## PREFACE

In response to a request from the Government of the Republic of the Philippines, the Government of Japan decided to conduct a basic design study on the Project for Improvement of Educational Facilities (Phase VI) and entrusted the study to the Japan International Cooperation Agency (JICA).

JICA sent to the Philippines a study team from February 7 to March 16, 2002.

The team held discussions with the officials concerned of the Government of the Philippines, and conducted a field study at the study area. After the team returned to Japan, further studies were made. Then, a mission was sent to the Philippines in order to discuss a draft basic design, and as this result, the present report was finalized.

I hope that this report will contribute to the promotion of the project and to the enhancement of friendly relations between our two countries.

I wish to express my sincere appreciation to the officials concerned of the Government of the Republic of the Philippines for their close cooperation extended to the teams.

## Letter of Transmittal

We are pleased to submit to you the basic design study report on the Project for Improvement of Educational Facilities (Phase VI) in the Republic of the Philippines.

This study was conducted by Mohri, Architect & Associates Inc., under a contract to JICA, during the period from February, 2002 to July, 2002. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of the Philippines and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,

Nobuhiro Mohri

Project Manager

Basic design study team on  
the Project for Improvement of  
Educational Facilities (Phase VI)  
Mohri, Architect & Associates, Inc.
