Letter of Transmittal

We are pleased to submit to you the basic design study report on the Project for Improvement of Broadcasting Equipment for TVRI Jakarta News Division in the Republic of Indonesia.

This study was conducted by NHK Integrated Technology Inc., under a contract to JICA, during the period from August 2001 to February 2002. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of Indonesia and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,

Osamu IJIMA
