Seacoast management

- A “Seacoast Conservation Area” is defined, as a general rule, as an area width of more than 100m, both sides 50m long from water’s edge.
- Seacoast Dikes are to be constructed in these areas.

Maxims of Revival Plan

- 3・3・3 Maxims
 - First 3 Days, do our best to rescue!
 - First 3 Weeks, do our best to complete initial reconstruction!
 - In 3 months, publish the strategic plan for full revival!
- Communicate the philosophy and target of Revival Plan!
- Make Symbolic Projects!
