## PREFACE

In response to the request of the Government of the Sultanate of Oman, the Japanese Government decided to conduct pre-F/S in order to investigate the possibility of mineral resources development in Yanqul and Ghuzayn areas and entrusted the project to the Japan International Cooperation Agency (JICA) and the Metal Mining Agency of Japan (MMAJ).

This investigation was carried out for two years from fiscal year 2000 to 2001.

The survey team exchanged views with the officials concerned of the Government of Oman and conducted a field survey in Yanqul area. After the team returned to Japan, further studies were made and present report was elaborated.

The results of these investigations are presented in a report consisting of 3 volumes: Volume 1: Summary, Volume 2: Exploration Results and Volume 3: Mine Development.

We hope that this report will serve for the development of the mineral resources in Oman and contribute to the promotion of friendly relations between Japan and Oman.

We wish to express our deep appreciation to the officials concerned of the Government of Oman for their close cooperation extended to the team.

March 2002

Takao Kawakami  
President  
Japan International Cooperation Agency

Norikazu Matsuda  
President  
Metal Mining Agency of Japan

# VOLUME 3

## CONTENTS

Preface  
Contents

<b>Chapter 1 Ore Resources Evaluation</b> -----	1
1-1 Methodology of Ore Resources Evaluations -----	1
1-2 Data Input -----	2
1-3 Geostatistics -----	11
1-4 3D Modeling -----	13
1-5 Resources Evaluation -----	23
<b>Chapter 2 Mine Planning</b> -----	71
2-1 Pit Design -----	71
2-2 Mining Schedule -----	105
2-3 Mining Operation Plan -----	108
2-4 Mining Organization -----	123
2-5 Mining Operation Cost -----	123
2-6 Mining Capital Cost -----	127
<b>Chapter 3 Metallurgical Test</b> -----	129
3-1 Survey Amounts and Method -----	129
3-2 Collecting Samples -----	132
3-3 Survey Results -----	134
3-4 Additional Cleaning Tests -----	151
3-5 Conclusions -----	154
<b>Chapter 4 Process Plant Design and Metallurgy</b> -----	157
4-1 Plant Design and metallurgy -----	157
4-2 Operating Costs -----	185
4-3 Capital Costs -----	190
<b>Chapter 5 Tailings Management Facility</b> -----	199
5-1 Site Selection -----	199
5-2 Pre-Feasibility Design -----	203
5-3 Capital, Operational And Closure Costs -----	219
5-4 Conclusions -----	220
<b>Chapter 6 Organization and Human Resources</b> -----	221
<b>Chapter 7 Infrastructure Studies</b> -----	228
7-1 Transportation -----	228
7-2 Wadi Diversion -----	233
7-3 Water Supply -----	233
7-4 Power Supply and Distribution -----	235
7-5 Communications -----	235
7-6 Township -----	236
7-7 Other Facilities -----	236
<b>Chapter 8 Environmental Studies</b> -----	237
8-1 Drilling Survey -----	237

8-2 Environmental Present Condition .....	243
8-3 Environmental Legislation and Environmental (Evaluation) Standards .....	246
8-4 Forecasting and Evaluation of Environmental Impacts .....	249
8-5 Planning of environmental concentration countermeasures and evaluation.....	260
8-6 Environmental monitoring plan .....	261
<b>Chapter 9 Capitaland Operating Costs .....</b>	<b>265</b>
9-1 Terms and Conditions .....	265
9-2 Capital Cost .....	265
9-3 Operating Cost .....	266
<b>Chapter 10 Consolidated Evaluation .....</b>	<b>270</b>
10-1 Financial Evaluation .....	270
10-2 Economic Evaluation .....	284
10-3 Sensitivity Analysis .....	287
10-4 Consideration of Joint Developments with Bishara Gold Mining .....	287
<b>Chapter 11 Conclusions and Recommendations .....</b>	<b>291</b>
11-1 Conclusions .....	291
11-2 Recommendations .....	293
List of Figures, Tables and Appendices .....	295
