**STUDY ON INTEGRATED WATER RESOURCES DEVELOPMENT
IN THE CAÑETE RIVER BASIN
IN THE REPUBLIC OF PERU**

LIST OF FINAL REPORT VOLUMES

Volume I : Executive Summary/ *Resumen Ejecutivo*

Volume II : Main Report/ *Informe Principal*

Volume III : Supporting Report

A: Topographic Survey

B: Geology and Hydrogeology

C: Hydrology

D: Irrigation and Agriculture

E: Hydropower

F: Water Supply Plan

G: Water Resources Development and River Management

H: Facilities Plan

I: Facilities Design and Cost Estimates

J: Socio-Economy and Finance

K: Environment

L: Institution and Organization

Volume IV : Supporting Report

**M: Supplemental Investigation on Water Use and Loss
in Rímac River Basin**

Volume V : Data Book

The cost estimate is based on the price level and exchange rate of September 2001.

The exchange rate is :

US\$1.00 = ¥120.0

DATA BOOK**

Hydrology

Table of contents

1	Hydrology	
1.1	Location of Hydrological Station	1.1.1
1.2	Monthly Rainfall Based on the Monthly Data	1.2.1
1.3	Monthly Rainfall Based on the Daily Record	1.3.1
1.4	Monthly Rainfall Estimated by the Correlation Method.....	1.4.1
1.5	Basin Average Monthly Rainfall.....	1.5.1
1.6	Probability Analysis of Rainfall	1.6.1
1.7	Monthly Discharge Based on the Daily Record.....	1.7.1
1.8	Annual Runoff Ratio	1.8.1
1.9	Monthly Discharge Estimated by the Correlation Method	1.9.1
1.10	Monthly Discharge Generated by the Runoff Analysis	1.10.1
1.11	Discharge Hydrograph at Chavin Station.....	1.11.1
1.12	Probability Analysis Based on the Discharge Hydrograph at Chavin Station	1.12.1
1.13	Probability Analysis of Discharge.....	1.13.1
1.14	Probability Analysis of Discharge in Low Water Period	1.14.1
