PREFACE

In response to a request from the Government of the Republic of the Fiji Islands, the Government of Japan decided to conduct a basic design study on the Project for Construction of the New Fiji Pharmaceutical Services Center and entrusted the study to the Japan International Cooperation Agency (JICA).

JICA sent to Fiji a study team from 8th March to 12th April, 2001.

The team held discussions with the officials concerned of the Government of Fiji, and conducted a field study at the study area. After the team returned to Japan, further studies were made. Then, a mission was sent to Fiji in order to discuss a draft basic design, and as this result, the present report was finalized.

I hope that this report will contribute to the promotion of the project and to the enhancement of friendly relations between our two countries.

I wish to express my sincere appreciation to the officials concerned of the Government of the Republic of the Fiji Islands for their close cooperation extended to the teams.

Letter of Transmittal

We are pleased to submit to you the basic design study report on the Project for Construction of the New Fiji Pharmaceutical Services Center in the Republic of the Fiji Islands.

This study was conducted by Azusa Sekkei Co.,Ltd. and Intem Consulting, Inc., under a contract to JICA, during the period from 6th March, 2001 to 28th December, 2001. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of Fiji and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,
