

Legend of Geological Map (Melaka)

Geological Age	Formation Name	Color Index	Acronym of Map	Rock Facies
Holocene (to Pleistocene)	Quaternary Deposits		Qc	Coastal plain deposits, unconsolidated & semi-consolidated clay, silt & locally sand
			Qr	Recent river deposits, unconsolidated soil, clay, silt & sand
			Qs	Swamp deposits, unconsolidated soil, clay, silt & sand
Permian	Kenny Hill Formation		Kh	Argillaceous-arenaceous facies (weakly to moderately metamorphosed shale, mudstone & sandstone)
Devonian to Silurian	Pilah Formation (Pilah Schist)		Pi	Pilah schist, intercalation of fine grained quartz-mica schist and graphite schist

THE STUDY ON
INTEGRATED URBAN DRAINAGE IMPROVEMENT
FOR MELAKA AND SUNGAI PETANI IN MALAYSIA
