Attachment 9

to Programme on improvement of provision of population of Republic of Tajikistan with clean drinking water during 2007-2020

Table on improvement of provision of population of Republic of Tajikistan with clean drinking water during 2013 within the scale of provinces, cities, districts and organizations

| № | 2 | 3 | 4 | 5 | 6 | Rehabilitation, construction of facility and lines of drinking water | | | | 10 |
|---|---|----------------|-------|------|---------|--|---|---|-----------------------------------|----|
| | | | | | | Drinking water source | The capacity of drinking water line, 1000 m ³ /day | Number of population will be supplied with drinking water | Necessary amount, thousand Somoni | |
| Name of provinces, cities, districts and facilities | | | | | | Including | | | At the expense of management | |
| | | | | | | Centralized budget | Local budget | Investment | | |
| 1 | | | | | | 7 | 8 | 9 | | |
