EDUCATION STATISTICS

Teacher Training, Technical & Vocational,
Non-Formal and Higher Education

1996-1997

Supported by UNDP/UNESCO/UNICEF

ACKNOWLEDGEMENT

This is the first attempt in publishing basic information on Teacher Training, Non-formal Education and Higher and Technical Education in Cambodia. Respective Departments supply the necessary information. The District and Provincial level offices also help in collecting data on Non-formal Education.

However, there are two points to take into account: 1) In the absence of the National Census, the population figures used in this booklet are as provided by the district offices, which are also estimates, based on the head-count surveys. 2) Data from some provinces, institutions and faculties are not available in time for publishing.

Both these factors effected the quality of information produced in this booklet. It is suggested that caution should be used interpreting some of the tables.

The UNDP/UNESCO, in collaboration with UNICEF, provided technical assistance in establishing an EMIS Center and in producing education statistics in Cambodia.

Planning and Aid Coordination Unit
Ministry of Education, Youth and sports

Phnom Penh, September, 1997
