History Meahongson LICT

In 2002 Microsoft Unlimited Potential a community learning program licensed the Kenan

Instituted Asia to use its soft were to set up community –based technology learning centers in Thailand, with aim of upgrading basic IT skills in Thailand
KIASIA decided to work with existing community colleges in implement the program, because those college reflected their policy to educate and provide opportunities for everyone in the community, including children of self-employed parents ,the disadvantages and entrepreneurs .The methods used were to be non-traditional to attract a greater range of students. Two reas were chosen as pilot projects MHS community college and Sakaew opened their LICT Centers on the 16th October 2004 .Since then they have developed monitoring processes to evaluate results and motivate people to in creased their technology.

Mae Hong Son

- In the North of Thailand
- 13,184.4 sq.km.
- On the border with Myanmar
- 924 km. from Bangkok
- 7 Districts: Muang, Khun Yuam, Mae La Noi, Mae Sa Rieng, Sob Mei, Pang Ma Pa and Pai
- Bordering:
  - North   Shan State, Myanmar
  - South   Tak Province
  - East   Chiang Mai Province
  - West   Kayah State, Myanmar

oceansmile.com

The Climate

Mae Hong Son is also known as the Three Mists Town, a reference to the heavy morning mists in the cold season, the haze from smoke from the hill farms in the hot season, and the post-rain mists in the rainy season.

Tourists and people from other parts of Thailand flock to Mae Hong Son in the winter season to enjoy the invigorating cool mountain air.

Vision

"The Land of Dream"

Mae Hong Son Strategies

1. To create Mae Hong Son to be the land of tourism.
2. To improve poor problems.
3. Sustainable development which gives financial security and preserves the culture and environment

oceansmile.com

The People

Mae Hong Son is a border town lying in a hidden valley surrounded by densely forested towering mountains, which stretch to the Myanmar border.

Mae Hong Son is known for its magnificent scenery and distinctive culture. The people of Mae Hong Son are predominately the town dwelling Tai Yai (Shan) people, and the colorful ethnic hill tribes who live in remote villages on the mountain tops, where the rural lifestyle has changed little in hundreds of years.

Society

The Population of Mae Hong Son is composed of:

1. **The Tai Yai (Shan) people**
2. **The Hill Tribes, consisting of the:**
   - **Karen**
   - **Lahu**
   - **Lisu**
   - **Lawa**
   - **Hmong**
   - **Padoung (Kayan)**
   - **Kuomintang Chinese**

Occupation

- **The majority of the people make a living through agriculture.**
- **Only 10% of the province is flat land suitable for cultivation.**
- **The main product is rice and Soya beans**

Agriculture

Production of soya cakes & leaf roofs

Mae Hong Son Community College

Vision

"To be the educational institution that offers educational opportunities to everyone in a community offering a high standard of education, moral principles and an efficient management system run by the community for the community".

Mission

- To offer a standard high quality education incorporating both short courses and a 2-year diploma courses.
- To offer educational courses in line with the needs of the community.
- To develop an efficient management administration system.

Mission (2)

- To preserve local culture, arts, traditions and the environment and natural resources and to foster community development.
- To develop academic research in the community.
- To encourage local organizations and the community to participate in the work of the college.

Strategies

1. To put in place an on-going public relations program to acquaint people with the work of the community college.
2. To develop a quality education of an equivalent standard to the Educational Act.
3. To put in place an internal quality assessment process according to the standards of the Office for National Education Standards and Quality Assessment (Public Organization).
4. To use a strategic management system to ensure efficient management.

Strategies (2)

5. To encourage participation from within the community and promote local culture and the environment through community networks.
6. To encourage research and development and become a research facility for the community.
7. To encourage participation by the students in the running of the college (Student Affairs) and provide Career and Educational Advice.
