Adutor health centre		
	Senior Community Health Nurse	Annie Darley
Anloga health centre		
	Medical Assistant I/C	Lwarence Anyetei

## **APPENDIX 4**

### MINUTES OF DISCUSSION

MINUTES OF DISCUSSIONS  
ON THE BASIC DESIGN STUDY  
ON THE PROJECT FOR IMPROVING PRIMARY HEALTH CARE  
IN THE REPUBLIC OF GHANA

In response to a request from the Government of the Republic of Ghana (hereinafter referred to as "Ghana", the Government of Japan decided to conduct a Basic Design Study on the Project for Improving Primary Health Care in the Republic of Ghana (hereinafter referred to as "the Project") and entrusted the study to the Japan International Cooperation Agency (hereinafter referred to as "JICA").

JICA sent to Ghana the Basic Design Study Team (hereinafter referred to as "the Team"), which is headed by Dr. Yoichi Sakakihara, Department of Pediatrics, The University of Tokyo, and is scheduled to stay in the country from March 20 to April 29, 2000.

The Team held discussions with the officials concerned of the Government of Ghana and conducted a field survey at the study area.

In the course of discussions and field survey, both parties confirmed the main items described on the attached sheets. The Team will proceed to further works and prepare the Basic Design Study Report.

Accra, March 29, 2000

Dr. Yoichi Sakakihara  
Leader  
Basic Design Study Team  
Japan International Cooperation Agency

~~Dr. Moses Adibi~~  
Deputy Minister of Health  
Ministry of Health, Ghana

Ms. Agnes Batsa  
Head  
Bilateral Economic Relations Unit  
Ministry of Finance, Ghana

## ATTACHMENT

### 1. Objective of the Project

The objective of the Project is to improve and strengthen primary health care in the three regions in Ghana through the procurement of medical equipment.

### 2. Project sites

The sites of the Project are as described in Annex 1.

### 3. Responsible and Implementing Agencies

3-1. The Responsible Agency is the Ministry of Health

3-2. The Implementing Agencies are the Ministry of Health, respective regional offices, respective medical facilities and training centers.

### 4. Items requested by the Government of Ghana

After discussions with the Team, the items described in Annex-2 were finally requested by the Ghana side. JICA will assess the appropriateness of the request and will recommend to the Government of Japan for approval.

### 5. Japan's Grant Aid Scheme

5-1. The Ghana side understands the Japan's Grant Aid Scheme explained by the Team, as described in ANNEX-3.

5-2. The Ghana side will take the necessary measures, as described in ANNEX-4, for smooth implementation of the Project, as a condition for the Japan's Grant Aid to be implemented.

### 6. Schedule of the Study

6-1. The consultants will proceed to further studies in Ghana until April 29, 2000.

6-2. The components of the Project, including items, and quantities of equipment, will be determined after further study and analysis of the information and data collected and also discussions in Japan.

6-3. JICA will prepare the draft report and dispatch a mission in order to explain its contents in July, 2000.

6-4. In case that the contents of the draft report is accepted in principle by the Government of Ghana, JICA will complete the final report and send it to the Government of Ghana around November, 2000.

### 7. Other relevant issues

It is expected that the Project will facilitate the on going JICA HIST project in the implementation sites.

Priority "B" denotes these items whose provision will be determined after the analysis of their appropriateness.

Priority "C" denotes these items which are either not appropriate or should be procured by the Ghana side.

## Japan's Grant Aid Scheme

### 1. Grant Aid Procedures

1) Japan's Grant Aid Program is executed through the following procedures.

Application	(Request made by a recipient country)
Study	( Basic Design Study conducted by JICA)
Appraisal & Approval	(Appraisal by the Government of Japan and Approval by Cabinet)
Determination of Implementation	(The Notes exchanged between the Governments of Japan and the recipient country)

2) Firstly, the application or request for a Grant Aid project submitted by a recipient country is examined by the Government of Japan (the Ministry of Foreign Affairs) to determine whether or not it is eligible for Grant Aid. If the request is deemed appropriate, the Government of Japan assigns JICA (Japan International Cooperation Agency) to conduct a study on the request.

Secondly, JICA conducts the study (Basic Design Study), using (a) Japanese consulting firm(s).

Thirdly, the Government of Japan appraises the project to see whether or not it is suitable for Japan's Grant Aid Program, based on the Basic Design Study report prepared by JICA, and the results are then submitted to the Cabinet for approval.

Fourthly, the project, once approved by the Cabinet, becomes official with the Exchange of Notes signed by the Governments of Japan and the recipient country.

Finally, for the implementation of the project, JICA assists the recipient country in such matters as preparing tenders, contracts and so on.

### 2. Basic Design Study

#### 1) Contents of the Study

The aim of the Basic Design Study (hereafter referred to as "the Study"), conducted by JICA on a requested project (hereafter referred to as "the Project") is to provide a basic document necessary for the appraisal of the Project by the Japanese Government. The contents of the Study are as follows:

- Confirmation of the background, objectives, and benefits of the requested Project and also institutional capacity of agencies concerned of the recipient country necessary for the Project's implementation.
- Evaluation of the appropriateness of the Project to be implemented under the Grant Aid Scheme from a technical, social and economic point of view.
- Confirmation of items agreed on by both parties concerning the basic concept of the Project.
- Preparation of a basic design of the Project
- Estimation of the costs of the Project

The contents of the original request are not necessarily approved in their initial form as the contents of the Grant Aid Project. The Basic Design of the Project is confirmed considering the guidelines of Japan's Grant Aid Scheme.

The Government of Japan requests the Government of the recipient country to take whatever measures necessary to ensure its self-reliance in the implementation of the Project. Such measures must be guaranteed even though they may fall outside the jurisdiction of the organization in the recipient country actually implementing the Project. Therefore, the implementation of the Project is confirmed by all relevant organizations in the recipient country through the Minutes of Discussions.

## 2) Selection of Consultants

For the smooth implementation of the Study, JICA uses (a) registered consultant firm(s). JICA selects (a) firm(s) based on proposals submitted by interested firms. The firm(s) selected carry (ies) out the Basic Design Study and write(s) a report, based upon terms of reference set by JICA. The consulting firm(s) used for the Study which is (are) recommended by JICA to the recipient country also work on the Project's implementation after the Exchange of Notes, in order to maintain technical consistency.

## 3. Japan's Grant Aid Scheme

### 1) What is Grant Aid ?

The Grant Aid Program provides a recipient country with non-reimbursable funds needed to procure the facilities, equipment and services (engineering services and transportation of the products, etc.) for economic and social development of the country under the principals in accordance with the relevant laws and regulations of Japan. Grant Aid is not supplied through the donation of materials as such.

### 2) Exchange of Notes (E/N)

Japan's Grant Aid is extended in accordance with the Notes exchanged by the two Governments concerned, in which the objectives of the Project, period of execution, conditions and amount of the Grant Aid, etc., are confirmed.

3) "The period of the Grant Aid" means the one fiscal year in which the Cabinet approves the Project for. Within the fiscal year, all procedure such as exchanging of the Notes, concluding contracts with (a) consultant firm(s) and (a) contractor(s) and final payment to them must be completed. However in case of delays in delivery, installation or construction due to unforeseen factors such as weather, the period of the Grant Aid can be further extended for a maximum of one fiscal year at most by mutual agreement between the two Governments.

4) Under the Grant Aid, in principle, Japanese products and services including transport or those of the recipient country are to be purchased.

When both Governments deem it necessary, the Grant Aid may be used for the purchase of the products or services of the third country.

However the prime contractors, namely, consulting contracting and procurement firms, are limited to "Japanese nationals". (The term "Japanese nationals" means persons of Japanese nationality or

1/20

## 5) Necessity of "Verification"

The Government of recipient country or its designated authority will conclude contracts denominated in Japanese yen with Japanese nationals. Those contracts shall be verified by the Government of Japan. This "Verification" is deemed necessary to secure accountability to Japanese taxpayers.

## 6) Undertakings required of the Government of recipient country

In the implementation of the Grant Aid Project, the recipient country is required to undertake such necessary measures as the following:

- a) To secure land necessary for the sites of the Project and to clear, level and reclaim the land prior to commencement of the construction.
- b) To provide facilities of the distribution of electricity, water supply and drainage and other incidental facilities in and around the sites.
- c) To secure buildings prior to the procurement in case the installation of the equipment.
- d) To ensure all the expenses and prompt execution for unloading, customs clearance at the port of disembarkation and internal transportation of the products purchased under the Grant Aid.
- e) To exempt Japanese nationals from customs duties, internal taxes and other fiscal levies which will be imposed in the recipient country with respect to the supply of the products and services under the Verified Contracts.
- f) To accord Japanese nationals whose services may be required in connection with the supply of the products and services under the Verified contracts, such facilities as may be necessary for their entry into the recipient country and stay therein for the performance of their work.

## 7) "Proper Use"

The recipient country is required to maintain and use the facilities constructed and the equipment purchased under the Grant Aid properly and effectively and to assign the necessary staff for operation and maintenance of them as well as to bear all the expenses other than those covered by the Grant Aid.

## 8) "Re-export"

The products purchased under the Grant Aid shall not be re-exported from the recipient country.

## 9) Banking Arrangements (B/A)

- a) The Government of the recipient country or its designated authority should open an account in the name of the Government of the recipient country in a bank in Japan (hereinafter referred to as "the Bank"). The Government of Japan will execute the Grant Aid by making payments in Japanese yen to cover the obligations incurred by the Government of the recipient country or its designated authority under the Verified Contracts.
- b) The payments will be made when payment requests are presented by the Bank to the Government of Japan under an authorization to pay issued by the Government of the recipient country or its designated authority.

## Major Undertakings to be taken by Each Government

NO	Items	To be covered by Grant Aid	To be covered by Recipient side
1	To bear the following commissions to a bank of Japan for the banking services based upon the B/A	/	/
	1) Advising commission of A/P		●
	2) Payment commission		●
2	To ensure prompt unloading and customs clearance at the port of disembarkation in recipient country	/	/
	1) Marine(Air) transportation of the products from Japan to the recipient country	●	
	2) Tax exemption and custom clearance of the products at the port of disembarkation		●
	3) Internal transportation from the port of disembarkation to the project site	●	
3	To accord Japanese nationals whose services may be required in connection with the supply of the products and the services under the verified contract such facilities as may be necessary for their entry into the recipient country and stay therein for the performance of their work		●
4	To exempt Japanese nationals from customs duties, internal taxes and other fiscal levies which may be imposed in the recipient country with respect to the supply of the products and services under the verified contract		●
5	To maintain and use properly and effectively the facilities constructed and equipment provided under the Grant Aid		●
6	To bear all the expenses, other than those to be borne by the Grant Aid, necessary for the transportation and installation of the equipment		●

MINUTES OF DISCUSSIONS  
ON BASIC DESIGN STUDY ON THE PROJECT FOR IMPROVING PRIMARY HEALTH CARE  
IN THE REPUBLIC OF GHANA  
(EXPLANATION ON DRAFT REPORT)

In March 2000, the Japan International Cooperation Agency (hereinafter referred to as "JICA") dispatched a Basic Design Study Team on the Project for Improving Primary Health Care (hereinafter referred to as "the Project") to the Republic of Ghana (hereinafter referred to as "Ghana") , and through discussion, field survey, and technical examination of the results in Japan, JICA prepared a draft report of the study.

In order to explain to and to consult with the Ghana on the components of the draft report, JICA sent to Ghana the Draft Report Explanation Team (hereinafter referred to as " the Team "), which is headed by Dr.Yoichi Sakakihara, Department of Pediatrics, The University of Tokyo, from July 17 to August 2, 2000.

As a result of discussions, both parties confirmed the main items described on the attached sheets.

Accra, 20 July, 2000

Dr. Yoichi Sakakihara  
Leader,  
Basic Design Study Team  
Japan International Cooperation Agency

Dr. Moses Adibo  
Deputy Minister of Health,  
Ministry of Health, Ghana

Dr. William Adote  
Director,  
International Economic Relations Division  
Ministry of Finance, Ghana

## ATTACHMENT

### 1. Components of the Draft Report

The Government of Ghana agreed and accepted in principle the components of the draft report explained by the Team.

### 2. Japan's Grant Aid scheme

Ghana side understands the Japan's Grant Aid Scheme and the necessary measures to be taken by the Government of Ghana as explained by the Team and described in Annex-3 and Annex-4 of the Minutes of Discussions signed by both parties on March 29, 2000 .

### 3. Schedule of the Study

JICA will complete the final report in accordance with the confirmed item and send it to the Government of Ghana around December, 2000.

### 4. Other relevant issues

- 1) JICA project type cooperation team ( HIST ) agreed and accepted in principle the components of the draft report explained by the Team.
- 2) Additional requests for the draft report shall be taken into consideration in Japan.
- 3) Ghana side requested the technical training for maintenance of the equipment of this project.
- 4) Concerning the maintenance of equipment, the Ministry of Health is committed to ensuring that adequate provisions are made annually to maintain and manage the equipment procured by the Government of Japan.

Wal.

## **APPENDIX 5**

### OPERATION AND MAINTENANCE COST ( DETAILS / REGION )

## Operation and Maintenance Cost

### 1. District Hospital, Regional Hospital

#### Anaesthetic Apparatus with Ventilator

Description	Unit Price	Quantity	Total
Soda sorb (5Kg)	\$66.67	6 bags	\$400.00
Endotracheal Tube, 10peacs, 5sizes	\$642.86	1 box	\$642.86
Suction Catheter	\$171.43	1 piece	\$171.43
Maintenance Contract (6month, On call)	\$952.38	1 year	\$952.38
Total			\$2,166.67

#### Vacuum Extractor, Electric

Description	Unit Price	Quantity	Total
Suction Tube(10Fr.), 10peaces	\$14.29	35 boxes	\$500.00
Suction Tube(14Fr.), 10peaces	\$15.24	35 boxes	\$533.33
Total			\$1,033.33

#### Fetal Doppler

Description	Unit Price	Quantity	Total
Gel, 250ml	\$10.48	8 pieces	\$83.81

#### Operating Light with Battery

Description	Unit Price	Quantity	Total
Halogen Lamp, 24V	\$40.95	4 pieces	\$163.81

#### Suction Machine, Electric

Description	Unit Price	Quantity	Total
Suction Tube	\$29.52	1 piece	\$29.52

### 2. Health Center

#### Fetal Doppler, Battery Type

Description	Unit Price	Quantity	Total
Gel, 250ml	\$10.48	4 pieces	\$41.90
