PREFACE

In response to a request from the Government of the Union of Myanmar, the Government of Japan decided to conduct a basic design study on the Project for the Improvement of Medical Equipment for Yangon General Hospital and entrusted the study to the Japan International Cooperation Agency (JICA).

JICA sent to Myanmar a study team from October 22 to November 18, 2000.

The team held discussions with the officials concerned of the Government of Myanmar, and conducted a field study at the study area. After the team returned to Japan, further studies were made. And as this result, the present report was finalized.

I hope that this report will contribute to the promotion of the project and to the enhancement of friendly relations between our two countries.

I wish to express my sincere appreciation to the officials concerned of the Government of the Union of Myanmar for their close cooperation extended to the teams.

March, 2001

Kunihiko SAITO

President

Japan International Cooperation Agency

March, 2001

Letter of Transmittal

We are pleased to submit to you the basic design study report on the Project for Improvement of Medical Equipment for Yangon General Hospital in the Union of Myanmar.

This study was conducted by Medical Engineering & Planning Co., Ltd., under a contract to JICA, during the period from October, 2000 to March, 2001. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of Myanmar and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,

Takashi YOZA

Project manager,

Basic design study team on the Project
for Improvement of Medical Equipment
for Yangon General Hospital
