## LIST OF VOLUMES

VOLUME-I      MAIN REPORT

VOLUME-II      APPENDICES

- Appendix-A      General
- Appendix-B      Meteo-Hydrology and Water Utilization
- Appendix-C      Geology and Soil Mechanics
- Appendix-D      Agriculture
- Appendix-E      Agricultural Support Services
- Appendix-F      Agro-Processing and Marketing
- Appendix-G      Agricultural Production System
- Appendix-H      Farmer Water User Community and Institutional Development /  
Capacity Building
- Appendix-I      Rural Society and Participatory Approach
- Appendix-J      Design and Cost Estimation
- Appendix-K      Environment
- Appendix-L      Project Evaluation

VOLUME-III      DRAWINGS

THE FEASIBILITY STUDY  
ON  
THE REHABILITATION AND RECONSTRUCTION  
OF  
AGRICULTURAL PRODUCTION SYSTEM  
IN  
THE SLAKOU RIVER BASIN,  
THE KINGDOM OF CAMBODIA

LIST OF DRAWINGS

| PLATE NO.   | TITLE                                  | PLATE NO.                           | TITLE                                  |
|---|--|-------------------------------------|--|
| GENERAL   |  | Irrigation Canal System             |  |
| 1   | Location Map of the Study Area         | 30                                  | Profile of Main Canal 33(1/3)          |
| 2   | General Layout of the Projects         | 31                                  | Profile of Main Canal 33(2/3)          |
| UPPER SLAKOU RIVER IRRIGATION RECONSTRUCTION PLAN |  | 32                                  | Profile of Main Canal 33(3/3)          |
| 3   | General Layout of the USP              | 33                                  | Profile of Secondary Canal 3U          |
| 4   | Tertiary Blocks of the USP             | 34                                  | Profile of Secondary Canal 23(1/2)     |
| 5   | Irrigation Flow Diagram                | 35                                  | Profile of Secondary Canal 23(2/2)     |
| 6   | Location Map of Canal Structures       | 36                                  | Profile of Secondary Canal 22(1/2)     |
| Turnnup Lok Reservoir                             |  | 37                                  | Profile of Secondary Canal 22(2/2)     |
| 7   | General Plan                           | 38                                  | Profile of Secondary Canal 21          |
| 8   | Profile of Dike                        | 39                                  | Profile of Secondary Canal 20          |
| 9   | Typical Cross Sections of Dike         | 40                                  | Profile of Secondary Canal 24          |
| 10  | Plan of Spillway                       | 41                                  | Standard Layout of Tertiary Block(1/2) |
| 11  | Profile and Structure of Spillway(1/2) | 42                                  | Standard Layout of Tertiary Block(2/2) |
| 12  | Profile and Structure of Spillway(2/2) | Related Canal Structures            |  |
| 13  | Intake Structure for Diversion Canal   | 43                                  | Diversion Structure with Drop(1/2)     |
| 14  | Intake Structure for Tertiary Canal    | 44                                  | Diversion Structure with Drop(2/2)     |
| 15  | Maintenance Gate                       | 45                                  | Diversion Structure without Drop(1/2)  |
| Kpob Trobek Reservoir                             |  | 46                                  | Diversion Structure without Drop(2/2)  |
| 16  | General Plan                           | 47                                  | Diversion and Off-take                 |
| 17  | Profile of Dike(1/2)                   | 48                                  | Box Culvert for Road Crossing          |
| 18  | Profile of Dike(2/2)                   | 49                                  | Pipe Culvert for Road Crossing         |
| 19  | Typical Cross Sections of Dike         | 50                                  | Cross Drain                            |
| 20  | Plan of Spillway                       | SMALL RESERVOIR REHABILITATION PLAN |  |
| 21  | Profile and Structure of Spillway(1/2) | Ang 160 Reservoir                   |  |
| 22  | Profile and Structure of Spillway(2/2) | 51                                  | Plan and Profile                       |
| 23  | Intake Structure for Canal 33          | 52                                  | Typical Cross Sections                 |
| 24  | Intake Structure for Canal 24          | 53                                  | Spillway                               |
| 25  | Maintenance Gate                       | 54                                  | Intake                                 |
| Diversion Canal                                   |  | Kim Sei Reservoir                   |  |
| 26  | Profile of Diversion Canal(1/3)        | 55                                  | Plan                                   |
| 27  | Profile of Diversion Canal(2/3)        | 56                                  | Profile                                |
| 28  | Profile of Diversion Canal(3/3)        | 57                                  | Typical Cross Sections                 |
| 29  | Krouch Siphon                          | 58                                  | Spillway                               |
|   |  | 59                                  | Intake                                 |
|   |  | RURAL ROAD IMPROVEMENT PROGRAM      |  |
|   |  | 60                                  | Cross Sections                         |
|   |  | 61                                  | Krouch Bridge                          |
|   |  | 62                                  | Pipe Culvert                           |
