

8 事前調査（S/W協議）協議資料（日本側作成）

## People's Life

- Poverty cause by Insufficient Income
- Less Job Opportunities
- Less Opportunities to join in the Tourism Industries
- Illegal Activities to Sustain Life
- Lack of Communities' Capacity to manage Coastal Resources
- Lack of Awareness
- Inappropriate Management System of National and Local Government Organizations
- Less Incentives to Local Communities

## Scope of Study

1. Study on Living of Local Communities and their Economic Structure
2. Study on Habitats, Living Conditions, Characteristics of Coral Reef, Adverse Effects of Economic and Illegal Activities
3. Development of Materials for Awareness and Education
4. Master-plan (M/P) on Resource Management and Local Economic Development
5. Ways and Means for M/P Implementation

1. Study on Living of Local Communities and their Economic Structure (1)

- Fact-finding Field Studies for Local Communities
- Living Conditions and Job Opportunities for Cultivation, Fishing, Tourism and Others
- Use of Natural Resources including Coral Resources
- Present Land-use Patterns
- Structure of Income Generating Activities

1. Study on Living of Local Communities and their Economic Structure (2)

- Laws and Regulations for Natural Resource Management
- Institutions and Organizations relating to Management of Natural Resources including Biodiversity Resources
- Enforcement of Legislation for Resource Management including Control System of Illegal Activities
- Existing Regional and Sub-regional Economic Development Plans and their Implementation

## 2. Study on Habitats, Living Conditions, Characteristics of Coral Reef, Adverse Effects of Economic and Illegal Activities

- Mapping of Habitats of Coral Reef
- Classification of Habitat Conditions
- Living Conditions of Coral Reef
- Characteristics of Coral Reef Ecosystem
- Types of Activities Providing Adverse Impacts to Resources
- Damages of Resources
- Contribution of Coral Resources to Total Marine and Coastal Ecosystem
- Other Ecosystems represent North Surawesi Province
- Possible Resources for Tourism Activities

## 3. Development of Materials for Awareness and Education

- Produce Various Materials for Awareness and Education, following Field Ecosystem Study
- Distribute Materials to Local Organizations and Communities including NGOs
- Examples of Materials: Video Tapes, Slides, Booklets, Leaflets, Posters, etc.
- Training Workshops for Effective Use of Materials
- Training Workshops for School Teachers

#### 4. Master-plan (M/P) on Resource Management and Local Economic Development

- Direction of Sub-regional Economic Development at the Province Level
- Coral Reef Resource Management
- Other Natural Resource Management
- Typical Ecosystems represent the Province
- Measures implemented by Local Communities
- Ideas for Income Generation and Eco-tourism
- Ideas for Awareness and Educational Activities
- Integrated Management Planning

#### 5. Ways and Means for M/P Implementation

- Priorities for M/P Implementation
- Legislation and Regulation for Resource Management
- Institutional System for Resource Management including coordination mechanism
- Measures to Strengthen Enforcement System
- Measures for Human Resource Development for Resource Management
- Measures for Local Development including Infrastructure Development
- Cost Estimation and Financial Plan
- Financial Sources for M/P Implementation

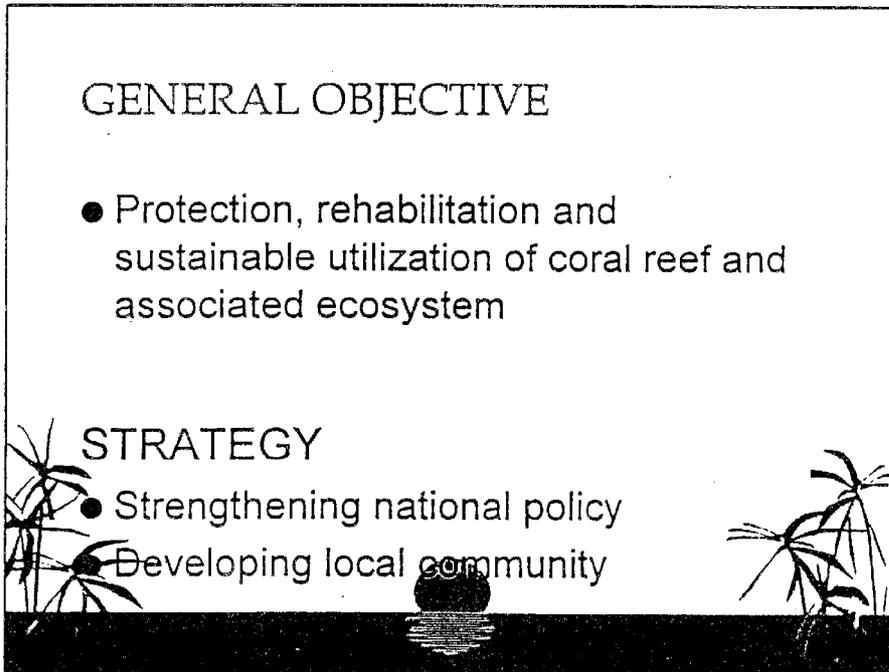

## Prerequisite for JICA Study

- Clear Decision on Counterpart Organizations and Coordination System among Them
- Establish Steering Committee consisting of Local Government Organizations, Academic Institutes, Communities, NGOs and Others
- Allocate Counterpart Personnel who works with JICA Study Team
- Provide Available Information and Data necessary for the Study, owned by National and Local Government Organizations
- Provide Office Facility and Vehicles for JICA Study Team
- Issue ID Cards for JICA Study Team
- According to the JICA's Regulation, Personnel Cost for Counterpart Personnel and other Personnel concerned will not be paid.
- JICA will allocate the financial source for study implementation

## Inputs of JICA

- JICA Study Team
- Assist Capacity Development of C/P Personnel through Technology Transfer
- Expenses for Study except C/P Personnel Cost including Travelling
- Expenses for Materials of Awareness
- Seminars, Workshops and other Training Opportunities

9 事前調査 (S/W協議) 協議資料 (インドネシア側作成)

## SPECIFIC OBJECTIVE

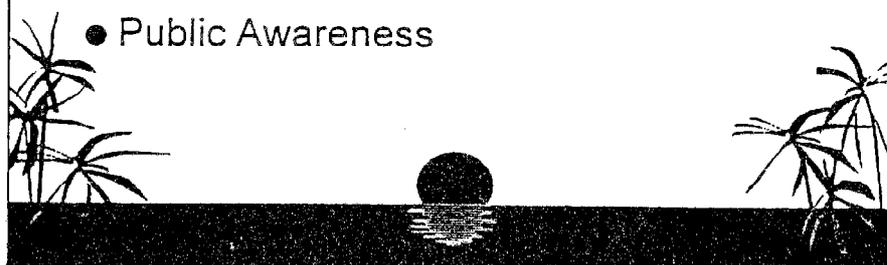

- Strengthen strategic planning and policy development capacity, law enforcement and surveillance
- Establish sustainable and effective CBM
- Establish and effective sustainable COREMAP
- CRITC
- Establish monitoring system through public awareness and training

## SCOPE OF PROGRAM

- Site and locations: ten provinces
- Phase
  - Initiation (years 1-3)
  - Acceleration (years 4-9)
  - Internalization (years 10-15)
- Components:
  - 5 components

## COMPONENTS

- Community Based Management
- Surveillance and Enforcement
- Institutional Strengthening and Training
- Monitoring, Evaluation and Research
- Public Awareness

## PROJECT COMPONENTS

### **The World Bank**

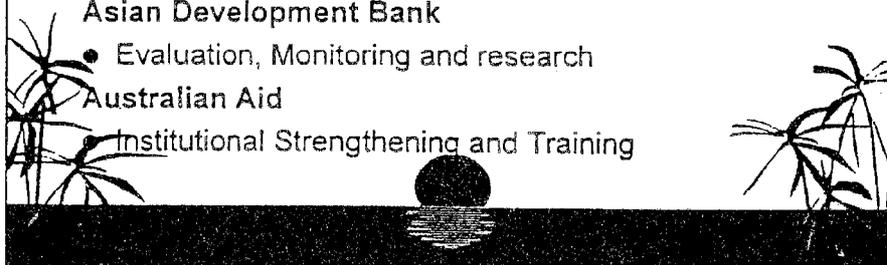

- Program Strategy and Management
- Public Awareness
- Surveillance and Enforcement
- Community Based Management

### **Asian Development Bank**

- Evaluation, Monitoring and research

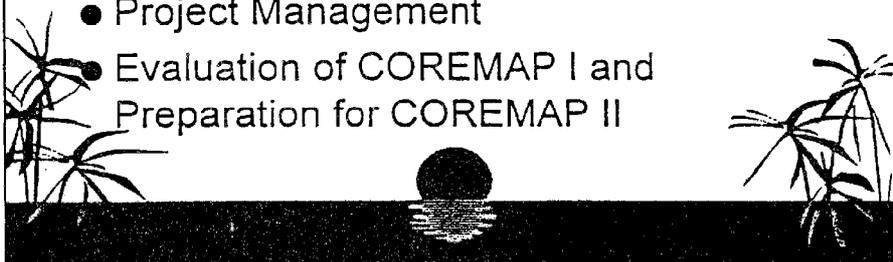

### **Australian Aid**

- Institutional Strengthening and Training

## PROGRAM STRATEGY & MANAGEMENT

- Policy and Strategic Planning for COREMAP Program
- Legal Framework for Coral Reef Management
- Project Management
- Evaluation of COREMAP I and Preparation for COREMAP II

## Policy and Strategic Planning

### Inputs

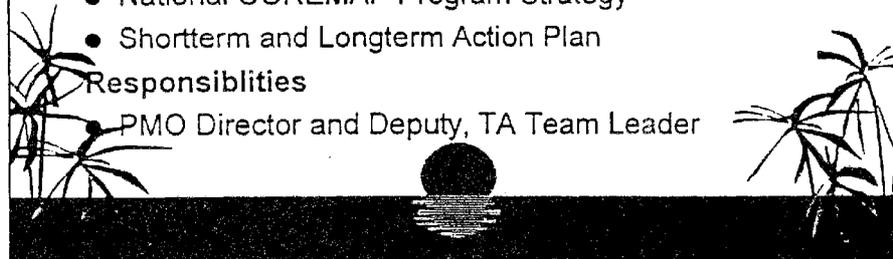

- TA and Workshop

### Outputs

- National Policy for Coral Reef Protection and Its Sustainable Use
- National COREMAP Program Strategy
- Shortterm and Longterm Action Plan

### Responsibilities

- PMO Director and Deputy, TA Team Leader

## Legal Framework for COREMAP

### Inputs

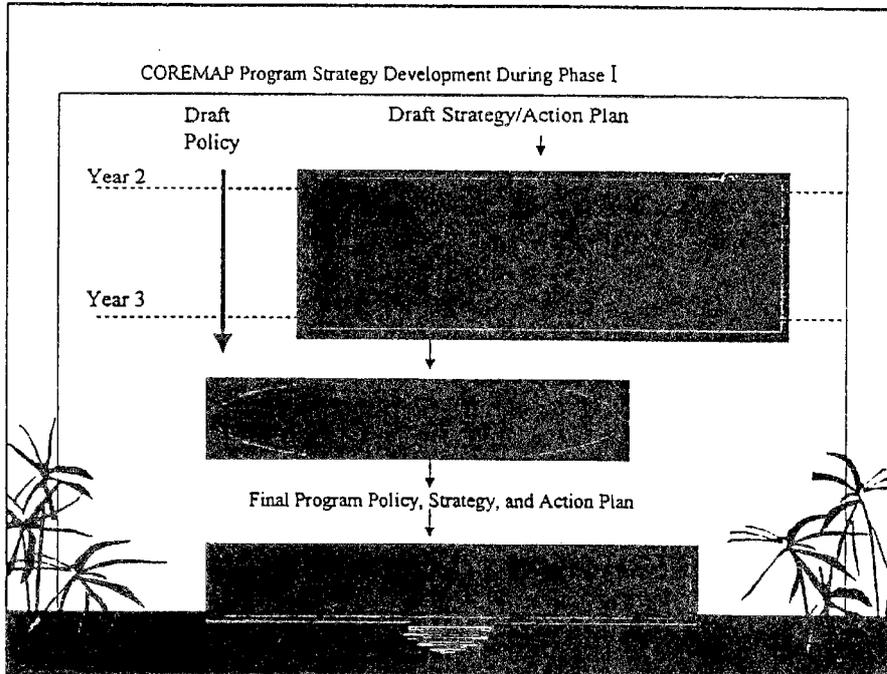

- TA, studies and workshop

### Outputs

- Review and rationalization of key national legislation affecting coral reef
- Legal framework for CBM and marine protected areas
- Legal studies

### Responsibilities

- Deputi II dan IV, TA

## Project Management

- **Activities**
- Workshop and General O & M
- Mobilize counterpart staff
- Manage procurement contracts
- Project launch, planning, review, evaluation
- Project reports
- Comparative studies
- Coordinate project activities

## Evaluation of COREMAP I and Preparation for COREMAP II

### Independent COREMAP I Evaluation

- Assess progress based on benchmark indicator of Initiation Phase
- Half member appointed by GOI and half by World Bank (administered by IUCN)
- TOR will be defined with GOI at mid-term review

### Preparation for COREMAP II

- Prepare Draft PIP with GOI

### Responsibilities

PMO and TCC

## PUBLIC AWARENESS

### Inputs

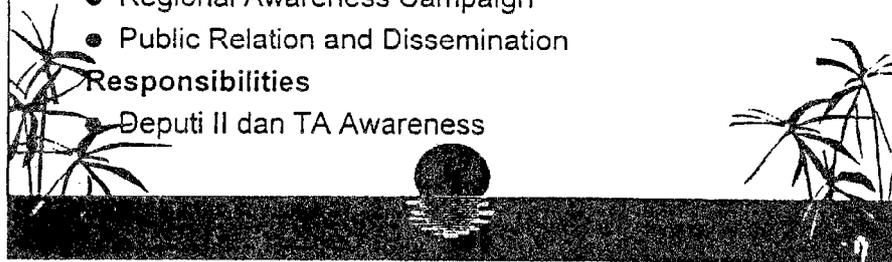

- TA, workshop, publications, awareness materials, surveys, and awards

### Outputs

- National Awareness Campaign
- Regional Awareness Campaign
- Public Relation and Dissemination

### Responsibilities

- Deputi II dan TA Awareness

## SURVEILLANCE AND ENFORCEMENT

### Inputs

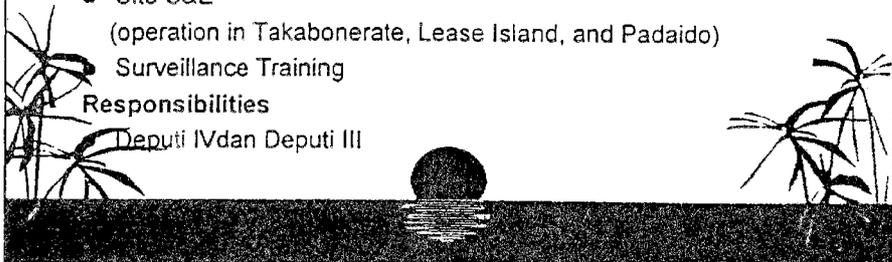

- TA, Equipment, studies, operations, workshops

### Outputs

- National S&E Component  
(manual, procurement, Nat. S&E Unit, Workshop, poison testing study)
- Site S&E  
(operation in Takabonerate, Lease Island, and Padaido)
- Surveillance Training

### Responsibilities

- Deputi IV dan Deputi III

# COMMUNITY BASED MANAGEMENT

## Inputs

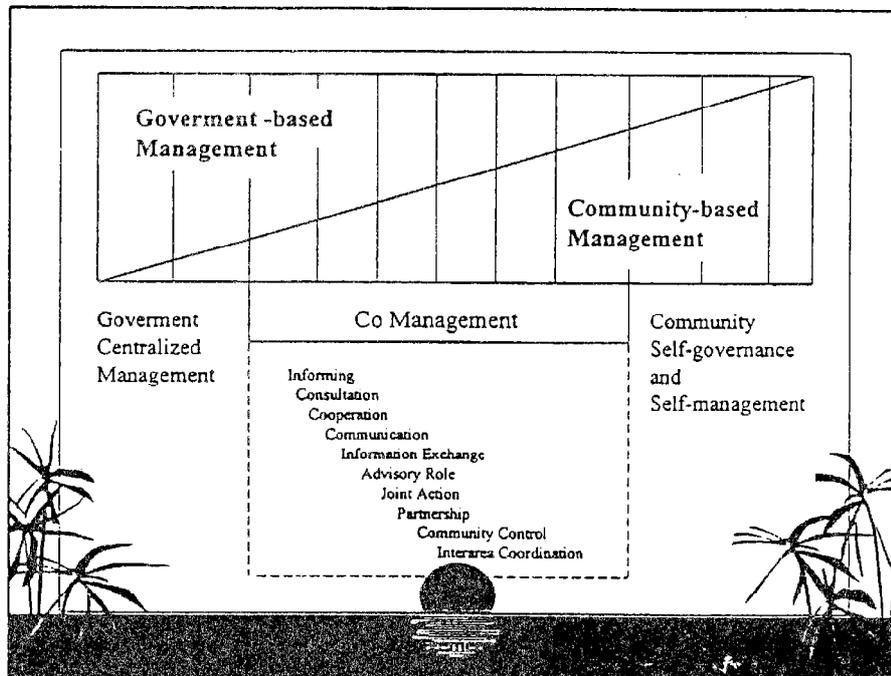

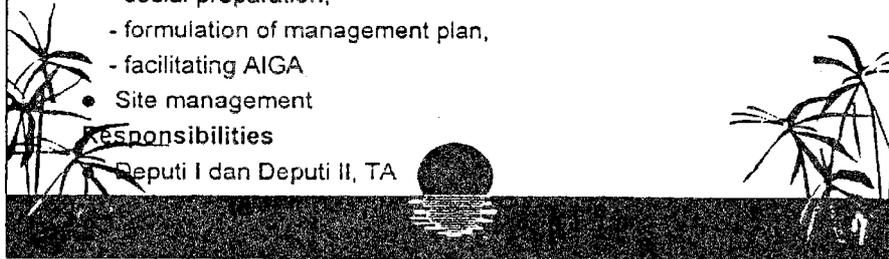

- TA, community support service, workshop, training, draft management plan and village grants

## Outputs

- Site support
- Community preparation
  - social preparation,
  - formulation of management plan,
  - facilitating AIGA
- Site management

## Responsibilities

Deputi I dan Deputi II, TA

## Draft Reef Management Plan

- Key problem and strategy proposed
  - Community mapping
  - User rights
  - Map of proposed management units (e.g. sanctuaries)
  - Proposed management rules and sanctions
  - Local institutions responsible
  - Informal monitoring proposed
  - Description of local Reef Watch system
  - Conflict resolution mechanism
  - Estimated funding and community contribution
- Responsibilities

## TECHNICAL GUIDELINES FOR REEF SANCTUARIES

- Sanctuaries should be strict no-take zones
  - Recommended size: 20-30% of total reef areas
  - Sanctuaries should protect spawning aggregation sites for target species
  - Areas surrounding sanctuaries should be restricted for the use of traditional communities
- Responsibilities
- CRITC

## CRITERIA FOR AIGs

- Be financially feasible (18% minimum rate of return)
- Involve low risk
- Have proven technology
- Involve low capital and operational cost
- Have developed markets
- Must be 'reef friendly'
- No significant environmental impact

### Responsibilities

- Deputi II dan TA

## COREMAP ADB ACTIVITIES

### Inputs

- TA, equipment, materials, survey, inventory, workshop, training and fellowships.

### Activities

- Part A:

Establishing and Strengthening Coral Reef Research, Training, Information Monitoring System

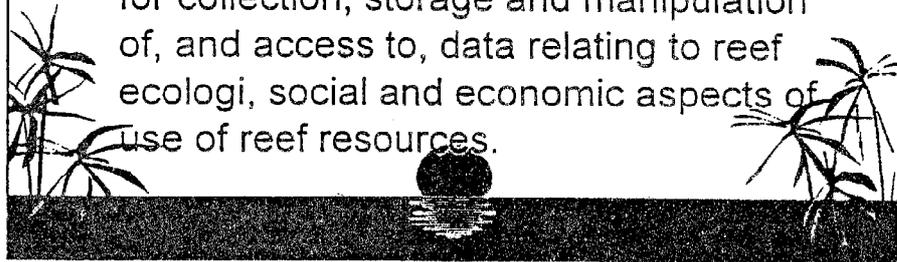

- Part B:

CBM and Surveillance in Riau Province

- Part C:

## Establishing and Strengthening CRITCs

- Establishing new and strengthening existing CRITCs in Jakarta, Pekanbaru, Ambon, Kupang and Ujung pandang
- Development of systems and facilities for collection, storage and manipulation of, and access to, data relating to reef ecologi, social and economic aspects of use of reef resources.

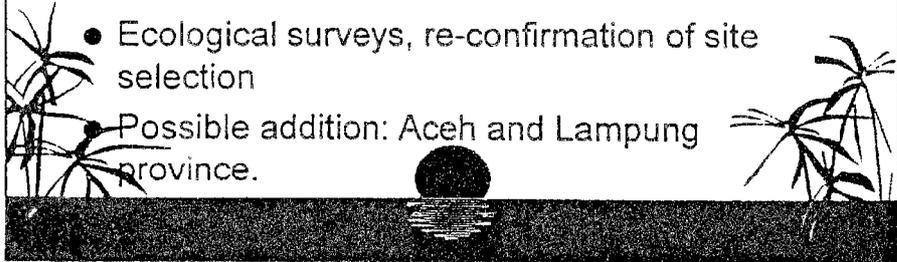

## CBM and COREMAP II

### **CBM**

- Same as World Bank in Riau Province

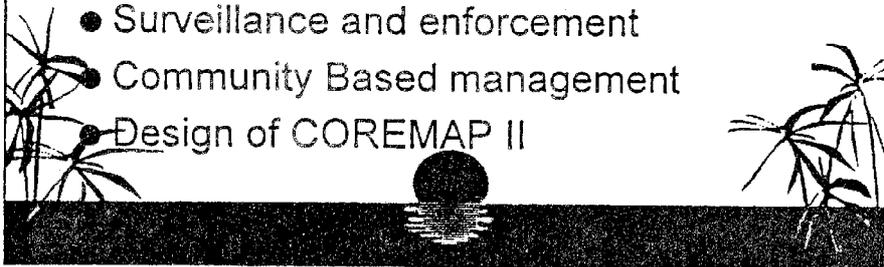

### **Preparation of COREMAP II**

- Design and FS in Riau, North Sumatra, West Sumatra
- Ecological surveys, re-confirmation of site selection
- Possible addition: Aceh and Lampung province.

## KEY PERFORMANCE (OUTPUT) INDICATORS

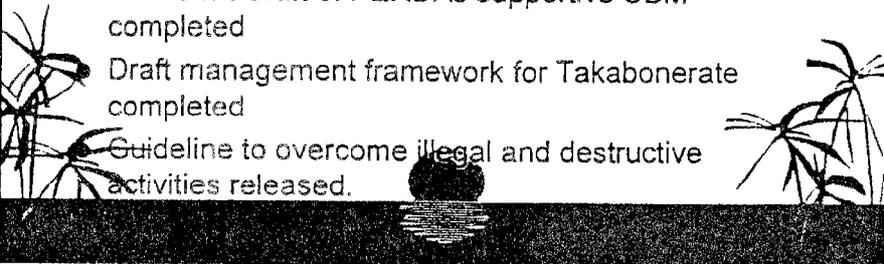

- Legal framework for coral reef management
- Project management
- Public awareness
- Surveillance and enforcement
- Community Based management
- Design of COREMAP II

## Success Indicator for Legal Framework for Coral Reef Management

By 2000/2001

- COREMAP program strategy and national action plan approved by SC
- Matrix draft revision of key legislation submitted to authorities for enactment
- Academic draft of PERDAs supportive CBM completed
- Draft management framework for Takabonerate completed
- Guideline to overcome illegal and destructive activities released.

## SUCCESS INDICATORS FOR PROJECT MANAGEMENT

By December 1998

- Qualified counterpart staff mobilized with defined performance goals
- Office equipment and furniture adequate for project activities
- TA and Awareness PR firm mobilized
- Qualified NGO/Universities mobilized for Lease/TBR sites

## SUCCESS INDICATORS FOR PUBLIC AWARENESS

By 1999/2000

- Awareness campaign design accepted by TCC
- National and Provincial awareness campaign launched
- COREMAP newsletter produced and Web page updated 3x/year

By 2000/2001

- COREMAP program awards designed
- 30% of targeted audience familiar with coral reef issues.

## SUCCESS INDICATORS FOR SURVEILLANCE AND ENFORCEMENT

### By 2000/2001

- Surveillance framework for pilot sites produced
- Enforcement training completed
- National and Provincial S&E Units established
- Surveillance equipment procured and distributed
- Action plan for external mobile threats

## SUCCESS INDICATORS FOR CBM

### By 1998/1999

- Field manual released to the field
- Qualified field motivators appointed in all villages

### By 1999/2000

- Coral Reef Management Plan Drafted

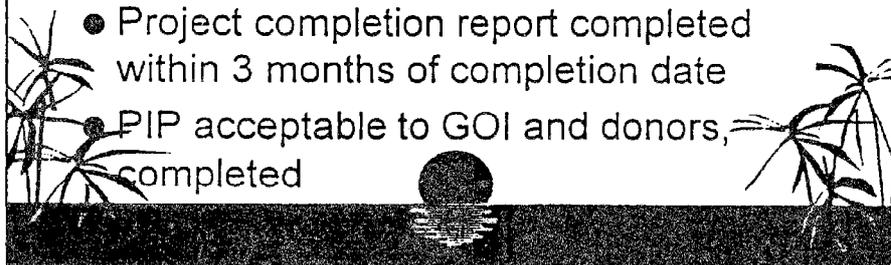

### By 2000/2001

- Community group/village working with COREMAP Program
- Draft management plan accepted
- Lesson learned documented on Web page and

## DESIGN OF COREMAP II

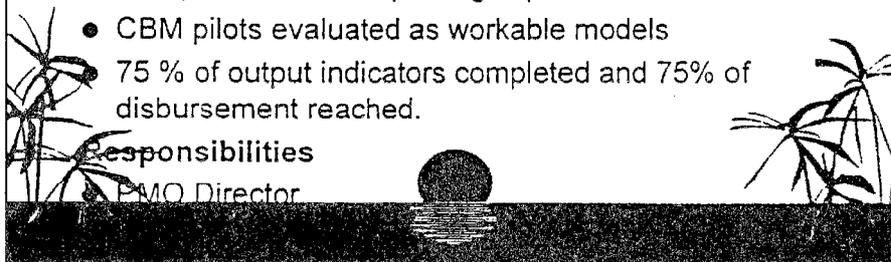

### By end of the project

- Site assessment completed
- Independent evaluation of COREMAP I completed
- Project completion report completed within 3 months of completion date
- PIP acceptable to GOI and donors, completed

## CHECKLISTS FOR EVALUATION

- Complete national COREMAP program policy and strategy.
- Institutional capacity evaluated as sufficiently improved to enable expansion of COREMAP Program
- Compliance rates improving in pilot sites
- CBM pilots evaluated as workable models
- 75 % of output indicators completed and 75% of disbursement reached.

Responsibilities  
EMO Director

## 10 主要面会者連絡先

<参考>

### 主要面会者連絡先

<ジャカルタ>

#### 1. インドネシア科学院 (Indonesian Institute of Sciences, LIPI)

Dr. H. Anugerah Nontji, Deputy Chairman For Natural Science

Sasana Widya Sarwono Lt. 3 Jl. Jenderal Gatot Subroto No. 10

Jakarta Selatan 12710

Tel: 021-5252362, 5225711 Fax: 021-5252362, 5207226

E-mail: [anontji@indosat.net.id](mailto:anontji@indosat.net.id)

Dr. Ir. H. Kurnaen Sumadhiharga, Director, Research and Development Centre for  
Oceanology

Jl. Pasir Putih I Anchol Timur Jakarta 11048

Tel: 021-683850 Fax: 681948 E-mail: [p30\\_lipi@jakarta.wasantara.net.id](mailto:p30_lipi@jakarta.wasantara.net.id)
