HANDBOOK OF USEFUL TECHNIQUES

MARCH 2004

PREFACE

This handbook presents technical know-how which was acquired during “the Verification Study on the Small Scale Horticultural Development Project for Poverty Alleviation to Farmers in Coast Region, Tanzania” conducted from January 2001 to March 2004. Additionally, techniques not emanating from the Verification Study that were regarded useful have been included.

This handbook consists of subjects on Vegetable Production, Fruit Production, Agriculture, Post Harvest and Processing, Water Use, Soil and Water Conservation, Construction, Approach to Credit, and Group Activities. We believe and expect that this handbook would be useful and helpful to you in implementing horticultural development.
