### 2. 消防・消火活動の現状

#### (1) 現在の消防事情について

- ソロモン： 我々の消防レベルは、あるべき水準に達していない。貧弱な装備及び政府よりのサポートの欠落が原因である。
- サモア： 我々の消防レベルは、未だ開発途上の段階にある。特に、極めて少ない予算のため、個人防衛用の装備品がたいへん不足しており、火災現場での隊員の安全を確保できないでいる。また、職員に支給される給与も、国で最も少ない水準にあり、これも問題の一つである。

#### (2) 消防の沿革及び組織図（国レベル）

- ソロモン： 5～7 頁を参照。
- サモア： 11～13 頁を参照。

#### (3) 消防の沿革及び組織図（所属部署レベル）

## サモア技術指導に係る追加クエスチョネア・回答要約

### 1. プライオリティ

- 第1位：高層建造物火災
- 第2位：小型飛行機火災
- 第3位：森林火災

### 2. 希望する研修内容

消火活動の実行手順を学びたい。

### 3. サモアにおける消火技術の現状と問題点

#### (1) 高層建造物火災

火災調査については、多層建造物の場合に違いがあるが、消火技術については、建物の高低に関わらず、同じような方法である。現在行われている消火手順は、全く基礎的・基本的なものであり、より高度な技術・戦術が必要である。

#### (2) 森林火災

現在は、オーストラリア・メルボルン消防局の基礎的消火技術が採用されている。しかし、攻撃・火災防御・防火帯設置等において、更なる情報が必要である。

#### (3) 小型飛行機火災

現在の消火手順は時代遅れのもので、近代的航空機に対応していない。われわれは全てにわたる基礎的トレーニングを必要としている。具体的には、以下の通りである。

- ・ 空港火災全般
- ・ 個人防御装備
- ・ 航空機救助／消火用器具及び装備
- ・ 航空機タイプ、エンジン及びシステム
- ・ 火災／救助通信
- ・ 航空機救助／消火の実施手順
- ・ 航空機上の危険物
- ・ 事故前の（防災）計画
- ・ 事故後のオペレーション
- ・ 空港における火災防御

4. はしご車の有無・・・なし

5. タンク車の有無・・・1台

6. 化学車及び泡装置付きポンプ車の有無・・・なし

7. 空気呼吸器の有無・・・あり

8. サモアにおける高層建造物の構造

高さ・・・・・・・・・・最高で7階立て

材質・・・・・・・・・・鉄筋コンクリート

消防用設備・・・一部のビルは、乾式連結送水管や消火栓ポンプを備えているが、信頼性には疑問がある。警報器や消火器を設置している所も一部ある。

9. 水利の整備状況

都市部における水利システムは、大規模な火災時の消火活動に十分なものではない。

10. 消防士訓練内容

軍の訓練に類似しており、消火／救助技術の全ての分野に対応しているものの、十分であるとは言えない。

11. 消防職員数・・・常備 26人、 ボランティア 20人

Commissioner of Police  
Police Headquarters  
Rove.

FB/I  
3/4/1998.

*Royal Solomon Islands Police Fire Service Annual Report for 1997.*

*Introduction.* This report is prepared and compiled basing on the events and activities of the Fire Brigade division through out the year commencing January 1997.

*Back ground*

The Fire Brigade Division is under th ad ministration of Commissioner of Police.

The Fire Service in its establishment has (59).

The present strenght of the Fire service are (54).

Internally the Fire division is made up into sections.

The sections are as foollows:

1. Fire training
2. Fire Prevention.
3. First Aid (St. John Amb)
- 4 General Fire Duties
- 5, Aircraft Fire fighting & Rescue (H/Aiport).

Each working days each section report to work at their assigned Jobs.

Since the begining of the year the Fire service have felt loaded with shortage of manpower and especially in the field drivers.

*Infrastructure*

As far as I am concern the Fire Station at Police Headquarters never recieved attention on improving its standard.

*The Fire garage is very old and very much need building a new one to accommodate the available Fire fighting equipment.*

*There is no proper bay to do maintenance of the major Fire engines, therefore it is only done in the open, in front of the existing garage. This is unsafe for the mechanics.*

*There is no proper tools to do major repairs especially when dismantling the (500 cub) engines.*

### ***Housing***

*Housing has become a national issues and has continue to be another deterrent factors affecting willpower in carrying out duties.*

*It is beyon capacity.*

### ***Fire fighting Vehicles.***

*As to reterate, the numbers of Fire fighting vehicles still remain to be seven of them. And though they are working properly they still cannot cater for the major Fire incident that may occur through development in Honiara.*

*As a matter of announcement there was a project submitted to the Government for two mdium Fire Tender at the end of last year and is awaiting approval.*

### ***Fire Prevention***

*As part and the most important, the Fire Prevention section of the Fire Brigade has played the first hand role on trying to educate the public on the risks and dangers of Fire.*

*With the very limited manpower and Legal Power of the Fire Brigade it is Difficult to proceed and endorse right procedures and a follow up on how to prevent Fires amongst the industrial sectors.*

*In speaking, there were cases arises in the past that they have question the powers of the Fire Brigade to force the owners to comply with the procedures. But as it is very clear that there is no such Legal power to force people to comply all measures which have been taken is nothing but the waist of effort.*

### Fire statistic

Recalling the 1997 July 2, it is worth noting and the reminder that two innocent lives have already been claim by fire through carelessness and ignorrant of the parents. And beside these two lives properties which worth millions of dollars have been lost through ill charactors and carelessness of those affected

With this the FireService has recorded all Fire calls that have come through the system of reporting.

The record of the fires that occurred during the year are as follows:

<u>HouseFires</u>	<u>Grassfires</u>	<u>Motor vehicles fires</u>	<u>SawDust Fires</u>
17.	47.	3	10
Costs =4.5million.	Nil	- SIDS90,000.	Nil.

### Aircraft fires

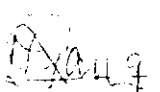

There were(5) emergency calls but without fire

### Transport

To start with, the Fire Service divisin has been allocated with only one transport vehicle and this vehicle has served both the Airport section and the Police Headquarters FireService. It is very clear that it can't meet the requirement and the demand of shifting Fire personals to place of work. At times Shift duty personals were late especially those at Henderson Airport. I now we can't continue to have people reporting late all of their time to perform duty. Therefore, the Division is really indeed of two more transport vehicles inorder cater for the demand impose by Duty.

### Conclusion.

I recommend that there should be two more transport vehicles for the Fire service beside the existing one.

  
T. Papangu (Ch/Supt).  
Director of Fire Service.

(3) Subject to the provisions of this Act and any regulations thereunder the Board shall recommend for appointment or promotion the person who, having regard to the duties of the position to be filled, is in the opinion of the Board the most efficient and suitable for appointment.

22. Constitution of Board of Appeal - (1) Every Board of Appeal constituted to hear appeals under section 21 of this Act shall consist of:

- (a) A Judge of the Supreme Court of Western Samoa or a Magistrate of the Magistrate Court of Western Samoa who shall be the Chairman of the Board;
- (b) A Superintendent of the Police Service nominated by other Commissioned Officers and by the Chief Fire Officer and the Deputy or deputies to the Chief Fire Officer; Except that anyone of the Chief Fire Officer or the Deputy or deputies to the Chief Fire Officer shall be excluded from the nominating panel if he is an appellant to the post for which a Board of Appeal is constituted.

## FOREWARD

The Samoa Fire Service, which is established under the provisions of the Fire Service Act 1994, is an emergency service agency providing fire suppression, prevention and other services on a 24-hour basis to the community of Apia.

In common with other emergency service agencies, it operates through a formal command structure. Operating requirements encompass dealing with an alarm of fire through to the protection of life and property.

The Fire Service Act 1994 authorises and supports the making of this Order, being a general Order, identified as the Samoa Fire Service Order 1998. The Order has been drafted to meet the requirements of section seven (7) of the Fire Service Act 1994 and have been divided into seven (7) parts.

### Part 1

Deals with preliminary legal matters necessary for the operation of the Order

### Part 2

Provides for the regulation of the Fire Service Advisory Board proceedings.

### Part 3

Deals with Fire-fighter appointments.

### Part 4

Deals with promotions within the Fire Service.

### Part 5

Deals with discipline.

### Part 6

Deals with a range of general requirements and

### Part 7

Deals with regulations fees and charges levied directly by the Fire Service on the users of its services

The demands that will be placed on the new Samoa Fire Service will continually increase. Therefore it is necessary in certain circumstances for some users of the service to pay for the use of those services. The areas of building plan inspections, fire prevention training, hazardous materials incidences and environmental protection are examples of such circumstances.
