

**STUDY ON COMPREHENSIVE DISASTER PREVENTION AROUND
MAYON VOLCANO**

PROCEEDINGS OF THE FIRST WORKSHOP OF THE PILOT PROJECT
Brgy. Chapel, Brgy. Mabinit, Legazpi City
November 24, 1999

The workshop started promptly at 1:30 P.M. The opening program included the Invocation; the singing of the Pambansang Awit; the welcome remarks of Mr. Daniel Nuñez, the Brgy. Captain of Brgy. Mabinit; the introduction by Ms. Annie Ambrosio, of the members of the JICA team, messages from Col. Robinson Ortega of CDCC; Ms. Marlene Manaya, the City Social Welfare Development Officer of CSWDO, and Dr. Ofelia S. Vega of BSBI. Ms. Noriko Bamba, JICA representative from Manila, Mr. Norio Takayanagi, JICA Study team leader, and Mr. Hideki Sato, also gave their brief messages. They explained the objectives of the project.

At the end of the opening activities, Mr. Ronaldo Agao, BDCC Official, made a presentation of the Barangay Disaster Preparedness Plan. (Please refer to attachment). He said that during eruption, the designated pick-up point for evacuation is the Brgy. Road. but when there is flood, the pick-up point is the chapel and they have to prioritize the disabled, the old ones and the children. He also added that the Barangay needed the following: concrete structure, safety kits and communication facilities, such as VHF radio. for them to communicate promptly and effectively to the CDCC and other government agencies.

Afterwards, Dr. Ofelia S. Vega, President and Chairman of the Board of the Bicol Small Business Institute Foundation, Inc., gave the highlights of the Plan of Operation of the Pilot Project which is forecasting & evacuation. She said that the purpose of the simulation exercise is to find out how fast they can evacuate after the warning has been given. She stressed that this exercise will greatly improve the capability of the LGU to respond to disaster. She encouraged them to observe the strength and weaknesses of the evacuation system and suggest ways to improve it. She also said that the Brgy. Officials and residents are the main actors in the said exercise and the response of the community as a whole is the most important in this project.

After the presentation of the highlights, the Identification of Roles and Responsibilities followed. The role of DECS is to identify schools that can be used as an evacuation center, monitor the presence of officials, and what are the needs in the evacuation center PNP will provide Security; OCD, PDCC, PHIVOLCS, PAGASA - warning. CSWDO - relief; CHO medical and dental services; CIO -- Information and Media; CEO/DPWH - transportation; Evacuation Camp Chief - Mrs. Nerissa Cantuba, Principal of Gogon Central School; Col.

Ortega, together with some PNP officials and Doctors will be in Mabinit to provide security for those who did not evacuate.

The open forum followed. One of the residents questioned Dr. Kapuno why they only have medicines for the young ones but not for the old ones. Dr. Kapuno answered that they have medicines for both young and old, but they only have limited supply. Brgy. Captain Nuñez asked about the maximum number of participants per family. Dr. Vega said. the more participants. the better, in fact, the purok that has the biggest number of participants will be given a prize. She also assured the community that young and old alike will be attended to by three doctors and three dentists on the day of the simulation drill, and that medicines will be provided as needed.

Mr. Norio Takayanagi made some brief remarks to finalize everything. (Please see other sheet for the prepared program.)

**BARANGAY DISASTER PREPAREDNESS PLAN
BRGY. 54, MABINIT, LEGAZPI CITY**

I STRUCTURAL ORGANIZATION

II CONDUCT OF INFORMATION DISSIMINATION

1. Hazard affecting the Barangay
 - a. Flood - with each adverse effect
 - b. Eruption • with each adverse effect
2. Warning System:
 - a. Ringing the Bell
3. Pick-up areas, safe route, evacuation center
 - a. Brgy. Chapel
 - b. Brgy. Road
 - c. Gogon Elementary School
4. Area for BDOC
 - Brgy. Hall
5. Line Agencies Concern: (Hotlines)
 - BDCC
 - CDCC
 - City Health
 - PDCC
 - OCD

III Evacuation Plan

1. Identify Warning Signal initiated by TT for warning
2. Identify designated area/pick-up point

Hazard	Warning Signals	Actions to be taken by the residents	Action to be taken by the BDCC
Eruption	WS#1-continuous ringing of bell for 30 seconds	Prepare together with their evacuation kits, prioritize the disabled persons, old ones and the children	TT for warning should ring the bell at the Brgy. Chapel
	WS#2-continuous ringing of bell for a long time	Proceed to designated area/pick-up point	Initiate function of the concern officers of BDCC
Flood	WS#1-continuous ringing of bell of 30 seconds	Prepare together with their evacuation kits, prioritize the disabled persons, old ones and the children	TT for warning should ring the bell at the Brgy. Chapel
	WS#2-continuous ringing of bell for a long time	Proceed to designated area/pick-up point	Initiate function of the concern officers of BDCC
