Summary

Table 1 List of Establishments for the 1st Stage

Table 2 List of Additional Establishments for the 2nd Stage

Table 3 List of Additional Establishments for the 3rd Stage

Summary

1. Overview of the Expansion Plan

Following summarizes the number of industries, questionnaires, commodities and establishments covered at each stage of the current survey of production. The 2nd stage started in November 1999, but no enumerator was utilized. The recovery rate was extremely low, and the data obtained are not examined yet. If enumerators are employed by FY 2000 budget, and staff for IDSS is increased, the survey can be re-started in the summer of 2000. The reliability of the data can be confirmed whether the results reach the acceptable level at least one year later owing to accumulation of examined and analyzed data. The 3rd stage can only be realized in the remote future.

	<u>Industry</u>	<u>Questionnaire</u>	<u>Commodities</u>	<u>Establishment</u>
1st stage	10	13	107	377
2nd stage	34 (24)	54 (41)	475 (368)	1,266 (889)
3rd stage	63 (29)	96 (42)	582 (107)	2,033 (764)

Note: Figures show the cumulative number. Figures in parenthesis show the increment at the corresponding stage.

2. List of Establishments for the current stage

Table 1 shows the establishments covered for the current stage of the survey; 10 Industries and 377 establishments.

3. List of Establishments for the first stage expansion

Table 2 shows the establishments covered for the 2nd stage of the current survey of production. It includes 1,266 establishments in 34 industries. The list is updated by IDSS, but may need reconfirmation, utilizing enumerators as to whether they are in the business, whether they produce the commodities represented in the questionnaire etc.

4. List of Establishments for the second stage expansion

Table 3 shows the establishments covered for the 3rd stage of the current survey of production. The table needs rechecking as to existence, whether they are in the business, whether they produce the corresponding commodities etc.

It is also required to add additional establishments to protect individual establishment figures from revelation to make the number of establishments at least five for each industry.

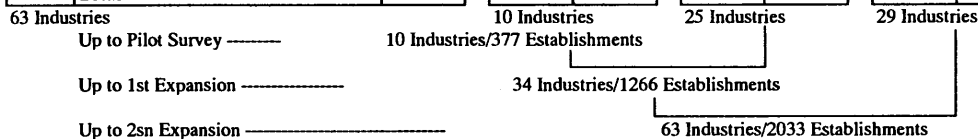

The table shows 63 industries with 2,033 establishments which cover 582 commodities. This number of establishments may change after rechecking process by IDSS and enumerators.

Table on the next page shows the overall view of the coverage of industries and establishments in each stage for reference purpose.

Reference Table of Industries and Establishments Coverage by Three Stages

Number of Target Establishments Selected

ISIC Code	Description	Total	1st stage		2nd stage (increment)		3rd stage (increment)		Questionnaire prepared
1511	Meat products	31					1511	31
