PART I: MASTER PLAN

CHAPTER 1	Background of the Study	M1-1
CHAPTER 2	Objectives of the Study and Description of the Study Area	
2.1	Objectives of the Study	M2-1
2.2	Study Area	M2-1
2.3	Description of the Study Area	M2-2
2.3.1	Natural Conditions	M2-2
2.3.2	Socio-Economic Conditions	M2-6
CHAPTER 3	Present Condition of Water Pollution Control in Syria	
3.1	National Policy for Water Resources Preservation and Water Pollution Control	M3-1
3.1.1	Tenth Five-Year Plan for Economic and Social Development	M3-1
3.1.2	National Environmental Action Plan (NEAP) of Syria	M3-1
3.1.3	Protection of Marine Environment	M3-4

3.2 Institutional Framework.....	M3-5
3.2.1 Outline of Administration relating to Water pollution Control.....	M3-5
3.2.2 Ministry of Local Administration and Environment (MLAE).....	M3-6
3.2.3 Ministry of Irrigation (MOI).....	M3-7
3.3 Legislative Framework	M3-8
3.3.1 Environmental Law No. 50, 2002.....	M3-8
3.3.2 Regulation/Standards for Water Pollution Control and Wastewater Management.....	M3-10
3.3.3 Observation on Existing Legislation.....	M3-17
3.4 Present Condition of Water Pollution in Public Waters	M3-19
3.4.1 Characteristics of Natural Condition in Hydrological Basins.....	M3-19
3.4.2 Water Resources.....	M3-21
3.4.3 Water Quality in Public Waters.....	M3-23
3.4.4 Major Pollution Sources	M3-34

CHAPTER 4 Institutional and Organizational Framework of Sewerage Sector

4.1 Institutional Framework.....	M4-1
4.2 Organization of Sewerage Sector.....	M4-3
4.2.1 Ministry of Housing and Construction (MHC).....	M4-3
4.2.2 Public Establishment of Drinking Water and Sewerage (Establishment).....	M4-6
4.2.3 Sewerage Company (Company)	M4-7
4.2.4 Other Relevant Institutions	M4-10
4.3 Issues and Challenges in Water and Sewerage Sector	M4-11
4.4 Sector Reform Projects being Implemented by Other Donors.....	M4-14
4.5 Observation from the Study Team	M4-19

CHAPTER 5 Present Conditions of Existing Sewerage System

5.1 Present Status of Sewerage Sector, existing Facilities and Plans.....	M5-1
5.1.1 Present Status of Sewerage Sector.....	M5-1
5.1.2 Present Status of existing Facilities and Plans.....	M5-1
5.1.3 Outline of Regional Plan	M5-4
5.2 Present Conditions of Existing Sewerage Facilities, Current Status of existing Sewerage Development Plans and major Issues	M5-5
5.2.1 Lattakia Governorate	M5-5
5.2.2 Tartous Governorate	M5-8
5.2.3 Deir-Ez-zor Governorate	M5-12
5.2.4 Hassakeh Governorate	M5-14
5.2.5 Raqqa Governorate	M5-17
5.2.6 Dar'aa Governorate	M5-19
5.2.7 Rural Damascus Governorate	M5-22
5.2.8 Aleppo Governorate.....	M5-29

5.2.9 Hama Governorate.....	M5-32
5.2.10 Homs Governorate.....	M5-34
5.2.11 Idleb Governorate	M5-37
5.2.12 Sweida Governorate.....	M5-39
5.2.13 Qunetra Governorate	M5-41
5.2.14 Damascus Governorate.....	M5-43
5.2.15 Major Issues and Countermeasures	M5-48

CHAPTER 6 Investment Program and Financial Status of Sewerage Sector

6.1 Investment for the Sewerage Sector in the Tenth (10 th) Five-Year Plan	M6-1
6.1.1 Investment for the sewerage Sector by Type of Project and by Governorate.....	M6-1
6.1.2 Achievement of the Investment Plan during 2006 and Prospect after 2007	M6-5
6.2 Budgetary Arrangement for Sewerage projects	M6-7
6.2.1 Budget Preparation and Approval System	M6-7
6.2.2 Investment Budget for Water and Sewerage.....	M6-8
6.2.3 Investment Budget for Sewerage.....	M6-10
6.3 Financial Condition in General Establishments.....	M6-10
6.3.1 Present Tariff System and Tariff Level	M6-10
6.3.2 Financial Conditions of Public Establishments	M6-13
6.4 Tentative Recommendations for Financial Reform Plan	M6-13
6.4.1 The Ongoing Fiscal Reform Process	M6-13
6.4.2 Recommendations towards Financial and Economic Analysis	M6-14

CHAPTER 7 Planning Fundamentals

7.1 Basic Policy on Establishment of Sewerage Development Plan.....	M7-1
7.2 Population Projection.....	M7-1
7.2.1 General.....	M7-1
7.2.2 Population Data	M7-1
7.2.3 Population Estimation Method	M7-2
7.2.4 Population Projection.....	M7-3
7.2.5 Verification by Regression Analysis	M7-5
7.3 Land Use Plan	M7-7
7.4 Wastewater Quantity and Quality	M7-7
7.4.1 Wastewater Quantity	M7-7
7.4.2 Wastewater Quality	M7-14

CHAPTER 8 Recommendation on Development Strategy

8.1 Background and Framework of Development Strategy	M8-1
8.2 Basic Conditions for Developing Strategy for Water Pollution Control.....	M8-3
8.2.1 Establishment of River Basin Units for Analysis	M8-3

8.2.2 Water Quality Objectives of Target Water Bodies	M8-4
8.3 Proposed Development Strategy for Water Pollution Control	M8-6
8.3.1 Methodology for Developing Strategy	M8-6
8.3.2 Modeling of Water Pollution Mechanism.....	M8-15
8.3.3 Present Water Pollution Analysis for Surface and Sea Water	M8-17
8.3.4 Future Water Pollution Analysis for Surface and Sea Water	M8-20
8.3.5 Water Pollution Analysis for Groundwater	M8-37
8.3.6 Conclusions.....	M8-41
8.4 Recommendations.....	M8-42
8.4.1 Strategy for Water Pollution Control	M8-42
8.4.2 Recommendation on Capacity Development of Sewerage Sector.....	M8-44
8.4.3 Recommendation on Other Countermeasures	M8-46
8.5 Recommendation of Treatment Method for Problematic Industrial Wastewaters	M8-52

CHAPTER 9 Establishment of Sewerage Development Master Plan

9.1 Basic Condition for Master Plan.....	M9-1
9.1.1 Target Year	M9-1
9.1.2 Sanitation System/Facilities.....	M9-1
9.1.3 Sewage Collection System	M9-2
9.1.4 Summary of Design Sewage Flow and Design Sewage Quality	M9-4
9.1.5 Sewage Treatment Method	M9-5
9.2 Design Criteria for Sewerage facilities	M9-21
9.2.1 Sewer Network	M9-21
9.2.2 Pumping Station.....	M9-23
9.2.3 Sewage Treatment Plant	M9-24
9.2.4 Foreign Design Standard	M9-25
9.3 Selection of the Priority Area for Master Plan	M9-32
9.3.1 Lattakia Governorate	M9-32
9.3.2 Tartous Governorate	M9-32
9.3.3 Deir-Ez-zor Governorate	M9-33
9.3.4 Hassakeh Governorate	M9-34
9.3.5 Raqqa Governorate	M9-35
9.3.6 Dar'aa Governorate	M9-35
9.3.7 Rural Damascus Governorate	M9-36
9.4 Sewerage Macro Plan for Seven Governorates.....	M9-36
9.4.1 Preparation Works.....	M9-36
9.4.2 Sewerage System Development Macro Plan	M9-37
9.5 Sewerage Master Plan for Seven Governorates	M9-64
9.5.1 Slunfeh.....	M9-65
9.5.2 Banias	M9-72

9.5.3 Mayadin.....	M9-80
9.5.4 Malkieh.....	M9-87
9.5.5 Thawra	M9-93
9.5.6 Muzerib.....	M9-100
9.5.7 Zabadani	M9-109
9.6 Summary of the Proposed Sewerage Facilities	M9-117
9.6.1 Proposed Sewerage Facilities	M9-117
9.6.2 Treatment Methods and Major Effluent Regulations.....	M9-118
9.6.3 Design Criteria and Major Facilities.....	M9-119
9.6.4 Maps for Sewerage Master Plan	M9-120
9.7 Master plan for On-site and Decentralized Facilities.....	M9-136

CHAPTER 10 Preliminary Cost Estimates and Implementation Plan

10.1 Condition of the Cost Estimates.....	M10-1
10.1.1 Composition of Project Cost.....	M10-1
10.1.2 Conditions and Assumptions for Cost Estimate.....	M10-1
10.1.3 Estimation Approach	M10-1
10.2 Cost Estimates Related to the Projects.....	M10-3
10.3 Operation and Maintenance Cost.....	M10-7
10.4 Implementation Schedule.....	M10-8
10.5 Organization and Management Plan	M10-16
10.5.1 Introduction.....	M10-16
10.5.2 Organization Structure for Implementation and O&M of Sewerage System ...	M10-16
10.5.3 Management Plan for Sewerage System in the Target Seven Governorates	M10-19
10.5.4 Recommendations.....	M10-21
10.6 Recommendation on Applicable Technical Aid Program	M10-22
10.6.1 Consideration for Necessary Technical Assistance.....	M10-22
10.6.2 Proposed Japanese Aid Program.....	M10-25

CHAPTER 11 Economic and Financial Analysis

11.1 Methodology of Economic Analysis	M11-1
11.1.1 Introduction.....	M11-1
11.1.2 General Assumptions of the Economic Analysis	M11-1
11.1.3 Tourism Development Economic Benefits	M11-1
11.1.4 Health Economic Benefits	M11-2
11.1.5 Economic Benefits of Using the Treated Wastewater	M11-3
11.1.6 Economic Benefits of Using Sludge as Fertilizer	M11-4
11.1.7 Non-Quantified Economic Benefits.....	M11-4
11.2 Results of Economic Analysis of Master Plan	M11-4
11.2.1 Results of EIRR Calculations	M11-4

11.2.2 Conclusions of the Economic Analysis.....	M11-5
11.3 Outline of the Financial Plan of the Master Plan Sewerage Project	M11-5
11.3.1 Purpose and Assumptions of the Financial Plan	M11-5
11.3.2 O&M Cost Recovery	M11-6
11.3.3 Outline of the Financial Plan of Sewerage Projects.....	M11-7
11.3.4 Findings from the Financial Plan.....	M11-9

CHAPTER 12 Formulation of Sewerage Database for Small Cities and Rural Areas

12.1 Existing GIS in Syria	M12-1
12.2 Formulation of Sewerage Database for Small Cities and Rural Areas	M12-1
12.2.1 Selection of GIS Software and Procurement Plan	M12-1
12.2.2 Selection of Basic Digital Map.....	M12-3
12.2.3 Formulation Work of Sewerage Database for Small City and Rural Area	M12-3
12.2.4 The Result of the Formulated Sewerage Database	M12-7
12.3 GIS Training Course for Introductory Part	M12-19
12.3.1 Introductory Part.....	M12-19
12.3.2 Application Part	M12-19
12.4 Possible Application of GIS for Sewerage System Management	M12-28
12.5 Recommendations.....	M12-30

CHAPTER 13 Social Considerations and Initial Environmental Examination

13.1 Environmental and Social Consideration.....	M13-1
13.2 Summary of the Revised Environmental Scoping	M13-7
13.3 Initial Environmental Examination.....	M13-9
13.3.1 IEE Level Study on the M/P of Slunfeh Sewerage System	M13-10
13.3.2 IEE Level Study on the M/P of Banias Sewerage System.....	M13-11
13.3.3 IEE Level Study on the M/P of Mayadin Sewerage System	M13-13
13.3.4 IEE Level Study on the M/P of Malkieh Sewerage System	M13-14
13.3.5 IEE Level Study on the M/P of Thawra Sewerage System.....	M13-15
13.3.6 IEE Level Study on the M/P of Muzerib Sewerage System	M13-17
13.3.7 IEE Level Study on the M/P of Zabadani Sewerage System.....	M13-18

CHAPTER 14 Evaluation of the Master Plan

14.1 Technical Aspects.....	M14-1
14.2 Economic and Financial Aspects	M14-2
14.2.1 Economic Evaluation Results	M14-2
14.2.2 Financial Evaluation Results	M14-2
14.3 Environmental Aspects	M14-3
14.4 Selection of Pilot Project for the Feasibility Study	M14-4

PART II: FEASIBILITY STUDY

CHAPTER 1 Feasibility Study on Sewerage Facilities

1.1 General Conditions for Feasibility Study.....	F1-1
1.1.1 Target Area and Target Year.....	F1-1
1.1.2 Wastewater Collection System	F1-1
1.1.3 Per Capita Wastewater Flow and Pollution Load	F1-2
1.1.4 Facilities designed in F/S Stage.....	F1-4
1.1.5 Summary of Design Fundamentals on Sewerage System Development Plan.....	F1-4
1.2 Design of Sewerage Facilities.....	F1-6
1.2.1 Population and Wastewater Flow Projection	F1-6
1.2.2 Sewage Collection System	F1-8
1.2.3 Sewage Treatment Plant	F1-9

CHAPTER 2 Construction Plan and Procurement Plan

2.1 Construction Plan.....	F2-1
2.1.1 Outline of the Construction.....	F2-1
2.1.2 Condition for the Construction	F2-2
2.1.3 Construction Schedule	F2-2
2.2 Procurement Plan	F2-3
2.2.1 Land Acquisition Plan for Sewage Treatment Plant	F2-3
2.2.2 Procurement Plan for Construction Materials and Equipment	F2-3

CHAPTER 3 Operations and Maintenance Plan

3.1 Organizational Strengthening of Sewerage Sector.....	F3-1
3.1.1 Summary of the Current Organization.....	F3-1
3.1.2 Proposed Organization Structure	F3-2
3.1.3 Details of the Proposed Organization Structure for O&M	F3-3
3.2 Capacity Development.....	F3-4
3.2.1 Necessity of Capacity Development.....	F3-4
3.2.2 Proposed Capacity Building Program.....	F3-5
3.3 Operation and Maintenance Guideline.....	F3-7
3.3.1 Sewerage ledgers and records.....	F3-7
3.3.2 Operation and Maintenance of Sewer Systems	F3-9
3.3.3 Operation and Maintenance of the Pumping Station	F3-13
3.3.4 Operation and Maintenance of the Treatment Plant	F3-16
3.3.5 Water quality control	F3-18
3.4 Public Relations on Sewerage System.....	F3-19
3.4.1 Necessity of Public Relations	F3-19

3.4.2 Methods of Public Relations.....	F3-20
3.4.3 Procedure of Public Relations.....	F3-21
3.4.4 Examples of Public Relations Plan.....	F3-21

CHAPTER 4 Cost Estimation and Implementation Schedule

4.1 Condition of the Project Cost.....	F4-1
4.2 Project Cost for Stage-I (2015)	F4-1
4.3 Operation and Maintenance Costs	F4-2
4.4 Disbursement Schedule.....	F4-3
4.5 Implementation Schedule.....	F4-5
4.6 Schedule of Pre-Construction Stage.....	F4-5

CHAPTER 5 Economic and Financial Evaluation

5.1 Economic Evaluation	F5-1
5.1.1 Methodology of Economic Evaluation	F5-1
5.1.2 Economic Costs	F5-1
5.1.3 Economic Benefits.....	F5-1
5.1.4 Results of EIRR Calculation.....	F5-5
5.2 Financial Evaluation	F5-5
5.2.1 Purpose and General Assumptions of Financial Evaluation	F5-5
5.2.2 Affordability to Pay Assessment.....	F5-6
5.2.3 Willingness to Pay	F5-6
5.2.4 Results of Financial Evaluation under Different Scenarios	F5-7
5.2.5 Outline of the Proposed Financial Plan of the F/S Project	F5-11

CHAPTER 6 Social Considerations and Environmental Impact Assessment

6.1 Social Considerations and Summary of the Results of Social Survey	F6-1
6.1.1 Social Considerations	F6-1
6.1.2 Summary of the Results of Social Survey	F6-4
6.2 Environmental Impact Assessment on the Priority Project.....	F6-6
6.2.1 Description of the Nature and Social Environment	F6-6
6.2.2 Pre-Environmental Impact Assessment (EIA) level study.....	F6-6
6.2.3 Recommendation on Countermeasures	F6-6
6.2.4 Monitoring Plan	F6-9

CHAPTER 7 Formulations of Project Implementation Plan

7.1 General Budgetary Allocation Procedure for Sewerage Projects.....	F7-1
7.2 Procuring External Finance (Grants & Loans) for Projects in Syria.....	F7-1
7.3 Tender Evaluation.....	F7-4

CHAPTER 8 Recommendations to the Syrian Water Sector

8.1 Sewerage System	F8-1
8.1.1 Improvement and Replacement of Existing Facilities	F8-1
8.1.2 Management and Utilization of Asset Data and O&M Records.....	F8-3
8.1.3 Environmental Water Quality Monitoring	F8-4
8.1.4 Introduction of Appropriate Technology	F8-6
8.2 Institutional Development.....	F8-8
8.3 Financial Management.....	F8-9
