2 European Union (EU)	Support To Agrarian Reform Communities in Central Mindanao (STAR-CM)	<ul style="list-style-type: none"> • STAR-CM is a 7-year project geared to contribute to the alleviation of rural poverty and economic disparities in the 4 provinces of Sultan Kudarat, Lanao del Norte, Cotabato and Lanao del Sur. The project will augment the efforts of other agencies and programs of the government to achieve lasting improvements in self-reliance, living standards, and quality of life of households actively farming in the 50 selected Agrarian Reform Communities. • Covers: ARMM, Region X & Region XII • Project implementation delayed until as of February 2003. Ban on the mobilization of expatriate members of the international technical assistance team was lifted in the third quarter of 2002. Final design inputs from these consultants for the operationalization of the 3 (out of 4 project components) were supposed to have been completed in May 2002 which is the end of inception phase out (but were cut shortly in December 2001). This is the reason why the project was unable to effect smooth transition from inception to implementation phase in Mid-May which consequently caused the delay. The consulting firm handling the project has hired Filipino international technical assistance to replace most of the expatriate members of the team. Moreover, the European TA team was able to return only in mid-September to complete the design inputs in the operations manual of the agricultural productivity & enterprise development component of the project. Project is still awaiting submission of the consolidated ARC development plans from DAR-provincial officers. 	DAR	May 2001-2008	15.66 (grant)

There has not been any official response from EC Headquarters about the request for project extension. EC Delegation in Manila has advised the Project's management office to continue with the completion of the project until December 2003. 	SRP Project Management Office	Until December 2003	1.8 (grant)

3	Asian Development Bank (ADB)	Third Airports Development Project	<ul style="list-style-type: none"> The project aims to upgrade key domestic airports in Southern Philippines, all within BIMP-EAGA, to meet the relevant standards of the International Civil Aviation Organization (ICAO) and to spur economic activities in the areas. The project includes airside and landside civil works of 6 airports. The major components involve in the project are right-of-way acquisition, selection and engagement of consulting services, construction of civil works, procurement of airport equipment, procurement and installation of navigational aids and equipment, & procurement and distribution of crash fire and rescue vehicles for the airports bringing a total revised cost of P9,145 million. The project is behind schedule by 3 years due to ROWA problems. Overall physical accomplishment is 17.7%. The project construction has been delayed due to right-of-way acquisition in each airport. In June 2001, ADB mission requested DOTC to have the land acquisition and resettlement plan completed by 31 May 2002. Cancellation might apply for airports that do not meet the target dates. In the ADB Country Portfolio Review Mission on 20-22 February 2002, it was noted that the progress made in land acquisition and resettlement program was quite slow. A review conducted on 3 April 2002 showed that progress was still far behind target completion dates. Thus ADB requested DOTC to request for the cancellation of the loan. The DOTC instead sent ADB the status of site acquisition in May 2002. 	DOTC-ATO	September 1997-May 2003	ADB: 93m EIB: 29m (total: 122) (loan)
	Rural Water Supply & Sanitation Sector Project		<ul style="list-style-type: none"> Provision of water supply and sanitation facilities to 20 poorest provinces, including ARMM provinces. Components include civil works, institutional development and equipment support. Water supply component includes construction or rehabilitation of 1,079 shallow wells, deep wells and spring development, and the formation or organization of 280 Barangay Water Service Associations. Sanitation component includes construction of 4 pilot water analysis laboratories. The project is delayed due to the delay of delivery of 2000-2001 targets where the remaining 60% of the material requirement for the construction or rehabilitation of water supply facilities were not delivered. Other reasons for the delay include: the blacklisting of one of the 3 haulers of the DPWH, and the delayed submission of requisition and issue vouchers by local governments.
