MINUTES OF DISCUSSIONS ON THE BASIC DESIGN STUDY ON THE PROJECT FOR THE IMPROVEMENT OF EDUCATIONAL FACILITIES (PHASE VI)

IN THE REPUBLIC OF THE PHILIPPINES

In response to a request from the Government of the Republic of the Philippines (hereinafter referred to as "the Philippines"), the Government of Japan decided to conduct a Basic Design Study on the Project for the Improvement of Educational Facilities (Phase VI) (hereinafter referred to as "the Project") and entrusted the study to the Japan International Cooperation Agency (hereinafter referred to as "JICA").

JICA sent to the Philippines the Basic Design Study Team (hereinafter referred to as "the Team"), which is headed by Mr. Motoyuki UEGAKI, Deputy Director of Office of Technical Coordination and Examination, Grant Aid Management Department, JICA, and is scheduled to stay in the country from February 7, 2002 to March 16, 2002.

The Team held discussions with the officials concerned of the Government of the Philippines and conducted a field survey at the study area.

In the course of discussions and field survey, both parties confirmed the main items described on the attached sheets. The Team will proceed to further works and prepare the Basic Design Study Report.

ATTACHMENT

1. Objective of the Project

The objective of the Project is to improve the access to and quality of the basic education by constructing elementary and secondary educational facilities with basic equipment and furniture in Region III.

2. Project Area

The Project will cover Region III only. Region IX, XII and ARMM, which were included in the original request, will not be covered by the Project.

3. Responsible and Implementing Agency

3-1. The Responsible Agency is the Department of Education (hereinafter referred to as "DepEd").

3-2. The Implementing Agency is the Educational Development Projects Implementing Task Force (hereinafter referred to as "EDPITAF").

3-3. Regional and Divisional offices of DepEd will support the Project implementation. 3-4. The organization chart of the DepEd is attached as Annex 1.

4. Project Sites

Both sides agreed the following points.

4-1. The field survey will cover the schools listed in Annex 2 to collect data and information required for the analysis and assessment of the Project.

4-2. The field survey in particular sites might be cancelled in case of contingency such as security and accessibility envisaged.

4-3. The final sites covered by the Project will be selected from the sites where the field survey is completed by the Team.

5. Items requested by the Government of the Philippines

After discussions with the Team, the items described in Annex 3 were finally requested by the Philippine side. JICA will assess the appropriateness of the request and will recommend to the Government of Japan for approval.

6. Japan's Grant Aid Scheme

6-1. The Philippine side understands the Japan's Grant Aid Scheme explained by the Team, as described in ANNEX 4.

6-2. The Philippine side will take the necessary measures, as described in Annex 5, for smooth implementation of the Project, as a condition for the Japanese Grant Aid to be implemented. Y

7. Schedule of the Study

7-1. The consultants will proceed to further studies in the Philippines until 16 March, 2002.

7-2. JICA will prepare the draft report in English and dispatch a mission in order to explain its contents around June, 2002.

7-3. In case that the contents of the report is accepted in principle by the Government of the Philippines, JICA will complete the final report and send it to the Government of the Philippines by August, 2002.

8. Other Relevant Issues

8-1. Criteria for the basic design

Both sides agreed on the criteria for the basic design described in Annex 6. Nevertheless the sites and contents covered by the Project will be finalized after further study in Japan.

8-2. Number of schools and classrooms

The Japanese side explained that the total number of requested schools and classrooms for the implementation of the Project will not be fully covered by the Project.

8-3. Land for the Project

The Philippine side agreed to secure sufficient lands for the implementation of the Project and submit document which shows the legal rights to use lands for the construction of facilities by 8 March, 2002. Both sides agreed that the following document is regarded as showing the legal rights for land use. However, the validity of the document (7) will be pending until the Team confirms its official endorsement by DepEd.

(1) Torrence Title

(2) Transfer Certificate of Title

(3) Deed of Donation

(4) Deed of Absolute Sale

(5) Presidential Proclamation

(6) Usufruct Agreement

(7) Tax Declaration in the name of DepEd

8-4. Approval by ICC

Both sides confirmed that the re-approval of the Project by Investment Coordination Committee (ICC) will be required. Procedures and requirements necessary for the reapproval are as follows

(1) Endorsement by DepEd

(2) Endorsement by Regional Development Council III (RDC III)

(3) Certificate of Non Coverage (CNC)

(4) Accomplished ICC Project Evaluation Report

Both sides also confirmed that the re-approval by ICC is pre-requisite for the appraisal

Cy.

of the Project by the Government of Japan. Therefore the Philippine side agreed that DepEd will facilitate the timely re-approval by ICC with close coordination with NEDA. And the Philippine side also agreed that DepEd will obtain CNC and the endorsement by RDC III by the arrival of the draft report explanation team.

8-5. Fiscal levy, tax and duty

The Philippine side agreed on the following points.

- (1) The Philippine side will exempt Japanese nationals engaged in the Project from all duties and related fiscal charges which may be imposed in the Philippines with respect to the import of the products and services supplied under the verified contract.
- (2) The Philippine side will assume all fiscal levies and taxes imposed in the Philippines on Japanese nationals with respect to the payment carried out for and the income accruing from the supply of the products and services under the verified contract.
- (3) The Philippine side will be responsible for the prompt liquidation or settlement of such fiscal levies, duties, taxes and other similar charges in connection with (1) and

(2). DepEd will be responsible for the necessary budget allocation in this matter.

8-6. Allocation of teaching staffs and administration staffs

The Philippine side agreed to allocate sufficient number of teaching and administrative staffs to satisfy the increased number of the facilities and instruments by the implementation of the Project.

8-7. Operation and maintenance

The Philippine side agreed to allocate necessary budget and secure cooperation from the concerned parties for the proper operation and maintenance of facilities and equipment covered by the Project.

ANNEX 4: JAPAN'S GRANT AID SCHEME

The Grant Aid scheme provides a recipient country with non-reimbursable funds to procure the facilities, equipment and services (engineering services and transportation of the products, etc.) for economic and social development of the country under principles in accordance with the relevant laws and regulations of Japan. The Grant Aid is not supplied through the donation of materials as such.

1. Grant Aid Procedures

Japan's Grant Aid Scheme is executed through the following procedures.

Application	(Request made by a recipient country)
Study	(Basic Design Study conducted by JICA)
Appraisal & Approval	(Appraisal by the Government of Japan and Approval by
	Cabinet)
Determination of	(The Notes exchanged between the Governments of Japan
Implementation	and the recipient country)

Firstly, the application or request for a Grant Aid project submitted by a recipient country is examined by the Government of Japan (the Ministry of Foreign Affairs) to determine whether or not it is eligible for the Grant Aid. If the request is deemed appropriate, the Government of Japan assigns JICA (Japan International Cooperation Agency) to conduct a study on the request.

Secondly, JICA conducts the study (Basic Design Study), using (a) Japanese consulting firm(s).

Thirdly, the Government of Japan appraises the project to see whether or not it is suitable for Japan's Grant Aid Scheme, based on the Basic Design Study report prepared by JICA, and the results are then submitted to the Cabinet for approval.

Fourthly, the project, once approved by the Cabinet, becomes official with the Exchange of Notes signed (E/N) by the Governments of Japan and the recipient country.

Finally, for the smooth implementation of the project, JICA assists the recipient country in such matters as preparing tenders, contracts and so on.

2. Basic Design Study

1) Contents of the Study

The aim of the Basic Design Study (hereinafter referred to as "the Study"), conducted by JICA on a requested project (hereinafter referred to as "the Project"), is to provide a basic document necessary for the appraisal of the Project by the Government of Japan. The contents of the Study are as follows:

- Confirmation of the background, objectives and benefits of the requested Project and also institutional capacity of agencies concerned of the recipient country necessary for the Project's implementation.
- Evaluation of the appropriateness of the Project to be implemented under the Grant Aid Scheme from a technical, social and economic point of view.
- Confirmation of items agreed upon by both parties concerning the basic concept of the Project.
- Preparation of a Basic Design of the Project
- Estimation of cost of the Project

The contents of the original request are not necessarily approved in their initial form as the contents of the Grant Aid project. The Basic Design of the Project is confirmed considering the guidelines of Japan's Grant Aid Scheme.

The Government of Japan requests the Government of the recipient country to take whatever measures are necessary to ensure its self-reliance in the implementation of the Project. Such measures must be guaranteed even though they may fall outside of the jurisdiction of the organization in the recipient country actually implementing the Project. Therefore, the implementation of the Project is confirmed by all relevant organizations of the recipient country through the Minutes of Discussions.

K

2) Selection of Consultants

For smooth implementation of the Study, JICA uses (a) registered consulting firm(s). JICA selects (a) firm(s) based on proposals submitted by interested firms. The firm(s) selected carry(ies) out a Basic Design Study and write(s) a report, based upon the terms of reference set by JICA.

The consulting firm(s) used for the Study is (are) recommended by JICA to the recipient country to also work on the Project's implementation after the Exchange of Notes, in order to maintain technical consistency.

3. Japan's Grant Aid Scheme

1) Exchange of Notes (E/N)

Japan's Grant Aid is extended in accordance with the Notes exchanged by the two Governments concerned, in which the objectives of the project, period of execution, conditions and amount of the Grant Aid, etc., are confirmed.

2) "The period of the Grant" means the one fiscal year which the Cabinet approves the Project for. Within the fiscal year, all procedure such as exchanging of the Notes, concluding contracts with (a) consulting firm(s) and (a) contractor(s) and final payment to them must be completed.

However, in case of delays in delivery, installation or construction due to unforeseen factors such as natural disaster, the period of the Grant Aid can be further extended for a maximum of one fiscal year at most by mutual agreement between the two Governments.

3) Under the Grant Aid, in principle, Japanese products and services including transport or those of the recipient country are to be purchased.

When the two Governments deem it necessary, the Grant Aid may be used for the purchase of the products or services of a third country.

However, the prime contractors, namely, consulting, contracting and procurement firms, are limited to "Japanese nationals". (The term "Japanese nationals" means persons of Japanese nationality or Japanese corporations controlled by persons of Japanese nationality.)

4) Necessity of "Verification"

The Government of recipient country or its designated authority will conclude contracts denominated in Japanese yen with Japanese nationals. Those contracts shall be verified by the Government of Japan. This "Verification" is deemed necessary to secure accountability to Japanese taxpayers.

5) Undertakings required to the Government of the Recipient Country

In the implementation of the Grant Aid Project, the recipient country is required to undertake such necessary measures as the following.

① To secure land necessary for the sites of the Project and to clear, level and reclaim the land prior to commencement of the construction,

② To provide facilities for the distribution of electricity, water supply and drainage and other incidental facilities in and around the sites,

③ To secure buildings prior to the procurement in case the installation of the equipment,

④ To ensure all the expenses and prompt execution for unloading, customs clearance at the port of disembarkation and internal transportation of the products purchased under the Grant Aid,

(5) To exempt Japanese nationals from customs duties, internal taxes and other fiscal levies which will be imposed in the recipient country with respect to the supply of the products and services under the Verified Contracts,

(6) To accord Japanese nationals, whose services may be required in connection with the supply of the products and services under the Verified contracts, such facilities as may be necessary for their entry into the recipient country and stay therein for the performance of their work.

6) "Proper Use"

The recipient country is required to operate and maintain the facilities constructed and equipment purchased under the Grant Aid properly and effectively and to assign staff necessary for this operation and maintenance as well as to bear all the expenses other than those covered by the Grant Aid.

7) "Re-export"

The products purchased under the Grant Aid should not be re-exported from the recipient country.

- 8) Banking Arrangement (B/A)
- a) The Government of the recipient country or its designated authority should open an account in the name of the Government of the recipient country in a bank in Japan (hereinafter referred to as "the Bank"). The Government of Japan will execute the Grant Aid by making payments in Japanese yen to cover the obligations incurred by the Government of the recipient country or its designated authority under the Verified Contracts.
- b) The payments will be made when payment requests are presented by the Bank to the Government of Japan under an Authorization to Pay (A/P) issued by the Government of the recipient country or its designated authority.

9) Authorization to Pay (A/P)

The government of the recipient country should bear an advising commission of an Authorization to Pay and payment commissions to the Bank.

- (3) Schools where sufficient teaching staffs and budget can be allocated in order to operate and maintain facilities and instrument properly.
- (4) Schools which have topographically appropriate and sufficient size of land to construct facilities
- (5) Schools which have legal rights to use the land for the construction of facilities
- (6) Schools which have proper access roads in order to carry construction materials and equipment into respective sites
- (7) Schools where necessary demolition and removal of existing facilities can be completed within specified timeframe
- (8) Schools which can secure necessary alternative classrooms during the period of construction
- (9) Schools where no other programs of new classroom construction are on-going or scheduled by other donors, NGOs and so forth
- (10) Schools with no security problems and threat of natural calamity such as flooding and lahar
- 2. Criteria for Building Design
- (1) Buildings should satisfy the minimal functions in compliance with the curriculum for basic education at present and future.
- (2) The specification of buildings should follow the building standards and laws in the Philippines.
- (3) Buildings should be maintained locally and cost-effectively under the responsibility of DepEd.
- 3. Criteria for Equipment Selection
- (1) All equipment should satisfy minimal requirements outlined in the curriculum for basic education.
- (2) All equipment should be durable and be able to withstand normal climatic conditions and proper use.
- (3) Equipment should be cost-effective, can be easily maintained and consumable materials should be readily available locally.
