

SECTOR H

***RIVER CONDITIONS,
FLOODING AND
INUNDATION***

**THE STUDY ON COMPREHENSIVE WATER MANAGEMENT
OF MUSI RIVER BASIN IN THE REPUBLIC OF INDONESIA**

FINAL REPORT

SECTOR H

RIVER CONDITIONS, FLOODING AND INUNDATION

TABLE OF CONTENTS

1.	RIVER CONDITIONS	H-1
1.1	Musi River Basin	H-1
1.2	River Channels	H-3
1.3	Existing Problems	H-6
2.	RIVER FLOODING	H-9
2.1	Flood Disasters	H-9
2.2	Previous Studies and Works	H-10
2.3	Flood Control Budget	H-14
2.4	Issues of Flooding	H-14
3.	INUNDATION OF LOCAL RAINFALL.....	H-16
3.1	Inundation Conditions of Palembang	H-16
3.2	Drainage Systems of Palembang	H-17
3.3	Causes of Inundation	H-19
3.4	Issues of Inundation	H-22
4.	EROSION, SEDIMENTATION AND DROUGHT	H-23
4.1	Erosion Rate	H-23
4.2	Sedimentation Problems	H-23
4.3	Drought	H-24
5.	ISSUES AND MASTER PLAN SKELTONS.....	H-26
5.1	Principles for Formulation of Master Plan	H-26
5.2	Components Related to Flood and Inundation	H-26
6.	SECTORIAL MASTER PLAN	H-28
6.1	Floodplain Management	H-28
6.1.1	Objectives of the Plan	H-28

6.1.2	Zoning and Land Use Control.....	H-29
6.1.3	Flood Forecasting and Warning	H-35
6.1.4	Sustainable River Channel Management	H-37
6.2	Urban Water Environment Improvement	H-39
6.2.1	Objectives.....	H-39
6.2.2	Community Drainage Management Program	H-40
6.2.3	Riverine Areas Conservation Program.....	H-42
6.2.4	Trunk Drainage Channels Rehabilitation Program	H-45
6.2.5	Drainage System Improvement Program	H-46
7.	SELECTION OF PRIORITY PROGRAMS	H-58
7.1	Criteria for Selection of Priority Programs	H-58
7.2	Priority Programs of Floodplain Management.....	H-58
7.3	Priority Programs of Urban Water Environment Improvement.....	H-59
8.	IMPLEMENTATION, COST ESTIMATES AND PROJECT EVALUATION.....	H-61
8.1	Implementation Schedule.....	H-61
8.1.1	Land Use and Zoning Program	H-61
8.1.2	Community Drainage Management Program	H-61
8.1.3	Trunk Drainage Channel Rehabilitation Program.....	H-61
8.2	Cost Estimates.....	H-62
8.2.1	Land Use and Zoning Program	H-62
8.2.2	Community Drainage Management Program	H-62
8.2.3	Trunk Drainage Channel Rehabilitation Program.....	H-62
8.3	Project Evaluation	H-63
8.3.1	Land Use and Zoning Program	H-63
8.3.2	Community Drainage Management Program	H-64
8.3.3	Trunk Drainage Channel Rehabilitation Program.....	H-66

LIST OF TABLES

Table H1.1.1	Drainage Areas at Major Points of the Musi River	H-2
Table H1.2.1	Stretch of Riverbed Lower Than 25 m, M.S.L.....	H-5
Table H3.2.1	Dimension of Major Drainage Channels	H-18
Table H3.2.2	Dimensions of Detention Ponds	H-18
Table H3.3.1	Probable Storm Runoff of Each Drainage System.....	H-21
Table H6.1.1	Floodplain Areas by River Basin.....	H-31
Table H6.1.2	Land Use of Identified Floodplains	H-32
Table H6.1.3	Possible Location for Flood Forecasting and Warning System .	H-36
Table H6.1.4	Cost of Flood Forecasting and Warning System.....	H-37
Table H6.1.5	Bank Protection Works Identified for the Future Implementation.....	H-38
Table H6.1.6	Cost of Sustainable Channel Management Program	H-39
Table H6.2.1	Proposed Team Organization	H-43
Table H6.2.2	Cost of Riverine Areas Conservation Program	H-45
Table H6.2.3	Present Capacity of Major Drainage Channels.....	H-46
Table H6.2.4	Excess Volume and Applicable Measures.....	H-47
Table H6.2.5	Comparison of Works for Alternative-1 and 2.....	H-51
Table H6.2.6	Comparison of Works for Alternative-1, 2 and 3.....	H-55
Table H6.2.7	Cost of Drainage System Improvement Program.....	H-56
Table H6.2.8	Economic Analysis of Drainage System Improvement Program	H-57
Table H7.1.1	Priority of Floodplain Management	H-59
Table H7.2.1	Priority of Urban Water Environment Improvement	H-60
Table H8.2.1	Cost of Land Use and Zoning Program	H-62
Table H8.2.2	Cost of Community Drainage Management Program	H-62
Table H8.2.3	Cost of Trunk Drainage Channel Rehabilitation Program	H-63

LIST OF FIGURES

Figure H1.1.1	Musi River Basin	H-1
Figure H1.1.2	Contour Map of the Musi River Basin.....	H-3
Figure H1.2.1	Longitudinal Profile of Major Rivers in the Musi River Basin ..	H-4
Figure H1.2.2	Longitudinal Profiles below 200m, M.S.L.	H-4
Figure H3.3.1	Water Level of the Musi River at Palembang.....	H-22
Figure H6.1.1	Identified Floodplain Areas	H-31
Figure H6.1.2	Discharge Duration Curve of Tebing Abang	H-33
Figure H6.1.3	Discharge Duration Curve (One Sided Log) of Tebing Abang ..	H-33
Figure H6.1.4	Discharge Duration Curve with Channel Improvement (No Inundation).....	H-34
Figure H6.1.5	Illustrated Flood Forecasting and Warning System.....	H-36
Figure H6.1.6	Implementation Schedule of Flood Forecasting and Warning System.....	H-37
Figure H6.1.7	Implementation Schedule of Sustainable Channel Management Program.....	H-39
Figure H6.2.1	Causes and Effects of the Urban Water Environment Problem..	H-40
Figure H6.2.2	Implementation Schedule of Riverine Areas Conservation Program.....	H-44
Figure H6.2.3	Design Discharge Distribution of Bendung Channel.....	H-49
Figure H6.2.4	Proposed Profile for Alternative-1	H-50
Figure H6.2.5	Proposed Profile for Alternative-2.....	H-50
Figure H6.2.6	Design Discharge Distribution of Buah Channel.....	H-51
Figure H6.2.7	Proposed Profile for Alternative-1	H-52
Figure H6.2.8	Proposed Profile for Alternative-2.....	H-53
Figure H6.2.9	Proposed Profile for Alternative-3.....	H-54
Figure H6.2.10	Implementation Schedule of Drainage System Improvement Program.....	H-56
Figure H8.1.1	Implementation Schedule of Land Use and Zoning Program.....	H-61
Figure H8.1.2	Implementation Schedule of Community Drainage Management Program.....	H-61
Figure H8.1.3	Implementation Schedule of Trunk Drainage Channel Rehabilitation Program.....	H-61

LIST OF PHOTOS

Photo H1.2.1	Bank Erosion at Concave of River	H-8
Photo H1.2.2	Bank Erosion at River Side Village.....	H-8
Photo H2.2.1	Typical Gabion Jetty.....	H-12
Photo H2.2.2	Bamboo Net Jetty	H-13
Photo H2.2.3	Stilt House	H-14
Photo H3.1.1	Typical Inundation of Palembang	H-17
Photo H4.2.1	Sedimentation of the Komering River.....	H-24
Photo H4.3.1	Dredged Channel.....	H-25
Photo H6.1.1	Komering River Downstream.....	H-28
Photo H6.2.1	Stilt House with Approach Road.....	H-43

LIST OF ANNEXES

Annex H3.2.1	Drainage System.....	HA-1
Annex H6.2.1	Drainage System-6	HA-2
Annex H6.2.2	Planned Drainage System-6.....	HA-3
Annex H6.2.3	Drainage System-8	HA-4
Annex H6.2.4	Planned Drainage System-8.....	HA-5
Annex H6.2.5	Economic and Financial Analysis of Drainage Improvement Project in Palembang	HA-6
Annex H6.2.6	Examples of Projects of Floodplain Management.....	HA-33
