## **PREFACE**

In response to a request from the Royal Government of Cambodia, the Government of Japan decided to conduct a basic design study on the Project for Construction of the Cambodia-Japan Cooperation Center and entrusted the study to the Japan International Cooperation Agency (JICA).

JICA sent to Cambodia a study team from November 17 to December 14, 2003.

The team held discussions with the officials concerned of the Royal Government of Cambodia, and conducted a field study at the study area. After the team returned to Japan, further studies were made. Then, a mission was sent to Cambodia in order to discuss a draft basic design, and as this result, the present report was finalized.

I hope that this report will contribute to the promotion of the project and to the enhancement of friendly relations between our two countries.

I wish to express my sincere appreciation to the officials concerned of the Royal Government of Cambodia for their close cooperation extended to the teams.

May, 2004

Yasuo Matsui  
Vice-President  
Japan International Cooperation Agency

May, 2004

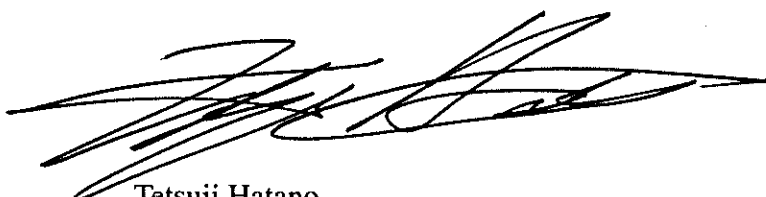

## LETTER OF TRANSMITTAL

We are pleased to submit to you the basic design study report on the Project for Construction of the Cambodia-Japan Cooperation Center in the Kingdom of Cambodia.

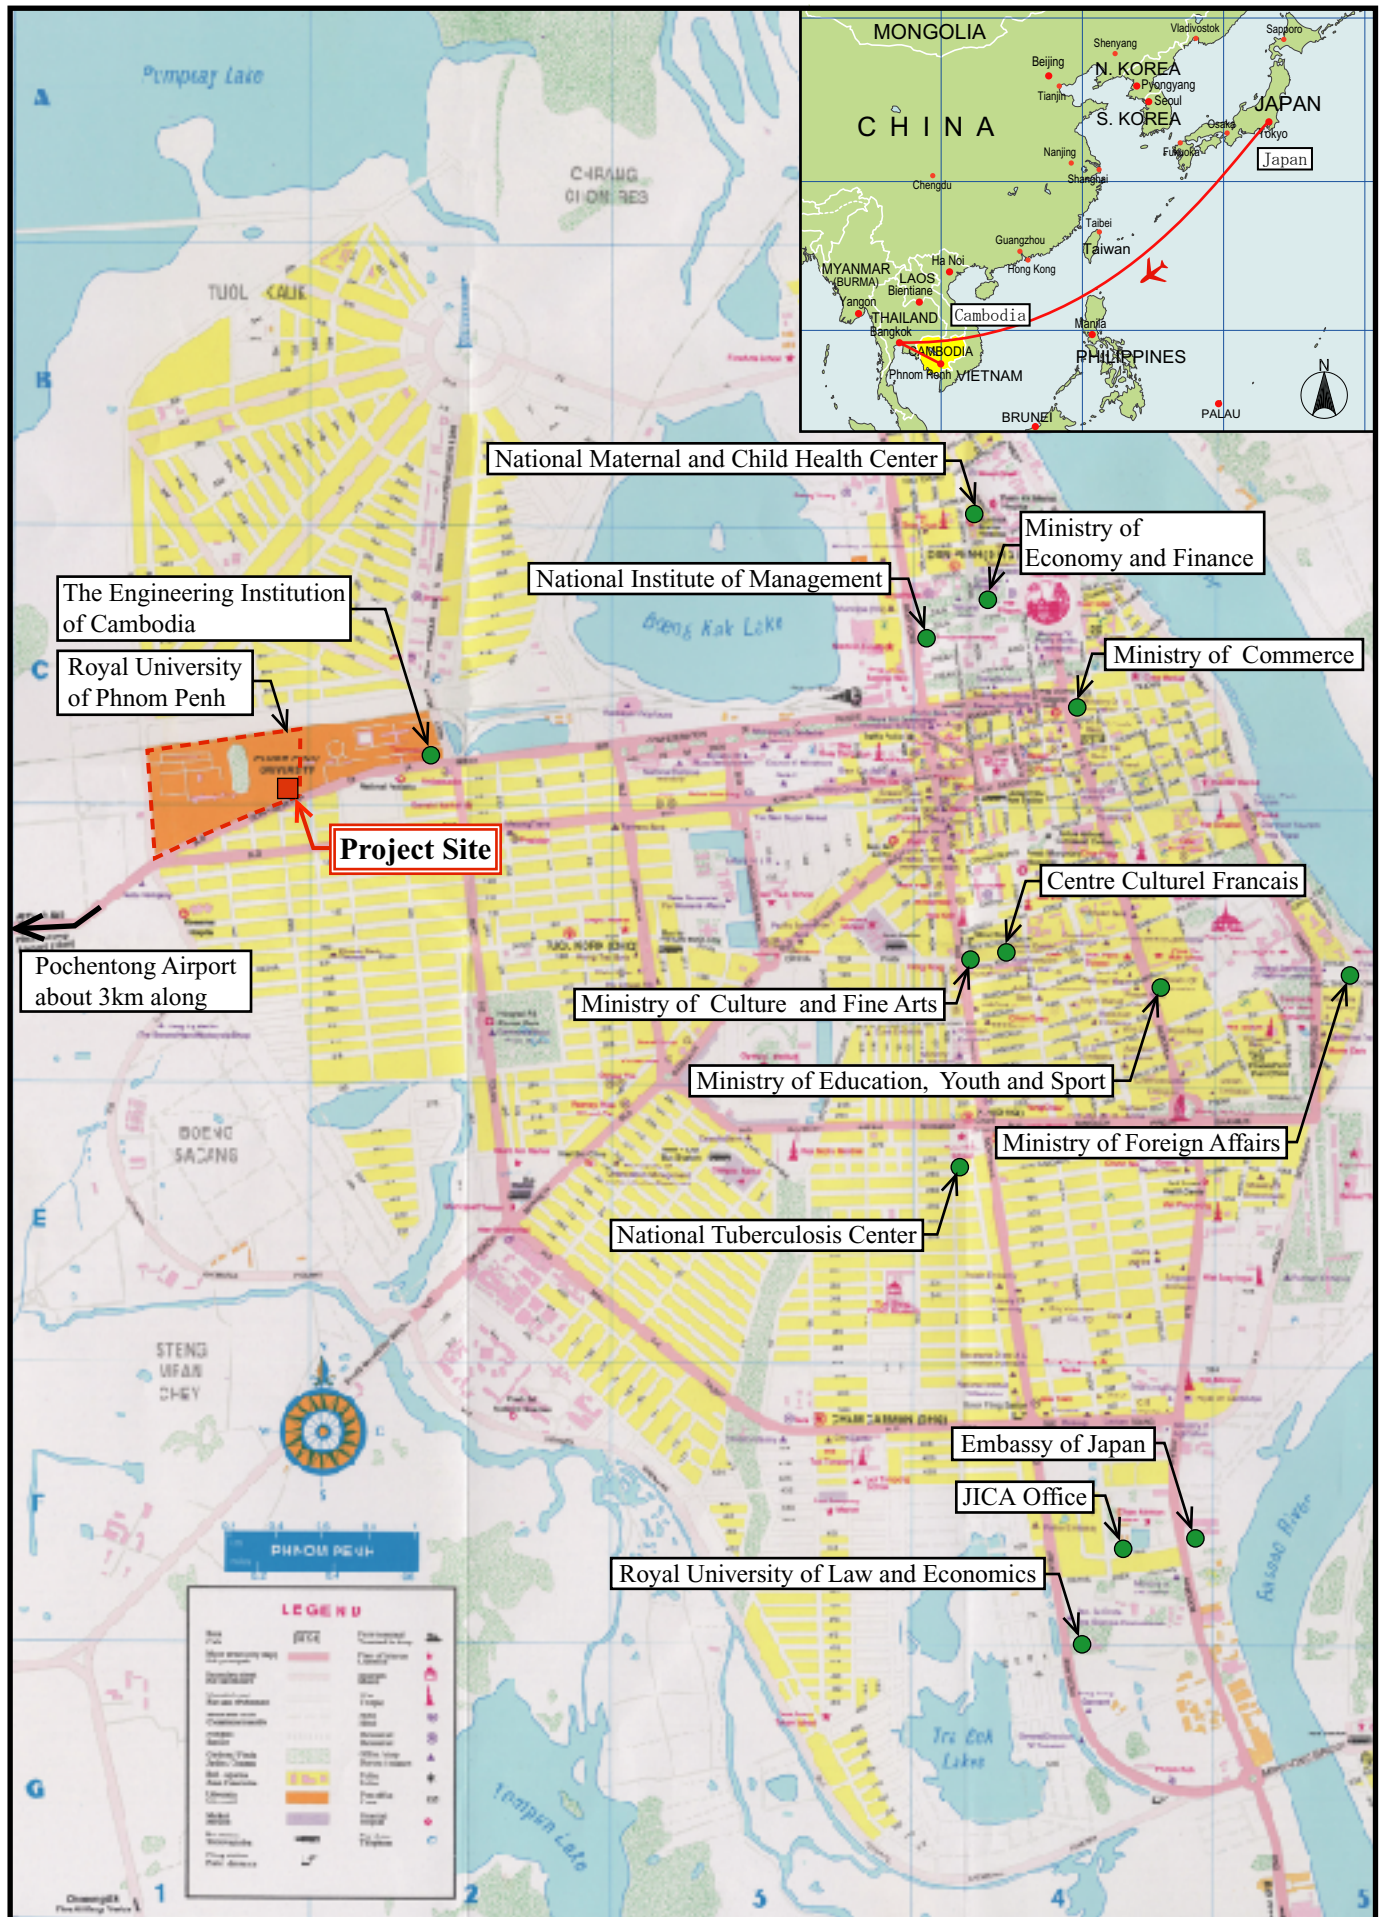

This study was conducted by Pacific Consultants International, under a contract to JICA, during the period from October, 2003 to May, 2004. In conducting the study, we have examined the feasibility and rationale of the project with due consideration to the present situation of Cambodia and formulated the most appropriate basic design for the project under Japan's grant aid scheme.

Finally, we hope that this report will contribute to further promotion of the project.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Tetsuji Hatano', with a long horizontal flourish extending to the right.

Tetsuji Hatano  
Chief Consultant,  
Basic design study team on  
the Project for Construction of  
the Cambodia-Japan Cooperation Center  
Pacific Consultants International
