PREQUALIFICATION**

## **SECTION 1**

### **INTRODUCTION**

**PART 1  
INSTRUCTIONS AND CONDITIONS FOR PREQUALIFICATION**

**SECTION 1.0: INTRODUCTION**

**1.1 Project Background**

The Project for Upgrading Inter-Urban Highway System Along the Pan-Philippine Highway includes the construction of three (3) bypasses namely, Plaridel, Cabanatuan and San Jose Bypasses. The road section from Sta. Rita, Plaridel to San Jose of the Pan-Philippine Highway starts at about 40 kilometer north of Metro Manila and extends for about 123.5 kilometers. It is located in Region III and within the economic influence area of Metro Manila. Along the highway, small and medium size urban centers are situated at about 10 kilometers interval, and urbanization is expanding along the highway as a ribbon type development. In urban sections, the traffic function of the highway is being seriously affected due to slow and disorderly moving traffic such as tricycles and jeepneys.

**1.2 Cabanatuan Bypass**

The Cabanatuan Bypass has a total length of 34 kilometers and traverses four (4) municipalities in Nueva Ecija namely, the municipalities of San Leonardo, Santa Rosa, Talavera and the City of Cabanatuan. Starting from San Leonardo, the Bypass will traverse the vast agricultural lands of Barangay Diversion, Tabuating, Magpapalayok and Tagumpay until it reaches the administrative boundary of San Leonardo and Santa Rosa at Tabuating River. The planned Bypass will cross the Talavera River passing the Barangay Lomboy where it joins the Pan-Philippine Highway. The area traverse by the alignment is mostly cultivated lands especially at the streams crossing or the bridge locations. In Cabanatuan City, the Bypass will be traversing on urban areas, thus frontage road are provided. The Bypass with frontage road has a total length of 8.61 kilometer. There are ten (10) major intersections at grade section, 25 minor intersections and 21 under-boxes. River conditions at the project bridge locations are generally good with rivers mostly meandering.

**1.3 Major Work Item**

For the Initial Stage of implementation, the Cabanatuan Bypass is divided in four (4) contract packages. Contract Package I will start at Station 100+480 to Station 109+920 for a total length of 9.44 kilometers. This contract package calls for the construction of the following major items of work:

- (a) Earthworks, consisting of clearing and grubbing, removal of structures and obstruction, excavation including disposal of unsuitable and or unclassified materials, embankment and subgrade preparation.
- (b) Construction of PCC pavement and asphalt concrete surface courses including aggregate subbase course.

- (c) Construction of two (2) multi spans bridges about 53.26 and 63.86 meters in length. Substructure shall be of pre-cast concrete pile and superstructures shall be of prestressed concrete deck girders (AASHTO Type IV).
- (d) Drainage system including the installation of RC pipe culvert, RC box culverts, headwalls, and lined ditch, slope protection and other drainage structures.
- (e) Miscellaneous structures consist of concrete curb and gutter combination, sidewalk, road and project information and regulatory signs, curb and pavement markings, guardrails, fences, post, street and bridge lighting system, landscaping and others.

#### **1.4 Estimated Construction Duration and Implementation Schedule**

The project construction is scheduled to commence on the last quarter of year 2008, and 28 months has been allocated for the completion of civil works for this contract package. For more detailed information refer to Part 1, Section 4 of this Prequalification Documents

**SECTION 2**

**INSTRUCTION TO APPLICANTS**

## SECTION 2.0: INSTRUCTIONS TO APPLICANTS

### 2.1 Scope of Bid

- 2.1.1 The Government of the Philippines through the Department of Public Works and Highway, hereinafter referred to as "DPWH" has received an Overseas Development Assistance (ODA) Loan and intends to apply the proceeds of said loan to payments under the contract for which these Prequalification Documents are issued. Disbursement of the Loan will be subject in all respects, to the terms and conditions of the Loan Agreement with the Bank, including disbursement procedures and the "Guidelines for Procurement under the said ODA Loans". No party other than DPWH shall derive any rights from the Loan Agreement or have any claim to the Loan proceeds. The above Loan Agreement will cover only a part of the anticipated cost of the proposed contract. As for the remaining portion, the GOP through the DPWH will take appropriate measures for its financing.
- 2.1.2 The Bank requires all bidders and contractors, as well as the DPWH, under contracts funded by the Bank's ODA Loans, should observe the highest standard of ethics during the procurement and execution of such contracts. In pursuance of this policy, the Bank
- (a) Will reject a proposal for award if it determines that the bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question;
  - (b) Will recognize a contractor as ineligible, for a period determined by the Bank, to be awarded a contract funded by Bank if it at any times determines that the contractor has engaged in corrupt or fraudulent practices in competing for, or in executing, another contract funded by the Bank or other funding institution.
- 2.1.3 The DPWH intends to prequalify contractors to bid under the Bank's procedures for International Competitive Bidding for the contract of the Project for Upgrading Inter-Urban Highway System Along the Pan-Philippine Highway, the details thereof is as stipulated in Sub-Section 1.3 of the Instructions and Conditions for Prequalification.
- 2.1.4 It is expected that the Invitations to Bid will be made in the first quarter of 2007
- 2.1.5 Prequalification is open only to firms and voluntarily formed joint ventures meeting the conditions for eligibility as set out under Sub-Section 2.3 to these Instructions to Applicants.
- 2.1.6 General information on the climate, hydrology, topography, access to site, transportation and communication facilities, medical facilities, Project layout, expected construction period, facilities, services provided by DPWH and other relevant data is set out in Part 1, Section 4.0 General Information of this Prequalification Documents.
- 2.1.7 The work is a combination of unit and lump-sum price contract, that payments will be made only for the actual quantities of work accomplished, and any work performed in excess of what is specified or shown in the drawings, or ordered by the DPWH will

not be paid.

## **2.2 Submission of Applications**

### **2.2.1 Notification of Intention to Prequalify / Apply for Eligibility and to Bid**

The Applicant who secured Prequalification Document shall notify PBAC by mail or facsimile of his intention to submit the application statement forms or withdraw from the exercise, one (1) week before the deadline for submission. Such notification shall be received by the DPWH/PCAB at his office (address as indicated for receipt hereunder). In addition, such notification shall be on the Applicant's official letterhead signed by the authorized representative.

### **2.2.2 Submittals and Labeling of Documents**

2.2.2.1 The applicant shall submit one (1) original and two (2) duplicate copies of the completed Prequalification Documents (See Section 5: Prequalification Forms) including all addenda, if any and all attachment required. Prequalification Documents must be properly marked and shall be submitted in two (2) separate sealed envelopes.

2.2.2.2 Submission of applications for prequalification must be delivered by hand, courier or registered mail to the Chairman of PCAB, not later than 5:00 PM ( Philippine Standard Time) on or before \_\_\_\_\_, the specified deadline for submission. The envelope shall be marked as follows:

**The Chairman  
Prequalification, Bids and Awards Committee  
Department of Public Works and Highways  
Bonifacio Drive, Port Area, Manila**

**Attention: The Project Manager  
PBAC-TWG  
DPWH**

### **CONTRACTORS CONFIDENTIAL APPLICATION STATEMENT FOR PREQUALIFICATION**

### **PROJECT FOR UPGRADING INTER-URBAN HIGHWAY SYSTEM ALONG THE PAN-PHILIPPINE HIGHWAY**

**PHASE II OF INITIAL STAGE,**

**CABANATUAN BYPASS, CONTRACT PACKAGE I  
STA. 100+480 TO STA. 109+920**

**Submitted By: \_\_\_\_\_**

**(Name and Address of Applicant)**

### **2.2.3 Language and Method of Filling**

Prequalification Documents shall be accomplished in the English language and if any original documents submitted in another language, a certified translation in the English language with authentication by a notary public and endorsement of corresponding Embassy or Consulate in the Philippines or by the respective Philippine Embassy where in the project is located.

#### **2.2.4 Forms and Presentation of Documents**

Applicant shall accomplished and present the Prequalification Documents as follows:

- (a) Applicant should accomplish all the Prequalification Questionnaires/Forms as contained in Section 5: Prequalification Forms, and shall provide all certificates and documents required.
- (b) Applicants should arrange the Prequalification Documents with separators and index tabs in accordance with the sequence suggested herein. Topsy-turvy documents shall be ground for outright rejection of documents or cause for disqualification.
- (c) The Prequalification Documents shall be completed in ink or typed and no changes shall be made to the wordings printed thereon. If any mistake is made in accomplishing a form, a new form or sheet shall be used for complete documentation. Any correction in the documents will not be accepted even if corrections are made by means of write over and initialed by the person signing the Prequalification Documents.
- (d) Prequalification Documents submitted on forms or in a format other than that prescribed in the aforesaid statement may be considered non-complying.

#### **2.2.5 Additional Information**

- (a) If any Applicant wishes to submit additional information to accurately demonstrate his capability and/or to support his record of previous work, the Applicant may attach such supplementary information to the Prequalification Documents and clearly label the same as "Additional/Supplementary Information", separate from the main documents.
- (b) Authorized person, stating that the contents are true and correct shall authenticate Xerox copies of any certificate to support the application.

**2.2.6** Failure to provide information that is essential to evaluate the Applicant's qualifications, or to provide timely clarification or substantiation of the information supplied, may result in the disqualification of the Applicant.

**2.2.5** No clarificatory meeting will be held in connection with this prequalification. If the Applicant has any queries, it should be sent in writing and should be received by the Chairman of the Prequalification, Bid and Award Committee at the address given above, later than 10 (ten) days before the date given in Paragraph 2.2.2.

### **2.3 Eligible Bidders**

**2.3.1** The invitation to prequalify is open to any bidder and voluntarily formed joint venture from all countries and areas. Foreign Contractor Applicants should be licensed in

their own country/area and duly certified by their respective local Embassies/Consulates in conformance with existing laws. Local Contractors should hold valid PCAB "AAA" License and classified by the Inter-Agency Committee on Registration as Large B for Roads and Bridges and other similar structures.

- 2.3.2 In case of Joint Venture, the lead firm and member partners must submit all requirements to satisfy the provisions as stipulated in Section 2.5 of this Instruction to Applicant.

## **2.4 Prequalification Criteria**

- 2.4.1 The prequalification of Applicants will be based on meeting the following criteria relative to Applicant's general and particular experience, past performance on similar contracts, personnel and equipment capabilities, financial position, and litigation history as demonstrated by the Applicant's responses in the forms attached to the letter of application (specific requirements for joint ventures are given under paragraphs 2.5.1 and 2.5.2 below). The DPWH reserves the right to waive minor deviations if they do not materially affect the capability of an applicant to perform the contract.

- 2.4.2 Prequalification will be dependent on the Applicant's submission of the required duly completed Application Forms and Attachments thereto as prescribed in Section 5.0 of these Prequalification Documents and will also be dependent on assessment by DPWH by passing each and every prequalification criteria set down in Section 3: Evaluation Procedure and Criteria of this Instruction and Condition for Prequalification.

## **2.5 Joint Ventures**

- 2.5.1 Joint ventures must comply with the following requirements:

- (a) As a minimum qualification requirement:
- (i) The Lead Partner shall meet not less than 40% of the criteria given in paragraphs. 3.4.2 and 3.4.3 (d) below; and
  - (ii) Each of the other partners shall meet individually not less than 25% of the criteria given in Paragraphs 3.4.2 and 3.4.3(d) below; and
  - (iii) The joint venture must satisfy collectively the entire criteria given Paragraphs 3.4.3(d) and 3.6, for which purpose the relevant figures for each of the partners shall be added together to arrive at the joint venture's total capacity; and
  - (iv) Individual members of the joint venture must each satisfy the requirements of Paragraphs.3.4.3 (b) and 3.4.3(d) below.
- (b) Formation of a joint venture after prequalification, and any change in a prequalified joint venture will not be allowed.

- (c) Any subsequent bid following successful prequalification shall be signed so as to legally bind all partners, jointly and severally, and any such bid shall be submitted with a copy of the joint venture agreement, in the format shown in Application Forms 4A, 4A1 and Annex 10, providing the joint and several liabilities with respect to the contract.

2.5.2 The prequalification of a joint venture does not necessarily prequalify any of its partners individually or as a partner in any other joint venture or association. In the case of dissolution of a joint venture, each one of the constituent firms may prequalify if it meets all the prequalification requirements, subject to the written approval of DPWH.

## **2.6 Conflict of Interest**

The Applicant (including all members of a joint venture) shall not be associated, nor have been associated in the past, with the consultant or any other entity that has prepared the design, specifications, and other prequalification and bidding documents for the Project, or with an entity that was proposed as Engineer for the contract. Any such association may result in the disqualification of the Applicant.

## **2.7 Updating Prequalification Information**

Prequalified applicants will be required to update the financial information used for prequalification at the time of submitting their subsequent bids and to confirm their continued compliance with the prequalification criteria. A bid will be rejected if, at the time of bid evaluation, the Applicant no longer meets the prequalification thresholds.

## **2.8 General**

2.8.1 Only firms and joint ventures that have been prequalified under this procedure will be invited to bid. A qualified firm or a member of a qualified joint venture may participate in only one bid for the contract. If a firm submits more than one bid, singly or in joint venture, all bids involving that party will be rejected. This rule may not apply in respect of bids that include specialist subcontractors who are used by more than one bidder.

2.8.2 Bidders will be required to provide bid security denominated in Philippine Pesos, in an amount equivalent to a percentage of the total Bid Price, in accordance with the schedule given below:

- ♦ Cash, Manager's Check, Cashier's Check, Irrevocable Letter of Credit, or Bank Draft – One Percent (1%) of the total Bid Price; or
- ♦ Bank Guarantee confirmed by the local bank (in the case of foreign bidder bonded by a foreign bank) – One and a Half Percent (1½%) of the total Bid Price; or
- ♦ Surety Bond issued by Government Service Insurance System (GSIS) duly accredited by the Office of the Insurance Commission – Two and a Half Percent (2½%) of the total Bid Price.

- 2.8.3 The successful bidder will, following award of the contract, also be required to provide performance security in the form to be supplied as an example within the bidding documents.
- 2.8.4 The DPWH reserves the right to:
- (a) Amend the scope and value of any contract to be bid, in which event the contract will only be bid among those prequalified bidders who meet the requirements of the contract as amended;
  - (b) Reject or accept any application;
  - (c) Cancel the prequalification process and reject all applications.
- 2.8.5 DPWH shall neither be liable for any such actions nor be under any obligation to inform the Applicant of the grounds for the actions taken thereon.
- 2.8.6 Applicants will be advised by the DPWH in writing, by fax or by electronic mail, and within 60 days of the date for submission of applications (reference Paragraph. 2.2.2 above), of the result of their application and of the names of the prequalified applicants, without being assigned any reason for DPWH's decision.

\* \* \* \* \*

**SECTION 3**

**EVALUATION PROCEDURE**

## **SECTION 3.0: EVALUATION PROCEDURE AND CRITERIA**

### **3.1 General**

The duly accomplished prequalification applications submitted by the Applicants should be the basis on which the DPWH determines the eligibility and competence of each applicant to prequalify and bid for the proposed contract.

### **3.2 Objectives of Evaluation**

3.2.1 The primary objectives of the prequalification procedures are as follows:

- (a) To ensure that invitations to bid are extended only to technically and financially qualify bidders, and to prevent unqualified bidders from winning the bid as a results of superficial evaluation.
- (b) To limit the number of bidders in advance, to a manageable size for the DPWH in conducting bidding procedure and evaluation, when a large number of bidders are expected to participate.

3.2.2 The prequalification procedure shall be conducted strictly in order to ensure quality in the procurement process.

### **3.3 Evaluation Procedure**

#### **3.3.1 Stage 1: Preliminary Screening**

The Prequalification Document submitted by each bidder would be assessed as to its completeness and conformity to the required format with pass or fail criteria. In case of no submission or missing documents which is deemed important, such applicant will be disqualified at this stage.

#### **3.3.2 Stage 2: Minimum Requirements**

Prequalification Documents shall be examined whether submitted documents comply with the minimum requirement by using pass or fail criteria. The Prequalification Documents usually indicate the minimum qualification requirements for annual turnover and successful project experience of similar nature and complexity. An Applicant will be disqualified if it does not satisfy any of the minimum requirements.

#### **3.3.3 Stage 3: Detailed Evaluation**

Scoring points evaluation shall be conducted for each item of general experience, personnel capabilities, equipment capabilities and financial positions. The scoring shall be done on absolute evaluation based on the criteria specified in Sub-section 3.4 below. Minimum scores for each criterion will be set that must be reached by the Applicant to be prequalified. In addition, an overall minimum score that is higher than the sum of the minima for the individual criteria shall be established. Applicants that barely satisfy the prequalification criteria and have an overall weakness shall not be prequalified. Applicants that barely satisfy one or two criteria and score above the

overall minimum score by virtue of scoring well above the minimum for other criteria shall not be prequalified.

### **3.4 Evaluation Criteria**

The following criteria shall be used in evaluating the submitted Prequalification Documents submitted by the Applicant:

#### **3.4.1 Criteria for Stage 1:Preliminary Screening**

Prequalification Documents of each Applicant shall be assessed for compliance using pass/fail assessment based on the following criteria.

##### **(a) Formality of Application**

The documents shall be checked whether the Applicant has submitted all required documents as specified in the invitation for pre-qualification.

##### **(b) Completeness of Information**

The Prequalification Documents of each Applicant shall assessed if the submitted documents and its format are in conformity with the requirements and contain the required information.

##### **(c) Eligibility of Application**

A bidder including all members of a joint account venture and all subcontractors should be assessed if eligible as prescribed in Section 2.3. A bidder and all members of a JV and all subcontractors should not be affiliated with a firm or entity that has provided consulting services during the preparatory stages of the works or of the project of which the works form a part, or that has been hired (or is proposed to be hired) as Engineer for the Contract.

##### **(d) Legal Status of Application**

The commercial acceptability of the application will be based of the Applicant's proper legal entity with which the executing agency can enter into contract. If the Applicant is a joint venture the partners of the joint venture should be identified and the joint venture agreement properly documented

#### **3.4.2 Criteria for Stage 2: Minimum Requirements**

The purpose of Stage 2 evaluation is to examine whether submitted documents complied with the minimum qualification requirements by using pass or fail assessment criteria. The Applicant is required to demonstrate, in addition to the general requirements to be provided through the Application Forms the following minimum criteria:

- (a) The average annual turnover (defined as billing for works in progress and completed) of the Applicant as a Prime Contractor for the last five (5) years **must not be less than PHP 550 Million.**
- (b) Project experience is evidenced by the Applicant (or, in the case of a joint venture, the Lead Partner) as the Prime Contractor in the successful execution **of at least three (3) projects** of the nature and complexity comparable to the proposed contract within the last five (5) years.

### 3.4.3 Criteria for Stage 3: Detailed Evaluation

During Stage 3:Detailed Evaluation, the "scoring points evaluation" of Applicant's qualification shall be adopted based on the following criteria:

<u>Prequalification Criteria</u>	<u>Assigned Points</u>
1) <i>General Experience</i>	35
<ul style="list-style-type: none"> <li>• Project Experience of Similar Nature &amp; Complexity</li> <li>• Project Experience in the Country Concerned and Similar Countries</li> </ul>	
2) <i>Personnel Capabilities</i>	10
<ul style="list-style-type: none"> <li>• Experience of Prime Candidate and Alternative for Key Management</li> </ul>	
3) <i>Equipment Capabilities</i>	15
<ul style="list-style-type: none"> <li>• Type, Characteristic, Minimum Number and Availability of Equipment</li> <li>• Explanation of Site Organization, Quality/Safety Assurance System &amp; Environmental Consideration</li> </ul>	
4) <i>Financial Position</i>	40
<ul style="list-style-type: none"> <li>• Cash Flow Capacity</li> <li>• Soundness of Financial Position</li> </ul>	
<i>Total Points</i>	<u>100</u>

#### (a) General Experience

Experience is of critical importance in the determination of whether an applicant has the necessary capability to undertake and complete the given work successfully.

The Applicant must provide information relative to particular project experience of

similar nature and complexity on Forms 5A and 5A1 .In Form

**(i) Project Experience of Similar Nature and Complexity**

This factor is relatively simple to measure and is assessed on the basis of number of years of experience as a Main Contractor or Lead Partner in a Joint Venture. An applicant that has not been involved in the execution of civil works as a Main Contractor or Lead Partner in a Joint Venture for a period of at least two years is not qualified. The points are distributed for a range of values for the number of years of experience, with the maximum awarded for experience greater than 10 years.

**(ii) Project Experience in the Country Concerned and in Similar Countries**

The criteria for this factor are established in terms of the number of contracts of similar nature (type) and size (value) completed in the last 10 years of operations. An applicant that has not completed at least one such contract in the given period is not qualified. The points are distributed for a range of values for the number of contracts completed, with the maximum awarded for completion of more than four contracts.

**(b) Personnel Capabilities**

The Applicant must have suitably qualified personnel to fill the following positions. In Application Forms 3A the Applicant must supply information on a prime candidate and on an alternate for each position; both people must meet the experience requirements specified below:

<b>Position</b>	<b>Total Experience (years)</b>	<b>Experience in Similar Works (years)</b>	<b>Experience as Manager of Similar Works (years)</b>
Project Manager	20	10	5
Highway Engineer	15	10	5
Bridge Engineer	15	10	5
Drainage Engineer	15	10	5
Materials/Quality Control Engineer	15	10	5
Foreman	15	10	5

**(c) Equipment Capabilities.**

The Applicant should own, or have assured access to (through rental, lease, purchase agreement, availability of manufacturing equipment, or other means) the minimum essential plant/equipment requirements listed below, which must be in full working order at the date of submission of the prequalification application. The Applicant must demonstrate that, based on known commitments, the required key equipment will be available for use in the proposed contract. Application Forms 7A and 7B are required to be completed in connection with this requirement.

Equipment Type and Characteristics		Minimum Number Required
1	Concrete Batch Plant, 60 Cubic Meter./hour	1
2	Rock Crushing Plant, 60 –100 Tons/hour	1
3	Washing and Screening Plant, 100 Tons/hour	1
4	Asphalt Mixing Plant, 60 Tons/hour	1
5	Bulldozer, Crawler with Ripper, D6-D7	1
6	Bulldozer Crawler Type, D8	2
7	Motor Grader, 125 HP– 160 HP	3
8	Wheel Loader, 1.34 – 2.7 Cubic Meter	3
9	Dump Truck, 9 – 14 Cubic Meter Capacity	12
10	Steel Drum Roller, 16 –20 Tons	2
11	Vibratory Roller, 10 –12 Tons	2
12	Pneumatic Roller, 24 Tons	2
13	Water Truck with Sprinkler, 3,000 gallons	2
14	Asphalt Distributor, 3,000 USG	1
15	Asphalt Paver/Finisher, 10 Feet Wide	1
16	Concrete Paver Finisher, 10 Feet Wide	1
17	Crawler Mounted Crane, 30 Tons	1
18	Crawler Mounted Crane, 61-70 Tons	1
19	Truck Mounted Crane, 50 Tons	1
20	Transit Mixer, 5.0 – 7.5 Cubic Meter	8
21	Backhoe Crawler Type, 0.60 – 1.50 Cubic Meter	4
22	Low Bed Trailer with Tractor, 60 – 70 Tons	2
23	Prestressing Jack, 60 Tons	1
24	Flat Jack, 2 Tons	1
25	Pile Hammer, 7500 Kg/ m	1

The Applicant may also list alternative equipment, using Application Forms 6 and 6a that it proposes for the contract, together with an explanation of the proposal.

(d) Financial Position

The Applicant should demonstrate (using Application Form 8A, 8B, 8C, 8D) that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit and other financial means sufficient to meet the construction cash flow for a period of four (4) months during the duration of the proposed contract, estimated as **PHP 75 Million** equivalent, net of the Applicant's commitments for other contracts. The audited financial statements for the last five (5) years shall be submitted and must demonstrate the soundness of the Applicant's financial position, showing long-term profitability. The DPWH reserves the right to make inquiries with the Applicant's bankers should it be considered necessary.

### **3.5 Evaluation of Joint Ventures**

The evaluation of joint ventures and consortium shall be conducted in accordance with the Bank's guidelines for procurement. The sub-contractors or suppliers and manufacturers in charge of major critical components in the contract shall be subject to evaluation. Joint ventures or consortium or sub-contracting arrangement for major critical component announced at the time of prequalification, shall not be changed in principle. Any alteration shall be subject to the approval of DPWH prior to the deadline for submission of bids.

### **3.6 Consideration of Litigation History**

Litigation history of a bidder shall be considered in accordance with stipulations of the Bank's Procurement Guidelines. In addition the following past performance shall be considered:

- (a) Contract default history such as delay of time for completion for which the contractor is responsible.
- (b) Record of contract price and final contract amount

### **3.7 Review and Concurrence by the Bank**

The results of prequalification shall be subject to review and concurrence of the Bank, as stipulated in the loan agreement and the Prequalification Evaluation Report will be submitted to the Bank with the authorized signature of the Employer.

### **3.8 Particulars**

- 3.8.1 The prequalification applications submitted by the applicants will be evaluated by DPWH to determine using sound judgment and discretion, the eligibility and competence of each applicant.
- 3.8.2 Applicants will not be considered for prequalification unless they have demonstrated that they possess all of the following: (1) experience in the type and size of the work involved and, (2) ability to successfully complete such work, (3) qualified personnel and, (4) sufficient equipment available to satisfy the contract's needs, (5) together with sufficient net current assets or available working capital to execute the contract satisfactorily.
- 3.8.3 The DPWH reserves the right to investigate any statements or claims made by the applicants and to institute any appropriate action, legal or administrative, should it be discovered later that the prequalification was obtained through misleading, ambiguous or false statement or erroneous information.
- 3.8.4 Where, in the opinion of DPWH major discrepancies are found in the information submitted, the application shall be considered unsatisfactory and the applicant will not be eligible to prequalify until such discrepancies have been satisfactorily explained or resolved. The DPWH will not enter into any correspondence with applicants except to seek clarification when necessary. In the case of minor

discrepancies, the DPWH reserve the right to interpret figures as they deem proper and appropriate.

- 3.8.5 The DPWH will make the final selection of the applicants who will be prequalified and invited to submit bids for the proposed contract only after consultation with the Bank. Each applicant will then be informed of the result of his application, but there will be no explanation or discussion of the result.
- 3.8.6 A list of prequalified applicants will be made available to all those who submitted prequalification applications.
- 3.8.7 Notwithstanding the prequalification of an applicant, the DPWH reserves the right to review all prequalification statements and other relevant information before the award of a contract. Should such review uncover any misinterpretation within the prequalification statements or any change in the situation of the prequalified applicant such as would downgrade the substance of the prequalification statements, the DPWH will disqualify such previously prequalified applicant.
- 3.8.8 The decision of DPWH and the concurrence by the Bank on the prequalification or disqualification of an applicant will be final.

## **SECTION 4**

### **GENERAL INFORMATION**

## **SECTION 4: GENERAL INFORMATION**

### **4.1 Location**

Like the proposed Plaridel Bypass, the Cabanatuan Bypass will also traverse at the east side of the Pan-Philippine Highway. It starts from Santa Rosa, Nueva Ecija and ends at Talavera, Nueva Ecija. The Cabanatuan Bypass has the longest route among the three bypasses, covering a total length of 34 kilometers. Contract Package I of the Cabanatuan Bypass starts from Station 100+480 to Station 109+920.

### **4.2 Topography and Geography**

- 4.2.1 The topography along the alignment of the proposed Plaridel Bypass is generally described as flat with moderate depressions towards the rivers. A big portion of the area along the alignment is utilized as rice fields. The vegetation includes grasses, shrubs, coconut trees and isolated small to medium size tropical trees that are located mostly along creeks or rivers.
- 4.2.2 Cabanatuan is located at the northern side of Bulacan and at the southern portion of San Jose, Nueva Ecija. The area is generally covered by alluvial materials and a thick sequence of sedimentary and pyroclastic rocks with intercalated volcanic rocks beneath the alluvium. This sedimentary rock however was not encountered in the boreholes. The recent alluvial deposits covering the underlying rocks in the flat areas, consist of silts, sand, and unconsolidated and unsorted pebbles, cobbles and small boulders derived from older rocks.

### **4.3 Climate and Meteorology**

#### **4.3.1 General Climate**

The general climate at the project site belongs to Type 1 of the classification defined by the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA). This climate type is characterized by two seasons, i.e., dry season from November to April and wet season during the rest of the year. The dry season is the period of the northeast monsoon and the wet season is that of the southwest monsoon. In the wet season, the southwest monsoon winds bring moist and unstable tropical air, generating cloudy skies with intermittent heavy showers and scattered thunderstorms.

#### **4.3.2 Meteorology**

##### **(a) Rainfall**

Average rainfall recorded by PAGASA at the project site over a year period is summarized in the table below.

*Recorded at PAGASA San Jose Station)*

Month	Rainfall
	Monthly Average (mm/month)
Jan	3.74
Feb	3.72
Mar	5.70
Apr	13.81
May	293.95
Jun	562.58
Jul	722.50
Aug	1034.64
Sep	597.95
Oct	238.98
Nov	91.03
Dec	19.14
Annual Data	3587.75

(b) Typhoons

In the southwest monsoon period, frequent passage of typhoons is usual in the project area. Frequency of the typhoon passages is about twice a month from June to October.

(d) Seismicity

The geotectonic setting of the country makes it prone to various types of seismic related hazard. The high level of Seismicity within the archipelago, averaging about five detectable earthquake per day is attributed to the movements caused by the interaction of major tectonic plate boundaries along subduction zones and those generated from active faults.

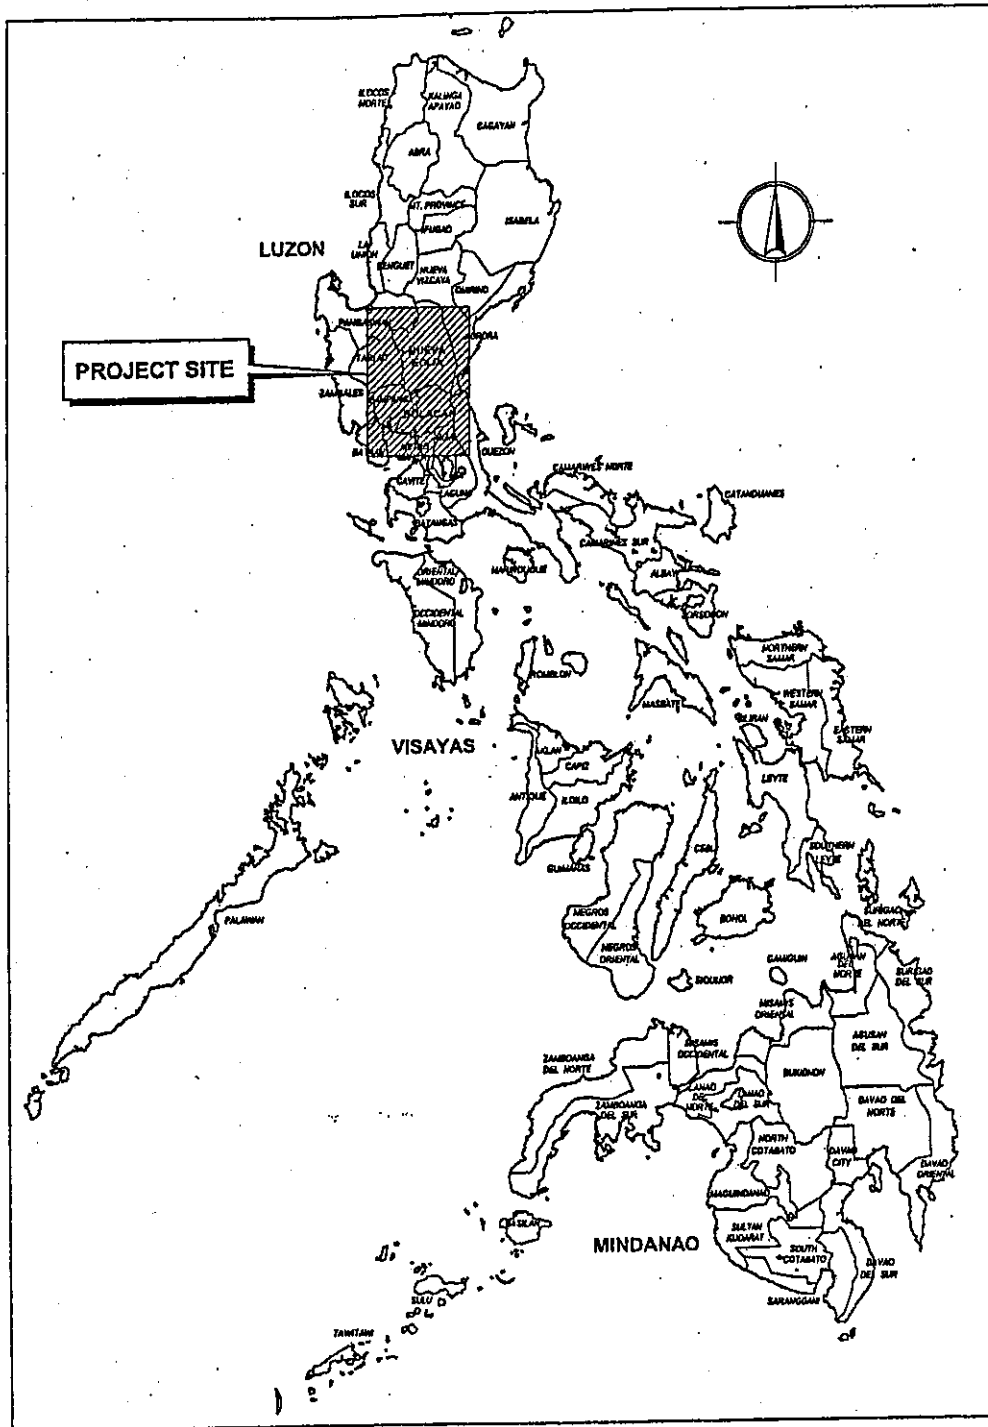

For the proposed bypass project, the potential source of earthquake is the Digdig, San Jose and San Miguel Fault System, where ground shaking would be the type of seismic hazard likely to cause damage to the structure. The nearest source of earthquake based on past records is San Jose Fault, right next to San Jose Bypass, which registered a magnitude of 7.9, or Intensity 8. Other bypasses are far from the fault line with the nearest at Talavera River, which is about 20 kilometers from the fault.

#### 4.4 Drawings and Schedules

The following drawings and implementation schedule are provided to the applicants to enable them to gain a better understanding of the scope and nature of the civil work comprised within the contract:

- (a) Location Map
- (b) General Layout Plan
- (c) Typical Sections of Roads and Bridges.
- (d) Implementation Schedule

## **LETTER OF APPLICATION**

**SPECIMEN LETTER OF APPLICATION\***

*[\* Actual letter to be written on the letterhead paper of the Applicant or the Lead Partner responsible for a joint venture, showing the full postal address, telephone number, fax number, telex number, and cable address, etc.]*

Date : \_\_\_\_\_

To : The Chairman  
Prequalification, Bids and Award Committee  
Department of Public Works and Highway  
Bonifacio Drive, Port Area, Manila

Gentlemen,

1. Being duly authorized to represent and act on behalf of \_\_\_\_\_ (hereinafter referred to as "the Applicant") as evidenced by Power(s) of Attorney (see Annex 2), and having reviewed and fully understood all of the prequalification information provided, the undersigned hereby applies for the Applicant to be prequalified as a bidder by your Agency for the construction work of \_\_\_\_\_ (Name of Project).
2. Attached to this letter are copies of original documents detailing:<sup>1</sup>
  - (a) The Applicant's (or each joint venture partner's) corporate/legal status;
  - (b) The principal place of business of the Applicant or of each joint venture partner; and
  - (c) The place of incorporation (for applicants or joint venture partners who are corporations), or the place of registration and the nationality of the owners (for applicants or joint venture partners who are partnerships or individually owned firms), together with all other relevant fully completed Application Forms.

<sup>1</sup> For applications by joint ventures, all the information requested in the prequalification documents is to be provided for the joint venture (if it already exists), and separately for each party to the joint venture. The Lead Partner must be clearly identified, and all other partners in the joint venture must countersign the letter of application in endorsement of the contents of the submitted documents.

3. Your Agency and its authorized representatives are hereby authorized to conduct any inquiries or investigations to verify the statements, documents and information submitted in connection with this application, and to seek clarification from the Applicant's (or each joint venture partner's) bankers and clients regarding any financial and technical aspects. This Letter of Application will also serve as authorization to any individual or authorized representative of any institution referred to in the supporting information to provide such information deemed necessary and as requested by your Agency to verify statements and information provided in this application (such as the resources, experience and competence of the Applicant or each joint venture partner).
4. Your Agency and its authorized representatives may contact the following persons for further information:

(a) Name of Applicant or Lead Partner \_\_\_\_\_

(i) General and managerial inquiries

Contact 1	Telephone No.
Contact 2	Telephone No.

(ii) Personnel inquiries

Contact 1	Telephone No.
Contact 2	Telephone No.

(iii) Technical inquiries

Contact 2	Telephone No.

(iv) Financial inquiries

Contact 1	Telephone No.
Contact 2	Telephone No.

(b) Name of Partner<sup>2</sup> \_\_\_\_\_

(i) General and managerial inquiries

Contact 1	Telephone No.
Contact 2	Telephone No.

(ii) Personnel inquiries

Contact 1	Telephone No.
Contact 2	Telephone No.

<sup>2</sup> An application by a joint venture must provide equivalent information for each partner to the application (partner meaning a party required to countersign the joint venture letter of application).

(iii) Technical inquiries

Contact 1  
Contact 2

Telephone No.  
Telephone No.

(iv) Financial inquiries

Contact 1  
Contact 2

Telephone No.  
Telephone No.

5. This application is made with the full understanding that:

- (a) Following submission of bids by prequalified applicants, all information submitted for prequalification will be subject to review, to ensure that the bidders still meet the original conditions set for prequalification.
- (b) Your Agency reserves the right to:
  - (i) amend the scope and value of any contracts bid under this project (and, in such event, bids will only be called from prequalified bidders who meet the revised requirements); and
  - (ii) reject or accept any application, cancel the prequalification process, and reject all applications.
- (c) Your Agency shall not be liable for any such actions as are referred to in (b)(i) and (ii) above and shall be under no obligation to inform the Applicant of the grounds for such actions.

*An Applicant who is not part of a joint venture should not include paragraphs 6 and 7 below in their letter of application and, instead, should re-number para. 8 as para. 6.*

6. Appended to this letter of application are the details of the participation of each partner in the joint venture (**either:** "as evidenced by the attached Joint Venture Agreement" **or:** "(see the duly completed declaration of cooperation (Annex 10 and Annex 10A), which specifies the financial commitments in terms of the percentage of the value of the contract to be undertaken by each partner)"). The respective responsibilities for the execution of the contract in respect of each participant (including specialist subcontractors) are given on individually completed Application Forms 1.

7. The undersigned confirms that if the Applicant submits a bid, that bid, as well as any resulting contract, will be:
- (a) signed so as to legally bind all partners, jointly and severally;
  - (b) submitted with a joint venture agreement providing the joint and several liability of all partners in the event the contract is awarded to the Applicant.
8. The undersigned Applicant declares that the statements made and the information provided in the duly completed application are complete, true and correct in every detail, in full knowledge that the Applicant will be held liable, criminally and/or civilly, for any misrepresentation or false statement made.

Signed:

8. If Contractor is a Joint Venture :

a. Written Authority from the owner or governing board of Joint Venture by the person of the principal Contractor who made the application together with certified copy of the appointment/designation as the principal Contractor from the owner or governing board of Joint Venture, if Contractor is on Joint Venture (Annex 1-A).

b. Certified copy of Agreement & Articles of Joint Venture (Annex 10).

c. Certified copy of Memorandum of Agreement, in the absence of Joint Venture Agreement, if Applicant intends to form a Joint Venture in this Project (Annex 10-A).

d. Certified copy of application for Joint Venture License (Annexes 11, 12 & 13: where applicable).

e. Contractor - Members of Joint Venture :

<u>NAME</u>	<u>EXTENT OF PARTICIPATION</u>
_____	_____
_____	_____
_____	_____

9. Certified copy of the Contractor's Securities & Exchange Commission (SEC)
10. Current and Valid Registration Certificate, if applicable. (Annex 14)
11. Certified Copy of Certification of Current Valid VAT Registration (Annex 15)
12. Power of Attorney and/or Notarized Certificate for signatory. (Annex 2)
12. Litigation History (Annex 16)
13. In the case of a Foreign Contractor:
  - a. Certificate of Foreign Contractor from his Embassy or Consulate that he is a bonafide Contractor (Annex 6)
  - b. If any, extent of Filipino ownership of the assets of Contractor's organization: \_\_\_\_\_, percent (\_\_\_\_\_%).
14. A sworn statement that the Contractor has no relative either by consanguinity or affinity, within the fourth civil degree in DPWH who has something to do with prequalification, processing/approval of contract and/or project implementation, and that no official/employee of the Department, his/her spouse and unemancipated children have either direct or indirect financial or material interest in his construction firm (for Local Contractors). (Annex 24)

### C.1.1 ANNUAL TURNOVER (ALL CWs)

The Applicant is required to provide the information against the items shown below. The information supplied must be the annual turnover of the Applicant (or each partner of a joint venture) for the last five (5) years, in terms of the amounts billed to clients for each year for work in progress or completed, converted to United States dollars (US\$) at the rate of exchange at the end of the period reported.

Where the Applicant is a partner in a joint venture, a separate sheet is to be used for each partner.

Name of Applicant or Partner in a Joint Venture:

Annual Turnover Data <sup>5</sup>		
Year	Turnover	US\$ equivalent
1996		
1997		
1998		
1999		
2000		

<sup>4</sup> To be completed by the Applicant (a separate sheet being required for each joint venture partner). Specialist subcontractor's details are not to be included.

<sup>5</sup> The total value of annual turnover shall be for construction work (and/or equipment, goods and services similar to those to be used in this project) in terms of work billed to clients, in US\$ equivalent, converted at the rate of exchange at the end of the period reported.

JOINT VENTURE AGREEMENT

KNOW ALL MEN BY THESE PRESENTS:

These Agreement entered into by and between:

\_\_\_\_\_, a Company duly organized and existing under and by virtue of the laws of the Philippines, with principal office at \_\_\_\_\_, and represented in this act by its Owner and General Manager, \_\_\_\_\_;

- and -

\_\_\_\_\_, a Company duly organized and existing under and by virtue of the laws of the Philippines, with principal office at \_\_\_\_\_, and represented in this act by its Owner and General Manager, \_\_\_\_\_ hereinafter referred to as \_\_\_\_\_  
(Indicate name of the joint venture )

- WITNESSETH -

WHEREAS, the parties are both duly licensed Contractors by the Philippine Contractors Accreditation Board:

WHEREAS, the parties believed that they can maximize their chances of prequalifying for the construction of the \_\_\_\_\_ (Name of Project) and can satisfactory prosecute the Project should they be awarded a Contract by the Department of Public Works and Highways if they pool their financial, equipment and technical resources necessary for the above stated purpose under a joint venture agreement;

NOW, THEREFORE, and in consideration of the foregoing premise and the mutual covenants hereunder set forth, the parties have agreed to establish and constitute by and between themselves this Joint Venture Agreement for the exclusive purpose of prequalifying and participating in the aforesaid Project, and actually undertaking the construction thereof should a contract be successfully awarded, subject to the following terms and conditions;

1. For all intends and purposes, the Joint Venture entity established hereby is known as \_\_\_\_\_ Joint Venture;

2. We have nominated \_\_\_\_\_ (Name of the Lead Partner) as the Sponsor Firm of the Joint Venture for the purpose of this Bid.

3. \_\_\_\_\_ of \_\_\_\_\_ is hereby named, appointed, constituted as the sole representative for and in behalf of herein Joint Venture, and all Bids, Contracts and other documents whatsoever pertinent to the said Project shall be signed by him;

4. The Partner shall be jointly and severally liable for any and all obligations which the Joint Venture may incur in relation to the Contract which the said Joint Ventures may enter into with the Department of Public Works and Highways;

*(Indicate joint operation agreement indicating the work scope and responsibility of the respective member firms and proposed structure of the Joint Venture).*

5. The Parties hereby mutually bind each other to contribute to the Joint Ventures on an *(indicate the percentage share of each partner/member as shown below)*, all the necessary capital, equipment, technical personnel, management supervision, and other efforts and resources for the proper prosecution or implementation of the Project in the event that the Joint Venture is awarded the Contract for the said Project and further bind themselves at all times during the existing of the Joint Venture to extend to each other their respective fullest cooperation and best effort towards profitable construction of the Project in accordance with the approved Plans and Specifications to complete the same with approved work schedule;  
*(Indicate Approximate shares of member firms on the Entire Work:)*

Name of Member Firm	Percentage of Participation
_____	_____ %
_____	_____ %
_____	_____ %

6. It is hereby expressly agreed and understood that if the hereby Joint Venture fails to be prequalified or fails to be awarded the Contract, then this Agreement shall therefore cease, terminate and automatically become void and of no further effect or force whatsoever. In the event however that the Joint Venture is awarded the aforementioned contract, then this Agreement shall remain in full force and effects as of the date hereon until the final completion and acceptance of the Project by the Department of Public Works and Highways.

IN WITNESS WHEREOF, the parties hereto have their hand this \_\_\_\_\_ day of \_\_\_\_\_ at \_\_\_\_\_.

Sir:

Supplementing our Confidential Application Statement for Prequalification for the (Name of Project) I/we have the honor to submit herewith and to certify to be true and correct, the following pertinent information:

1. That I/we have engaged and contracted the services of Mr. \_\_\_\_\_, to be the (Designation) of the said Project, who is a Civil Engineer with Professional License Certificate No. \_\_\_\_\_ issued on \_\_\_\_\_ and who has performed the duties in the construction of the projects enumerated in Annex \_\_\_\_\_;
2. The said Engineer shall be appointed and designated by us as our (Designation) to personally perform the duties of the said position in the above-mentioned Project, if and when the same is awarded in our favor.
3. That said Engineer shall employ the best care, skill and ability in performing his duties in accordance with the Contract Agreement, Conditions of Contract, Plans, Specifications, Special Provisions, and other provisions embodied in the proposed Contract.
4. That said Engineer shall be personally present at the job site to supervise the phase of the construction work pertaining to his assignment as (Designation), all the time.
5. That, in order to guarantee that said Engineer shall perform his duties properly and be personally present in the Project, he is hereby required to secure a certificate of appearance for DPWH Engineer at the end of every month.
6. That, in the event that I/we elect or choose to replace said (Designation) with another Engineer, DPWH/PMO will be accordingly notified by us in writing at least twenty one (21) days before making the replacement. The name of the proposed new (Designation), his qualifications, experience, list of projects undertaken and other relevant information, shall be submitted to DPWH/PMO for prior approval.
7. That any willful violation on my part of the herein conditions may prejudice my/our standing as a reliable Contractor in future bidding of the Department of Public Works and Highways.

Very truly yours,

\_\_\_\_\_

_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

At present, I am supervising the following projects :

_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

<u>NAME OF PROJECT</u>	<u>OWNER</u>	<u>COST</u>	<u>DATE COMPLETED</u>
------------------------	--------------	-------------	-----------------------

In case of my separation for any reason whatsoever from the above-mentioned Contractor, I shall notify the Department of Public Works and Highways at least twenty-one (21) days before the effective date of my separation.

I have read carefully and will abide by the conditions required of me in the Letter (Form 1) of the Contractor's Confidential Application Statement for Prequalification of the above Contractor.

As (Designation), I know I will have to stay in the Project all the time to supervise and manage the Project to the best of my ability, and am ware that I am authorized to handle only one (1) project at a time.

I do not allow the use of my name for the purpose of enabling the above-mentioned Contractor to qualify for the Project without any firm commitment on my part to assume the post of (Designation) therefore if the Project is awarded to him since I understand that to do so will be a sufficient ground for my disqualification as (Designation) and any future DPWH bidding or employment with any Contractor doing business with the Department of Public Works and Highways.

**PART III**

**APPENDICES**

**DEPARTMENT ORDER NO. 80  
SERIES OF 1990**

**Subject : INCLUSION OF THE MINIMUM MATERIALS TESTING  
EQUIPMENT IN THE PREQUALIFICATION OF CONTRACTORS**

---

In consonance with PD 1594 and its Implementing Rules and Regulations as Amended 13 April 1988, relative to the prequalification of contractors, and Supplementary to Department Order No. 36, series of 1987, regarding minimum equipment requirements, henceforth, the evaluation of the contractor's technical capability and financial capacity by the Prequalification, Bids and Awards Committee shall include the minimum materials testing equipment to effectively ensure the incorporation of the right quality of materials in the projects.

This minimum materials testing equipment requirements shall be on a "per contractor" basis, and not on a "per project" basis, i.e., the equipment may be used to service several on-going projects of the contractors.

Annexes 1, 2 and 3 present the list of the Minimum Materials Testing Equipment for Small, Medium and Large Contractors, respectively, as categorized under Department Order No. 41, Series of 1987, which will form part of the evaluation of the Contractor's capability.

As such, the list of major materials testing equipment in running condition owned by the Contractor, supported with proofs of ownership, shall be added under Item 2 (Equipment) of the Technical Aspects, as indicated in the prescribed format for the Contractor's Confidential Prequalification Statement (Phase I).

This order shall take effect immediately.

**(SGD.) FIORELLO R. ESTUAR**  
Secretary

6	1 pc	-do- 19.0 mm (3/4")
7	1 pc	-do- 12.5 mm (1/2")
8	1 pc	-do- 9.5 mm (3/8")
9	1 pc	-do- 4.75 mm (No. 4)
10	1 pc	-do- 2.36 mm (No. 8)
11	1 pc	-do- 2.00 mm (No. 10)
12	1 pc	-do- 1.18 mm (No. 16)
13	1 pc	-do- 0.600 mm (No. 30)
14	1 pc	-do- 0.425 mm (No. 40)
15	1 pc	-do- 0.300 mm (No. 50)
16	1 pc	-do- 0.150 mm (No. 100)
17	1 pc	-do- 0.075 mm (No. 200)
18	1 pc	Pan, brass, 200 mm dia. x 50 mm deep
19	1 pc	Cover, brass, sieve
20	1 pc	Brush fine sieve
21	1 pc	Brush, wire sieve
22	1 pc	Balance, Heavy duty solution 20 kg. cap., 1 g. sensitivity
23	1 pc	Mortar, soil, porcelain, 125 mm dia.
24	1 pc	Pestle, soil, rubber tip
25	1 set	Liquid Limit Test Set, consisting of: 1 - Liquid Limit Device 1 - Mixing dish 1 - Spatula, flexible 1 - Graduated Cylinder, glass 100 ml 12 - Moisture Content can, 60 ml, tin
26	1 pc	Plate, Plastic Limit
27	1 unit	Balance, Triple Beam, 311 g. cap., 0.01 g sensitivity
28	1 unit	Balance, Triple Beam, 2610 g. cap., 0.01 g sensitivity

<u>ITEM NO.</u>	<u>QUANTITY</u>	<u>DESCRIPTION</u>
29	1 pc	Hammer, Modified Compaction
30	1 pc	Mold, Compaction, 101.6 mm diameter x 116.4 mm height
31	12 pcs	Moisture Content can, 225 ml, tin
32	1 pc	Concrete Measure, 0.014 cu. m. cap. (1/2 cu. ft.)
33	1 pc	Straight Edge, Steel 300 mm long
34	1 set	CBR Apparatus complete with accessories (Mechanical)
35	1 pc	Volumetric flask 500 ml cap. with stopper
36	1 set	Sand Absorption Cone and Tamper
37	1 set	Specific Gravity Test Set or Coarse Aggregate, consisting of: 1 - Semi-automatic precision balance 5 kg cap, 0.1 g sensitivity 1 - Wire basket
38	1 unit	Los Angeles Abrasion Machine complete with abrasive steel and #12 sieve
39	1 set	Field Density Test Set, consisting of: 1 - Sand Density Cone 1 - Jug, Glass or Plastic, 4 L capacity 1 - Density Plate 1 - Straightedge 1 - Spoon 1 - 25 mm Chisel, Steel 1 - 4 L Field Can 1 - Mallet, rubber 1 - Scoop, sand
40	1 set	Auger, Post Hole, with - m extension
41	1 pc	Cylinder, glass, double graduated, 500 ml cap.
42	3 pcs	Bowl, mixing, 250 mm dia. x 90 mm high
43	3 pcs	Pan, square, G.I. 600 mm x 600 mm x 75 mm
44	1 pc	Spade or Shovel
45	1 pc	Pickaxe
46	1 pc	Crowbar
47	1 unit	Oven, field, with temperature control
48	1 unit	Portable concrete mixer
49	1 set	Slump Test Set, consisting of: 1 - Slump Cone, complete with base and tamping rod 1 - Trowel, triangular or rectangular blade 90 mm x 180 mm 1 - Scale
50	12 pcs	Mold, Steel, cylinder, 150 mm x 300 mm
51	12 pcs	Mold, Steel, Beam, 150 mm x 150 mm x 500 mm

<u>ITEM NO.</u>	<u>QUANTITY</u>	<u>DESCRIPTION</u>
52	1 unit	Compression Machine, portable
53	1 unit	Concrete Beam Tester, Flexural Machine
54	1 set	Vertical Capping set, consisting of: 1 - Vertical Cylinder capper with capping plate, 150 mm dia. 1 - Capping compound warmer pot, 4-L cap. 1 - Capping ladle 1 - Carton capping compound
55	1 unit	Concrete Core Drilling Machine complete with accessories
56	1 pc	Thermometer, Metal, dial type, 0-250 C
57	1 unit	Extractor, Centrifuge or Reflux, 1500 g cap.
58	8-L	Carbon Tetrachloride
59	1 unit	Marshall Stability Apparatus complete with accessories

REPUBLIC OF THE PHILIPPINES  
DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS  
OFFICE OF THE SECRETARY  
MANILA

PADAP-IBID  
Manila  
**RECEIVED**  
Date: 10/8/93.14

September 30, 1993

DEPARTMENT ORDER )  
NO. 176 <sup>712</sup>  
SERIES OF 1993 9/30

SUBJECT: AUTHORITY OF BIDDERS  
REPRESENTATIVES IN PUBLIC  
BIDDING

To preserve, protect and enhance the integrity of all processes relative to the conduct of biddings, simplified or public, all bidders should provide their representatives with proper authority on matters pertaining to submission/withdrawal of bids, attendance in pre-bid conferences, and opening and reading of bids.

To ensure compliance herewith, this requirement shall be incorporated in the instructions to Bidders and in other bid documents.

For strict compliance.

  
GREGORIO R. VIGILANTE  
Secretary
