ELECTRIC POWER FACILITIES SURVEY
OF
THE KINGDOM OF CAMBODIA

2003

MINISTRY OF INDUSTRY MINES AND ENERGY
ELECTRICITY AUTHORITY OF CAMBODIA
ELECTRICITÉ DU CAMBODGE
JICA STUDY TEAM

PREFACE

Judging from the long-term electric power demand forecast, the electric power demand in Cambodia shows quite high increase in spite of the recession of the world economy, and the demand will be forecasted steady increase based on the improvement of peoples' living.

The Electricity Law has been issued by the Government of the Kingdom of Cambodia, and it was established the frameworks of generation, transformation, transmission and distribution of electricity of the Kingdom of Cambodia. In order to establish the stable supply of the electric power to the consumers, it will be expected to improve technical standards to ensure safety and protection of the environment in order to maintain the stable electric power supply.

For the above, it will be important to grasp the current status of electric power facilities in the Kingdom of Cambodia and fully utilize the data for the preservation and development of the facilities.

This survey has been made by the local consultant Cheang Engineering Consultants Co., Ltd (CEC) who was awarded by JICA Study Team as a part of the Study for Establishment of Electric Power Technical Standards and Guidelines in the Kingdom of Cambodia.

All power stations for power industries are fully covered. Almost all of the private power generation facilities more than 100kW are covered except in remote areas.

The addresses of the above power stations are also listed up for easy reference.

We are very happy that all peoples who are related to the power industries utilize this survey result.

Phnom Penh, February 2003

Takuya Takaoka

Team Leader

JICA Study Team of the Study of Electric
Power Technical Standards and Guidelines
in the Kingdom of Cambodia

Outline of Electric Power Facilities - C2

Thermal Power Station (Diesel)

		Name of P.S	Power Station C2
Item	Name of Company		Cambodia Utilities
Address		Phnom Penh	
Name of Unit			
Date of commercial Operation		1997	
Max. output (kW)		30900	
Diesel Engine	Type	GMT 420.12	
	Output (kW) x No.	5592 X 7	
	RPM (r.p.m.)	500	
	No. of Cylinders	12	
	Calorific Value (kcal.kg)		
Manufacturer		Fincantieri-GMT	
Generator	Type	GSN 11 S12	
	Capacity (kVA) x No.	5520 x 7	
	Output Voltage (kV)	6.3	
	Power Factor (%)	0.8	
	Manufacturer	Ansaldo	
Main Transformer	Type	T30TN7500	
	Capacity (kVA) x No.	5600 X 7	
	Voltage (kV) } Primary	6.3	
	Voltage (kV) } Secondary	22	
	Type of Connection	Star with N - d11	
Manufacturer		Gonella	
Chimney	Type of Structure	steel	
	Height (m)	16	
	Manufacturer	local	
Tanks	H.F.O.(kl x No.)	2500m ³ X 2	
	L.F.O.(kl x No.)	250m ³ x 2	
	Raw Water (ton x No.)		
	Industrial Water (tonxNo.)

	Manufacturer		

PHNOM PENH POWER PLANT-C2 DIESEL

Outline of Electric Power Facilities - C2

Thermal Power Stations (Steam)

Name of P.S		Power Station C2 (steam)
Item	Name of Company	EDC
Address		National Rd. 2, Phnom Penh
Name of Unit		
Date of Commercial Operation		1996
Max. output (kW)		18000
Steam Turbine	Type	K6-35
	Output (kW) x No.	5000 x 3
	Steam Press.(kg/cm ²)	38-40
	Steam Temp.(°C)	400
	RPM (r.p.m.)	3000
	Vacuum (mmHg)	
	No. of bleeders	
Manufacturer		SKODA Breno (Czechoslovakia)
Boiler	Type	CKD
	Steam Press.(kg/cm ²)	38-40
	Steam Temp.(°C)	400
	Max.evaporation (t/h) x No.	
	Calorific Value (kcal/kg)	10080
	Manufacturer	Czech
Generator	Type	6H 5461/2
	Capacity (kVA) x No.	7500 X 3
	Power Factor (%)	0.8
	Manufacturer	SKODA Breno (Czechoslovakia)
Main Transformer	Type	
	Capacity (kVA) x No.	8000 x 3
	Voltage (kV) } Primary	6.3
	Voltage (kV) } Secondary	15
	Type of Connection	Delta-Star
Manufacturer		Czech
Chimney	Type of Structure	Steel
	Hight (m)	25
	Manufacturer	local
Tanks	H.F.O.(kl x No.)	2500m ³ x 2
	L.F.O.(kl x No.)	
	Raw Water (ton x No.)	Basak
	Industrial Water (ton x No.)	1500m ³ /h
Main Cooling System	Type	CKD
	Capacity (m ³ /h)	60
	Temp. inlet/Outlet (°C)	55/34
	Manufacturer	Czech

KAMPONG CHAM POWER PLANT

1-7 - BATTAMBANG

TOTAL POWER: 4400kVA

Outline of Electric Power Facilities

Thermal Power Stations (Diesel)

Name of P.S		Battambang Power Plant
Item	Name of Company	Jupiter
Address		Battambang Power Plant
Name of Unit		Unit 1+2+3+4
Date of commercial Operation		Oct-98
Max. output (kW)		3500
Diesel Engine	Type	
	Output (kW) x No.	875 x 4
	RPM (r.p.m.)	1500
	No. of Cylinders	12
	Manufacturer	Caterpillar
Generator	Type	
	Capacity (kVA) x No.	1100 x 4
	Output Voltage (kV)	0.4
	Power Factor (%)	0.8
Main Transformer	Manufacturer	Caterpillar
	Type	ONAN
	Capacity (kVA) x No.	1250
	Voltage (kV) } Primary	0.4
	Voltage (kV) } Secondary	6.3
Type of Connection	Star - Delta	
Chimney	Manufacturer	ONAN
	Type of Structure	steel
	Height (m)	6
Tanks	Manufacturer	local
	H.F.O.(kl x No.)	
	L.F.O.(kl x No.)	200m ³ X 2
	Raw Water (ton x No.) Industrial Water (tonxNo.)	
Main Cooling System	Type	Radiator
	Capacity(m ³ /h)	
	Temp. inlet/Outlet (°C)	
	Manufacturer	

2. HYDRO POWER PLANTS

- O Chum Hydropower Plant (Rattanakiri): 960kW 27
- Kirirom I Hydropower Plant (Koh Kong): 12000kW 33

2-1 - RATTANAKIRI (O CHUM)

Power: 960kW

Equipment of Hydropower Plant O Chum

Name of Company : Provincial Dep. of Industry, Mines and Energy Ratanakiri

Name of Power Plant : O Chum Hydropower Plant

Location : O Chum Commune, O Chum District, Ratanakiri Province

Main-Items	Sub-Items	Unit	Contents / Dimensions	
Name of River Systems – Name of River			O Chum, Sesan tributary	
Authorized Output	Max. [Firm]	kW	960	
	Firm Peak	kW	910	
Turbine Discharge	Max. [Firm]	m ³ /s	3.75	
Effective Head	Max. [Firm]	m	31	
Theoretical Output		kW	1,139	
Project License	Type of License		No license	
	Date of License			
Dam	Name		O Chum 1	O Chum 2
	Type		Earth-fill dam	Earth-fill dam
	Dam Height	m	22	
	Crest Length	m	860	
	Dam Volume	10 ³ m ³	12,600	
	Catchment Area	km ²	23.10	44.7
	Design Flood	m ³ /s	64.0	210.0
Gate of Dam	Type		no gate	no gate
	Number	set	(overflow spillway)	(overflow spillway)
	Size (Width × Height)	m		
Reservoir / Regulating Pond	Name		O Chum 1	O Chum 2
	Total Storage Capacity [Active]	m ³	13,100,000	146,000
	Normal High Water Level (NHWL)	m.MSL	291.5	254.00
	Effective Depth	m	14.46 LWL279	1.5 LWL252.50
	Surface Area at NHWL	km ²	1.60	
Intake	Type		Reinforced concrete culvert with fixed cone disperser valve	Reinforced concrete culvert with fixed cone disperser valve
	Size (Width × Height × Length)	m	2x1.5x106	
	Intake Water Level	m.MSL	254.50

	Length	m	None	
	Thickness of Lining	m	None	
Outlet	Type		concrete	
	Size (Width × Height × Length)	m	Not sure	
	Outlet Water Level	m.MSL	219.50	
Head Tank or Surge Tank	Type		Reinforced concrete surge tank	
	Size (Liner diameter × Length)	m	4.6x10	

Main-Items	Sub-Items	Unit	Contents / Dimensions
Penstock	Number		1
	Length	m	63
	Liner diameter (Max. ~Min.)	m	1.2
	Pipe Shell Thickness (Max. ~Min.)	mm	10
	Material		steel
	Manufacturer		From Russia
	Type of Sluice Valve		Butterfly valve
Turbine	Type		Francis (horizontal shaft)
	Number of Units	unit	2
	Rated Output	kW	510
	Rated Discharge	m ³ /s	1.875
	Rated Head	m	31
	Rotation Speed	rpm	750
	Type of Governor		Electrical-Hydraulic Governor
	Type of Draft Tube & Suction Head		
Manufacturer		Dumont S.A	
Generator	Type		Three phase AC synchronous
	Number of Units	unit	2
	Rated Voltage	kV	0.4
	Rated Output	kVA	600
	Rated Power Factor	%	80
	Frequency	Hz	50
	Manufacturer		Alsthom
Transformer	Type		Outside
	Number of Units	unit	2
	Phase Number		3
	Capacity	kVA	630
	Voltage [Primary, Secondary, Tertiary]	kV	0.4/10
	Manufacturer		Alsthom
Transmission Line	Nominal Voltage	kV	10
	Number of Circuits	cct	1
	Length	km	16
Operating Date			1993

2-2 – KOH KONG (KIRIROM)

POWER: 12000kW

Equipment of Hydropower Plant Kirirom 1

Name of Company: CETIC (China Electric Technique Import&Export Corporations)

Name of Power Plant : Kirirom 1 Hydropower Plant

Location : Kirirom Plateau, Koh Kong Province

Main-Items	Sub-Items	Unit	Contents / Dimensions
Name of River Systems—Name of River			Stueng Chral River
Authorized Output	Max. [Firm]	kW	12,000
	Firm Peak	kW	12,000 (at the gen. terminals)
Turbine Discharge	Max. [Firm]	m ³ /s	110 (max.)
Effective Head	Max. [Firm]	m	rated head: 373.5
Theoretical Output		kW	14,421
Project License	Type of License		Generation License (007L)
	Date of License		April 05, 2002
Dam	Name		No name
	Type		earth-rock fill type with wide inclined earth core
	Dam Height	m	34 (maximum) Crest elevation: 498.5m
	Crest Length	m	343 Crest width: 6m
	Dam Volume	10 ³ m ³	
	Catchment Area	km ²	
	Design Flood	m ³ /s	1,110
Gate of Dam	Type		plain steel gate
	Number	set	6
	Size (Width × Height)	m	1.13 x 1.7
Reservoir / Regulating Pond	Name		no name
	Total Storage Capacity [Active]	m ³	9,800,000 [regulating: 9,300,000]
	Normal High Water Level (NHWL)	m.MSL	496 Highest Water Level 497m
	Effective Depth	m	9m Dead water level: 487m
	Surface Area at NHWL	km ²	
Intake	Type		deep vertical shaft type
	Size (Width × Height × Length)	m	
	Intake Water Level	m.MSL	480.55m at the center of the gate
Headrace	Type		underground penstock is type of reinforced concrete pipe with steel liner
	Size	m	1.4 (diameter)
	Length	m	3,400
	Thickness of Lining	m

Electric Power Utilities

HUOR PENG THERMAL POWER PLANT IN KAMPONG THOM (C)

1. Facilities of the Generation

Power generation facilities of HUOR PENG Company are 525kVA in total. The plant supplies electricity to consumers in areas of Kampong Thmor town, Khum Balang, Baray district and Khum Kampong Thmor, Santuk district, Kampong Thom province.
License No. 006L was issued to the company on April 01, 2002

2. General Specifications

The power generation facilities of the company consist of 3 generators. Power ratings of the generators are: two generators manufactured by MITSUBISHI have power rating of 250kVA and 200kVA, one manufactured made in the USSR has power rating of 75kVA. Fuel used for the engines is Diesel.

Code No.		
Name of Company	HUOR PENG	
Address	Baray District, Kampong Thom	
Total No. of Employee	10	
(No. of Engineers)	0	
(No. of Technical Staff)	5	
Supply Area	Kampong Thmor	
No. of Consumers	650	
Installed Electric Power (kW)	420	
Energy sold (kWh)/month	20000	
Tariff Rates (Riels/kWh)	1000	
Name of Power Plant	HUOR PENG	
No. of Unit x kW	200+160+60	

CHILBO INDUSTRIAL THERMAL POWER PLANT IN KAMPONG THOM (C)

1. Facilities of the Generation

Power generation facilities of CHILBO Company in Kampong Thom are 1520kW in total. The plant of the company situates temporarily in the premise of Power Plant of provincial MIME, Phum Kampong Ro, Khum Domrey Chuan Klar, Stoeng Sen district, Provincial town of Kampong Thom. This power plant will move to new location at Phum Achar Lak, Khum Achar Lak, Stoeng Sen district, National road 5, provincial town of Kampong Thom. The plant supplies electricity to its distribution system under agreement between Sung Jin and Chilbo Industrial Company and Ministry of Industry, Mine and Energy signed on October 01, 2001. License No. 012L was issued to the company on August 09, 2002.

2. General Specifications

The power generation facilities of the company consist of 3 diesel generators. Power ratings of the generators are: 1 diesel engine trademark Yanmar is 1000kVA, 1 diesel engine trademark Mitsubishi is 500kVA, and 1 diesel engine trademark Mitsubishi is 400kVA.

Code No		
Name of Company	CHILBO INDUSTR. CO, LTD	
Address	Stoeng Sen District, K. Thom	
Total No of Employee	30	
(No of Engineers)	1	
(No of Technical Staff)	15	
Supply Area	Kampong Thom Town	
No of Consumers	2800	
Installed Electric Power (kW)	1520	
Energy sold (kWh)/month	95000	
Tariff Rates (Riels/kWh)	1000	
Name of Power Plant	CHILBO Kampong Thom	
No. of Unit x kW	800+400+320	

TE KOK ENG THERMAL POWER PLANT IN KAMPONG THOM (C)

1. Facilities of the Generation

Power generation facilities of TE KOK ENG Company are 175kVA in total. The plant supplies electricity to consumers in areas of Khum Treal town, Baray district, Kampong Thom province. License No. 019L was issued to the company on December 12, 2002.

2. General Specifications

The power generation facilities of the company consist of 4 generators. Power ratings of the generators are 70kVA, 50kVA, 30kVA and 25kVA. Fuel used for the engines is Diesel.

Code No		
Name of Company	TE KOK ENG	
Address	Baray District, Kampong Thom	
Total No. of Employee	6	
(No. of Engineers)	0	
(No. of Technical Staff)	3	
Supply Area	Khum Treal Town	
No. of Consumers	300	
Installed Electric Power (kW)	140	
Energy sold (kWh)/month	10000	
Tariff Rates (Riels/kWh)	1000

No. of Unit x kW	56+40+24+20	

MAK THORN THERMAL POWER PLANT IN TAKEO (C)

1. Facilities of the Generation

Power generation facilities of MAK THORN Company are 635kVA in total. The plant supplies electricity to consumers in areas of Psar Tonlap town, Khum Preah Bathchanchum, Kirivong district, Takeo province.

License No. 013L was issued to the company on September 06, 2002.

2. General Specifications

The power generation facilities of the company consist of 5 generators. Power ratings of the generators are: one generator trademark SCODA has power rating of 250kVA, 2 generators trademark MITSUBISHI has power rating of 125kVA each, one generator trademark Daewoo is 90kVA and one HINO is 45kVA. Fuel used for the engines is Diesel.

Code No		
Name of Company	MAK THORN	
Address	Kirivong District, Takeo	
Total No. of Employee	8	
(No. of Engineers)	0	
(No. of Technical Staff)	3	
Supply Area	Psar Tonlap	
No. of Consumers	650	
Installed Electric Power (kW)	508 (total of 5 gen)	
Energy sold (kWh)/month	18000	
Tariff Rates (Riels/kWh)	1400	
Name of Power Plant	MAK THORN	
No. of Unit x kW	200+100+100+72+36	

SREY SOKHOM THERMAL POWER PLANT IN TAKEO (C)

1. Facilities of the Generation

Power generation facilities of SREY SOKHOM Company are 100kVA in total. The plant supplies electricity to consumers in areas of Psar Samrong Yornng town, Khum Trapaeng Sab, Baty district, Takeo province

License No. 015L was issued to the company on November 22, 2002

2. General Specifications

The power generation facilities of the company consist of only one generator. Power rating of the generator is 100kVA. The manufacturer is Komatsu. Fuel used for the engines is Diesel.

Code No.		
Name of Company	SREY SOKHOM	
Address	Baty District, Takeo	
Total No. of Employee	5	
(No. of Engineers)	0	
(No of Technical Staff)	2	
Supply Area	Psar Samrongyornng	
No. of Consumers	170	
Installed Electric Power (kW)	80	
Energy sold (kWh)/month	7000	
Tariff Rates (Riels/kWh)	1400	
Name of Power Plant	SREY SOKHOM	
No of Unit x kW	1 x 80	

KE KUYHUOY THERMAL POWER PLANT IN TAKEO (C)

1. Facilities of the Generation

Power generation facilities of KE KUYHUOY Company are 60kVA in total. The plant supplies electricity to consumers in areas of Psar Kampong Chrey town, Trang and Koh Andet districts, Takeo province.

License No. 016L was issued to the company on November 22, 2002

2. General Specifications

The power generation facilities of the company consist of 2 generators. Power ratings of the generators are: one generator manufactured by HINO has power rating of 40kVA, and one made in USSR has power rating of 20kVA. Fuel used for the engines is Diesel.

Code No.		
Name of Company	KE KUYHUOY	
Address	Trang District, Takeo	
Total No. of Employee	5	
(No. of Engineers)	0	
(No. of Technical Staff)	2	
Supply Area	Psar Kampongchrey	
No. of Consumers	100	
Installed Electric Power (kW)	48	
Energy sold (kWh)/month	4000	
Tariff Rates (Riels/kWh)	1400	
Name of Power Plant	KE KUYHUOY	
No. of Unit x kW	32+16	

CHHOU LAY THERMAL POWER PLANT IN TAKEO (C)

1. Facilities of the Generation

Power generation facilities of CHHOU LAY Company are 70kVA in total. The plant supplies electricity to consumers in areas of Psar Preylvear town, Khum Preylvear, Prey Kabas district, Takeo province

License No 020L was issued to the company on December 30, 2002

2. General Specifications

The power generation facilities of the company consist of only one generator Power rating of the generator is 70kVA. Manufacturer is DENYO Fuel used for the engine is Diesel.

Code No.		
Name of Company	CHHOU LAY	
Address	Preykabas District, Takeo	
Total No. of Employee	4	
(No. of Engineers)	0	
(No. of Technical Staff)	2	
Supply Area	Psar Preylvear	
No of Consumers	120	
Installed Electric Power (kW)	56	
Energy sold (kWh)/month	6000	
Tariff Rates (Riels/kWh)	1400	
Name of Power Plant	CHHOU LAY	
No of Unit x kW	56 x 1	

BUN LIV THERMAL POWER PLANT IN PREY VENG (C)

1. Facilities of the Generation

Power generation facilities of BUN LIV Company are 2590kVA in total. The plant supplies electricity to consumers in areas of Neak Loeung town (areas east of Mekong River), Peam Ro district, Prey Veng province.

License No. 017L was issued to the company on November 29, 2002

2. General Specifications

The power generation facilities of the company consist of 8 generators. Power ratings of the generators are: 4 generators model SKL have power rating of 450kVA each, one generator manufactured by HINO has power rating of 250kVA, one made in USSR is 250kVA, and 2 generators manufactured by MITSUBISHI are 165kVA and 125kVA. Fuel used for the engines is Diesel.

Code No.		
Name of Company	BUN LIV	
Address	Peam Ro District, Prey Veng	
Total No. of Employee	35	
(No. of Engineers)	1	
(No. of Technical Staff)	16	
Supply Area	Neak Loeung Town (east)	
No. of Consumers	3700	
Installed Electric Power (kW)	2072	
Energy sold (kWh)/month	150000	
Tariff Rates (Riels/kWh)	1100	
Name of Power Plant	BUN LIV	
No. of Unit x kW	360x4+200x2+132+100	

KY SOPHEAR THERMAL POWER PLANT IN PREY VENG (C)

1. Facilities of the Generation

Power generation facilities of KY SOPHEAR Company are 345kVA in total. The plant supplies electricity to consumers in areas of Psar Snaypul town, Khum Roka, Pearang district, Prey Veng province.

License No. 018L was issued to the company on November 29, 2002

2. General Specifications

The power generation facilities of the company consist of 4 generators. Power ratings of the generators are: one generator made in Korea has power rating of 200kVA, one made in the Soviet Union has power rating of 75kVA, one made in China is 35kVA and one made in the Soviet Union is 35kVA. Fuel for the engines is Diesel.

Code No.		
Name of Company	KY SOPHEAR	
Address	Pearang District, Prey Veng	
Total No. of Employee	8	
(No. of Engineers)	0	
(No. of Technical Staff)	3	
Supply Area	Psar Snaypul Town	
No. of Consumers	600	
Installed Electric Power (kW)	276	
Energy sold (kWh)/month	16000	
Tariff Rates (Riels/kWh)	1100	
Name of Power Plant	KY SOPHEAR	
No. of Unit x kW	160+60+28+28	

PREY VENG ELECTRIC UTILITY THERMAL POWER PLANT IN PREY VENG

1. Facilities of the Generation

Power generation facilities of PREY VENG ELECTRIC UTILITY are 760kW in total. The plant of the company is situated in the provincial town of Prey Veng. The plant supplies electricity to the areas of the town.

2. General Specifications

The power generation facilities of the company consist of 3 diesel generators. Power ratings of each generator are 500kVA (CATERPILLAR), 250kVA (PERKINS), and 200kVA (CUMMINS).

Code No.		
Name of Company	Préy Veng Electric Utility	
Address	Kampong Leav	
Total No. of Employee	41	
(No. of Engineers)	2	
(No. of Technical Staff)	15	
Supply Area	Kampong Leav	
No. of Consumers	2100	
Installed Electric Power (kW)	760	
Energy sold (kWh)/month	65564	
Tariff Rates (Riels/kWh)	1100	
Name of Power Plant	Prey Veng EI Utility	
No. of Unit x kW	400+200+160	

NOV SOKHA THERMAL POWER PLANT IN KANDAL (C)

1. Facilities of the Generation

Power generation facilities of NOV SOKHA Company are 560kVA in total. The plant supplies electricity to consumers in areas of Neak Loeung town (areas west of Mekong River), Leukdek district, Kandal province.

License No 021L was issued to the company on December 30, 2002

2. General Specifications

The power generation facilities of the company consist of 3 diesel generators. Power ratings of the generators are: one generator manufactured by HINO has power rating of 250kVA, another HINO is 185kVA, and one manufactured by MITSUBISHI has power rating of 125kVA.

Code No.		
Name of Company	NOV SOKHA	
Address	Leukdek District, Kandal	
Total No. of Employee	10	
(No. of Engineers)	0	
(No. of Technical Staff)	5	
Supply Area	Neak Loeung Town (west)	
No of Consumers	650	
Installed Electric Power (kW)	448	
Energy sold (kWh)/month	20000	
Tariff Rates (Riels/kWh)	1500	
Name of Power Plant	NOV SOKHA	
No of Unit x kW	200+148+100	

SOK KHIM THERMAL POWER PLANT IN KANDAL

1. Facilities of the Generation

Power generation facilities of SOK KHIM are 460kW in total. The plant of the company is situated in Kien Svay district of Kandal province and supplies the electricity to the areas of Kien Svay.

2. General Specifications

The power generation facilities of the company consist of 3 diesel generators. Power ratings of these 3 generators are: 250kVA (China), 200kVA (Mitsubishi), and 125kVA (Mitsubishi).

Code No		
Name of Company	Sok Khim	
Address	Kien Svay District	
Total No. of Employee	11	
(No. of Engineers)	0	
(No. of Technical Staff)	6	
Supply Area	Kien Svay District	
No. of Consumers	700	
Installed Electric Power (kW)	460	
Energy sold (kWh)/month	20500	
Tariff Rates (Riels/kWh)	1500	
Name of Power Plant	Sok Khim	
No. of Unit x kW	200+160+100	

GTS THERMAL POWER PLANT IN KAMPONG CHAM (G)

1. Facilities of the Generation

Power generation facilities of GTS Company are 2920kW in total. The plant of the company is situated in the premises of the Kampong Cham Power Plant, Phum 7, Sangkat Kampong Cham, provincial town of Kampong Cham. The plant supplies electricity to the distribution system of Electricité de Kampong Cham under an agreement between the company and EDC signed on May 06, 1998. License No. 004L was issued to the company on March 29, 2002.

2. General Specifications

The power generation facilities of the company consist of 3 diesel generators. Power ratings of the generators are: one generator made in Russia has a power rating of 1000kVA, one generator manufactured by CATERPILLAR with a power rating of 1700kVA, and one generator manufactured by CATERPILLAR with a power rating of 950kVA. Type of fuel used for the engines is Light Distillate Oil (LDO).

CHEA SOPHA THERMAL POWER PLANT IN SIEM REAP (G)

1. Facilities of the Generation

Power generation facilities of CHEA SOPHA Company are 6072kW in total maximum. The plant situates in the premise of the Siem Reap Power Plant on National road 6, Phum Kruos, Khum Svay Dangkom, Siem Reap district, provincial town of Siem Reap. The plant supplies electricity to distribution system of Electricité de Siem Reap.

License No. 005L was issued to the company on April 01, 2002

2. General Specifications

The plant of the company consists of two parts: one consists of 4 old Russian generators that provide maximum power of 400kWx2+160kWx2 and the other consists of 6 new generators of CHEA SOPHA with power ratings of 1000kVAx3+1270kVAx2+650kVA. The old generators are now not for normal use and they are used only when the power is not enough due to any new generator breakdown or maintenance. In fact the original power ratings of the old generators are 1000kVAx2+315kVAx2, because they are too old, they can provide only half of their original powers. The new generators are manufactured by CUMMINS.

Code No.		
Name of Company	CHEA SOPHA	
Address	National Rd.6, Siem Reap town

No. of Unit x kW	200x3+100x2	

KOH KONG DUTY FREE SHOP THERMAL POWER PLANT IN KOH KONG

KOH KONG DUTY FREE SHOP dose not generate electric power itself. The company buys electric energy from Thailand and sells it to the areas of the town. Maximum power the company can supply to the town is 2000kW. The energy sold is approximately 815180kWh per month.

Code No.		
Name of Company	Koh Kong Duty Free Shop	
Address	Dang Tong. Koh Kong	
Total No. of Employee	8	
(No. of Engineers)	1	
(No. of Technical Staff)	5	
Supply Area	Dang Tong. Koh Kong	
No. of Consumers	2275	
Installed Electric Power (kW)	2000	
Energy sold (kWh)/month	815180	
Tariff Rates (Riels/kWh)	600	
Name of Power Plant	Koh Kong Duty Free Shop	
No. of Unit x kW	Power import from Thailand	

THERMAL POWER PLANT IN MONDOL KIRI

1. Facilities of the Generation

Power generation facilities of company are 120kW in total. The plant of the company situates in provincial town of Mondol Kiri. The plant supplies electricity to the areas of the town.

2. General Specifications

The power generation facilities of the company consist of 2 diesel generators, which power rating of each generator is 75kVA (China).

Code No.		
Name of Company	No Name	
Address	Sen Monorom	
Total No. of Employee	6

Installed Electric Power (kW)	120	
Energy sold (kWh)/month	9000	
Tariff Rates (Riels/kWh)	1800	
Name of Power Plant		
No. of Unit x kW	60 x 2	

LAM KIMLANG THERMAL POWER PLANT IN PREAH VIHEAR

1. Facilities of the Generation

Power generation facilities of LAM KIMLANG are 200kW in total. The plant of the company situates in provincial town of Preah Vihear. The plant supplies electricity to the areas of the town.

2. General Specifications

The power generation facilities of the company consist of 2 diesel generators, which power rating of each generator is 125kVA. Manufacturer of these generators is Mitsubishi.

Code No.		
Name of Company	Lam Kimlang	
Address	Tbeng Meanchey	
Total No. of Employee	7	
(No. of Engineers)	0	
(No. of Technical Staff)	2	
Supply Area	Tbeng Meanchey	
No. of Consumers	300	
Installed Electric Power (kW)	200	
Energy sold (kWh)/month	10000	
Tariff Rates (Riels/kWh)	1800	
Name of Power Plant	Lam Kimlang	
No. of Unit x kW	100x2	

CHAN PHON THERMAL POWER PLANT IN ODOR MEANCHEY

1. Facilities of the Generation

Power generation facilities of CHAN PHON are 100kW in total. The plant of the company situates in provincial town of Odor Meanchey and supplies the electricity to the areas of the town.

2. General Specifications

The power generation facilities of the company consist of 2 old diesel generators. Power ratings of these 2 generators are 75kVA and 50kVA.

Code No.		
Name of Company	Chan Phon	
Address	Odor Meanchey town	
Total No. of Employee	4	
(No. of Engineers)	0	
(No. of Technical Staff)	2	
Supply Area	Kien Svay District	
No. of Consumers	300
