

## Glossary of Terms

Terms	Meaning
<i>Acquis Communautaire</i> or <i>Acquis</i>	The 'Body of Law' of the European Union covering all legislation prepared and adopted by EU institutions.
ADR	European Agreement for international transport of hazardous substances (Accord Européen Relatif au Transport International des Marchandises Dangereuses par Route)
BAT	Best Available Techniques
BATNEEC	Best Available Techniques Not Entailing Excessive Cost
BG	Bulgaria
CAP	Common Agricultural Policy
CAS	Country Assistance Strategy
CBC	Cross-border Co-operation
CEE	Central and Eastern European countries
CEFIC	European Chemical Industry Council
CNS	Central Nervous System
CP	Cleaner Production
CPC	Clean Production Centre
DALY	Disability-Adjusted Life Year
DDBRA	Danube Delta Biodiversity Reserve Authority or
DfID	Department for International Development
DISAE	Development of Implementation Strategies for Approximation in Environment
EBRD	European Bank for Reconstruction and Development
EDC	Ethylene Dichloride
EEC	European Economic Communities
EIA	Environmental impact assessment
EIB	European Investment Bank
EIS	Environmental impact statement
EIU	Economist Intelligence Unit
EMAS	Eco-management and Audit Scheme
EPI	Environmental Protection Inspectorate
EPR	Environmental Performance Report Ref: 28.
EQS	Environment Quality Standard
ERM	Environmental Resources Management
EWC	European Waste Catalogue
EU	The European Union
FEPACHIM	Federation of Chemical and Petro-Chemical Industry
GD	Government Decision
GEF	Global Environment Fund
GEO	Government Emergency Ordinance
GMP	Genetically modified products
GO	Government Ordinance
HCl	Hydrogen Chloride
HU	Hungary
HW	Hazardous Waste
HWL	Hazardous Waste List
ICIM	National Institute for Environment Protection
IFI	International Financing Institution
IHW	Industrial Hazardous Waste
IMF	International Monetary Fund
IPH	Institute of Public Health
IPPC	Integrated Pollution Prevention Control
ISPA	EU Instrument for Structural Policies for Pre-Accession (See Section 11.2.4)
ISWA	International Solid Waste Association
IWL	Integrated Waste List

<b>Terms</b>	<b>Meaning</b>
JBIC	Japan Bank for Internatinal Cooperation
JICA	Japan International Cooperation Agency
LCP	Large Combustion Plants
LEAP	Local Environmental Action Plans
LEPI	Local Environmental Protection Inspectorate
Meuro	Million euro
MoAFF	Ministry of Agriculture, Food and Forests
MHF or MoHF	Ministry of Health and Family
MIR	Ministry of Industry and Resources
MITI	Ministry of International Trade and Industry
MO	Ministerial Order
MP	Member of Parliament
MSW	Municipal Solid Waste
MWEP or MoWEP	Ministry of Water and Environmental Protection
MWFEP	Ministry of Water, Forestry and Environmental Protection (former name of MWEP)
NACE	Statistical Classification of Economic Activities in the Eiropean Community
NAHCS	National Agency of Hazardous Chemicals and Substances
NCMR	Natinal Commission for Material Recycling
NCPC	National Cleaner Production Centre
NEAP	National Environmental Action Plan
NEG	National Envuronnemental Guard
NEHAP	National Environmental Health Action Plan
NES	National Environmental Strategy
NIS	National Institute of Statistics
NPAA	National Programme for the Adoption of the Acquis
N/A	Not Applicable
OECD	Organization for Economic Cooperation and Development
OPRA	Operator Performance and Risk Appraisal
PCB	Polychlorinated biphenyls
PCT	Polychlorinated triphenyls
PCV	Polyvinyl Chloride
PEPA	Priority Environmental Projects for Accession
PHARE	EU programme for Polish-Hungarian Assistance for Restructuring, now extended to other Central and Eastern European countries (Section 11.2.1).
PPC	Project Preparation Committee or Pollution Prevention Centre
REAP	Regional Environmental Action Plan
REMAT	Reciclarea Materiale
RCCR	Responsible Care Council of Romania (to be established in future)
REC	Regional Environment Centre
REReP	Regional Environmental Reconstruction Programme for SEE countries.
RO or ROM	Romania
ROL	Romanian Lei (for exchange rate, see USD).
SA	Society by Actions (a type of legal entity in Romania)
SAPARD	EU Special Accession Programme for Agriculture and Rural Development (See Section 11.2.5)
SOF	The State Ownership Fund now called APAPS.
SoS	Secretary of State
SO <sub>2</sub>	Sulphur Dioxide
SR	Romanian Standards
SRL	A Romanian registered company
ToR	Terms of Reference
UNDP	United Nations Development Programme
UNIDO	United Nations Industrial Development Organization
USAID	US International Aid Agency
USD	US Dollar. 1 USD = 30930.0 Romanian Lei (source: Financial Times, 24/10/2001).

---

<b>Terms</b>	<b>Meaning</b>
VCM	Vinyl Chloride Monomer
WB	The World Bank
WEC	World Environment Centre
WFD	Waste Framework Directive
WMIS	Wast Management Information System
WWTP	Waste Water Treatment Plant

## **Final Reports**

Volume 1	Main Report: Strategy and Action Plan for Hazardous Waste Management in Romania
Volume 2	Supporting Report 1: Supporting Information for the Strategy and Action Plan
Volume 3	Supporting Report 2: Results of Surveys Conducted
Volume 4	Supporting Report 3: Results of Pilot Projects Implemented
Volume 5	Summary
Volume 6	Pilot Project 1 Promotion of Heavy Metal Recycling Using Existing Smelting Facility
Volume 7	Pilot Project 2 Waste Minimization and Treatment in Metal Surface Treatment Process
Volume 8A	Pilot Project 3A Organic Solvent Reduction
Volume 8B	Pilot Project 3B Responsible Care
Volume 9	Pilot Project 4 Strengthening EPI and Company Capacity in Hazardous Waste Management

**Volume 1**  
**Main Report: Strategy and Action Plan**  
**for Hazardous Waste Management in Romania**

**Table of Contents**

<b>Executive Summary .....</b>	<b>Executive Summary-1</b>
Part 1 Outline of the Study.....	Executive Summary -1
Part 2 Summary of Proposed Principles, Strategy and Action Plan for Hazardous Waste Management in Romania .....	Executive Summary -3
Part 3 Pilot Projects.....	Executive Summary -12
<b>1. Hazardous Waste – Characteristics, Principles, Management, Definition.....</b>	<b>1-1</b>
1.1 Hazardous Waste Characteristics – What is hazardous waste?.....	1-1
1.2 Proposed Principles.....	1-2
1.3 What Is Hazardous Waste Management?.....	1-8
1.4 Hazardous Waste Within the Scope of This JICA Study Project.....	1-13
<b>2. Hazardous Waste Quantities .....</b>	<b>2-1</b>
2.1 Estimated Hazardous Waste Generation Quantity .....	2-1
2.2 Method of Estimation of Hazardous Waste Generation Quantity.....	2-8
2.3 Needs for Improvement of Waste Quantity Data Quality .....	2-13
2.4 Latest Available Data .....	2-14
<b>3. Waste Prevention and Recycling .....</b>	<b>3-1</b>
3.1 Current Conditions.....	3-1
3.2 Hazardous Waste Management Hierarchy and Benefit .....	3-3
3.3 Objectives .....	3-4
3.4 Strategy .....	3-4
<b>4. Collection and Transportation of Hazardous Waste .....</b>	<b>4-1</b>
4.1 Current Conditions.....	4-1
4.2 Issues.....	4-4
4.3 Objectives and Targets .....	4-6
4.4 Strategy .....	4-7
<b>5. Treatment and Disposal of Hazardous Waste .....</b>	<b>5-1</b>
5.1 Current Conditions.....	5-1
5.2 Issues.....	5-1
5.3 Identification and Assessment of Existing Facilities .....	5-4
5.4 Objectives and Targets .....	5-11
5.5 Strategy .....	5-12
5.6 Management Methods for Common Hazardous Wastes.....	5-25

<b>6. Management of Contaminated Sites .....</b>	<b>6-1</b>
6.1 Current Conditions.....	6-1
6.2 Issues.....	6-3
6.3 Objectives and Targets .....	6-5
6.4 Strategy .....	6-6
<b>7. Administrative, Legislative and Institutional Aspects.....</b>	<b>7-1</b>
7.1 Strategic Planning and Implementation .....	7-1
7.2 Legislation and EU Harmonization .....	7-4
7.3 Administration and Capacity Building .....	7-6
7.4 Initial Recommendations for Strategy for Strengthening the Government Administration .....	7-17
<b>8. Economic Aspects .....</b>	<b>8-1</b>
8.1 Economic Instruments and Financing.....	8-1
8.2 Valuation and Priorities.....	8-8
8.3 General Relevance of Economic Analysis.....	8-11
<b>9. Summary of Strategy, and Action Plan .....</b>	<b>9-1</b>
9.1 Drivers (EU Principles, Strategy & Legislation) .....	9-1
9.2 Strategic Objectives and Measures .....	9-3
9.3 Summary List of Actions .....	9-14
9.4 Outline of Each Action.....	9-22
<b>Annex .....</b>	<b>Annex-1</b>
1. Relevant Japanese Experience in Hazardous Waste Management .....	Annex-1
2. Relevant EU/UK Experience in Hazardous Waste Management .....	Annex-41
3. List of Reference Documents, Reports and Books in Connection with Hazardous Waste Management.....	Annex-63

## List of Tables

Table 2.1.1	Estimated Hazardous Waste Generation Quantity in Romania by Waste Category in 2002.....	2-1
Table 2.1.2	Estimated Hazardous Waste Generation Quantity in Romania by Region in 2002 .....	2-2
Table 2.1.3	Estimated Hazardous Waste Generation Quantity in Romania by Waste Category and Region in 2002 .....	2-3
Table 2.1.4	Estimated Hazardous Waste Generation Quantity in Romania by County in 2002 .....	2-4
Table 2.1.5	Estimated Hazardous Waste Generation Quantity in Romania by Waste Category and by County in 2002 .....	2-5
Table 2.1.6	Industries Generating Hazardous Waste .....	2-6
Table 2.2.1	Result of 600 Factories Questionnaire Survey for Hazardous Waste Generation .....	2-10
Table 2.2.2	Result of 80 Factories Visiting Survey for Hazardous Waste Generation .....	2-12
Table 2.4.1	Principal Types of Hazardous Wastes Generated in 2002 .....	2-16
Table 3.1.1	Numbers of Recyclers by Category .....	3-2
Table 3.4.1	Policy Instruments for HW Prevention and Recycling.....	3-6
Table 3.4.2	Strategy for HW Prevention and Recycling for Three Industrial Sectors .....	3-7
Table 3.4.3	Measures for Encouragement of Cleaner Production .....	3-8
Table 3.4.4	Checklist for HW Audits.....	3-9
Table 3.4.5	Applicable HW Treated and Recycled in Cement Kilns .....	3-11
Table 3.4.6	Situation of Primary Non-Ferrous Metal Smelters .....	3-13
Table 3.4.7	Recommendation of 3 R in the Non-Ferrous Metal Smelters.....	3-15
Table 3.4.8	Electric Arc Furnace Dust Analysis in Japan.....	3-18
Table 5.2.1	Key Principles and Policies in Romania.....	5-2
Table 5.3.1	Incinerators on Industrial Enterprises Own Sites in Romania.....	5-6
Table 5.3.2	Merchant Incinerators Currently Existing in Romania.....	5-9
Table 5.3.3	Hazardous Waste Treatment Methods in 2002 .....	5-10
Table 5.3.4	Industrial Landfills by Categories.....	5-11
Table 5.3.5	Landfills by Hazard Categories .....	5-11
Table 5.5.1	Principally Inorganic Wastes by Region .....	5-17
Table 6.4.1	List of Strategic Recommendations .....	6-7
Table 7.1.1	Indicators for Hazardous Waste Management for Year 200x .....	7-2
Table 7.3.1	Data Needs of Stakeholders .....	7-10
Table 7.4.1	Recommended Measures (Actions, Procedures, Steps) for Strengthening Government Administration .....	7-18
Table 9.2.1	Objectives and Measures of Hazardous Waste Management .....	9-4
Table 9.2.2	Objectives and Measures for Management of Certain Hazardous Waste.....	9-10
Table 9.3.1	Actions Required for Achieving the Objectives of the Strategy for Hazardous Waste Management in Romania .....	9-14
<b>Annexes</b>		
Table 1.2.1	Chemical Composition of Ordinary Portland Cement.....	Annex-17
Table 1.2.2	Amount of Waste and By-Product Recycled and Treated in the Cement Industry in Japan.....	Annex-17

Table 1.2.3	Example of Acceptance Criteria of a Cement Company .....	Annex-18
Table 1.3.1	Various Indices Showing the Threshold Value for Onset of Symptoms in Human Body .....	Annex-30
Table 1.3.2	Effluent Standard for Mercury Based Upon the Water Pollution Control Law.....	Annex-30
Table 1.3.3	Comparison of the Payment of Compensation Under Compensation .....	Annex-35
Table 1.3.4	Comparison of the Cost of Damage Created by Minamata Disease in the Area Around Minamata Bay to the Cost of Pollution and Control Measure .....	Annex-38
Table 2.2.1	Approaches to Infrastructure Development.....	Annex-45
Table 2.2.2	Elements of National Regulation and Control Systems.....	Annex-47
Table 2.2.3	Controls on Waste Generators.....	Annex-49
Table 2.2.4	Characteristics of National Manifest Systems .....	Annex-55
Table 2.2.5	Controls over Waste Treatment and Disposal .....	Annex-57
Table 2.3.1	UK EA Prosecutions and Fines for Pollution and Waste Offences (2001/02) .....	Annex-59

## List of Figures

Figure 1.1.1	Concept of Hazardous Waste .....	1-1
Figure 1.3.1	Example of a Step-by-Step Approach to Hazardous Waste Management.....	1-9
Figure 1.3.2	Components of a Waste Management System Bound by Economics.....	1-10
Figure 3.2.1	Waste Prevention.....	3-3
Figure 3.4.1	Distribution of Cement Plants, Oil Refineries and Non-Ferrous Metal Smelters.....	3-12
Figure 3.4.2	Reverse Logistics of Electroplating Sludge.....	3-17
Figure 5.2.1	Proximity Hierarchy.....	5-2
Figure 5.2.2	Schematic of Industrial Waste Management.....	5-3
Figure 5.3.1	Sotem Organic Waste Blending Facility .....	5-7
Figure 5.3.2	Blended Waste Feed System at Cement Kiln.....	5-8
Figure 5.5.1	Oily Waste Generation .....	5-20
Figure 5.5.2	Non-Halogenated Waste Generation.....	5-20
Figure 5.5.3	Halogenated Waste Generation .....	5-21
Figure 5.5.4	PCB Wastes.....	5-22
Figure 5.6.1	Treatment Methods for Common Waste Types.....	5-30

### Annexes

Figure 1.2.1	From “One-Way Consumption” to “Recycling-Based” Society.....	Annex-11
Figure 1.2.2	Legal Framework Toward Establishment of “Recycling-Based” Society.....	Annex-12
Figure 1.2.3	Outline of Law for Promotion of Effective Utilization of Resources.....	Annex-15
Figure 1.2.4	Overall Frame by the Law for Promotion of Effective Utilization of Resources .....	Annex-16
Figure 1.2.5	Development of Integrated Recycling-Based Society Concept.....	Annex-21

Figure 1.2.6 Recycling Rate for Waste Lead Acid Batteries in Japan.....	Annex-23
Figure 1.2.7 Introduction of New Collection System for Waste Lead Acid Batteries .....	Annex-25
Figure 1.3.1 Map of the Areas With Outbreak of Minamata Disease .....	Annex-26
Figure 1.3.2 Scheme of How the Methylmercury Compound is Transmitted from the Acetaldehyde Manufacturing Process to the Human Body .....	Annex-28
Figure 1.3.3 Distribution of Occurence of Certified Patients [31/Mar/2001] .....	Annex-29
Figure 1.3.4 Dredging of Minamata Bay .....	Annex-31
Figure 1.3.5 Transition in Pollution Level of Fishes.....	Annex-32
Figure 1.3.6 Diagram of the Minamata Disease Certification System.....	Annex-33
Figure 1.3.7 Transition in the Number of Certification.....	Annex-34
Figure 2.2.1 The Infrastructure Dilemma.....	Annex-43
