

D.2 PRIORITY PROJECTS OF OKRES IN THEIR ENVIRONMENTAL ACTION PROGRAMMES

1 THE OUTLINES OF THE PROJECTS LIST

The attached lists are the information which have been obtained from the interviews at the Environmental Department offices of the Okres in the Study Area.

- 0. Profiles of the Okres office in the Study Area
 - 0.1 Name of the Okres and Kraj
 - 0.2 Number of staffs in the Okres office and the Environmental Department of the Okres
 - 0.3 Name of the sections in the Environmental office
- 1. About the territorial development plan of the Okres
 - 1.1 Existence of the territorial development plan
 - 1.2 Policies and strategies of the territorial development plan
 - 1.3 Current priority projects in the plan
- 2. About the EAP (Environmental Action Programmes) of the Okres
 - 2.1 Existence of the EAP
 - 2.2 Policies and strategies of the EAP
 - 2.3 Current priority projects in the EAP
 - 1) Proposed projects in NEAP / KEAP / REAP / OEAP (extract from the recent plan documents). These are not included in the following priority projects.
 - 2) Priority projects, which are collected from the Environmental Department office
 - A Not yet done; the projects which have not proceed yet.
 - B Under process: the projects which are under implementation or preparation at present
 - C Done: the projects which have been completed

2. THE TYPE OF THE MAJOR EAP PROJECTS

The majority of the EAP projects can be classified as follows by sub-sectors;

A AIR

- 0 Gas supply to the public facilities, municipalities and industrial factories
- 1 Measures to de-dust or decrease emissions of NO_x from the industrial factories
- 2 De-sulpherisation and/or de-nitrification of exhaust from heating houses
- 3 Warm water supply to the industrial factories
- 4 Construction of by-pass of large town and electrification of railway

B WATER

- 0 Construction of sewerage and/or WWTP by municipalities and/or companies
- 1 Water supply to municipalities
- 2 Construction of small water reservoirs
- 3 Installation of household water measures and savers
- 4 Measures to protect water quality (protection zone, planting etc.)

C WASTE

- 0 Construction of landfills by municipalities and/or companies
- 1 Promotion of separation of waste and separate collection
- 2 Elimination or recultivation of old waste dumps by municipalities and/or companies
- 3 Construction of incinerators by municipalities, hospitals and/or companies
- 4 Construction of regional collecting/ transfer/ selection stations
- 5 Completion of waste management measures for industrial/ medical/ dangerous waste
- 6 Support production and usage of composts

D RISK MANAGEMENT

E NATURE PROTECTION

F FORESTS

G ECONOMY

H INFORMATION

I EDUCATION

J MANAGEMENT

Sub-sectors D through J consist of various measures.

2

NAME OF OKRES	BREZNO	KRAJ	Banska Bystrica

No. of Okres Staff	208
No. of Environ. Staff	14

Sections in Environmental Department	
1	Territorial Plan and Building
2	Nature and Landscape Protection
3	Water Protection
4	Air Protection
5	Waste Management

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?
Okres	No	-	-
Municip.	(See list)	-	-

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Natural protection
2	Water protection
3	Air protection

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

**; Listed in the EAP Priority Projects

1	1.5	Development of Brezno area as a inhabitation center
2	3.1	Development of recreation and tourism sector keeping harmony with nature
3	3.7	Increase quality of existing recreational and tourism centers in the National Park of Nizke Tatry
4	6.1.8	Reconstruction of the road I/66 in the sector of Slovenska Lupca-Brezno, new route with bypass around Mesto Brezno
5	6.1.13	Reconstruction of the road I/72 in the sector of Brezno - Myto pod Dumbierom - Certovca-border of Zilina Kraj, and proposal to move the existing route I/72 in the sector of Podbrezova-Myto pod Dumbierom into II. road network class
6		Water supply from water source Dolna Lehota, alternative water management dam Hroncek, through BB water pipes to Zvolen water pipes
7	7.1.7	Reservation of space for planned water management work in the water dam in Hroncek
8		(A)**Start operation of WWTP, under construction in Polomka
9		(A)Realization of group water system in Valaska - Hronec, Predajna - Jasenie and Michalova - Pohronska Polhora
10		(A)Protection of inner environment of Mesto Brezno from Hron river
11		(A)Extension of the Horehronsky gas line to Telgart and branch gas line to Nizke Tatry and Cierny Balog
12		(A)Installation of gas line in Obec Benus, Dolna Lehota, Horna Lehota, Jasenie, Myto pod Dumbierom, Sihla, Telgart, Bravacovo, Cierny Balog, Hronec, Predajna and Sumiac

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1996	Okres
Soil study in Dolna Lehota Obec			

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Wastewater treatment
2	Environmental education
3	Solid waste
4	Air pollution at Dubova
5	-

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	A-	Gas supply to the Asylum of Social Care in Obec Podbrezova
2	A-	Gas supply to the boiler house of Strojsmalt Pohorela in Obec Pohorela
3	A-	Gas supply in Obec Pohorela
4	A-	Gas supply in Obec Helpa
5	A-	Gas supply in to the boiler house in Obec Podbrezova - its part Kolkaren
6	A-	Gas supply in Obec Pohronska Polhora and Michalova
7	A-	Gas supply in to the boiler house in Obec Podbrezova - its part Kolkaren
8	B-	Adjustment of the railway site for draughting chemicals from the Drevokombinat (Timber Processing Plant) in Polomka and Banska Bystrica
9	B-	Construction of sewerage and WWTP in Zeleziarne(Iron works) a.s., Podbrezova
10	B-	**Completion of the construction of WWTP in Obec Polomka
11	B-	Completion of the construction of WWTP and sewerage in Mesto Brezno
12	B-	Completion of the construction of Cierny Balog water resource
13	B-	Completion of the construction of WWTP in Mesto Brezno
14	B-	Construction of sewerage and WWTP in oil plant in Zeleziarne a.s., Podbrezova
15	B-	Reform of previous WWTP in Petrochema a.s. Dubova
16	C-	Construction of landfill for Pohorela and its neighbouring municipalities
17	C-	Re-cultivation of the waste landfill of Siklov - Zeleziarne a.s. Podbrezova
18	C-	Revitalisation and re-cultivation of the old communal waste landfills in Obec Cierny Balog, Pohronska Polhora, Helpa, Poniky, Slovenska Lupca and Podkonice
19	C-	Maintenance of the waste disposal site-II at Petrochema a.s. Dubova

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-4	Cleaning of gases in Petrochema a.s. Dubova
2	A-7	Gas supply in Mesto Brezno
3	A-8	Gas supply to HDF a.s. Polomka
4	A-10	Gas supply to Zlievarne a.s. Hronec
5	A-11	Separation of technological production process in Zlievarne a.s. Hronec
6	A-14	Gas supply to ?
7	A-24	Uc UaSd ?
8	A-28	Using bio-gas and change power facility of public transport
9	B-1	Construction of sewerage and WWTP (1st. Stage) in Obec Sumiac
10	B-14(1)	Construction of water reservoirs at Hronec and Helpa
11	C-4	Continue building of net of regional incinerating facilities for medical waste
12	C-5	Create system of recycling of waste - support companies for waste collection
13	C-6	Reducing of quantity of problematic materials in municipal waste - national implementation programmes of the municipal waste segregation
14	C-8	Create a wider net of separating facilities for separated waste utilisation - to locate the separating facility in waste disposal Ekolog
15	C-11	Continue restoration of the old unmanaged landfills and environmental loads - restore 4 landfills which are endangered

B. Under process

1	A-6	Power decreasing in Strojsmalt a.s. (60% finished)
2	A-21	Gas supply in Obec Zavadka nad Hronom (70% finished)
3	B-2	Construction of sewerage and WWTP in Obec Bacuch (50% finished)
4	B-3	Construction of sewerage (3rd. Stage) in Obec Dolna Lehota (50% finished)
5	B-4	Construction of sewerage and WWTP in Obec Horna Lehota (50% finished)
6	B-5	Construction of sewerage and WWTP in Obec Helpa (50% finished)
7	B-6	Construction of sewerage (2nd. Stage) in Obec Cierny Balog (50% finished)
8	B-7	Construction of sewerage and WWTP in Obec Zavadka n/H (50% finished)
9	B-8	Construction of sewerage and WWTP in Obec Pohorela (50% finished)
10	B-10	Construction of sewerage and WWTP in Obec Bacuch
11	C-3	Building of the national system of containerisation of hazardous waste disposal - reconstruction of the incinerator SOI and SOII of Petrochema a.s. Dubova
12	C-10	All municipal waste should be disposed on the technically suitable waste disposal (landfill) - Municipal waste from whole Pkres dispose on landfill "Ekolog" or on another technically suitable landfill - creation of bio-gas should be used for the gas supply of public transport
13	C-12	Implementation of the information system on waste disposal activities - create the Okres Information System
14	E-3	Preparation of proposal for declaration of Balocke Hills to become Protected Landscape Area
15	E-13	Completion of the research of otter
16	E-14	Elaboration and implementation of the saving program for wolf, chamois, wildcat and bear
17	E-18	Saving of the migratory frogs (50%)
18	E-19	Improvement of regulations for the locality Certovca ? (50%)
19	E-20	Elimination of the results of natural disasters in forests (80%)
20	E-21	Improvement of regulations in the area of Leniva - Jasienok ? (50%)

C. Done

1	A-1	Elimination of emissions discharge in air - increasing affectivity of boiler units
2	A-2	Implementation of rotary furnace of Zeleziarne a.s.
3	A-5	Decreasing of HYSL in Slovump a.s., Zavadka nad Hronom
4	A-9	Gas supply to HDF a.s. Polomka
5	A-12	Gas supply in Obec Podbrezova
6	A-13	Gas supply in Obec Zavadka nad Hronom (3rd. Stage)
7	A-15	Gas supply to Zlievarne a.s. Hronec
8	A-16	Gas supply in Obec Polomka (2nd. Stage)
9	A-17	Gas supply in Obec Pohorela (3rd. Stage)
10	A-18	Gas supply of the street Mliekarenska in Mesto Brezno
11	A-19	Reconstruction of the boiler in the Cultural House in Obec Zavadka nad Hronom
12	A-20	Gas supply in Obec Michalova
13	A-22	Extension of the gas line in Mesto Brezno
14	A-23	Gas supply to the boiler in the factory of Strojsmalt a.s. Michalova
15	A-25	Gas supply in Obec Helpa
16	A-26	Inspissation of the high and low voltage connection in Obec Sihla
17	A-27	Inspissation of the high and low voltage connection in Obec Bravacovo
18	B-9	Saving drinking water - reconstruction of the water piping system and sewerage (3rd. Stage) in Obec Osrbile
19	B-11	Reconstruction of the drinking water piping system in Obec Michalova
20	B-12	Reconstruction of the drinking water piping system (part) in Obec Sumiac
21	B-13	Completion of the drinking water supply lines in all municipalities
22	B-14(2)	Construction of water reservoir at Rohozna
23	C-1	Restoration of the improper disposals of the hazardous waste - using the proper facilities for hazardous waste disposal
24	C-7	Increase of the ratio of composting biological waste - create 1 to 3 facilities for composting of biological waste in HDF a.s. and Obec Polomka
25	C-9	Using proper technical facilities for the waste disposal - using all available facilities
26	E-1	Preparation of proposal for declaration of Muranska Plain to become National Park
27	E-5	Preparation of the territorial plan of the large territorial unit of Low Tatra
28	E-6	Preparation of the territorial plan of the large territorial unit of BB Kraj
29	E-8	Addition of proposal of Government regulation on Muranska Plain National Park

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?
Okres	No	-	-
Municip.	No	-	-

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

not available at the interview

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

** Listed in the EAP Priority Projects

1	3.1	Development of recreation and tourism sector keeping harmony with nature
2	3.7	Increase quality of existing recreational and tourism centers in the National Park of Muranska plane
3		(A)**Installation of gas line to Obec Muran

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1997	Okres
Regional territorial system of ecological stability of previous Okres, 1994			

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Nature protection(and tourism)
2	Water protection(and thus Soil protection)
3	Gas supply
4	-
5	-

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1		
---	--	--

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-1-	**Gas supply in Obec Muran
---	------	----------------------------

B. Under process

1	B-1-1	Sewerage and WWTP in Obec Muran(started, but stopped, because of shortage of money)
---	-------	---

C. Done

1	C-1-	Restoration of illegal landfill site in the National Park
2	E-1-1	Updating of proposal for Muranska planina NP
3	E-1-2	Evaluation of registered biocorridors
4	E-1-3	Preparation of proposal to declare National Natural Reservation "SANCE"

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?	
Okres	Yes	old	Okres	Former territory(BB+BR)
Municip.	(See list)	-	-	

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Sewerage
2	Air pollution(traffic, gas/electricity supply)
3	Bypath road

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

** Listed in the EAP Priority Projects

1	1.3	Development of BB-Zvolen as a metropolitan center of SR
2	3.7	Increase quality of existing recreational and tourism centers in the National Park of Nizke Tatry and proposed National Park of Velka Fatra
3	4.1	Ensuring legal protection for proposed National Park of Velka Fatra
4	6.1.4	(A)Reconstruction of the road I/59 in the sector of Banska Bystrica - Donovaly - border of Zilina Kraj and exclusion of truck flow to protect water sources
5	6.1.6	(A)Reconstruction of the road I/69 in the sector of BB - Sliac - Kovakova
6	6.1.7	(A)**Reconstruction of the road I/66 in the sector of B.B.-Slovenska Lupca, new route with bypass around Mesto Banska Bystrica
7	6.1.8	(A)Reconstruction of the road I/66 in the sector of Slovenska Lupca - Brezno
8	6.1.17	(A)Construction of the new route of the road II/577 in the sector of Banska Bystrica-Harmanec-border of Zilina Kraj (as the I road network class)
9	6.2.3	(A)*Electrification of the railway line BB - Zvolen and to reserve space for planned installation of two-rail route
10	6.4.2	(A)Creation of areas and technical conditions for construction and operation of terminals of combined transportation in Banska Bystrica
11		(A)Regulation and revitalisation of Hron river at Sliac-Vikanova
12	7.1.4	(A)**Completion of construction of WWTP in Mesto BB, Priechod and Podkonice and start operation of those WWTPs
13		(A)Realization of group water system in BB - Kyncelova - Nemce, BB - Badin, Harmanec-Dolny Harmanec, Hronsec - Vikanova, Sebedin - Becov - Cerin - Cacin - Hrochot - Dubravica - Oravce - Poniky - Ponicka Huta
14		(A)Regulation and revitalisation of Hron river at BB - Kremnicka
15		(A)**Protection of inner environment of Mesto BB from Hron river
16		(A)Water supply from water source Dolna Lehota, alternative water management dam Hroncek, through BB water pipes to Zvolen water pipes
17	7.2.5	(A)Replacement of 220 kV line to the control facility in Obec Medzibrod
18	7.2.6	(A)Reservation of space for planned expansion of the control facility in Obec Medzibrod to 400 kV
19	7.2.9	Reservation of space for planned construction of transmission stations in BB
20		(A)Completion of regional landfill of municipal waste for BB
21		(A)Completion of incinerator of medical waste in Banska Bystrica
22		(A)Liquidation of recultivation of abandoned landfills in Poniky and Slov. Lupca
23		(A)Branch gas line to Lubietova valley and Sebedin
24		(A)Installation of gas line in Obec Dolna Micina, Horna Micina, Lubietova, Oravce, Sebedin-Becov, Cerin, Dubravica, Hrochot, Malachov, Podkonice, Priechod and Strelniky
25		(A)Long distance optic cable line Ruzomberok - Donovaly - Banska Bystrica
26	8.1.2	Supporting of completion of complexes of Metaj Bel University, Academy of fine art and Academy of music arts in BB

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1997	Okres

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Water quality
2	Air protection
3	Nature conservation
4	-
5	-

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP (extract from the recent plan documents)

1	A-	Gas supply to the boiler house at Dulka
2	A-	Increase of efficiency of de-dusting procedure in the rotary furnace No. 3 of the Stredoslovenske Cement Works
3	A-	Reconstruction of the cement mill No. 5 in the Stredoslovenske Cement Works
4	A-	Gas supply in Obec Hronsek
5	A-	Gas supply to the thermal source and reconstruction of the incinerating plant of SH Senica (Textile factory)
6	A-	Replacement of the halons cooling units in SH Senica (Textile factory)
7	A-	De-dusting of the spraying dryers in Biotika a.s.
8	A-	*Electrification of the railway line BB - Zvolen
9	A-	Exclusion of solid fuels, transition to natural gas and heavy heating oil of Biotika
10	A-	*Enlargement of the trolleys transport in Mesto BB
11	B-	Completion of the construction of collecting emergency storing reservoirs for water harming substances in Biotika a.s.
12	B-	Water supply and water towers at the Ladova well
13	B-	Adjustment of the railway site for draughting chemicals from Drevokombinat (Wood processing plant) in Obec Polomka and Banska Bystrica
14	B-	Completion of the construction of water tank and water distribution network in Obec Malachov
15	B-	Construction of water tower for the 5th. pressure range of Rudlova-Sasova
16	B-	Reconstruction of handling areas for water harming substances in Biotika a.s.
17	B-	Implementation of anaerobic reactors in Biotika a.s.
18	B-	Reconstruction and completion of the sewerage network pursuant to the general plan of de-sewerage
19	B-	Reconstruction of the WWTP in the old hospital area of the F.D. Roosevelt Hospital in Mesto Banska Bystrica
20	B-	Reconstruction and enlargement of the WWTP in Obec Donovaly
21	B-	Reconstruction and enlargement of the WWTP in Mesto Banska Bystrica
22	B-	Implementation of surface water withdraws in F.D. Roosevelt Hospital
23	B-	Enlargement of the local WWTP of Biotika a.s. with the anaerobic stage
24	C-	Construction of a landfill for Obec Hrochot and neighbouring municipalities
25	C-	Completion of the construction of a regional plant for liquidation of waste from health service (apyrolysis incineration plant) for F.D. Roosevelt Hospital
26	C-	Construction of a regional landfill in the territory of BB Kraj
27	C-	*Revitalisation of the contaminated areas after the Soviet Army, Sliac-Vikanova
28	C-	*Revitalisation of the contaminated areas after the Soviet Army in Vikanova, by applying a technology based on biodegradation
29	C-	Revitalisation and re-cultivation of old communal waste landfill in Obec Poniky
30	C-	Revitalisation and re-cultivation of old communal waste landfill in Obec Slovenska Lupca - Podkonice
31	C-	Construction of wind power-plants as an alternative energy production

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-b)-1	Gas supply to the parts of the Mesto BB and surrounding municipalities
2	A-b)-2	**Building of the northern bypass of Mesto Banska Bystrica
3	A-b)-3	Expansion of trolleybus transportation in Mesto Banska Bystrica
4	B-a)-1	**Construction of WWTP in Obec Podkonice
5	B-a)-2	**Construction of WWTP in Obec Priechod
6	B-a)-3	Construction of sewerage in Obec Brusno
7	B-a)-4	Construction of sewerage and WWTP in Obec Slovenska Lupca or connection it to WWTP of Biotica a.s. which is necessary to reconstruct and improve
8	B-a)-5	Construction of sewerage and WWTP in Obec Medzibrod
9	B-a)-6	Construction of sewerage and WWTP in Obec Lubietova
10	B-a)-7	**Construction of new primary conduit and WWTP in Mesto BB
11	B-a)-8	**To solve flood situation in Mesto BB

	Yes/No?	When?	Who?
Okres	No	-	-
Municip.	(See list)	-	-
Plan for ecological stability			

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	(Shown in Territorial Plan B.B.)
2	
3	

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

**: Listed in the EAP Priority Projects

1	1.3	Development of BB-Zvolen as a metropolitan center of SR
2	1.4	Development of Zvolen - Detva area as a residential center
3	6.1.5	(A)Reconstruction of the road I/69 in the sector of Budca - Kovakova into 4 lanes
4	6.1.6	(A)Reconstruction of the road I/69 in the sector of Kovakova - Sliac - Banska Bystrica
5	7.12NT	Width adjustment of road I/66 Zvolen - Sahy to the category R22.5/80(100)
6	6.2.3	(A)**Electrification of the railway line Zvolen - BB and to reserve space for planned installation of two-rail route
7	7.27NT	(A)Reservation of spaces for planned high-speed railway route Bratislava - Nitra - Zvolen - Kosice
8	6.3.1	(A)Modernisation of the Slovak National Uprising airport of Sliac
9	6.4.2	(A)Construction and modernisation of terminals of combined transportation in Mesto Zvolen(International class)
10		(A)Inclusion of route of Zvolen - Krupina - border of Nitra Kraj as international route
11	7.1.4	Reconstruction and expansion of WWTP in Mesto Zvolen
12		(A)Start operation of WWTP, under construction in Mesto Zvolen
13		(A)Realization of group water system in Zvolen-Sliac-Kovakova
14	7.1.7	Reservation of space for planned water management work in the water dam in Slatinka
15		(A)Realization of water dam Slatinka in Slatina
16		(A)Regulation and revitalisation of Slatina river at Zvolen
17		(A)Regulation and revitalisation of Hron river at Sliac-Vikanova
18		Water supply from water source Dolna Lehota, alternative water management dam Hroncek, through BB water pipes to Zvolen water pipes
19		(A)Regional landfill of municipal waste in Zvolenska Slatina
20		(A)**Liquidation of territory left after the Soviet Army in Vikanova and Sliac
21		(A)Transmission stations in Mesto Zvolen-zapad and Zvolen-UNION
22		(A)Branch gas line to Pliesovce
23		(A)Installation of gas line in Obec Babina, Brezny, Dobra Niva, Ostra Luka, Podzamcok, Sielnica, Bacurov, Dubove, Pliesovce, Sasa and Velka Luka
24	8.1.2	Supporting of completion of complexes of Technical University of Zvolen

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1994	Okres
REAP for Central Hron Area, 1998			

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

not available at the interview

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	C-	**Revitalisation of the contaminated areas after the Soviet Army, Sliac-Vlkanova
---	----	--

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-I-1	**Electrification of the railway line Banska Bystrica - Zvolen
2	A-I-2	De-sulfurisation of exhausts from the Zvolen heating house
3	A-I-3	Denitrification of waste gases from the heating plant in Zvolen
4	A-I-1(2)	Incinerator of NsP(Hospital) Zvolen
5	A-I-2(2)	To trap the harming substances released from the surface treatment and shaped pressing divisions in Bucina a.s. Zvolen (Timber Trade Works)
6	B-I-1	Modernization and expansion of M WWTP in Mesto Zvolen
7	B-I-2	Odkanalizovanie severnej casti Bucina a.s., Zvolen-stage I
8	B-I-3	Biological dociatovanie adpadovtch vod Bucina a.s., Zvolen
9	B-II-1	Mozozoikum Kremnickych vrchov a zachej casti Zvol. Kotliny

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?
Okres	No	-	-
Municip.	No	-	-
Settlement plans for Mesto B.S, industrial zone, housing, central zone and mining area			
Tourism plans for Banský Studenec			

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Tourism development including conservation of historical heritages
2	Infrastructure, especially roads
3	Water supply and wastewater treatment

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

**; Listed in the EAP Priority Projects

1	2.3.3(a)	Development of industrial and building production and exploitation of minerals of the Okres
2	3.1	Development of recreation and tourism sector keeping harmony with nature
3	3.9	Development of international tourism with conservation of World Cultural Heritage
4	5.2	Special attention to be paid to the area of Banska Stiavnica, listed in UNESCO
5	6.1.20	Reconstruction of the road II/577 and other roads in the sector of Banska Stiavnica-Zarnovica with construction of bypasses
6	7.1.4	(A)**Completion of construction of WWTP in Mesto Banska Stiavnica
7		Start operation of WWTP, under construction in Banska Stiavnica and Banska Bela
8		(A)Regional landfill of municipal waste for the Okres
9		(A)Installation of gas line in Obec Stiavnicke Bane

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1997	Okres

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Protection of water quality
2	Drinking water

55	B-1-35	Sewerage and M-WWTP in Detva-Piest II
56	B-1-36	Sewerage and M-WWTP in Detva-Skliarovo
57	B-1-37	Sewerage and M-WWTP in Detva-Zapriechody
58	B-2-1	Detecting water spring in Obec Latky
59	B-2-3	Prefer water-management measures in projects of forest and water management plans
60	B-2-4	Propose revitalisation of flows in the framework of local system of sustaining ecology
61	B-3-1	Reconstruction of water-main system in Obec Viglasska Huta-Kalinka
62	B-3-2	Extension of water pipe - network encircling in Obec Stozok
63	B-3-3	Extension of water pipe in Obec Stozok
64	B-3-5	Support potable water-saving programs
65	B-3-6	Reconstruct water-network
66	B-3-7	Construction of water-supply in Podkrivan
67	B-3-10	Construction of water supply in Korytarky
68	B-3-11	Source and group water system in Detva-Rakytne
69	B-3-12	Source and group water system in Detva-Krne
70	B-5-1	Determine protective ranges of water sources
71	B-6-4	Dubrava brook-Detva brook
72	B-6-5	Protection and roofing of mineral wells in Okres Detva
73	B-6-6	Latky-construction of fences in order to prevent entrance of animals to brooks
74	B-6-7	Cattle drive in Obec Latky
75	B-6-8	Water-feeders for cattle in Obec Latky
76	B-6-9	Well-outlets in Obec Latky
77	B-6-10	Replacements for oil transforms in III PHO
78	B-7-12	Realisation of small-flows management-planting of bank plants
79	B-7-13	Small water reservoir in Obec Dubravy
80	B-7-14	Small water reservoir on Jelsa brook in Mesto Detva
81	B-7-15	Regulation of mouth of Detva brook into Slatina
82	B-7-16	Maintenance of main meliorisation channels
83	B-7-17	Forestation of areas along river in Obec Latky
84	C-1-2	Waste segregation of old pills and medicines (drugs)
85	C-2-1	Segregation of lead (Pb) waste
86	C-2-2	Segregation of lead (Pb) batteries waste
87	C-2-3	Regional waste collection center for problematic compounds
88	C-3-1	Monitor waste elimination in assigned facilities
89	C-3-2	Create a project for construction of new regional municipal waste landfill site
90	C-3-3	De-gas the landfill site at Detva-Studenec
91	C-3-4	Close landfill site at Hrinova-Fangova
92	C-5-1	Increase share of composted biological waste by min. 20%
93	C-5-2	Support production and usage of composts by propagation
94	C-5-3	Support production and usage of composts
95	C-6-1	Guarantee sufficient capacity of facilities for eliminating hazardous waste
96	C-7-1	Guarantee sufficient capacity of facilities for eliminating medical waste
97	C-8-1	Construct at least one facility for using waste as energy source
98	C-8-2	Support waste-less technological processes of waste-elimination as a stage of production
99	D-1-1	Digitisation of maps of radon risks
100	D-1-2	Evaluation of radon risks in towns with more than 10,000 inhabitants
101	D-2-1	Support sanitary measures of flat-fund
102	D-3-1	Filtering and sucking facilities for wooden waste in wood-processing industries
103	D-3-2	Reduction of environmental pollution by production and consumption of energy
104	E-1-1	Realisation of Action plan of biospherical reservation of Polana
105	E-1-2	Rational management and usage of biospherical reservation of Polana from landscape-ecological and forestry-ecological point of view
106	E-1-3	Processing of local system for sustaining of ecological stability as a part of land regulation and land-planning documents
107	E-1-4	Registering and protection of biocentres on local level

108	E-2-5	Program for removing anthropogenic damages, mainly by immisions, on forest eco-systems of Polana
109	E-2-6	Creation of map of load on forests in Polana by individual factors
110	E-2-7	Prevent increase of degree of damage by controlled and aimed development of endangered areas in Podpolana region
111	E-2-8	Create lacking bank flora and guarantee a protective function of existing bank flora along river Slatina
112	E-3-9	Process a study on saving of cultural monuments in okres Detva, Prepare a declaration of cultural monuments in Detva okres
113	E-3-10	Support programs for development of agro-tourism
114	E-3-11	Save cultural monument - Viglas castle(long-term)
115	E-4-1	Program for removing anthropogenic damages, mainly by immersions, on forest eco-systems: I. Stage=Polana; II. Stage=other areas; Revitalisation and stabilisation of slope deformation areas in Slatinske Lazy
116	E-5-2	Ingenier-geological pasportisation of historical objects
117	E-5-4	Prepare a declaration of cultural monuments in Detva Okres
118	E-5-5	Save cultural monument - Viglas castle(short-term)
119	E-5-6	Restoration of village and creation of conditions for agro-tourism, Geological-tourist map of Okres Detva
120	E-8-2	Declaration of CHA Horna Chrapkova
121	E-8-3	Declaration of protected lime tree in Krivec
122	E-10-9	Construction of wind generators in Obec Latky
123	E-10-10	Construction of wind generators in Obec Detvianska Huta
124	E-11-11	Realisation of programs to "green" settlements, industrial and agricultural areas
125	E-11-12	Construction of forest-park above castle Viglas
126	E-11-13	Creation of nature park in the area quarry Jezova
127	F-1-1	Realisation of project of "greening" of areas no longer used for agriculture
128	F-2-1	Proposing measures for forest-management plan with respect to potential effect of climatic changes in forests
129	F-2-2	Ensure functions of forests for public (walks, picking of mushrooms)
130	F-2-3	Creation of buffer zones, preventing not-rational usage and devastation of forests
131	F-2-4	Evaluation of fulfilling and updating of Realisation Program for removing effects of anthropogenic factors, mainly by immisions on forest eco-systems
132	F-2-5	Exploitation of wood and density of forest traffic should be based on prepared models
133	F-2-6	Protect integratively forests in order to increase stability of forest ecosystems; Implement efficient technologies and techniques in the framework of ecological management and exploitation of forests
134	F-3-1	Guarantee a system of monitoring damages to environment, caused by mining activities
135	F-4-1	Realisation of development programs : - sustaining of biodiversity of forest - ecology, growing and production of forests for its integrated exploitation D183;
136	F-4-2	Forestation of areas unsuitable for agricultural means
137	F-5-1	Guaranteeing of integrated forest protection in changing ecological conditions
138	F-5-2	Creation of project to increase share of natural recovery in order to prevent the process of decrease of biodiversity and realisation of measures
139	F-5-3	Evaluation and proposal of measures for sustaining biodiversity with respect to increase ecological stability of renewable natural sources
140	F-5-4	Processing of program of optimising of pH of forest soil fund with orientation towards strongly acid soils, caused by immision load
141	H-1-1	Implementation of environmental part of state informational system
142	H-1-3	Implementation of project of Environmental information system as a continuing of spatial environmental monitoring system
143	H-2-2	Annual processing and publishing of report on environmental state in Detva
144	I-1-3	Publishing of informational brochure to educational path Detva-Kalamarka
145	I-1-4	Construction of educational path at Vodopad-Bystre
146	I-1-5	Informacna and promotion activity in environment secur
147	I-1-6	Informational brochures about protected areas of Detva
148	I-1-9	Proposal of educational model for local inhabitants
149	I-1-11	Creation of conception of educational paths in Detva Okres
150	I-1-14	Hydro-ecological plan of brook basin Detvianka
151	J-1-1	Update of conception of environmental management with respect to new administrative distribution as well as with respect to national environmental action plan
152	J-1-2	Creation of specialized environmental administrative staff unit at the Okres office, with respect to approved reform of local state administration

B. Under process

1	A-1-6	Gas supply in Klokocina ?
2	A-1-7	Gas supply in Klokoc
3	A-1-8	Gas supply in Slatinske Lazy
4	A-3-38	Thermal layer on the walls of buildings(where /)
5	B-1-3	Sewerage at Detva in 4 streets
6	B-1-4	Sewerage and WWTP at Latky
7	B-1-5	Sewerage at Dubravy
8	B-1-6	Sewerage of Trsovky ay Hrinova
9	B-3-4	Installation of water-meters in flats
10	B-4-1	Support the programs to revitalise the river Slatina
11	C-1-1	Introduction of separated collection of municipal solid waste through Phase I - paper, glass, metal, colored glass, and Phase II - biological waste, plastic
12	C-4-1	Restoration of illegal dump sites in Latky
13	C-4-2	In every municipality restore 30 % of illegal sites
14	C-4-3	Decrease the number of illegal sites by at least 50 %
15	E-6-7	Conform the conception of land development with the UPD VUC of Central Slovakia region
16	E-6-9	Processing or reprocessing of UPD in every areas
17	E-7-1	Continuing in realisation of program "restoration of village"
18	E-9-8	Installation of plastic covers on the poles of 22kV electric supply
19	H-1-2	Detailed information system on waste
20	I-1-2	Information event on nature protection - support of children and youngsters
21	I-1-7	Creation of educational path at the mouth of Detva brook(Kalamarka)
22	I-1-8	Establishing of information center in PLA Polana

C. Done

1	A-1-1	Gas supply in Krivan
2	A-1-2	Gas supply in Korytarky
3	A-1-3	Gas supply in Detva-street
4	A-1-4	Gas supply in Hrinova - upper part
5	A-1-5	Gas supply in Detva Piest I.-Krne
6	A-1-12	Gas supply in Krivan II.
7(1)	A-1-23/3	Building of trafo-stations at Latky
7(2)	A-1-23/5	Building of trafo-stations at Klokoc
7(3)	A-1-23/9	Building of trafo-stations at Dubravy
7(4)	A-1-23/10	Building of trafo-stations at Detva-3 municipalities
8	A-4-1	Cyclo-touristic path
9	B-1-2	Sewerage in streets of Detva
10	B-1-31	Sewerage and M-WWT at Detva-Polianky
11	B-2-2	Restoration of bank vegetation(where ?)
12	B-5-2	Latky - company manure deposit site - 1,000 cubic meters
13	B-5-3	Ground water monitoring at the companies disposing of water pollutants
14	E-6-8	Implement plans of LTU and territorial system of ecological stability
15	E-8-1	Decrease endangerment of wildlife and protect endangered species
16	E-8-4	Realisation of program of saving common crab
17	E-8-5	Protection and extension of suitable biotops of river otter
18	E-8-6	Protection of biotops of black stark and birds of prey, mainly falcons
19	E-8-7	Fish stocking of river Slatina
20	G-1-1	Complex renovation of heating management system in Detva
21	H-2-1	Implementation of act on access to environmental information
22	I-1-1	Construction of educational trail in Detva-Kalamarka
23	I-1-10	Support ecological education of youngsters
24	I-1-12	Support the activity of Center of leisure time in the field of environment
25	I-1-13	Support environmental education of children and support their participating in contests

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?	
Okres	Yes	1995	Okres	Former territory(Ziar-BS-Zarnovica)
Municip.	(See list)	-	-	

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	not available at the interview
---	--------------------------------

1.3 What are the priority programs/projects at present?

Note: (A) Public work projects approved by the State Government in 1998

**; Listed in the EAP Priority Projects

1	1.4	Development of Ziar-Zarnovica area as a residential center
2	6.1.1	(A)Construction of new route of the road I/65(E 571) and reconstruction of original road in Ziar n/H in the section of the border of Nitra Kraj
3	6.1.20	(A)Construction of high-speed route of the road I/65 in the section of Ziar nad Hronom -border of Zilina Kraj
4	7.1.3	Realisation of connection of the West-Slovakia water management network to the Central-Slovakia water management network through drinking water supply from Gabcikovo water source through Gabcikovo group water line to Okres Ziar n/H
5		(A)Start operation of WWTP, under construction in Kremnica and Vyhne
6	7.2.7	(A)Reservation of space for planned heavy 100 kV double line between the control facilities in Tlmace-Kozarovce-Horna Zdana-SLOVALCO a.s. in Ziar h/Hronom
7	8.2.7NT	(A)Preparation of construction of line 2x110 kV on the route Levice - Nova Bana - Ziar nad Hronom and to protect the corridor for its implementation
8		(A)Landfill of industrial waste in Ziar nad Hronom
9		(A)Liquidation of landfill of industrial waste in Ziar nad Hronom
10		(A)Installation of gas line in Obec Bartosova Lehotka, Dolna Trnavka, Janova Lehota, Krahule, Sklene Teplice, Trnava Hora, Bzenika, Dolna Ves, Kosorin, Kremnicke Bane, Lovcica-Trubin, Prestaviky and Slaska

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1997	Okres

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Air protection
2	Water protection
3	Soil protection
4	-
5	-

- 2.3 What are the priority programs/projects ? Note; There are no C,D,E,F sectors ?
 Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	A-	To de-dust the present Anode Plant (Anodaren) in Z SNP a.s.
2	A-	To de-dust the calcining furnaces (Anodaren) in Z SNP a.s.
3	A-	Electrification of the railway line Banska Bystrica-Zvolen
4	B-	Reconstruction of WWTP neutralization station in A SNP a.s.
5	B-	Completion of the construction of underground insulation walls (of bentonite) around the industrial waste dump, to protect any leakage of infiltrates to the water flow in Z SNP a.s.
7	C-	Construction of a landfill for solid industrial waste including dangerous waste in Z SNP a.s.
10	C-	Construction of a regional collecting centre for collecting and temporary depositing dangerous waste in the Okres
8	C-	Completion of the construction of industrial and dangerous waste from Z SNP a.s.
9	C-	Construction of a bentonite wall for the landfill of red and brown slugged in Z SNP
10	C-	Re-cultivation of the industrial waste landfill in Z SNP a.s.
11	C-	Biological re-cultivation of sludge fields in Z SNP a.s.

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-1-1	Reconstruction of motorways in ZSNP a.s.
2	A-1-3	Installation of new burners in order to decrease emissions of NOx in ZSNP a.s.
3	A-1-8	Gas supply in PS a.s. Hlinik nad Hronom
4	A-1-9	Gas supply to ZS(School) in Obec Vyhne
5	A-1-10	Gas supply to MS I(School) in Mesto Ziar nad Hronom
6	A-1-11	Gas supply to DDaM in Mesto Ziar nad Hronom
7	A-1-12	Gas supply to ZS in Obec Lutilla
8	A-1-13	Gas supply to ZS in Obec Lovca
9	A-1-14	Gas supply in Obec Lovcica-Trubin (Obec+SPP)
10	A-1-15	Gas supply in Obec Dolna Trnavka (Obec+SPP)
11	A-1-18	Gas supply in Hlinik nad Hronom-IBV pad Lazy
12	A-1-19	Gas supply in SPP Vyhne-cast Dolinky
13	A-1-20	Gas supply in Vyhne-cast finske domky
14	A-1-21	Gas supply in Ziar nad Hronom-S. Podhadie
15	A-1-23	Gas supply in Obec S. Teplice
16	A-1-24	Gas supply in Bzenica -cast Bukovina(Obec+SPP)
17	A-1-27	Gas supply in SAD Kremnica
18	A-1-28	Warm water supply to NAD in Mesto Ziar nad Hronom
19	A-1-29	Warm water supply to PaC a.s. Hlinik nad Hronom-parna kotolna
20	A-1-30	Warm water supply to PaC a.s. Hlinik nad Hronom kurenie
21	A-1-32	Introduction of new low-emission burners in SS a.s. Vyhne
22	A-1-34	Reconstruction of production line in Kerko a.s.
23	B-1-9	Sewerage and WWTP in Obec Janova Lehota
24	B-1-12	Sewerage and WWTP in Obec Kunesov
25	B-1-13	Sewerage and WWTP in Obec Lehotka pod Brehmi
26	B-1-14	Sewerage and WWTP in Obec Lovcica-Trubin
27	B-1-15	Sewerage and WWTP in Obec Hronska Dubrava
28	B-1-16	Sewerage and WWTP in Obec Bzenica
29	B-1-17	Sewerage and WWTP in Obec Kosorin
30	B-1-18	Sewerage and WWTP in Obec Lovcica-Trubin
31	B-1-19	Sewerage and WWTP in Obec Slaska
32	B-1-20	Sewerage and WWTP in Obec Horna Zdana
33	B-1-22	Sewerage and WWTP in Obec Prochot
34	B-1-23	Sewerage and WWTP in Obec Trnava Hora
35	B-1-24	Sewerage and WWTP in Obec Prestavky
36	B-1-25	Sewerage and WWTP in Obec Dolna Trnavka
37	B-1-26	Sewerage and WWTP in Obec Dolna Zdana
38	B-1-27	Sewerage and WWTP in Sasovske Podhradie
39	B-1-28	Sewerage and WWTP in Obec Bartosova Lehotka
40	B-1-30	Sewerage and WWTP in Obec Kremnicke Bane
41	B-1-31	Sewerage and WWTP in Obec Repiste
42	B-1-33	WWTP of red and brown slugs in Z SNP a.s.
43	B-1-34	Reconstruction of sewerage system in STS a.s., Vyhne
44	B-1-35	Construction of wastewater treatment facility for the central milking institute in PD ZH
45	B-1-36	Reconstruction of sewerage network in PD ZH
46	B-1-37	Construction of NS in Pohr. Stroj a.s., Hlinik nad Hronom

47	B-2-1	Reconstruction of water reservoir in Obec Lovca and Horna Zdana
48	B-2-2	Completion of the construction of water tank in Obec Kosorin
49	B-2-3	Construction of small water power station on Hron river in Mesto Ziar nad Hronom
50	B-2-4	Construction of small water power station on Hron river in Obec Hronska Dubrava
51	B-3-4	Construction of water-main supply in Obec Bzenica
52	B-3-5	Construction of water-main supply in Obec Lovca
53	B-3-6	Construction of water-main supply in Obec Dolna Zdana
54	B-3-7	Construction of water-main supply in Obec Prochot
55	B-3-8	Construction of water-main supply in Obec Prestavky
56	B-3-9	Construction of water-main supply in Obec Horna Zdana
57	B-3-13	Construction of water-main supply in Obec Vyhne-Glorik
58	B-3-14	Construction of water-main supply in Obec Repiste
59	B-3-15	Construction of water-main supply in Obec Kosorin
60	B-5-1	Monitoring system of wells

B. Under process

1	A-1-4	Gas supply to the boiler rooms of the heating plant in ZSNP a.s.
2	A-1-5	Decrease of emissions of organic compounds in ZSNP a.s.
3	A-1-6	Continuous monitoring of SO ₂ , NO _x , CO of Z SNP a.s.
4	A-1-22	Gas supply to SPP in Mesto Ziar nad Hronom
5	A-1-25	Gas supply to SPP in Obec Trnava Hora
6	A-1-33	Gas supply to SOU, ZS and MsBP in Mesto Kremnica
7	B-1-2	Sewerage in Obec Vyhne
8	B-1-4	Sewerage and WWTP in Mesto Kremnica/Horna Ves
9	B-1-5	Sewerage and WWTP in Obec Sklene Teplice
10	B-1-6	Sewerage and WWTP in Obec Hlinik nad Hronom
11	B-1-7	Sewerage and WWTP in Obec Lovca/Mesto Ziar nad Hronom
12	B-1-8	Sewerage and WWTP in Obec Ladomerska Vieska
13	B-1-10	Sewerage and WWTP in Obec Stara Kremnica
14	B-1-11	Sewerage at recreation cottages at Skalke ?
15	B-1-21	Sewerage and WWTP in Obec Ladomerska Vieska
16	B-3-11	Construction of water-main in Obec Krahule
17	B-3-17	Reconstruction of water-main supply in Mesto Kremnica
18	B-4-1	Carry out reconstruction of one-layer underground tanks near CS PHM
19	C-2-4	Separated collection of municipal waste
20	C-3-1	Recultivation of industrial waste landfill in Z SNP a.s.
21	C-3-2	Biological recultivation of sludge fields in Z SNP a.s.
22	C-3-3	Liquidation of old landfills in the Okres

C. Done

1	A-1-2	Reconstruction of fabric filters in ZSNP a.s.
2	A-1-16	Gas supply in Obec Ladomerska Vieska(Obec+SPP)
3	A-1-17	Gas supply in Obec Hlinik nad Hronom-dom sluz
4	A-1-26	Gas supply in Obec Slaska, Kosorin and Janova Lehota(Obec+SPP)
5	A-1-31	Reconstruction of boiler room in Agropodnik, Hlinik nad Hronom
6	B-1-1	Sewerage in Obec Lutilla
7	B-1-3	Reconstruction of NS by Alufinal a.s.
8	B-1-32	Reconstruction of waste water monitoring NS by Alufinal a.s.
9	B-1-38	Construction of NS by Mincovna s.p.
10	B-3-1	Construction of water-main supply in Obec D. Trnavka
11	B-3-3	Reconstruction of water-main supply in Mesto Ziar nad Hronom
12	B-3-10	Construction of water-main supply in Obec Hlinik nad Hronom
13	B-3-12	Construction of water-main supply in Obec S. Teplica-part Lane
14	B-3-18(1)	Introduction of household water meters and water savers in Ziar nad Hronom
15	B-3-18(2)	Introduction of household water meters and water savers in Mesto Kremnica
16	B-3-18(3)	Introduction of household water meters and water savers in Hlinik nad Hronom
17	B-3-18(4)	Introduction of household water meters and water savers in Obec Vyhne
18	B-4-2	Prevention of winter maintenance road sprinkling with hazardous chemical
19	C-1-1	Construction of landfill of industrial solid waste, included NO
20	C-1-2	Construction of regional collection centres for collection and temporary storage of NO for the Okres
21	C-1-3	Dispose stored NO on appropriate landfills through appropriate approach
22	C-2-1	Completion of landfill for industrial and NO
23	C-2-2	Construction of selection facility for secondary raw materials at TKO Horne Opatovce landfill
24	C-2-3	Separated collection, including post-selection of waste, separation of problem compounds in municipal waste, and composting of biological waste

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?	
Okres	Yes	1995	Okres	Former territory(Ziar-BS-Zarnovica)
Municipal.	(See list)	-	-	

Settlement plans for Zarnovica and Nova Bana town

1.2 Any particular policies/strategies on the Hron area in your Okres or any indicators/criteria for selection of priority programs/projects ?

not available at the interview

1.3 What are the priority programs/projects at present?

Note; (A) Public work projects approved by the State Government in 1998

**; Listed in the EAP Priority Projects

1	1.4	Development of Zarnovica - Ziar n/H area as a residential center
2	1.5	Development of Zarnovica - Nova Bana area as a inhabitation center
3	6.1.1	(A)Construction of new route of the road I/65(E 571) and reconstruction of original road in Ziar n/H in the section of the border of Nitra Kraj
4	6.1.9	(A)Reconstruction of road I/76 in the sector of Hronsky Benadik - border of NT Kraj
5	6.1.20	(A)Reconstruction of the road II/577 and other roads in the sector of Zarnovica - Banska Stiavnica with construction of bypasses
6	7.27NT	(A)Reservation of spaces for planned high-speed railway route Bratislava - Nitra - Zvolen - Kosice
7	7.1.3	Realisation of connection of the West-Slovakia water management network to the Central-Slovakia water management network though drinking water supply from Gabcikovo water source through Gabcikovo group water line to Okres Zarnovica
8	7.2.7	Reservation of space for planned heavy 100 kV double line between the control facilities in Timace - Kozarovce - Horna Zdana - SLOVALCO a.s. in Ziar n/H
9		(A)Extension of group water line of Turcek, from Ziar nad Hronom water pipes to Hronsky Benadik water pipes
10	8.1.4.11NT	Completion of water supply in Mesto Levice - Obec Timace - Hronsky Benadik
11	8.2.7NT	(A)Preparation of construction of line 2x110 kV on the route Levice - Nova Bana - Ziar nad Hronom and to protect the corridor for its implementation
12		(A)Regional landfill of municipal waste for the Okres
13		(A)Installation of gas line in Obec Brehy, Hrabicov, Ostry Grun, Zupkov, Horne Hamre, Klak, Orovnic, Rudno nad Hronom and Voznica

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	No	-	-

2.2 Any particular policies/strategies on the Hron area in your Okres or any indicators/criteria for selection of priority programs/projects ?

1	not available at the interview
---	--------------------------------

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	B-	Construction of sewerage and WWTP in Obec Hodrusa - Hamre
2	C-	Completion of the construction of landfills in Obec Brehy (and Luhyna)

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-1-4	Gas supply to I. kindergarten in Mesto Nova Bana
2	A-1-5	Gas supply to the special school in Obec Hodrusa-Hamre
3	A-1-6	Finish the reconstruction of gas boiler by installation of low-emission burners in Izomat
4	A-1-7	Installation of ecological facility to furnace in Izomat a.s.
5	A-1-9	Gas supply to town centre in Mesto Nova Bana
6	A-2-2	Installation of separators to the incinerators in Preglejka a.s. (plywood)
7	A-2-3	Installation of separator behind the furnace for wooden waste in Preglejka a.s.
8	A-2-4	Collection of wooden waste and granules in Preglejka a.s. (plywood)
9	A-2-5	Improve management system for boiler in Preglejka a.s. (plywood)
10	A-2-6	Installation of separator behind the furnace in Preglejka a.s. (plywood)
11	B-4-7	Extension of water supply in Obec Hronsky Benadik
12	B-4-18	Water supply in Obec Rudno nad Hronom
13	C-1-4	Involve at least one company in concentrating and disposing of waste
14	E-1-1	Process a documentation on local USES

B. Under process

1	A-1-12	Gas supply in Obec Rudno nad Hronom
2	A-1-13	Extension of gas supply in Mesto Nova Bana
3	A-1-14	Gas supply in Mesto Zarnovica - Slovak Automobile Transport
4	A-2-7	Continue construction of gas supply in Mesto Zarnovica
5	B-4-6	Completion the water supply - third branch - in Obec Mala Lehota
6	B-4-10	Building of supply pipe and water reservoir in Revistske Podzamcie - Zarnovica
7	B-4-13	Completion of water supply in Revistske Podzamcie
8	C-1-5	Enhance a propagation of separation of waste
9	C-1-6	Support devices used for waste disposal
10	C-1-7	Check depositing of municipal waste at the landfill sites
11	C-1-8	Elimination of waste dumps
12	C-1-9	Construction of transfer station of waste
13	E-2-1	Natural protection according to new legislation
14	E-2-2	Protect the migration of animals (stork)
15	E-2-3	Guarantee the protection and treatment of protected tree

C. Done

1	A-1-15	Gas supply in Kovohron VD, Mesto Nova Bana
2	A-2-1	Gas supply of Zinc factory - ZIN s.r.o., Hronsky Benadik
3	C-1-3	All hospitals have to have treaties with waste eliminator companies
4	B-5-1	Reconstruction of galvanization in ZIN s.r.o., Hronsky Benadik
5	B-5-2	Reconstruction of neutralisation station in ZIN s.r.o., Hronsky Benadik
6	B-5-3	Modernisation of production line in Izomat a.s., Nova Bana

29	8.1.4.31	Completion of water supply in Obec Sikenica, Kukucinov, Zbrojniky and Hontianska Vrbica

30	8.1.4.32	(A)Completion of group water piping in Obec Nyrovce - Malas
31	8.1.4.33	(A)Completion of group water piping in Obec Farna - Velke Ludince - Kuralany - Ket?
32	8.1.5.1h)	(A)**Completion of sewerage and WWTP in Obec Batovce, Kozarovce, Velke Kozmalovce, Tekovske Luzany and Mesto Zelizovce
33	8.1.5.2g)	(A)Intensification of WWTPs in Mesto Zelizovce and change the recipient
34	8.1.5.2j)	*Ensuring of the construction of WWTP in Obec Tlmace
35	8.1.5.3k)	(A)**Dolna Sec, Horna Sec, Zemliare and Vysne n/H into WWTP in Dolna Sec
36	8.1.5.4	(A)*Ensuring of construction of WWTPs and sewerage in Obec Nova Dedina, Rybnik, Hronske Klacany, Hontianska Vrbica, Farna, Mytne Ludany, Velke Kozmalovce, Zemberovce, Velky Dur, Velke Ludince, Stary Tekov, Pohronsky Ruskov, Cajkov, Cata, Kozarovce, Hronovce, Dolny Pial, Caka, Krskany, Novy Tekov, Plave Vozokany and Podludany
37	8.2.7	(A)Preparation of construction of line 2x110 kV on the route Levice - Nova Bana - Ziar nad Hronom and to protect the corridor for its implementation
38		(A)Dumping site of low and medium radioactive waste in Mochovce
39	7.2.7BB	(A)Reservation of space for planned heavy 100 kV double line between the control facilities in Tlmace - Kozarovce - Horna Zdana - SLOVALCO a.s. in Ziar n/H

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?
Okres	Yes	1997	Okres
Conception of Environmental Care 1994			

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Drinking water
2	Soil protection
3	Waste(especially Hospital and Livestock)
4	Air protection
5	Nature protection(and tourism)

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	A-	Reconstruction of incinerator in Levitex a.s., Levice
2	A-	Reconstruction of incinerator of sanitary waste in Hospital Levice
3	A-	Introduction of gas into boiler-room in SES a.s., Zelizovce
4	A-	Introduction of gas into municipalities-finishing gas installation in 8 municipalities of the Okres
5	B-	*Construction of sewerage and WWTP in Obec Kozarovce
6	B-	**Construction of sewerage in Obec Horna Sec
7	B-	**Construction of sewerage in Obec Dolna Sec
8	B-	Expansion of the sewerage in Mesto Levice
9	B-	*Construction of WWTP in Obec Tlmace
10	B-	Construction of sewerage and WWTP in Obec Santovka
11	B-	**Intensification of WWTP and sewerage in Mest Zelizovce
12	B-	Connect the sewerage of the slaughterhouse to the municipality's sewerage and WWTP system in Zelizovce
13	B-	Construction of WWTP in Sugar factory and cannery in Obec Pohronsky Ruskov
14	B-	Construction of WWTP in Obec Sarovce
15	B-	Construction of sewerage in Obec Sarovce
16	B-	*Construction of sewerage in Obec Stary Tekov
17	B-	Construction of sewerage and WWTP at Kallianciakovo in Mesto Levice
18	B-	Construction of sewerage and WWTP in Obec Maly Kiar
19	B-	Completion of construction of the water-main for Obec Mytne Ludany, Stary Hradok and Jur nad Hronom
20	B-	**Construction of water-main in Tekovske Luzany
21	B-	Reconstruction of water-main at Kalinciakovo in Mesto Levice
22	B-	Reconstruction of water-main for Obec Tlmace
23	B-	*Reconstruction of WWTP in Obec Hronske Klacany
24	B-	Construction of feeder drinking water pipe from long distance conduit, supplying to the municipalities in the protected zone of nuclear power station in Mochovce

25	B-	Completion of water-main in the municipalities along the route of long-distance conduit from Kolta and Zliezovce
26	B-	Creation of vegetation protection belt on the periphery of the small water reservoirs
27	C-	Closing and re-cultivation of the solid municipal waste landfill sites at Richnava for Mesto Levice
28	C-	Securing of the suitable storage of hazardous waste by effective system of containerisation
29	C-	Securing of the disposal of all hazardous waste assigned to be disposed in recently built incinerators in Okres Nove Zamky or in Duslo Sala and in the regional disposal site
30	C-	Extension of the separate collection of secondary raw materials from collection of municipal waste, through collection of all possible waste of utilisation
31	C-	Establishment of a line used for thorough separation of secondary raw materials, already separated from municipal waste
32	C-	Increase of the portion of composited biological waste by building at least one compost plant in the area between Sahy to Dolne Semerovce
33	C-	Re-evaluate the necessity of composing biological wastes from agriculture followed by realisation
34	C-	Control prevent from rise of wild landfills with consistency
35	C-	Strengthen the natural barriers(tree planting, windbreaks, etc.) in the area around the Hospital Mochovce
36	E-	To build a by-pass around Mesto Levice
37	E-	Re-fertilisation of ecologically loaded areas to create conditions for preserving biodiversity

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-1-61	Sealing of waste incinerator in Levitex s.e., Levice
---	--------	--

B. Under process

1	A-1-178	Gas supply to the boiler room of EXUNACO, Pukanec
2	B-1-190	Sewerage in Zliezovce
3	B-1-66	**Sewerage and WWTP in Obec Tekovske Luzany
4	B-3-21	Construction of water supply in protected land area of Mochovce, JE Mochovce
5	B-3-25	Gradual reconstruction of waterflow bank vegetation
6	B-3-27	Planting of plants beside the water-flows
7	C-2-12	Segregated waste disposal system for Pukanec and neighbouring municipalities
8	E-2-11	Revitalisation of area in proximity of nuclear power plant and regional nuclear waste deposit site
9	E-4-21	Revitalisation and agrotourism development in 28 municipalities

C. Done

1	A-1-14	Gas supply to Levice meat processing factory(LMP) in Mesto Levice
2	A-1-160	Gas supply to boiler room of NsP in Zliezovce
3	A-1-254	Gas supply to boiler room and emission monitoring for Levitex s.e. in Levice
4	B-1-64	Sewerage and WWTP in Obec Batovce
5	B-1-206	Sewerage and WWTP for psychiatric sanitarium in Obec Hronovce
6	C-4-31	Construction of regional waste landfill site in Levice
7	C-7-3	Closing and restoration of landfill site of Richnava for Mesto Levice
8	C-7-4	Restoration of landfill sites in Levitex s.e., Levice
9	E-5-19	Preparation of territorial development plan of Nitra Kraj
10	J-1-4	Preparation of EAP of Okres Levice

1 TERRITORIAL PLAN

1.1 Do you have the Territorial Plans ?

	Yes/No?	When?	Who?	
Okres	Yes	1996	Okres	Aurex consultant
Municip.	(See list)	-	-	
Regional territorial system of ecological stability of Nove Zamky, 1994				

1.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

not available at the interview

1.3 What are the priority programs/projects at present?

Note: (A) Public work projects approved by the State Government in 1998

**; Listed in the EAP Priority Projects

1	1.7	Development of Mesto Sturovo as a sub-regional residential center
2	1.9.3	Development of Obec Svodin, Gbelce, Strekov, Kolta, Salka and Kamenin as residential centers of local significance
3	2.2.2	Development of water tourism and cyclo-tourism around Mesto Sturovo and areas along the Hron River (Bruty, Bina to up streams)
4	5.6	Ensuring water regime for meadow forests in areas of the Danube, Hron rivers
5	5.7	Implementation of forest planting in river wolds, especially on areas of erosion and near springs
6	5.8	Initiation of grass vegetation; protection of wetlands and preservation of natural depressions to mitigate water run-off and to preserve old water routes of Hron
7	7.13	(A)Reservation of the spaces for planned west bypass around Sturovo (road I/76) with new frontier crossing and bridging of Danube(6.35 km)
8	7.22	Modernisation of the railway route 130 Bratislava - Nove Zamky - Sturovo
9	7.30	(A)Reservation of the spaces for new freight and passengers harbors in Sturovo
10	7.34	(A)Reservation of the spaces for planned combined transportation terminal in Sturovo.
11	8.1.4.38	(A)Completion of water supply in Obec Kamenin - Bina
12	8.1.5.1h)	Completion of sewerage and WWTP in Obec Svodin
13	8.1.5.2i)	(A)Construction of WWTPs in Mesto Sturovo
14	8.1.5.3h)	(A)Preparation of construction of public serwer with comon WWTP in Obec Sarkan - Gbelce - Nova Vieska
15	8.1.5.3j)	Preparation of construction of public serwer with comon WWTP in Obec Jasova - Dubnik
16	8.1.5.4	Ensuring of construction of WWTPs and serwage in Obec Strekov, Kameny Most, Kamenica nad Hronom, Nana, Mala nad Hronom, Kamenin, Bina, Bajtava, Ruban, Kolta, Dedinka, Bardonovo and Bruty

2 ENVIRONMENTAL ACTION PROGRAMME

2.1 Do you have the EAPs ?

	Yes/No?	When?	Who?	
Okres	Yes	1997	Okres	

2.2 Any particular policies/strategies on the Hron area in your okres or any indicators/criteria for selection of priority programs/projects ?

1	Improvement in Mochcova protected zone
2	Water supply from Gabticova
3	Gas supply
4	Sewerage
5	-

2.3 What are the priority programs/projects ?

Note; ** Listed also in the approved territorial development projects

1) Proposed projects in NEAP/KEAP/REAP/OEAP(extract from the recent plan documents)

1	A-	Gas distribution to the thermo-bearing oil heating process (without any separating devices) in ADP a.s., Sturovo
2	A-	Reduction of emissions by the technology of drying the backing sand - separating devices in ADP a.s., Sturovo
3	A-	Restoration of the process of neutralizing the absorption tower in ADP a.s., Sturovo
4	A-	Implementation of low-emission burners on K3 boiler of the power source in ADP a.s., Sturovo
5	A-	Application of cloth filters for K5 boiler of the power source in ADP a.s., Sturovo
6	A-	Ecologization of the final disposal site in ADP a.s., Sturovo
7	A-	Liquidation of de-gases and warming of TNO in ADP a.s., Sturovo
8	A-	Modernization of regeneration chemicals?
9	A-	Boiler ?
10	A-	Implementation of new secondary regeneration in ADP a.s., Sturovo
11	B-	Renewal and modernization of the washing the splits in ADP a.s., Sturovo
12	B-	Completion of the construction of the waste water primary purification plant on Z-04 in ADP a.s., Sturovo
10	B-	Reconstruction of a station for draughting oil substation on Z-01 in ADP a.s.
11	B-	Restoration and modernization of the wooden chips washing process on Z-02 in ADP a.s., Sturovo
12	C-	Landfill of the waste in Obec Nova Vieska

2) Priority projects, collected from the Environmental Department of the Okres Office

A. No yet done

1	A-1-5	Ecologisation of landfill site of coal deposit-Z06 in ADP a.s., Sturovo
2	A-1-7	Modernisation of impregnation line-Z0 in ADP a.s., Sturovo
3	A-1-8	Implementation of an evaporator unit for the regeneration boiler and waste gas washer on Z 02 of ADP a.s., Sturovo
4	A-1-12	Building of gas network in boiler room center in Obec Bina
5	A-1-13	Reconstruction of separation unit -boiler K5 Z06- in ADP a.s., Sturovo
6	A-1-34	Regeneration chemicals 02 start of new secondary regeneration in ADP a.s., Sturovo
7	A-1-35	Construction of gas system and gas burners, heating of TNO, oxidation of asphalt, sand-dryer unit in ADP a.s., Sturovo
8	A-1-36	Reconstruction of heating device of TNO-Z0 in ADP a.s., Sturovo
9	B-1-11	Intensification WWTP in Vlna a.s., Gbelce
10	B-2-26	Start construction of water supply system in Obec Pavlova
11	C-5-2	Segregation of waste in Mesto Sturovo

B. Under process

1	A-1-6	Heating of TNO Z0, waste disposal in ADP a.s., Sturovo
2	A-1-30	Gas supply in Obec Luba
3	A-1-31	Gas supply in Obec Bela
4	A-1-32	Gas supply in Obec Bruty
5	B-1-3	Finish the construction of waste water treatment unit of agricultural cooperative Svodin
6	B-1-7	Sewerage and treatment plant in Kamenica n/Hronom
7	B-2-5	Completion of the construction of water supply in Obec Dedinka
8	B-2-7	Completion of the construction of water supply in Obec Kolfa
9	B-2-24	Start the construction of water supply in Obec Kamenin
10	B-2-26	Start the construction of water supply in Obec Pavlova
11	C-1-2	Construction of municipal waste landfill site(will be start soon) in Obec Nana
12	C-4-7	Restoration of landfill site of municipal waste in Mesto Sturovo(got permission)
13	C-4-8	Restoration of landfill site of municipal waste at ADP a.s., Sturovo(in EIA process)
