## PREFACE

In response to a request from the Government of the Republic of Kenya, the Government of Japan decided to conduct a basic design study on the Project for Establishment of the African Institute for Capacity Development in the Republic of Kenya, and entrusted the study to the Japan International Cooperation Agency (JICA).

JICA sent to Kenya a study team from 26 November to 21 December 2000. The team held discussions with the officials concerned of the Government of Kenya, and conducted a field study at the study area. After the team returned to Japan, further studies were made. Then, a mission was sent to Kenya in order to discuss a draft basic design, and as this result, the present report was finalized.

I hope that this report will contribute to the promotion of the project and to the enhancement of friendly relations between our two countries.

I wish to express my sincere appreciation to the officials concerned of the Government of the republic of Kenya for their close cooperation extended to the teams.

LETTER OF TRANSMITTAL

We are pleased to submit to you the basic design study report on the Project for Establishment of the African Institute for Capacity Development in the Republic of Kenya.

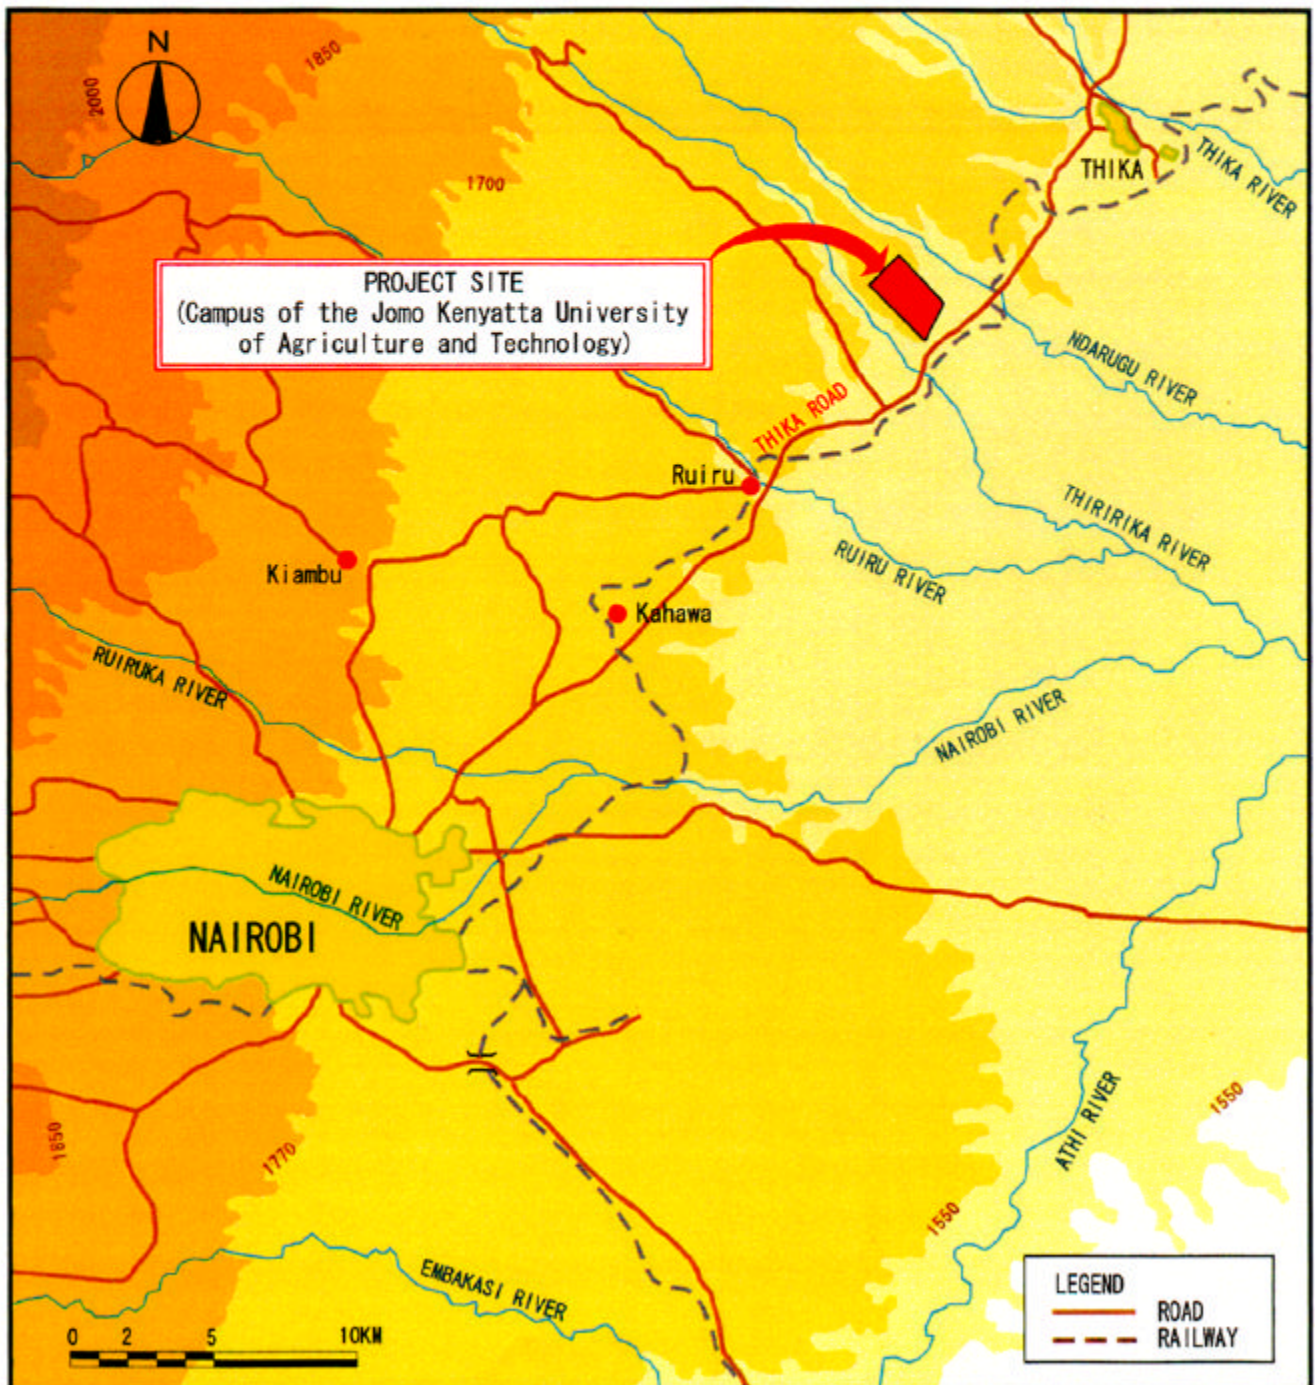

This study was conducted by Pacific Consultants International in association with Intem Consulting, Inc., under a contract to JICA, during the period from November, 2000 to May, 2001. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of Kenya and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,

Tetsuji Hatano  
Project Manager  
Basic Design Study Team on  
The Project for Establishment of the African  
Institute for Capacity Development  
in the Republic of Kenya  
Pacific Consultants International  
in association with Intem Consulting, Inc.
