

CONTENTS

CHAPTER 1. INTRODUCTION.....	- 1 -
1.1. Background of the Study.....	- 1 -
1.1.1. Background and progress of the Study.....	- 1 -
1.1.2. Objectives of the Study.....	- 3 -
1.2. Outline of the Study.....	- 5 -
1.2.1. Area targeted in the Study.....	- 5 -
1.2.2. Progress of the work in each year.....	- 7 -
1.2.3. Outcomes of the Study through out 3 years.....	- 9 -
1.3. Implementation schedule.....	- 11 -
1.4. Members of the Study Team.....	- 12 -
1.4.1. The 1 st year.....	- 12 -
1.4.2. The 2 nd year.....	- 12 -
1.4.3. The 3 rd year.....	- 13 -
1.5. Equipments of the Study.....	- 15 -
CHAPTER 2. SUMMARY OF THE STUDY WORK OVER THE PAST 3 YEARS.....	- 17 -
2.1. The works in Georgia (2005).....	- 17 -
2.2. The works in Japan (2005).....	- 18 -
2.3. The works in Georgia (2006).....	- 18 -
2.4. The works in Japan (2006).....	- 21 -
2.5. The works in Georgia (2007).....	- 21 -
2.6. The works in Japan (2007).....	- 21 -
2.7. The works in Georgia (2008).....	- 22 -
CHAPTER 3. GROUND SURVEY AND AERIAL PHOTOGRAPHY.....	- 23 -
3.1. Ground Control Point Survey.....	- 23 -
3.1.1. Installation of aerial signals.....	- 23 -
3.1.2. Geodetic control network survey.....	- 24 -
3.1.3. Leveling.....	- 31 -
3.1.4. Collection of existing control point coordinate data.....	- 32 -
3.2. Aerial Photography.....	- 35 -
3.2.1. Planning and implementation.....	- 36 -
3.2.2. Specifications.....	- 36 -
3.2.3. Inspection of Photographs.....	- 37 -
3.2.4. Scanning of aerial photographic films.....	- 38 -
3.3. Aerial Triangulation.....	- 40 -
3.3.1. Outline of the work (Scope of the aerial triangulation).....	- 40 -
3.3.2. Method of triangulation.....	- 40 -

3.3.3.	Results	- 42 -
3.4.	Creation of orthophotographs.....	- 43 -
3.4.1.	Objective of the work	- 43 -
3.4.2.	Method of creating orthophotos	- 43 -
CHAPTER 4. CREATION OF GEOGRAPHIC INFORMATION (TOPOGRAPHIC MAP)-		46 -
4.1.	Discussion on map specifications and map symbols.....	- 46 -
4.1.1.	Surveying standards	- 46 -
4.1.2.	Map specifications.....	- 46 -
4.1.3.	Map symbol and marginal information	- 46 -
4.2.	Updating of the existing maps.....	- 51 -
4.3.	Newly Creation of Digital Map Data	- 54 -
4.3.1.	Digital plotting	- 55 -
4.3.2.	Data compilation	- 57 -
4.4.	Field Verification and Completion	- 58 -
4.4.1.	Field Verification.....	- 58 -
4.4.2.	Field Completion.....	- 61 -
4.5.	Construction of GIS	- 65 -
4.5.1.	Establishment of a national GIS database	- 65 -
CHAPTER 5. CONSTRUCTION OF GIS MODEL SYSTEMS.....		- 86 -
5.1.	Setting up and Managing the Coordinating Committee	- 86 -
5.2.	Creation of GIS Model Systems.....	- 89 -
5.3.	Selection of Themes for GIS Model Systems	- 90 -
5.4.	Preparation of Database for GIS Model Systems.....	- 91 -
5.5.	Items and Methodology of Preparing GIS Model Systems.....	- 91 -
5.5.1.	GIS Model for Urban Development (Greater Tbilisi).....	- 92 -
5.5.2.	GIS Model for Forest Management and Reforestation (Zestaphoni).....	- 93 -
5.5.3.	GIS Model for Facilitating Environmental Protection (Kutaisi North).....	- 95 -
5.5.4.	GIS Model for Enhancing the Possibility of Developing Tourism(Borjomi)-	96 -
5.5.5.	GIS Model for Optimization of Agricultural Land Use (Mtskheta).....	- 97 -
5.5.6.	GIS Model for Contribution to Information of Educational Improvement (Tbilisi).....	- 98 -
5.6.	Prospects of use of GIS Models	- 99 -
CHAPTER 6. TECHNOLOGY TRANSFER		- 101 -
6.1.	Items for Technology Transfer	- 101 -
6.1.1.	OJT	- 101 -
6.1.2.	Training in Japan	- 102 -
6.2.	On-the-Job Training	- 103 -
6.2.1.	OJT for Ground Control Survey.....	- 103 -

6.2.2.	OJT for Filed Verification and Completion.....	- 104 -
6.2.3.	OJT for digital plotting (Vectorization; for internal verification).....	- 105 -
6.2.4.	OJT for Updating of the existing map.....	- 110 -
6.2.5.	OJT for Establishment of GIS database	- 112 -
6.2.6.	OJT for Creation and Use of GIS Model Systems	- 122 -
6.2.7.	OJT for Map symbolization	- 125 -
6.3.	Training in Japan	- 130 -
6.3.1.	Digitization of existing maps	- 130 -
6.3.2.	Generation of annotation data	- 131 -
6.3.3.	Aerial triangulation	- 132 -
6.3.4.	Introduction to GIS.....	- 135 -
6.4.	Workshop	- 137 -
6.4.1.	Workshop	- 137 -
6.4.2.	Seminar	- 139 -
6.5.	Overall evaluation on the Technology Transfer	- 141 -
CHAPTER 7. DISSEMINATION OF GEOGRAPHIC INFORMATION AND BUILDING A		
	SHARING SYSTEM	- 143 -
7.1.	Spatial Data Center.....	- 144 -
7.1.1.	Systemizing Spatial Data Center.....	- 144 -
7.1.2.	Functions of Spatial Data Center.....	- 145 -
7.2.	Dissemination of Topographic Data (including GIS Database)	- 145 -
7.2.1.	Need Appraisal	- 146 -
7.2.2.	Building Network for Marketing.....	- 149 -
7.2.3.	Rough Estimate of Sales by the Enterprise	- 150 -
7.3.	Data Sharing System	- 155 -
7.3.1.	Basic Policy of Data Sharing.....	- 155 -
7.3.2.	Methodology of Data Sharing	- 156 -
CHAPTER 8. ISSUES TO BE CONSIDERED IN FUTURE		
8.1.	Application of Acquired Technology	- 159 -
8.2.	Promotion of uses of Topographic Data.....	- 159 -
8.2.1.	Methodology	- 159 -
8.2.2.	Organizational Development.....	- 160 -
8.3.	Promotion of wider utilization in applying GIS models	- 160 -
8.4.	Discussion on the possibility of updating the remaining map sheets	- 163 -
 ANNEX A MAP SPECIFICATIONS		
ANNEX B DETAILS ABOUT GIS MODEL SYSTEMS
