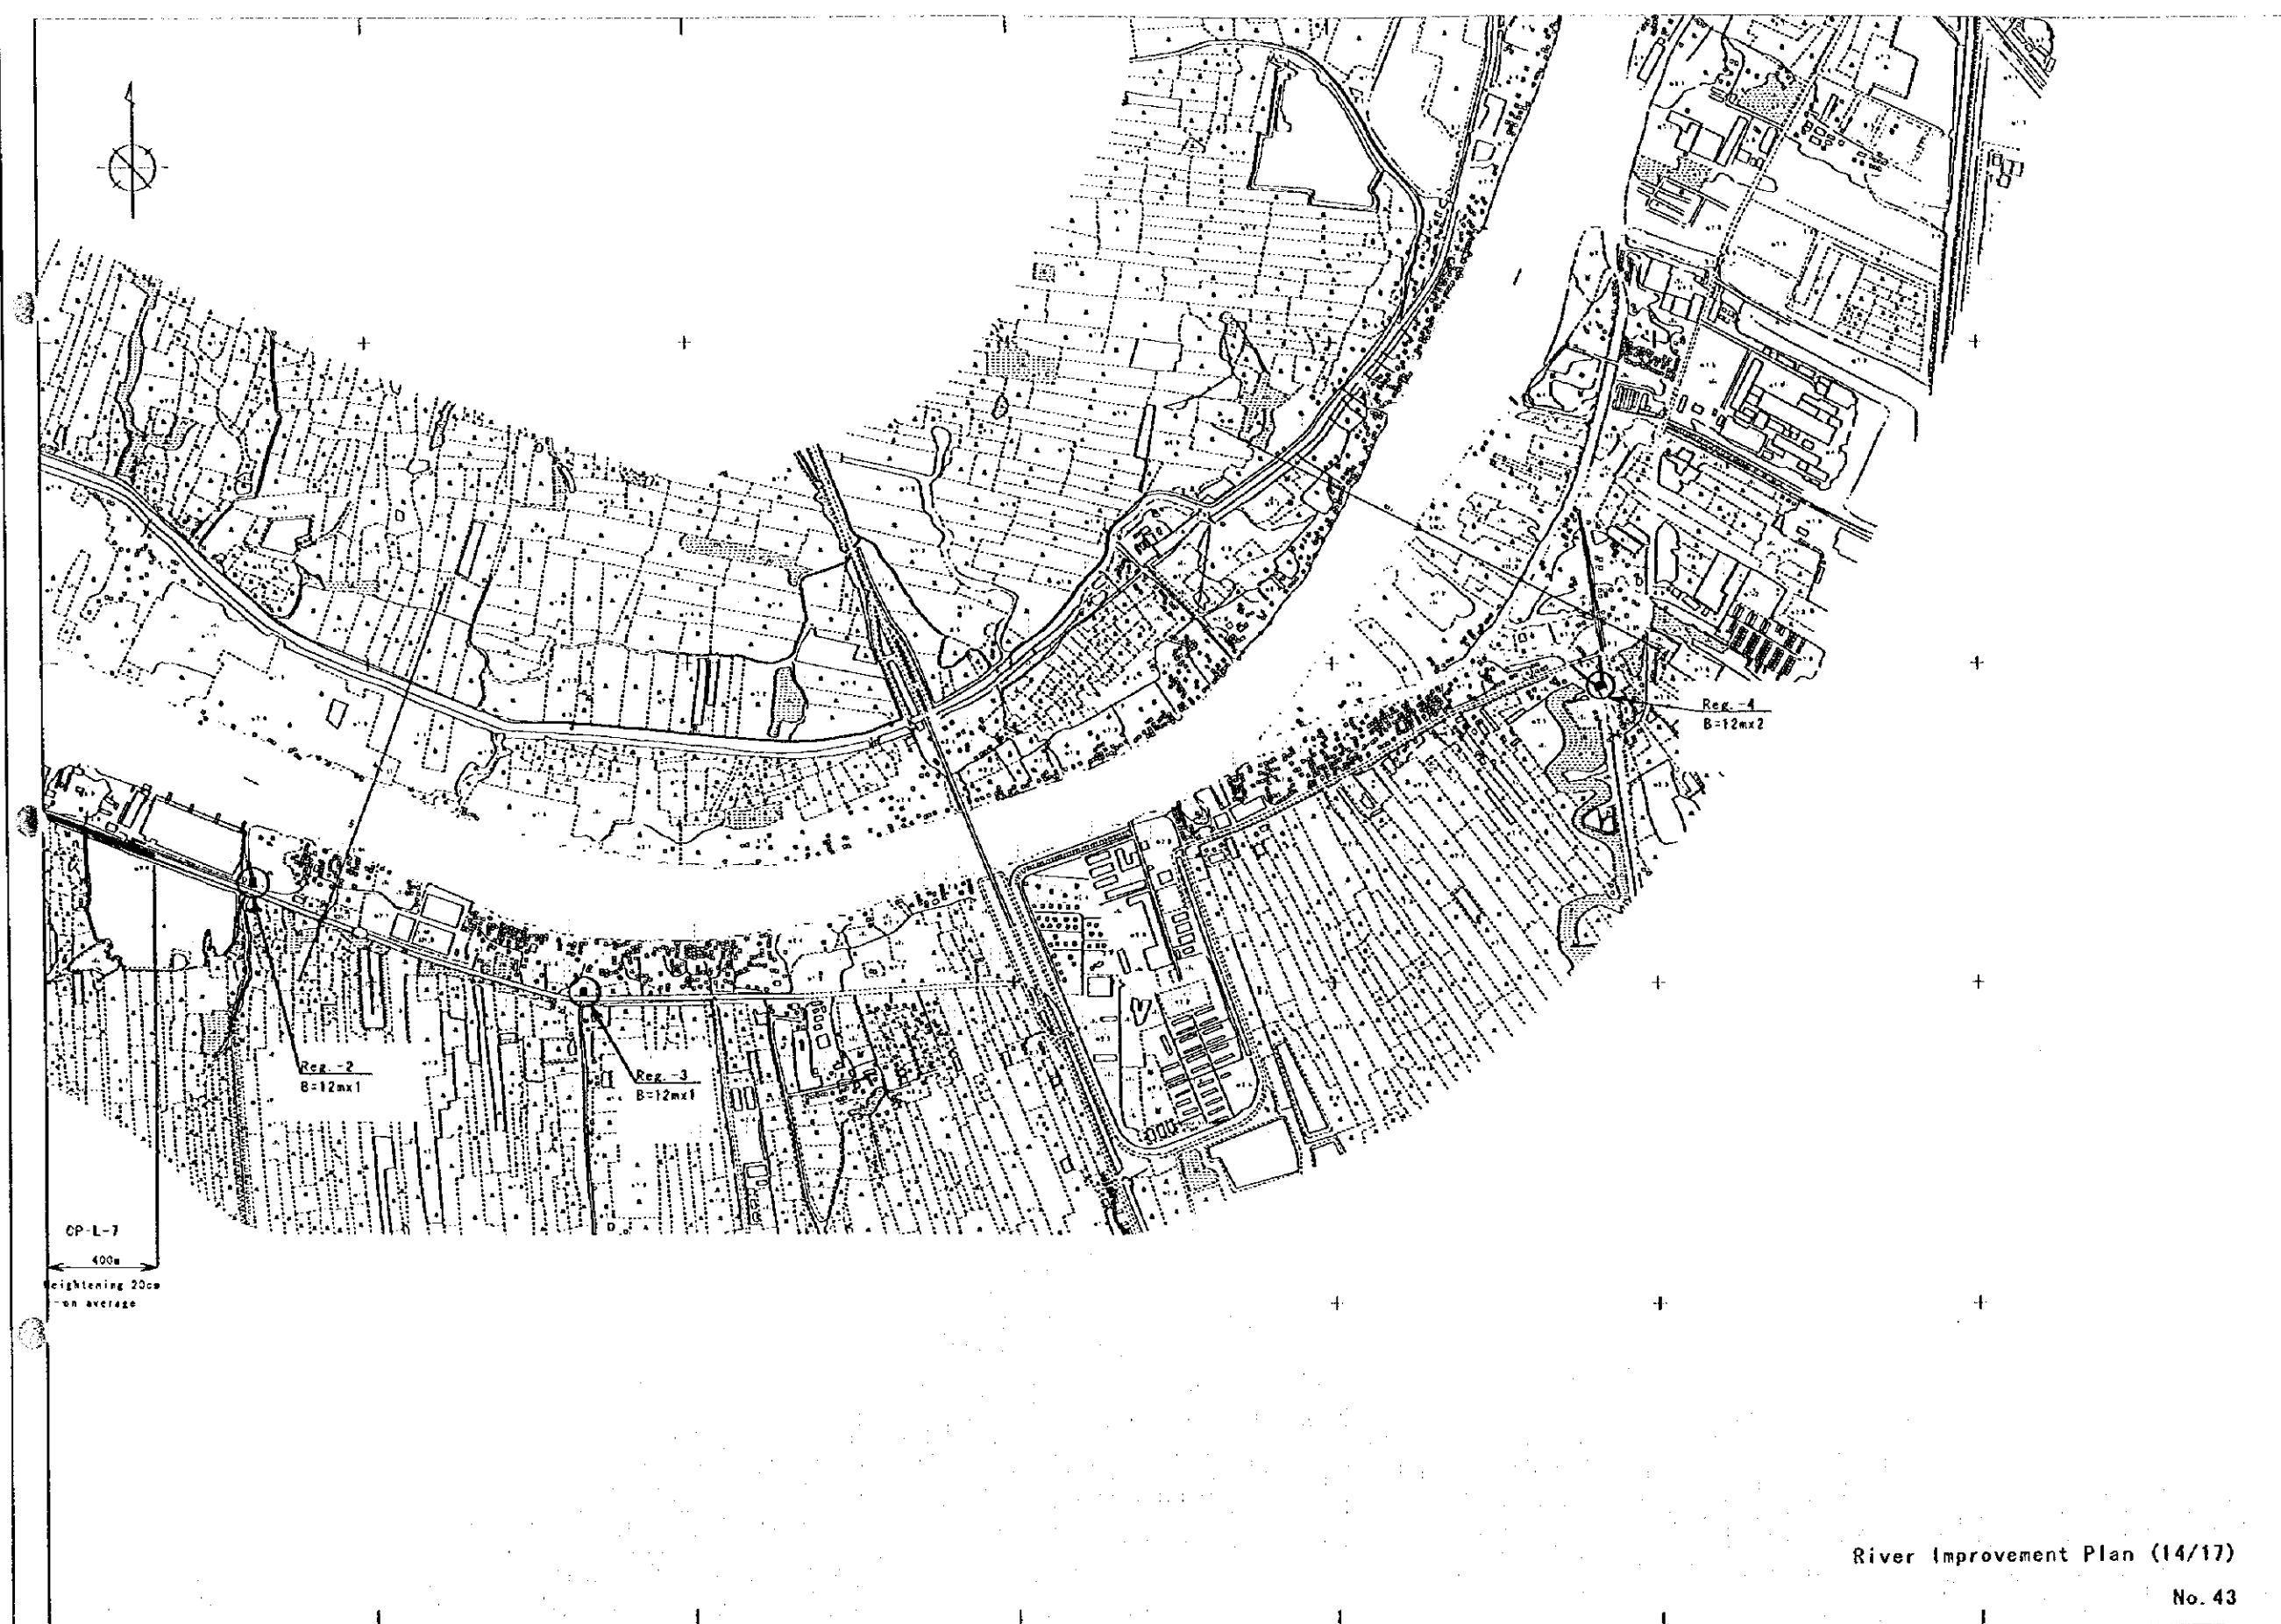

No. 35

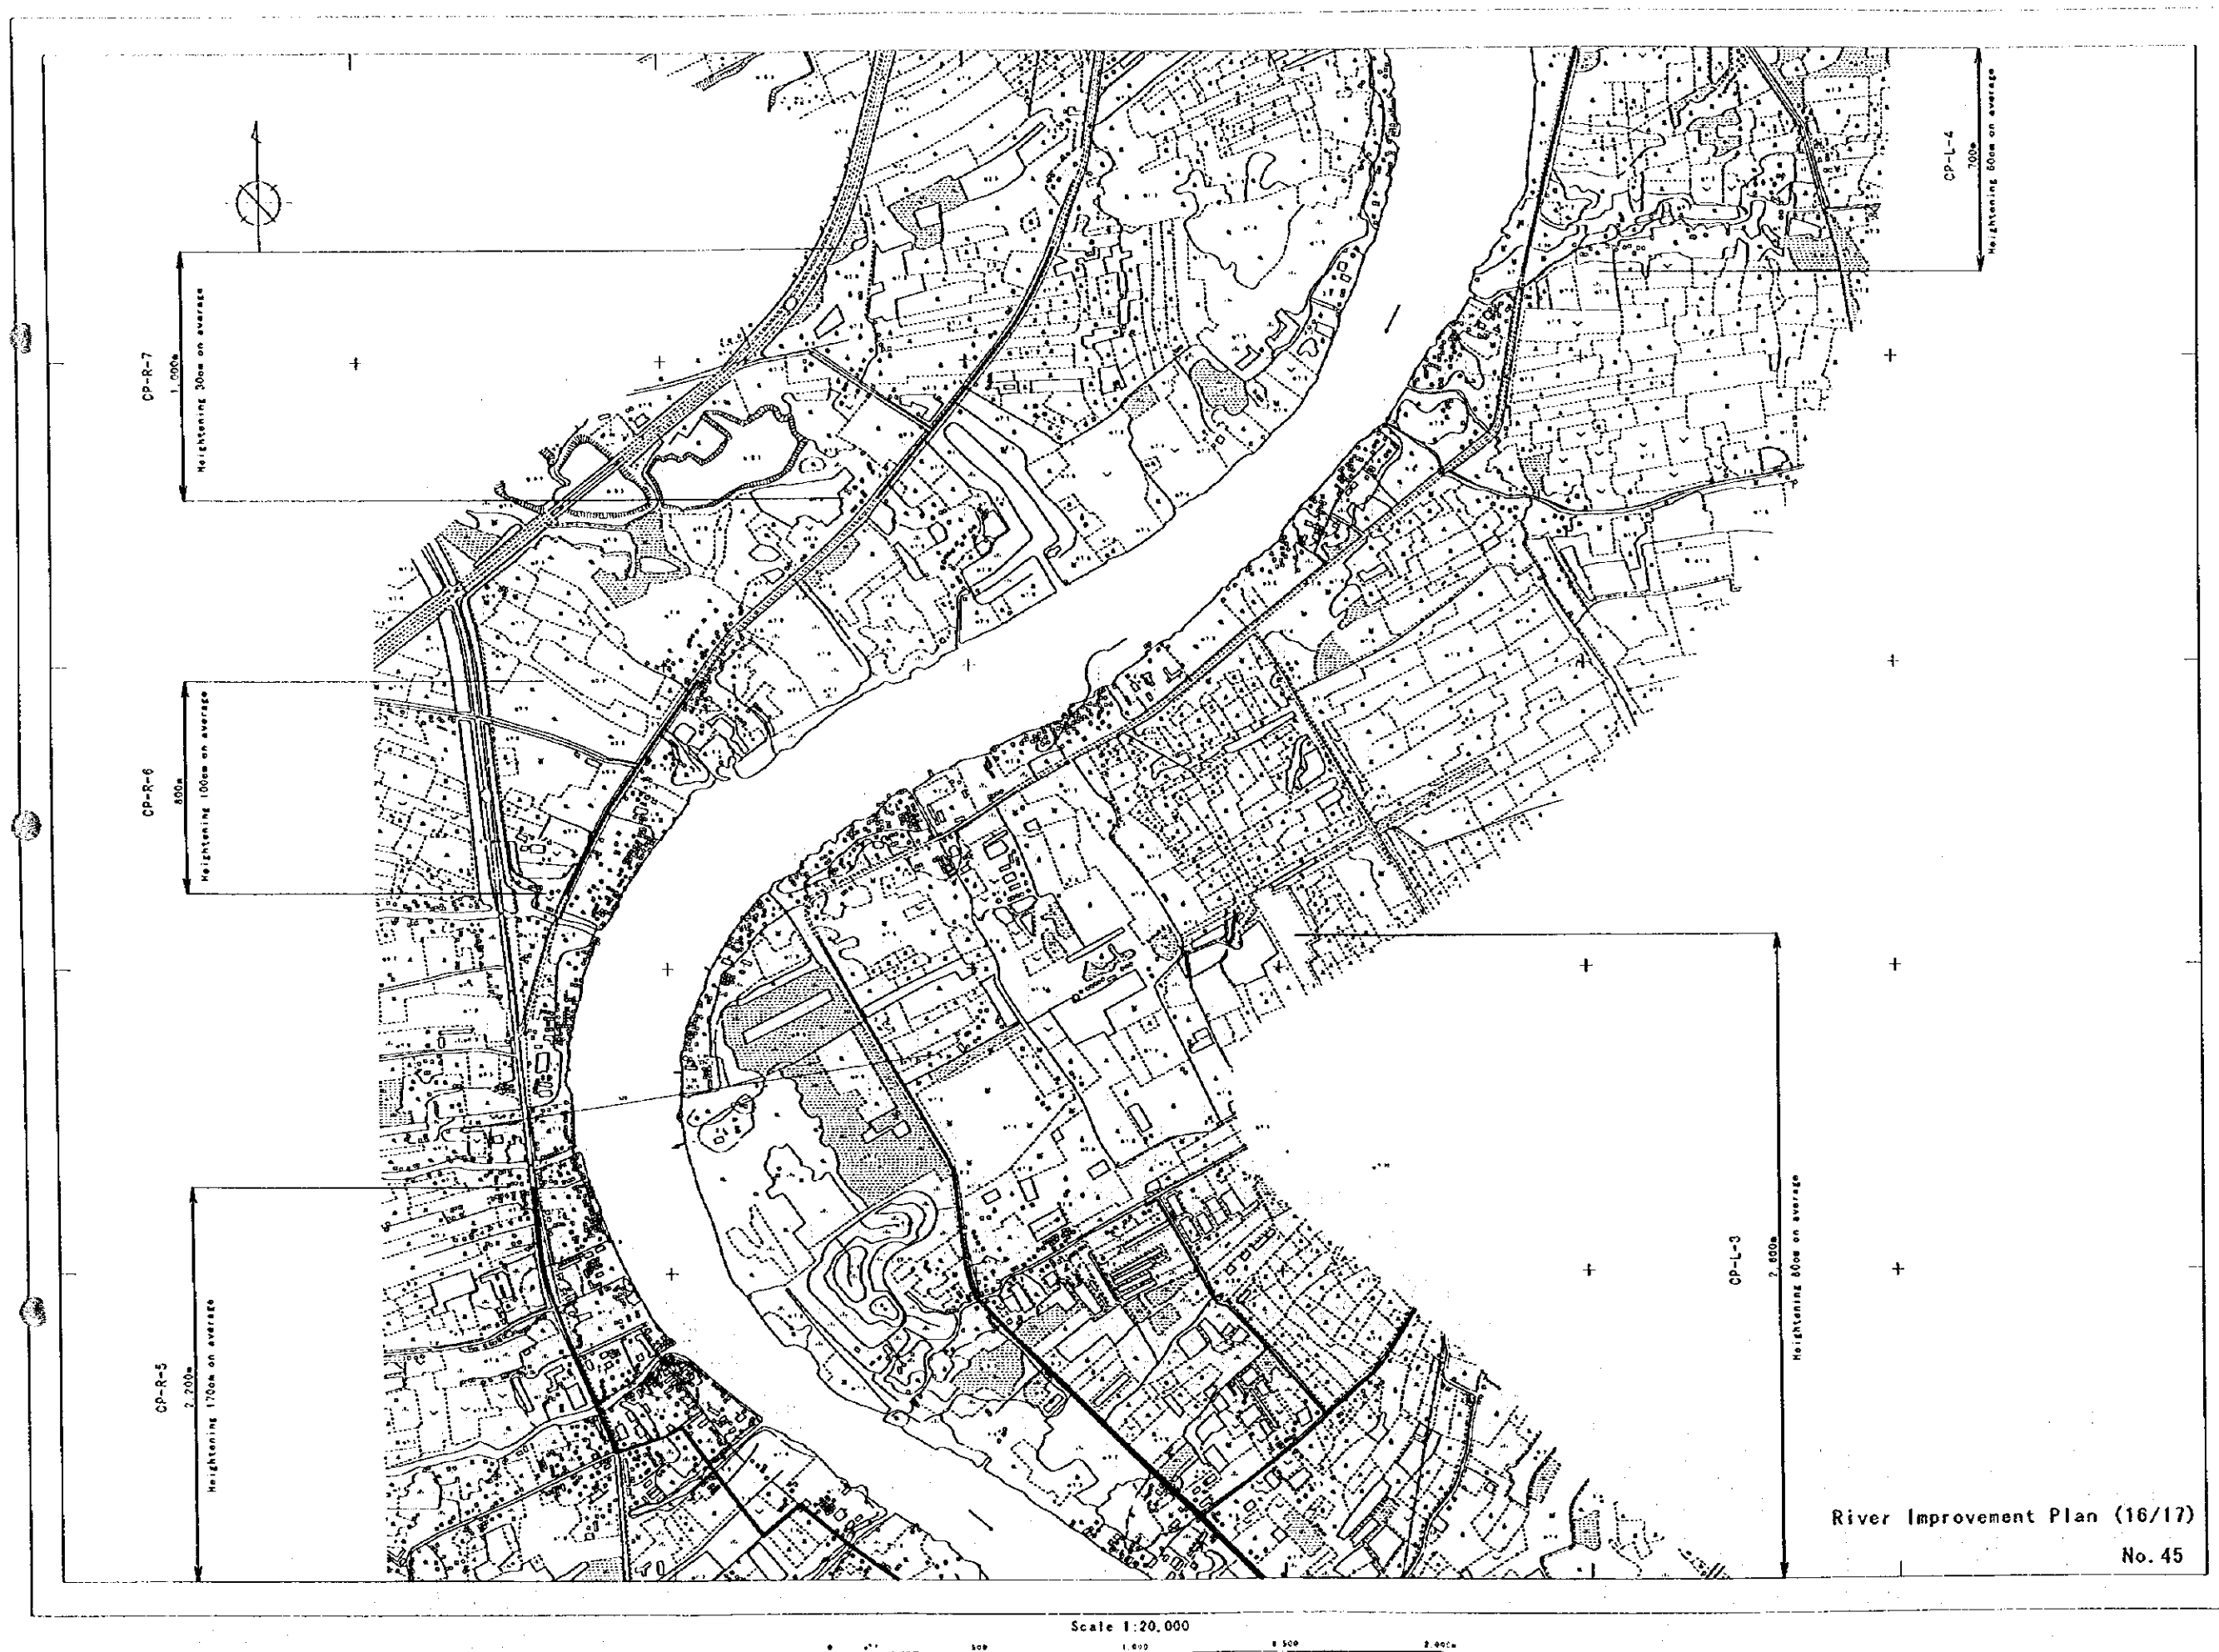

Scale 1:20,000

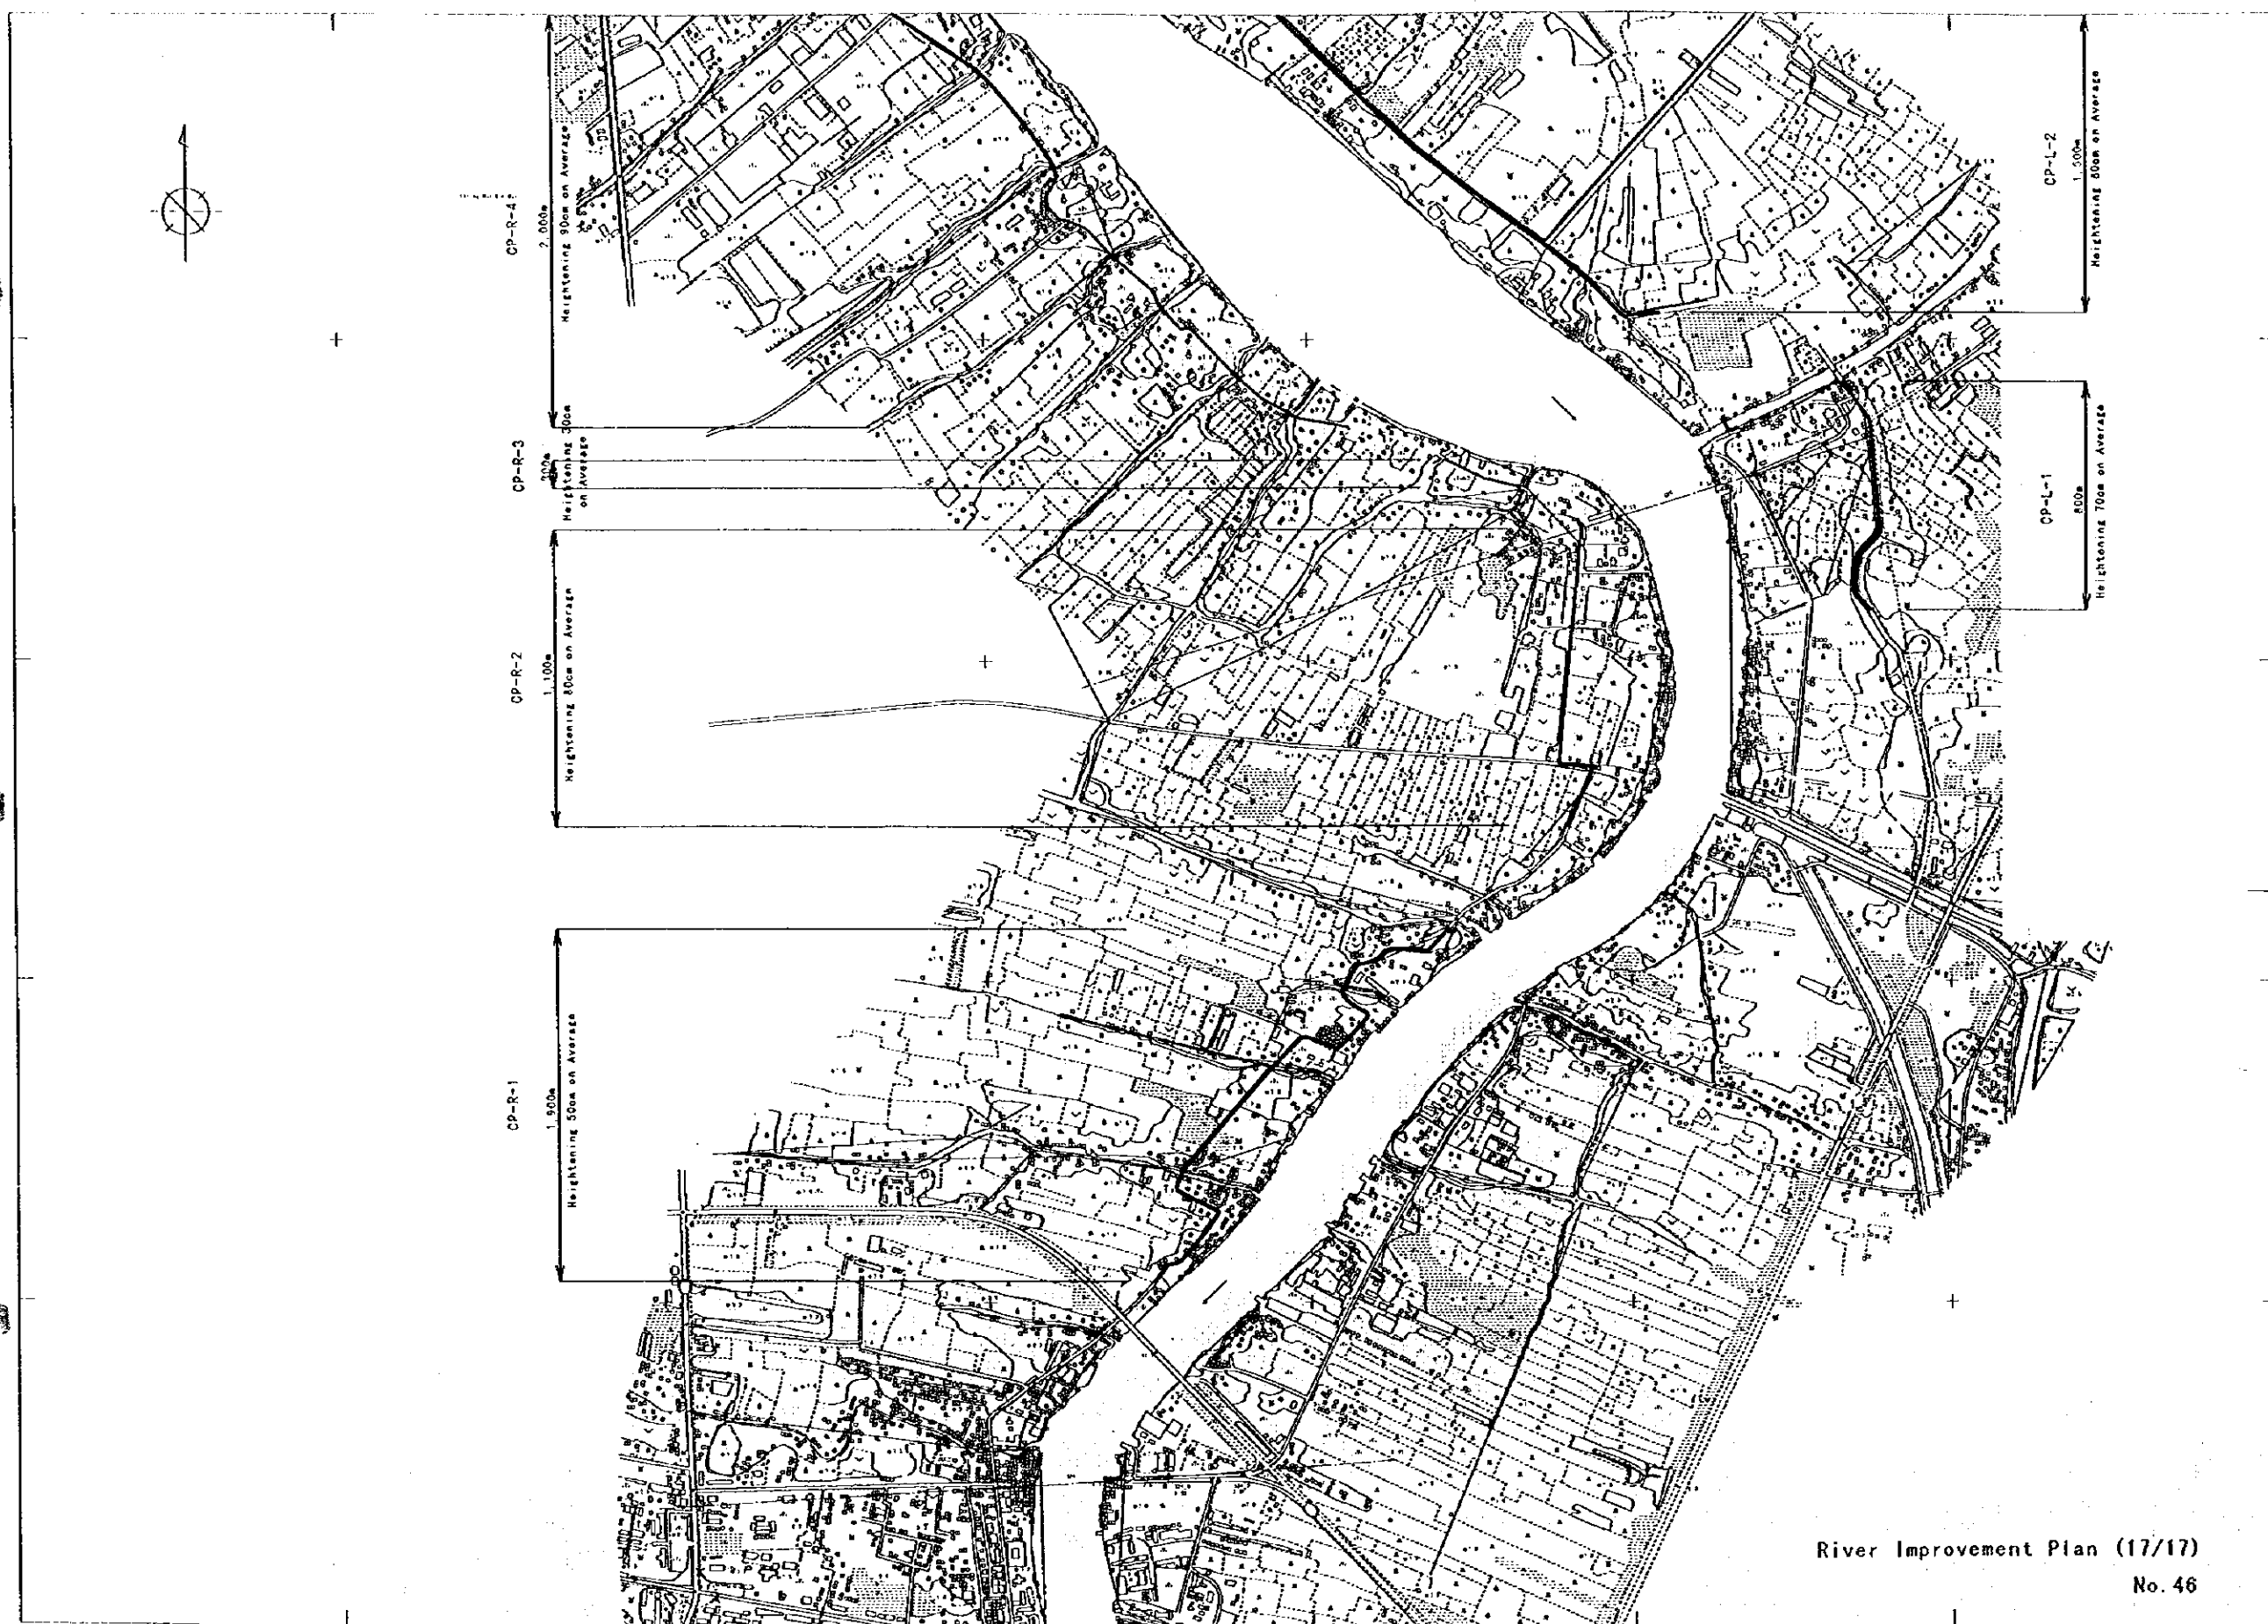

0 500 1,000 1,500 2,000

Water level
Water level in the sea
Water level in the lake
Water level in the river
Water level in the canal
Water level in the pond
Water level in the reservoir
Water level in the dam
Water level in the weir
Water level in the lock
Water level in the sluice
Water level in the gate
Water level in the valve
Water level in the pipe
Water level in the tunnel
Water level in the shaft
Water level in the well
Water level in the spring
Water level in the fountain
Water level in the waterfall
Water level in the rapids
Water level in the falls
Water level in the cataract
Water level in the gorge
Water level in the canyon
Water level in the valley
Water level in the basin
Water level in the plain
Water level in the steppe
Water level in the tundra
Water level in the taiga
Water level in the forest
Water level in the park
Water level in the garden
Water level in the field
Water level in the meadow
Water level in the pasture
Water level in the farm
Water level in the village
Water level in the town
Water level in the city
Water level in the metropolis
Water level in the capital
Water level in the world
