*The Peruvian Japanese  
Association  
The Commemorative  
Commission of the Centennial  
of the Japanese Immigration  
to Peru*

One hundred years is a symbolic time for Nikkei generations to pay just homage to thousands of unknown Japanese who, in one way or another, have contributed to Peru's progress. And it is through their descendants that this wish is accomplished.

Good and bad memories have surfaced during the Centennial. The former, as positive examples of honesty and transparency and be handed down from one generation to another, to avoid similar experiences in the future.

We are celebrating one hundred years of the history of an exemplary community, designated as such by the people that sheltered the Issei. Since their arrival, they were acknowledged for their qualities towards their fellowmen and the local community.

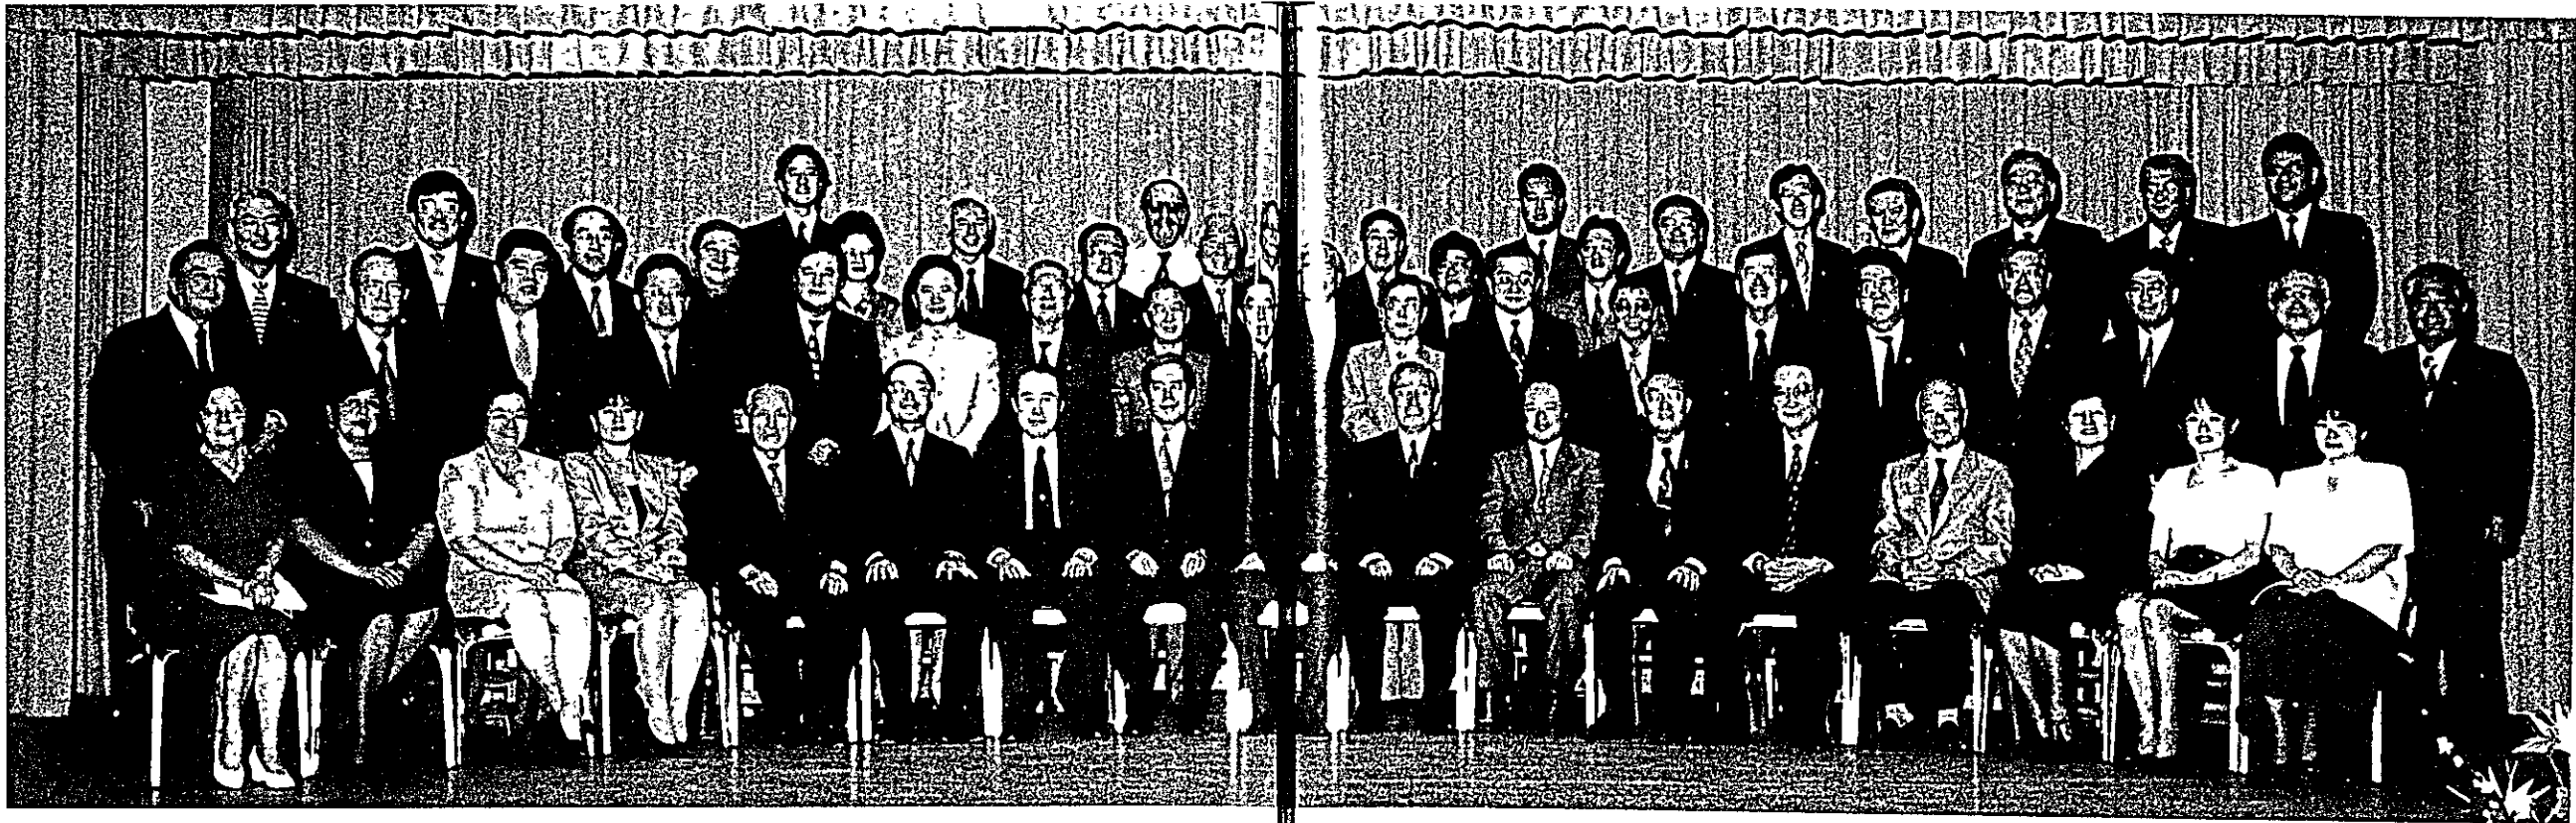

The experience gained during the 70<sup>th</sup>, 80<sup>th</sup> and 90<sup>th</sup> anniversaries helped us organize and celebrate a worthy Centennial.

The Central Commission appointed commissions for the Centennial with the purpose of demonstrating the Peruvian Japanese Community, Peru and, the world the acknowledgement of Peruvian Nikkei towards the noble and altruistic heritage of the immigrants, despite the fact they were a minority group.

It is fit to acknowledge those who have worked for the success of the Centennial in its different aspects and to say "Thank you for our legacy that allows us to be proud of our roots and most of all for being Peruvians!"

The following are the acknowledgements to the members of the different commissions.
