**Minutes of Discussions
on the Preliminary Study
on the Project for Reconstruction of Dusty – Nizhniy Pyandzh Road
in the Republic of Tajikistan**

In response to the request from the Government of the Republic of Tajikistan (hereinafter referred to as "Tajikistan"), the Government of Japan decided to conduct a Preliminary Study on the Project for Reconstruction of Dusty – Nizhniy Pyandzh Road (hereinafter referred to as "the Project") and entrusted the study to the Japan International Cooperation Agency (hereinafter referred to as "JICA").

JICA sent to Tajikistan the Preliminary Study Team (hereinafter referred to as "the Team"), headed by Mr. Yukihiko EJIRI, Senior Assistant to the Managing Director, the Office of Technical Coordination and Examination, the Grant Aid Management Department, JICA, and is scheduled to stay in the country from June 29 to July 21, 2005.

The Team held discussions with the concerned officials of the Government of Tajikistan and conducted a field survey at the study area.

In the course of discussions and field survey, both sides confirmed the main items described in the attached sheets.

Dushanbe, July 5, 2005

Mr. Yukihiko Ejiri

Leader
Preliminary Study Team
Japan International Cooperation Agency
JAPAN

Mr. Abdurahim Ashurov

Minister
Ministry of Transport
Republic of Tajikistan

ATTACHMENT

1. Objective of the Project

The objective of the Project is to reconstruct the road from Dusty to Nizhniy Pyandzh on the National Highway A384.

2. Project Sites

The Project site is the road from Dusty to Nizhniy Pyandzh on the National Highway A384.

The Project site is shown in Annex-1.

The Project site in Dusty town is shown in Annex-2.

3. Responsible and Implementing Organization

The responsible and implementation organization is the Ministry of Transport (hereinafter referred to as "MOT").

The organization charts of MOT are shown in Annex-3.

4. Items Requested by the Government of Tajikistan

After discussions with the Team, the items requested by the Tajik side were confirmed as below.

- Redesign and reconstruction of the road from Dusty to Nizhniy Pyandzh section on the National Highway A384.

- Rehabilitation of the road in Dusty town which connect to this project road.

JICA will assess the appropriateness of the request and will report the findings to the Government of Japan.

5. Japan's Grant Aid Scheme

The Tajik side understands the Japan's Grant Aid scheme explained by the Team, as described in Annex-4, 5 and 6

6. Schedule of the Study

If the Project is deemed feasible as the Japan's Grant Aid based on the results of the Preparatory Study, JICA will send the Basic Design Study Team to Tajikistan subject to the instruction by the Ministry of Foreign Affairs of Japan.

7. The JICA Guidelines for Environmental and Social Considerations

(1) The Team explained the outline of the JICA Guidelines for Environmental and Social Considerations (hereinafter referred to as "the JICA Guidelines").

- 3
- (2) The Tajik side took the JICA Guidelines into consideration, and agreed to complete the necessary procedures, when deemed necessary.
 - (3) The Tajik side will conduct the IEE (Initial Environmental Examination) together with the Team.
 - (4) The Tajik side agreed to obtain basic agreement for the Project and the relocation from the Project Affected Persons (PAPs), and to arrange the budget allocation for resettlement and compensation for PAPs before the Implementation of the Project, should any PAPs be identified at the Project site.

8. Other Relevant Issues

- (1) The Tajik side shall provide security for all concerned Japanese nationals working for the Project, if deemed necessary.
- (2) The Tajik side shall provide necessary numbers of counterpart personnel to the Team during the period of their studies in Tajikistan.
- (3) The Tajik side shall submit answers to the Questionnaire, which the Team handed to the Tajik side, by July 15, 2005.

JAPAN'S GRANT AID

The Grant Aid Scheme provides a recipient country with non-reimbursable funds to procure the facilities, equipment and services (engineering services and transportation of the products, etc.) for economic and social development of the country under principles in accordance with the relevant laws and regulations of Japan. The Grant Aid is not supplied through the donation of materials as such.

1. Grant Aid Procedures

Japan's Grant Aid Scheme is executed through the following procedures.

Application	(Request made by the recipient country)
Study	(Basic Design Study conducted by JICA)
Appraisal & Approval	(Appraisal by the Government of Japan and Approval by the Cabinet)
Determination of Implementation	(The Note exchanged between the Governments of Japan and recipient country)

Firstly, the application or request for a Grant Aid project submitted by a recipient country is examined by the Government of Japan (the Ministry of Foreign Affairs) to determine whether or not it is eligible for Grant Aid. If the request is deemed appropriate, the Government of Japan assigns JICA (Japan International Cooperation Agency) to conduct a study on the request.

Secondly, JICA conducts the study (Basic Design Study) using (a) Japanese consulting firm(s).

Thirdly, the Government of Japan appraises the project to see whether or not it is suitable for Japan's Grant Aid Scheme, based on the Basic Design Study report prepared by JICA, and the results are then submitted to the Cabinet for approval.

Fourthly, the project, once approved by the Cabinet, becomes official with the Exchange of Notes (E/N) signed by the Governments of Japan and the recipient country.

Finally, for the implementation of the project, JICA assists the recipient country in such matters as preparing tenders, contracts and so on.

2. Basic Design Study

(1) Contents of the study

The aim of the Basic Design Study (hereafter referred to as "the Study") conducted by JICA on a requested project (hereafter referred to as "the Project") is to provide a basic document necessary for the appraisal of the Project by the Government of Japan. The contents of the Study are as follows:

YR

a JABh ~

- Confirmation of the background, objectives, and benefits of the Project and also institutional capacity of agencies concerned of the recipient country necessary for the Project's implementation.
- Evaluation of the appropriateness of the Project to be implemented under the Grant Aid Scheme from a technical, social and economic point of view.
- Confirmation of items agreed on by both parties concerning the basic concept of the Project.
- Preparation of a basic design of the Project.
- Estimation of costs of the Project.

The contents of the original request are not necessarily approved in their initial form as the contents of the Grant Aid project. The Basic Design of the Project is confirmed considering the guidelines of the Japan's Grant Aid Scheme.

The Government of Japan requests the Government of the recipient country to take whatever measures are necessary to ensure its self-reliance in the implementation of the Project. Such measures must be guaranteed even though they may fall outside of the jurisdiction of the organization in the recipient country actually implementing the Project. Therefore, the implementation of the Project is confirmed by all relevant organizations of the recipient country through the Minutes of Discussions.

(2) Selection of Consultants

For smooth implementation of the Study, JICA uses (a) registered consulting firm(s). JICA selects (a) firm(s) based on proposals submitted by interested firms. The firm(s) selected carry(ies) out a Basic Design Study and write(s) a report, based upon terms of reference set by JICA. The consultant firm(s) used for the Study is (are) recommended by JICA to the recipient country to also work on the Project's implementation after the Exchange of Notes, in order to maintain technical consistency.

3. Japan's Grant Aid Scheme

(1) Exchange of Notes (E/N)

Japan's Grant Aid is extended in accordance with the Notes exchanged by the two Governments concerned, in which the objectives of the Project, period of execution, conditions and amount of the Grant Aid, etc., are confirmed.

(2) "The period of the Grant Aid" means the one fiscal year, which the Cabinet approves, the Project for. Within the fiscal year, all procedures such as exchanging of the Notes, concluding contracts with (a) consultant firm(s) and (a) contractor(s) and final payment to them must be completed. However, in case of delays in delivery, installation or construction due to unforeseen factors such as national disaster, the period of the Grant Aid can be further extended for a maximum of one fiscal year at most by mutual agreement between the two Governments.

(3) Under the Grant Aid, in principle, Japanese products and services including transport or those of the recipient country are to be purchased. When the two Governments deem it necessary, the Grant Aid may be used for the purchase of the products or services of a third country. However, the prime contractors, namely, consulting, constructing and procurement firms, are limited to "Japanese nationals". (The term "Japanese nationals" means persons of Japanese nationality or Japanese corporations controlled by persons of Japanese nationality.)

Yeo

A. Goto

9

(4) Necessity of "Verification"

The Government of recipient country or its designated authority will conclude contracts denominated in Japanese yen with Japanese nationals. Those contracts shall be verified by the Government of Japan. This "Verification" is deemed necessary to secure accountability to Japanese taxpayers.

(5) Undertakings required of the Government of the Recipient Country

In the implementation of the Grant Aid Project, the recipient country is required to undertake such necessary measures as the following:

- a) To secure land necessary for the sites of the Project and to clear, level and reclaim the land prior to commencement of the construction,
- b) To provide facilities for the distribution of electricity, water supply and drainage and other incidental facilities in and around the sites,
- c) To secure buildings prior to the procurement in case the installation of the equipment,
- d) To ensure all the expenses and prompt excursion for unloading, customs clearance at the port of disembarkation and internal transportation of the products purchased under the Grant Aid,
- e) To exempt Japanese nationals from customs duties, internal taxes and other fiscal levies which will be imposed in the recipient country with respect to the supply of the products and services under the Verified Contracts,
- f) To accord Japanese nationals, whose services may be required in connection with the supply of the products and services under the Verified contracts, such facilities as may be necessary for their entry into the recipient country and stay therein for the performance of their work.

(6) "Proper Use"

The recipient country is required to maintain and use the facilities constructed and the equipment purchased under the Grant Aid properly and effectively and to assign staff necessary for this operation and maintenance as well as to bear all the expenses other than those covered by the Grant Aid.

(7) "Re-export"

The products purchased under the Grant Aid should not be re-exported from the recipient country.

(8) Banking Arrangements (B/A)

a) The Government of the recipient country or its designated authority should open an account in the name of the Government of the recipient country in a bank in Japan (hereinafter referred to as "the Bank"). The Government of Japan will execute the Grant Aid by making payments in Japanese yen to cover the obligations incurred by the Government of the recipient country or its designated authority under the Verified Contracts.

b) The payments will be made when payment requests are presented by the Bank to the Government of Japan under an Authorization to Pay (A/P) issued by the Government of the recipient country or its designated authority.

(9) Authorization to Pay (A/P)

The Government of the recipient country should bear an advising commission of an Authorization to Pay and payment commissions to the Bank.

(End)
