## **Volume 2 Master Plan and Short-term Plan of Jambi Port**

### **Part 4 General Environments relative to the Port Development**

13.	Regional Maritime Trends	13-1
13.1	Singapore	13-1
13.2	Malaysia	13-6
13.3	Vietnam	13-15
13.4	Philippines	13-23
14.	Port and Channel Management of Indonesia	14-1
14.1	Outline	14-1
14.2	Current System of Port and Channel Management	14-2
14.3	Port Working Area and Port Interest Area	14-4
15.	Response to the Decentralization Process in Indonesia	15-1
15.1	Ports and Marine Safety after the Decentralization	15-1
15.2	Channel Dredging Scheme after the Decentralization	15-6
16.	Port and Channel Management System in Foreign Countries	16-1
16.1	Ports in Japan	16-1
16.2	Present Conditions in Major Countries	16-5
16.3	River Administration in Japan	16-7
16.4	Marine Safety Administration in Japan	16-7

### **Part 5 Master Plan and Short-term Plan of Jambi Port**

17.	Port Development Scenario	17-1
17.1	Industrial Development Potentials	17-1
17.2	Development Target	17-18
18.	Demand Forecast	18-1
18.1	Capacity of the Existing Port	18-1
18.2	Socio-economic Framework for Jambi Forecast	18-7
18.3	Cargo Forecasts	18-14
18.4	Passenger Forecasts	18-29
18.5	Projection of Calling Vessels	18-32
19.	Natural Conditions	19-1
19.1	Natural Conditions Survey	19-1
19.2	Topographic Condition	19-1
19.3	Subsoil Condition	19-5

19.4	River Channel and Sedimentation	19-5
19.5	Tide and Current	19-8
19.6	Wave	19-11
20.	Environmental Conditions	20-1
20.1	Environmental Characteristics of Development Site	20-1
20.2	Environmental Conditions Survey	20-5
21.	Site Selection	21-1
21.1	Planning Aspects	21-1
21.2	Administrative Aspects	21-6
21.3	Engineering Aspects	21-7
22.	Master Plan	22-1
22.1	Channel Capacity	22-1
22.2	Channel Sedimentation	22-4
22.3	Optimum Dredging Plan and Countermeasures	22-13
22.4	Channel Dredging Scheme	22-20
22.5	Navigational Channel and Vessel Dimensions	22-22
22.6	Capacity Requirements	22-29
22.7	Alternative Layouts	22-34
22.8	Master Plan for 2025	22-37
22.9	Administrative Framework	22-58
22.10	Preliminary Engineering Studies	22-86
22.11	Phased Planning	22-103
22.12	Capacity Evaluation	22-107
22.13	Economics of Master Plan Port Development at Jambi	22-114
22.14	Preliminary Financial Analysis	22-126
23.	Initial Environmental Examination (IEE)	23-1
23.1	General	23-1
23.2	Components of the Development Plan	23-1
23.3	Environmental Scoping of Development Sites	23-2
23.4	Results of the IEE	23-5
23.5	Environmental Consideration for the Development Sites	23-6
24.	Short-term Plan of Jambi	24-1
24.1	Project Description	24-1
24.2	Engineering Design and Cost Estimates for Short-term Plan of Jambi	24-7
24.3	Implementation Plan for Short-term Development of Jambi	24-22

24.4	Operation and Management Scheme	24-25
24.5	Economic Analysis of Short-term Port Development at Jambi	24-26
24.6	Financial Analysis	24-36
24.7	Environmental Impact Assessment (EIA) for Jambi Port Development	24-53

## List of Tables (Volume 2)

Section	Table	Title	Page
Section 13	13.1.1	Container Terminals in Singapore	13-2
	13.2.1	Container Throughput in Malaysian Ports	13-9
	13.2.2	Container Terminal in PTP	13-8
	13.2.3	Container Facilities in Port Klang	13-9
	13.2.4	Break Bulk Facilities in Port Klang	13-10
	13.2.5	Liquid Bulk Facilities in Port Klang	13-10
	13.2.6	Dry Bulk Facilities in Port Klang	13-10
	13.2.7	Passenger Terminals in Port Klang	13-10
	13.2.8	Cargo Statistics	13-11
	13.2.9	Container Statistics	13-11
	13.2.10	Vessel Calls	13-12
	13.2.11	Passengers	13-12
	13.3.1	Mooring Facility	13-16
	13.3.2	Storage Facility	13-16
	13.3.3	Cargo Handling Equipment	13-16
	13.3.4	Mooring Facility	13-17
	13.3.5	Storage Facility	13-17
	13.3.6	Cargo Handling Equipment	13-17
	13.3.7	Mooring Facility	13-18
	13.3.8	Storage Facility	13-18
	13.3.9	Cargo Handling Equipment	13-18
	13.3.10	Vessel Calling Schedule at VICT ( Vietnam )	13-19
	13.3.11	Mooring Facility	13-20
	13.3.12	Storage Facility	13-20
	13.3.13	Cargo Handling Equipment	13-20
	13.4.1	Container Cargo Throughput at MICT from 1990 to 2001 ( Philippines ) : (Form-1 )	13-26
	13.4.2	Container Cargo Throughput at MICT from 1990 to 2001 ( Philippines ) : (Form-2 )	13-27
	13.4.3	Container Cargo Throughput at MICT from 1990 to 2001 ( Philippines ) : (Form-3 )	13-28
	13.4.4	Container Cargo Throughput at MICT from 1990 to 2001 ( Philippines ) : (Form-4 )	13-29
Section 14	14.2.1	Current Port Management System of Commercial Ports (Government Regulation No.70/1996)	14-2
	14.2.2	Current Port Management System of Non- Commercial Ports	14-3
	14.3.1	Functions of Port Working Area and Port Interest Area	14-4
Section 15	15.1.1	Ports Managed by IPC in Ports Management System (Government Regulation No.69/2001)	15-2

	15.1.2	Ports Managed by Municipal Government in Ports Management System (Government Regulation No.69/2001) .....	15-3
	15.1.3	Port Development Scheme .....	15-4
	15.2.1	Channel Length and Dredging Volume of the Principal River Ports .....	15-7
	15.2.2	Matrix of Authority Arrangement for Each Hierarchy of Role and Port Function .....	15-11
Section 16	16.1.1	Port Facility Development System in Japan .....	16-2
	16.1.2	Cost Sharing Scheme for Port Development in Japan .....	16-3
	16.1.3	Types of Ports and Harbors and Port Management Bodies in Japan .....	16-4
	16.2.1	Financial Scheme of Port Development in Major Countries .....	16-5
	16.3.1	The Cost Sharing for River Maintenance in Japan .....	16-7
	16.3.2	The Cost Sharing for River Environment Improvement in Japan .....	16-7
	16.3.3	Authority of River Management .....	16-8
	16.3.4	Authority Assumed by Municipal Governments .....	16-8
	16.4.1	Standard Processing Period of Administration Procedures .....	16-10
Section 17	17.1.1	Population by District/Municipality in Jambi Province 1999-2000 .....	17-2
	17.1.2	Area and Population Density by District Municipality in Jambi Province 1999-2000 .....	17-3
	17.1.3	Gross Regional Domestic Product by Industrial Origin in Jambi Province .....	17-4
	17.1.4	Gross Domestic Regional Product by Type of Expenditure in Jambi Province .....	17-6
	17.1.5	Land Use of Jambi Province .....	17-7
	17.1.6	Forest Area by Function .....	17-7
	17.1.7	Condition of National, Provincial and District Roads in Jambi Province .....	17-8
	17.1.8	River Ports in Jambi Province .....	17-9
	17.1.9	Major Ports in Jambi Province .....	17-10
	17.1.10	Export Volume of Jambi Province by Port 1996-1998 .....	17-10
	17.1.11	Domestic Capital Investment in 2000 .....	17-11
	17.1.12	Foreign Capital Investment in 2000 .....	17-11
	17.1.13	Priority Development Areas in Jambi Province .....	17-12
	17.1.14	Planted Area of Smallholder Estates by Crops in Jambi Province .....	17-13
	17.1.15	Production of Plantation by Crops in Jambi Province .....	17-14
	17.1.16	Estimate of Rubber and Forest Products of Jambi, 1998-2010 .....	17-15
	17.1.17	Estimate of Plantation Products of Jambi Province, 1998-2010 .....	17-15
	17.1.18	Value Added of Large and Medium Manufacturing Establishments .....	17-17
	17.2.1	Roles and Functions of Jambi Port .....	17-19
	17.2.2	Parit Culum Industrial Development Plan up to 2010 .....	17-22
	17.2.3	Land Use Plan for Muara Sabak Port Area .....	17-22
Section 18	18.1.1	Baseline Productivity .....	18-1
	18.1.2	Maximum Berth Occupancy .....	18-1

	18.2.1	GRDP Growth in Sumatra and Jambi 1993 to 2000	18-7
	18.2.2	Regional Population Growth	18-8
	18.2.3	Macro Economic Growth Scenarios	18-9
	18.2.4	Trends and Forecast in Provincial Economic Growth in Sumatra	18-10
	18.2.5	Growth Rates in GRDP in Sumatra	18-10
	18.2.6	Jambi GRDP - Historical and Projected	18-11
	18.2.7	Population Growth Forecasts by Province	18-11
	18.3.1	Jambi Cargo Forecasts	18-22
	18.3.2	Summary of Container Analysis	18-23
	18.3.3	Projected Public and Container Cargoes at Jambi Port-Base Scenario	18-26
	18.3.4	Projected Public and Container Cargoes at Jambi Port-High Scenario	18-27
	18.3.5	Cargo Forecast by Commodity to 2025 and Containerizability Estimates	18-28
	18.4.1	Two Way Passenger Traffic Forecasts	18-31
	18.5.1	Forecast of Ship Calls according to Location and Main Handling Type	18-34
Section 19	19.1.1	Natural Condition Survey Items and Execution Period at Jambi	19-1
	19.2.1	Horizontal Coordinates and Elevations of the Existing Benchmarks at Talang Duku	19-2
	19.2.2	Horizontal Coordinates and Elevations of the Existing Benchmarks at Muara Sabak	19-3
	19.2.3	Dual-Frequencies Sounding and Visual Observation Result of Riverbed Soil Samples	19-4
	19.4.1	Results of Soil Sampling of Riverbed and Channel at Batanghari River	19-6
	19.4.2	Sounding and Maintenance Dredging from 1998 to 2001 at Jambi	19-7
	19.4.3	Estimation of Yearly Riverbed Variation at Batanghari River by Existing Sounding Survey Data	19-8
	19.4.4	Estimation of Yearly Riverbed Variation at Batanghari River	19-8
	19.5.1	Relation between Tide and Prevailing Current Direction	19-9
	19.5.2	Average and Maximum Velocity of Current	19-9
	19.5.3	Results of Harmonic Analysis of Current at Outer Bar	19-10
	19.5.4	Results of Harmonic Analysis of Tide at Muara Sabak	19-10
	19.6.1	Relation Wave Observation at Outer Bar of Batanghari River	19-11
	19.6.2	Results of Wave Hindcast for Jambi	19-12
Section 20	20.1.1	Eroded Soil caused by Deforestation	20-2
	20.1.2	Soil Erosion Estimation in 1996 and 2011	20-3
	20.1.3	Soil Erosion Increment from Oil Palm Plantation	20-3
	20.2.1	Survey Method	20-6
	20.2.2	Existing Social Environmental Conditions (Talang Duku Terminal)	20-11

	20.2.3	Existing Social Environmental Conditions (Muara Sabak Terminal) ·····	20-15
	20.2.4	Environmental Pollution (Talang Duku Terminal) ·····	20-19
	20.2.5	Environmental Pollution (Muara Sabak Terminal) ·····	20-21
Section 21	21.1.1	Profiles of the Three Public Ports ·····	21-1
	21.1.2	Strength and Weakness of the Three Public Ports ·····	21-4
	21.1.3	Road Improvement Projects in Jambi Province ·····	21-4
Section 22	22.1.1	Number of Calling Vessels ·····	22-1
	22.1.2	Navigation Conditions of Batang Hari River ·····	22-2
	22.1.3	Average Vessel Waiting Time at Muara Sabak (All Vessels going up to Talang Duku) ·····	22-3
	22.1.4	Average Vessel Waiting Time at Simpang Tua (All Vessels going down from Talang Duku) ·····	22-3
	22.2.1	Record of Maintenance Dredging in the Estuary of Batanghari River ··	22-4
	22.2.2	Sounding and Dredging at Navigation Channel of Batanghari River ···	22-6
	22.3.1	Agreed Unit Prices of Maintenance Dredging ·····	22-17
	22.4.1	Distribution of the Responsibility for Maintenance Dredging ·····	22-20
	22.4.2	Conceptual Dredging Cost Sharing Scheme for Jambi Port Master Plan (Long-term) ·····	22-21
	22.5.1	Conceptually Design of Vessels and Their Particulars ·····	22-27
	22.5.2	Coast Estimate for the Container Transport (Muara Sabak Route) ····	22-28
	22.6.1	Traffic Projection Summary ·····	22-29
	22.6.2	Alternative Container Traffic Scenarios ·····	22-30
	22.6.3	Throughput Summary ·····	22-33
	22.6.4	Capacity Requirement Summary ·····	22-33
	22.8.1	Master Plan for Talang Duku (2025) ·····	22-39
	22.8.2	Container Barges in Operation at Talang Duku ·····	22-39
	22.8.3	Typical Dimensions of Barges (without a gear) ·····	22-41
	22.8.4	Master Plan for Muara Sabak (2025) ·····	22-45
	22.8.5	Design Vessel for Container ·····	22-48
	22.8.6	Economic Implication of Ship Types ·····	22-54
	22.8.7	Anchoring Area ·····	22-55
	22.8.8	Buoy Anchoring Area ·····	22-55
	22.9.1	The Number of Staff at IPC's Branch Office in 2001 ·····	22-61
	22.9.2	Size of the Staff of IPC II Jambi Branch Office in 2007 and in 2025 ····	22-62
	22.9.3	Size of Pilot of Jambi Office and Calling Vessel in Jambi Port ·····	22-64
	22.9.4	Staff Training of IPC II (in 2000) ·····	22-64
	22.9.5	Consolidated Balance Sheets of IPC II in 1998-2000 ·····	22-67
	22.9.6	Consolidated Statement of IPC II in 1997-2000 ·····	22-69
	22.9.7	Income Statement of Jambi Branch Office in 1996-2000 ·····	22-70

22.9.8	Staff Composition of Jambi ADPEL (July 12, 2001) .....	22-71
22.9.9	Permissions of Jambi ADPEL .....	22-71
22.9.10	License to Tow the Ship .....	22-73
22.9.11	License to Move .....	22-74
22.9.12	Revenue and Expenditure of Jambi ADPEL .....	22-75
22.9.13	Access Channel and River Channel of Jambi (Batang Hari River) .....	22-75
22.9.14	Maximum Vessel allowed in the Batang Hari River .....	22-76
22.9.15	Problem Points along the Batang Hari River .....	22-76
22.9.16	Existing Navigational Aids in Jambi (from Estuary of Jambi/Batang Hari River to Port of Jambi) .....	22-77
22.9.17	Port Development Scheme (Common-user Wharves) in Jambi Port ..	22-78
22.10.1	General Design Criteria .....	22-86
22.10.2	Facilities and Equipment for Talang Duku .....	22-87
22.10.3	Facilities and Equipment for Muara Sabak .....	22-88
22.10.4(1)	Unit Cost in Jambi .....	22-94
22.10.4(2)	Unit Cost of Equipment .....	22-94
22.10.5	Combined Cost for Major Works .....	22-96
22.10.6	Equipment Cost for Talang Duku .....	22-96
22.10.7	Construction Cost for Talang Duku Port .....	22-97
22.10.8	Equipment Cost for Muara Sabak .....	22-98
22.10.9	Construction Cost of Container Terminal in Muara Sabak .....	22-99
22.10.10	Construction Cost for General Cargo Terminal in Muara Sabak .....	22-100
22.10.11	Summary of Project Cost for Jambi(1) .....	22-102
22.10.12	Summary of Project Cost for Jambi(2) .....	22-101
22.10.13	Depreciation Period of the Facilities and Equipment .....	22-101
22.11.1	Milestone at Talang Duku .....	22-103
22.11.2	Milestone at Muara Sabak .....	22-104
22.11.3	Milestone at Talang Duku .....	22-105
22.11.4	Milestone at Muara Sabak .....	22-106
22.12.1	Cargo Volume and Vessel Call Condition (2007 & 2025) .....	22-108
22.12.2	Case 1 (Base Case Scenario) Berth Conditions (2007 & 2025) .....	22-109
22.12.3	Case 2 (High Public Scenario) Berth Conditions (2007 & 2025) .....	22-109
22.12.4	Navigation Conditions of Batang Hari River .....	22-110
22.12.5	Berth Occupancy Rate (BOR on 2007) .....	22-110
22.12.6	Berth Waiting Time (2007) .....	22-111
22.12.7	Berth Occupancy Rate (BOR on 2025) .....	22-111
22.12.8	Berth Waiting Time (2025) .....	22-112
22.13.1	Jambi Base Scenario-Incremental Operation Costs .....	22-118
22.13.2	Estimated Ship Costs per Day, 2007 and 2025 .....	22-119
22.13.3	EIRR Analysis for Jambi Port Master Plan - Base Scenario .....	22-122
22.13.4	EIRR Analysis for Jambi Port Master Plan - High Scenario .....	22-122
22.13.5	Cost Summaries for Input to EIRR for Jambi Port .....	22-123
22.13.6	Summary Results of the Economic Evaluation of Jambi Ports Master Plan (Base Scenario) .....	22-124

	22.13.7	Summary Results of the Economic Evaluation of Jambi Ports Master Plan (High Scenario) .....	22-125
	22.14.1	Revenues and Costs Employed in FIRR Calculation* .....	22-126
	22.14.2	Revenues and Costs Exempted from FIRR Calculation .....	22-127
	22.14.3	Future Container Tariff at Jambi Port* .....	22-128
	22.14.4	Jambi FIRR Base Case* .....	22-129
	22.14.5	Jambi FIRR High Case* .....	22-130
	22.14.6	Proposed Dredging Cost Sharing* .....	22-128
	22.14.7	Results of Sensitivity Analysis* .....	22-131
Section 23	23.1.1	Criteria of EIA for Port Development Project .....	23-1
	23.2.1	Development Plan for Talang Duku .....	23-2
	23.2.2	Development Plan for Muara Sabak .....	23-2
	23.3.1	Environmental Scoping for Development Plan (Talang Duku)* .....	23-3
	23.3.2	Environmental Scoping for Development Plan (Muara Sabak)* .....	23-4
	23.5.1	Water Treatment Facility for the Coal Terminal* .....	23-6
Section 24	24.1.1	Short-term Plan for Muara Sabak (2007)* .....	24-1
	24.1.2	Milestone for the Base Case* .....	24-3
	24.1.3	Milestone for the High Public Case .....	24-4
	24.1.4	Economic Implication of Ship Types .....	24-6
	24.2.1	General Design Criteria .....	24-7
	24.2.2	Summary of Building .....	24-14
	24.2.3	Scope of Works for Short-term Development in Jambi .....	24-16
	24.2.4	Depreciation Period of the Facilities and Equipment .....	24-18
	24.2.5	Project Coast for the Short Term Development in Jambi* .....	24-19
	24.2.6	Equipment Cost for Jambi .....	24-19
	24.2.7	Construction Cost of Container Terminal for Jambi (Phase I)* .....	24-20
	24.2.8	Construction Cost of General Cargo Terminal in Jambi .....	24-21
	24.3.1	Implementation Schedule for Container Terminal* .....	24-23
	24.3.2	Implementation Schedule for General Cargo Terminal .....	24-24
	24.5.1	Ship Costs per day are interpolated between 2007 and 2025* .....	24-29
	24.5.2	EIRR Analysis for Jambi Short-Term Plan-Base Option* .....	24-33
	24.5.3	EIRR Analysis for Jambi Port Short Term Plan-High Scenario .....	24-33
	24.5.4	Results of the Economic Evaluation of Jambi Ports .....	24-34
	24.5.5	Results of the Economic Evaluation of Jambi Ports .....	24-35
	24.6.1	Revenues and Costs Employed in the FIRR Calculation* .....	24-36
	24.6.2	Revenues and Costs Exempted from the FIRR Calculation .....	24-36
	24.6.3	Cargo Projection* .....	24-39
	24.6.4	Future Container Tariff at Jambi Port* .....	24-41

24.6.5	Jambi Short-term Projects FIRR (Base case) .....	24-42
24.6.6	Jambi Short-term Projects FIRR (High case) .....	24-44
24.6.7	Proposed Dredging Cost Sharing .....	24-46
24.6.8	FIRR Sensitivity Analysis .....	24-47
24.6.9	Financial Statement for Feasibility Study (Base case) .....	24-49
24.6.10	Financial Statement for Feasibility Study (High case) .....	24-51

## List of Figures (Volume 2)

Section	Figure	Title	Page	
Section 13	13.1.1	Container Terminals in Singapore	13-4	
	13.1.2	IT System in Singapore	13-5	
	13.2.1	Port of Tanjung Pelapas	13-13	
	13.2.2	Port Klang	13-14	
	13.3.1	VICT's Port Facilities Layout (Vietnam)	13-22	
	13.4.1	MICT's Port Facilities Layout ( Philippines )	13-25	
	Section 17	17.2.1	Formulation of a Port Development Scenario	17-18
		17.2.2	Development Targets of Jambi Port	17-20
		17.2.3	Demand Growth and Phased Planning	17-21
		17.2.4	Muara Sabak and Its Vicinity	17-23
17.2.5		Spatial Plan for Muara Sabak	17-24	
Section 18	18.1.1	Present Layout of Talang Duku	18-2	
	18.1.2	Present Layout of Muara Sabak	18-4	
	18.1.3	Kuala Tungkal	18-6	
	18.3.1	Forecasting Methodology for the JICA Seven River Port Study in Indonesia	18-15	
	18.3.2	Passenger Forecast and Ship Call Forecasts	18-15	
	18.3.3	Jambi Cargo Forecasts-Base Scenario	18-24	
	18.3.4	Jambi Cargo Forecasts-High Scenario	18-25	
	Section 19	19.3.1	Location of Boring Point at Talang Duku	19-13
		19.3.2	Soil Profile at Talang Duku	19-14
		19.3.3	Location of Boring Point at Muara Sabak	19-15
19.3.4		Soil Profile at Muara Sabak	19-16	
19.4.1		Location of Soil Sampling at Riverbed and Channel at Batang Hari River	19-17	
19.4.2		Results of Soil Laboratory Test for Soil Samples of Riverbed and Channel at Batanghari River	19-18	
19.4.3		Location of Cross Section Points at Batang Hari River	19-19	
19.5.1		Prevailing Current Direction at Batang Hari River (Dry Season)	19-20	
19.5.2		Prevailing Current Direction at Batang Hari River (Rainy Season)	19-21	
19.5.3		Relation of Datum Level for Sounding Survey		
19.6.1		Time Series of Wave Height and Current (Muara Sabak, July – August 2001)	19-22	
19.6.2		Time Series of Wave Height and Current (Muara Sabak, November – December 2001)	19-23	

Section 20	20.1.1	Remaining Forest in the years of 1932, 1982 and 1996	20-4
	20.2.1	Location of Water, Air, Noise and Traffic Survey at Talang Duku Site	20-9
	20.2.2	Location of Water, Air, Noise and Traffic Survey at Muara Sabak Site	20-10
Section 21	21.1.1	Jambi and Muara Sabak	21-2
	21.1.2	Kuala Tungkal	21-3
	21.1.3	Road Development Projects relative to Muara Sabak	21-5
	21.3.1	Shallow Points along Batanghari River	21-10
Section 22	22.2.1	Channel maintained by Dredging in the Estuary of Batanghari River	22-5
	22.2.2	Location Map of Cross Section of Channel (Estuary of Sungai Batanghari; 500 m interval)	22-9
	22.2.3	Longitudinal Profile of Riverbed Changes (Batanghari River, Center of Channel)	22-10
	22.2.4	Cross Section Profile of Channel (Area III)	22-11
	22.2.5	Cross Section Profile of Channel (Area II)	22-12
	22.3.1	Trailing Suction Hopper Dredger (TSHD)	22-13
	22.3.2	Tide Current and Relocation Plan of Dumping Site	22-16
	22.3.3	TSHDs of RUKINDO and the Year of Building	22-17
	22.3.4	Location and Cross-section of the assumed Closing Dyke in Batanghari Estuary	22-19
	22.5.1	Relationship between Loa and Draft (designed, full load)	22-23
	22.5.2	Relation between Draft and DWT	22-23
	22.5.3	Attainable DWT by Navigation Rules	22-24
	22.5.4	Transfer of the Turning Operation of Vessel	22-26
	22.5.5	Backer Rudder	22-26
	22.5.6	Shilling Rudder	22-26
	22.7.1	Project Sites at Talang Duku	22-35
	22.7.2	Project Sites at Muara Sabak	22-36
	22.8.1	Master Plan of Talang Duku	22-40
	22.8.2	Master Plan of Muara Sabak (Base Case)	22-46
	22.8.3	Master Plan of Muara Sabak (High Public Case)	22-47
	22.8.4	Relationship between Draft and Load Capacity (Container Vessels smaller than 5,000 DWT)	22-48
	22.8.5	Relationship between LOA and Load Capacity (Container Vessels smaller than 5,000 DWT)	22-49
	22.8.6	Relationship between DWT and Draft of Small Chemical Tankers	22-53
	22.8.7	Relationship between DWT and LOA of Small Chemical Tankers	22-53
	22.8.8	Anchorage Area for Jambi	22-57
	22.9.1	Organization Chart of IPC II Head Office	22-59

	22.9.2	Organization Chart of IPC II Jambi Branch Office	22-60
	22.9.3	Organization Chart of Jambi Administration Port Office	22-72
	22.9.4	Port Working Area (DLKR) and Port Interest Area (DLKP) along the Batang Hari River and the Kuara Tungkal River	22-81
	22.9.5	Port Working Area (DLKR) and Port Interest Area (DLKP) along the Batang Hari River and the Kuara Tungkal River (PLAN)	22-82
	22.9.6	Port Waters Working Area in Batang Hari River and Kuala Tungkal River Port Interest Area in Jambi Port	22-83
	22.9.7	Port Land Working Area in Talang Duku	22-84
	22.9.8	Port Land Working Area in Kuala Tungkal	22-85
	22.10.1	Master Plan of Talang Duku	22-90
	22.10.2	Master Plan of Muara Sabak	22-91
	22.10.3	Typical Section of Pontoon Facility (Talang Duku)	22-92
	22.10.4	Typical Section of Berth Facility	22-93
	22.11.1	Demand and Capacity at Talang Duku	22-103
	22.11.2	Demand and Capacity at Muara Sabak	22-104
	22.11.3	Demand and Capacity at Talang Duku	22-105
	22.11.4	Demand and Capacity at Muara Sabak	22-106
	22.12.1	Jambi Simulation Model "WITNESS 2000"	22-113
Section 23	23.5.1	Schematic Diagram of Water Treatment System for Coal Terminal	23-7
Section 24	24.1.1	Short-term Projects at Muara Sabak	24-2
	24.2.1	General Plan of Muara Sabak Port	24-9
	24.2.2	Typical Section of Container Terminal	24-10
	24.2.3	Typical Section of General Cargo Terminal	24-11
