

SECTOR I

WATER USE

**THE STUDY ON COMPREHENSIVE WATER MANAGEMENT
OF MUSI RIVER BASIN IN THE REPUBLIC OF INDONESIA**

DRAFT FINAL REPORT

SECTOR I

WATER USE

TABLE OF CONTENTS

1.	WATER USE CONDITIONS	I-1
1.1	Questionnaire Survey.....	I-1
1.2	Water Right.....	I-1
1.3	Estimation of Present Consumptive Water Use.....	I-1
1.3.1	Domestic	I-1
1.3.2	Industrial	I-3
1.3.3	Mining.....	I-5
1.3.4	Irrigation	I-6
1.3.5	Swamp Area.....	I-10
1.3.6	Aquaculture.....	I-15
1.3.7	Tourism	I-17
1.3.8	Livestock.....	I-19
1.3.9	Hydropower	I-20
1.3.10	Basin Total	I-23
1.4	Present Water Balance	I-23
1.4.1	Water Balance Model	I-23
1.4.2	Water Use of Sub-Basin.....	I-25
1.4.3	Conditions of Present Water Balance	I-25
1.4.4	Results of Present Water Balance	I-25
1.5	Projections of Consumptive Water Uses	I-26
1.5.1	Domestic Use	I-26
1.5.2	Industrial Use	I-27
1.5.3	Mining Water Use.....	I-28
1.5.4	Aquaculture Use.....	I-29
1.5.5	Hydropower Use	I-29
1.5.6	Summary of Projected Water Use.....	I-31

2.	POTENTIAL NATURAL RESOURCES	I-32
2.1	Land Potential	I-32
2.1.1	Potential Irrigation Area.....	I-32
2.1.2	Potential Swamp Area.....	I-32
2.2	Surface Water Potential	I-33
2.2.1	Generated River Discharges.....	I-33
2.2.2	River Maintenance Flow	I-33
3.	EXISTING PLANS AND STRATEGIES	I-34
3.1	Propenas 2000-2004.....	I-34
3.1.1	Related Policy Directions.....	I-34
3.1.2	Development Programs for Agriculture, Food and Irrigation.....	I-34
3.1.3	Programs for Making Available of Facilities and Infrastructure for Supporting Economic Development.....	I-35
3.1.4	Program for Developing and Managing Water Resources.....	I-35
3.2	Strategic Planning of Water Resources Development, Water Resources Service of South Sumatra Province 2001-2004, Revised April 2002.....	I-36
3.2.1	Problems in Development of Water Resources Facilities and Infrastructure	I-36
3.2.2	Goals of Water Resources Development	I-36
3.2.3	Targets of Water Resources Development.....	I-37
3.2.4	Policy Directions	I-37
3.2.5	Development Strategies.....	I-37
3.2.6	Development Efforts	I-38
3.2.7	Development Programs	I-38
3.3	Relevant Development Plans and Projects.....	I-39
3.3.1	Water Supply Development	I-39
3.3.2	Irrigation Development	I-39
3.3.3	Swamp Development	I-43
3.3.4	Tourism Development.....	I-47
3.3.5	Hydropower Development	I-47
4.	IRRIGATION AND SWAMP DEVELOPMENT POTENTIAL.....	I-50
4.1	Evaluation of Major On-going and In-coming Projects.....	I-50
4.1.1	Komering Irrigation Project	I-50
4.1.2	Lakitan Irrigation Project	I-51
4.1.3	Temedak Irrigation Project.....	I-51
4.2	Potential Irrigation and Swamp Area.....	I-52
4.2.1	Expectation of Potential Irrigation and Swamp Area.....	I-52
4.2.2	Potential Irrigation and Swamp Development and Rice Self-Reliance	I-54

5.	WATER USE MANAGEMENT.....	I-57
5.1	Overview.....	I-57
5.2	Identified Issues of Water Use Management.....	I-57
5.3	Goals and Strategies of Water Use Management	I-58
	5.3.1 Goals of Water Use Management	I-58
	5.3.2 Strategies of Water Use Management.....	I-59
5.4	Formulation of Programs for Water Use Management	I-61
	5.4.1 Program 1-1 : Sustainable Water Supply to Wide Area	I-61
	5.4.2 Program 1-2 : Sustainable Irrigation and Swamp Development ..	I-65
	5.4.3 Program 1-3 : Rainwater Utilization in Tidal Swamp Area	I-72
	5.4.4 Program 1-4 : Aquaculture Water Management.....	I-76
	5.4.5 Program 1-5 : Enhancing Water Utilization for Tourism	I-78
	5.4.6 Program 1-6 : Modeling of Water Use Management.....	I-80
5.5	Selection of Priority Programs.....	I-85
	5.5.1 Selection Criteria	I-85
	5.5.2 Selection of Priority Programs.....	I-86
5.6	Cost Flow and Evaluation of Priority Programs.....	I-95
	5.6.1 Program 1-2 : Sustainable Irrigation and Swamp Development ..	I-95
	5.6.2 Program 1-3 : Rainwater Utilization in Tidal Swamp Area	I-96
	5.6.3 Program 1-4 : Aquaculture Water Management.....	I-97
	5.6.4 Program 1-6 : Modeling of Water Use Management.....	I-98
	References	I-100

LIST OF TABLES

Table I1.1.1	Local Governments Covered by Questionnaire Survey.....	I-1
Table I1.3.1	Present per Capita Daily Use	I-2
Table I1.3.2	Present Domestic Water Use.....	I-3
Table I1.3.3	Small Scale Industries in South Sumatra Province.....	I-3
Table I1.3.4	Large and Medium Manufacturing by Industrial Code, 2000	I-4
Table I1.3.5	Present Industrial Water Use.....	I-5
Table I1.3.6	Mineral and Quarrying Production in South Sumatra Province .	I-5
Table I1.3.7	Present Mining Water Use	I-6
Table I1.3.8	Irrigation Systems in Indonesia	I-6
Table I1.3.9	Harvested Irrigation Area in South Sumatra Province.....	I-7
Table I1.3.10	Irrigation Cropping Pattern	I-8
Table I1.3.11	Crop Coefficients	I-8
Table I1.3.12	Effective Rainfall	I-9
Table I1.3.13	Irrigation Water Requirements.....	I-9
Table I1.3.14	Present Irrigation Water Use of Administrative Areas	I-10
Table I1.3.15	Harvested Area in Swamp in South Sumatra Province.....	I-11
Table I1.3.16	Swamp Cropping Pattern	I-12
Table I1.3.17	Water Requirement	I-13
Table I1.3.18	Present Swamp Water Use of Province	I-13
Table I1.3.19	Present Swamp Water Use of the Basin.....	I-14
Table I1.3.20	Water Uses in Dry Season	I-14
Table I1.3.21	Water Uses in Wet Season	I-14
Table I1.3.22	Present Aquaculture Cultivation	I-16
Table I1.3.23	Present Aquaculture Water Use	I-17
Table I1.3.24	Number of Indonesian Visitors	I-18
Table I1.3.25	Present Tourist Water Use	I-19
Table I1.3.26	Heads of Livestock.....	I-19
Table I1.3.27	Unit Consumption of Livestock.....	I-19
Table I1.3.28	Present Livestock Water Use	I-20
Table I1.3.29	Existing Power Stations in South Sumatra – Lampung System .	I-21
Table I1.3.30	Existing Microhydro Power Stations in South Sumatra Province	I-22
Table I1.3.31	Present Consumptive Water Uses of the Basin.....	I-23

Table I1.4.1	Basin Model Structure	I-24
Table I1.4.2	Present Conditions of Water Uses	I-26
Table I1.5.1	Projection of Administrative Domestic Water Use	I-27
Table I1.5.2	Projection of Basin Domestic Water Use	I-27
Table I1.5.3	Projection of Administrative Industrial Water Use	I-28
Table I1.5.4	Projection of Basin Industrial Water Use	I-28
Table I1.5.5	Projection of Mining Water Use.....	I-29
Table I1.5.6	Projection of Administrative Aquaculture Water Use.....	I-29
Table I1.5.7	Projection of Basin Aquaculture Water Use.....	I-29
Table I1.5.8	Projected Consumptive Water Uses in the Basin	I-31
Table I2.1.1	Classification of Potential Irrigation Area.....	I-32
Table I2.1.2	Classification of Potential Swamp Area	I-33
Table I3.3.1	Outline of Komerling Irrigation Project	I-41
Table I3.3.2	Annual Irrigation Development Area of South Sumatra Province	I-43
Table I3.3.3	Annual Irrigation Development Area of South Sumatra Province	I-43
Table I3.3.4	Developed Swamp Area of South Sumatra Province	I-44
Table I3.3.5	Transmigration Development in South Sumatra Province	I-47
Table I3.3.6	Project for Strengthening of Water System Maintenance in Karang Anyar.....	I-47
Table I3.3.7	Scheduled Major Power Stations in South Sumatra–Lampung–Bengkulu System	I-48
Table I3.3.8	Potential Hydropower Stations in the Musi River Basin.....	I-48
Table I3.3.9	Potential Microhydro Power Stations in South Sumatra Province	I-49
Table I4.1.1	Evaluation of Komerling Irrigation Project	I-50
Table I4.1.2	Evaluation of Lakitan Irrigation Project	I-51
Table I4.1.3	Evaluation of Temedak Irrigation Project	I-52
Table I4.2.1	Potential Irrigation and Swamp Area in the Basin	I-53
Table I4.2.2	Imports of Rice of Indonesia	I-54
Table I4.2.3	Imports of Rice of South Sumatra Province	I-54
Table I4.2.4	Potential Irrigation and Swamp Development in the Basin.....	I-55
Table I4.2.5	Target Development by Study for Formulation of Irrigation Development Program,1993	I-55
Table I5.3.1	Goals and Strategies of Water Use Management	I-61

Table I5.4.1	Household Percentage According to Drink Water Resources in South Sumatra Province in 2000	I-63
Table I5.4.2	Potential Development Area in the Basin	I-66
Table I5.4.3	Present Aquaculture Area of Fishpond	I-76
Table I5.4.4	Candidates of Tourism Resources for Program	I-79
Table I5.5.1	Score of Each Program	I-86
Table I5.6.1	Program 1-2 : Cost Flow	I-95
Table I5.6.2	Program 1-3 : Cost Flow	I-96
Table I5.6.3	Program 1-4 : Cost Flow	I-97
Table I5.6.4	Program 1-6 : Cost Flow	I-98

LIST OF FIGURES

Figure I1.3.1	Harvested Area of Double Cropping	I-12
Figure I1.3.2	Harvested Area of Single Cropping	I-12
Figure I1.5.1	Rating Curve at Musi Hepp Intake	I-30
Figure I5.4.1	Relationship of Demand-Responsive Approach and the Program	I-62
Figure I5.4.2	Concept Flow of Sustainable Development.....	I-65
Figure I5.4.3	Concept of Paddy Supply and Demand	I-67
Figure I5.4.4	Potential Irrigation and Swamp Area.....	I-69
Figure I5.4.5	Location of Resettlement Areas in Tidal Swamp Area.....	I-74
Figure I5.4.6	Proposed Water Use Management Model	I-82
Figure I5.4.7	Implementation Plan of Water Use Management Programs.....	I-84

LIST OF PHOTOS

Photo I5.4.1	Domestic Water Tank Provided by SSSIP.....	I-73

LIST OF ANNEXES

Annex I1.3.1	Clean Water Supply and Management Project ,until 1995/96 ...	IA-1
Annex I1.3.2	Regional Commission.....	IA-12
Annex I1.3.3	Domestic Water Use and Projection.....	IA-20
Annex I1.3.4	Harvested Irrigation Area	IA-22
Annex I1.3.5	Location Map of Irrigation Area of South Sumatera Province...	IA-25
Annex I1.3.6	Harvested Swamp Area	IA-26
Annex I1.4.1	Schematic Diagram of Water Balance.....	IA-27
Annex I1.4.2	Allocation of Irrigation Water Use	IA-28
Annex I1.4.3	Allocation of Water Uses Except for Irrigation.....	IA-29
Annex I1.4.4	Result of Present Water Balance	IA-30
Annex I1.4.5	Water Deficits under Present Water Uses	IA-31
Annex I2.1.1	Potential Irrigation Area	IA-32
Annex I2.1.2	Potential Swamp Area	IA-39
Annex I2.1.3	Drought Discharges of Musi River System.....	IA-45
Annex I3.3.1	Salient Features of Corporate Plan of PDAM “Tirta Musi” Palembang, 2001 – 2005	IA-46
Annex I3.3.2	Salient Features of Corporate Plan of PDAM Lematang Enim, 2001 – 2005.....	IA-48
Annex I3.3.3	Tidal Swamp Reclamation in South Sumatra Province.....	IA-50
Annex I3.3.4	Non Tidal Swamp Reclamation in South Sumatra Province.....	IA-51
Annex I3.3.5	Power System Interconnection and Power Source Potential	IA-52
Annex I3.3.6	Details of Potential Microhydro Stations in South Sumatra Province	IA-53
Annex I3.3.7	Inventory of Irrigation Weirs.....	IA-54
Annex I4.2.1	Ratio of Sub-Basin Area to Regency/Municipality Area	IA-55
Annex I4.2.2	Potential Land in Sub-Basins.....	IA-56
Annex I4.2.3	Water Deficits with Potential Irrigation and Swamp Area.....	IA-62
Annex I4.2.4	Potential Irrigation and Swamp Area in Sub-Basins	IA-63
Annex I5.2.1	Problems of Water Uses	IA-69
Annex I5.2.2	Identified Issues of Water Use Management.....	IA-70
Annex I5.6.1	Economic Analysis of Program 1-3: Rainwater Utilization in Tidal Swamp Area	IA-71
